INTRODUCTION

In this monthly bulletin, data on inventories of wholesale merchants, chain stores, department stores and independent retail dealers are brought together to aid the special users of these particular statistics. The data are a consolidation of inventory statistics and constitute a counterpart to similar statistics available on inventories at the manufacturing level (see: Inventories, Shipments and Orders in Manufacturing Industries, Catalogue 31-001).

Inventories represent stocks of merchandise on hand for sale at the end of the month or quarter, usually valued at cost except when otherwise specified (e.g., department store stocks which are valued at selling price). They do not include goods held on a consignment basis, nor do they include items not held for sale, such as fixtures, equipment and supplies. Estimates are not adjusted for seasonal variations, price changes or number of business days in the respective months.

The tables relating to inventories of wholesale merchants, department stores and chain stores show monthly dollar volume estimates of inventories held in Canada by various kinds of business and by departments within department stores. In the case of independent retail dealers, only the quarterly percentage change in the estimated level of stocks is given and only for selected kinds of business. The stock-sales ratios shown throughout this report are derived by dividing the dollar volume of inventories by the dollar volume of sales (for independent stores, ratios are based only on data supplied by a panel of respondents). No adjustment is made in these ratios for the mark-up in sales which varies from trade to trade.

Information on "kind of business" composition will be found at the end of this publication (for chain stores) and in the relevant publications - Wholesale Trade (Catalogue 63-008), Retail Trade (Catalogue 63-005) and Department Store Sales and Stocks (Catalogue 63-002) in which sales data are reported. For a more detailed description of retail and wholesale kinds of business, the reader is directed to the publications of the 1971 Census of Merchandising and Services.

INTRODUCTION

Ce bulletin mensuel réunit des données sur les stocks des grossistes, des magasins à succursales multiples, des grands magasins et des détaillants indépendants, données destinées à aider les utilisateurs particuliers de ces statistiques. Les données rassemblent des statistiques sur les stocks; elles font pendant aux statistiques semblables qui existent en ce qui concerne les stocks des industries manufacturières (voir: Stocks, livraisons et commandes des industries manufacturières, n° 31-001 au catalogue).

Il s'agit ici des stocks, habituellement au prix coûtant sauf indication contraire (par exemple, les stocks des grands magasins sont évalués aux prix de vente) de marchandises en magasin destinées à la vente, à la fin du mois ou du trimestre. Ils ne comprennent ni les marchandises en consignation ni les articles non destinés à la vente: installations, matériel et fournitures, par exemple. Les estimations ne sont pas désaisonnalisées ni corrigées des changements de prix ou du nombre de jours ouvrables de chaque mois.

Les tableaux concernant les stocks des grossistes, des grands magasins et des magasins à succursales multiples contiennent les estimations mensuelles de la valeur monétaire des stocks détenus au Canada par chacun des divers genres de commerce et par rayon à l'intérieur des grands magasins. Dans le cas des détaillants indépendants, le tableau ne contient que le taux trimestriel de variation de l'estimation du niveau des stocks dans certains genres de commerce. Les ratios stocks-ventes indiqués dans toute cette publication sont obtenus en divisant la valeur monétaire des stocks par la valeur monétaire des ventes (pour les détaillants indépendants, les ratios sont basés sur les données fournies par certains enquêtés). Aucune rectification n'est apportée à ces ratios pour tenir compte de la marge bénéficiaire de vente qui varie d'un commerce à l'autre.

On trouvera dans les publications pertinentes qui traitent des ventes - Commerce de gros (n° 63-008 au catalogue), Commerce de détail (n° 63-005 au catalogue) et Ventes et stocks des grands magasins (n° 63-002 au catalogue) une description détaillée des principaux groupes de commerce et de la répartition par genre de commerce et pour les magasins à succursales à la fin de cette publication. Pour plus de renseignements sur les genres de commerce de détail et de gros, consulter aussi les publications du Recensement du commerce et des services de 1971.
