SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

INTRODUCTION

This report presents statistics on the Canadian new farm implement and equipment market referring to the calendar or business year of 1976.

Reporting Procedure

Information was collected from manufacturers and importers active in the farm implement and equipment field. Both manufacturers and importers reported sales to Canadian end-users wherever possible; otherwise, "shipments" figures to distributors or dealers were accepted in their place. The provincial breakdown of sales was made according to the dealer location or, in the case of direct sales to end-users, according to the buyers' residence. Export sales were excluded.

Data Quality

This survey is a complete coverage survey of the farm implement and equipment industry and therefore is not subject to sampling error. Of the 280 known firms active in the industry, 12 were estimated representing 0.5% of the 1975 total sales (including repair parts) of \$1,110,341,000.

Valuation

All dollar sales are valued at dealers' buying price before deduction of dealers' cash discounts, volume or performance bonuses and value of trade-ins.

Attachments

The value of attachments sold with a machine is included with the value of the machine, unless the attachment appears as a separate item in the report. Attachments sold separately from machines and not identified under separate headings are included in the "All other" item of the respective commodity group in Table 4. The value of repair parts sold is shown in a provincial breakdown in Table 2. Data on repair parts represent sales to dealers: not to end-users.

Secrecy

To meet the secrecy requirements of the Statistics Act and to safeguard the interests of individual respondents, certain items are not shown. In some cases, additional items are also omitted to prevent disclosure by deducting all the remaining items from the total of the respective line or column. Both types of undisclosed items are identified with an "x" sign.

List of Respondents

A list of names and addresses of respondents appears in appendix.

Le présent bulletin renferme la statistique du marché canadien des instruments et de l'outillage agricoles neufs pour l'année civile ou l'exercice financier 1976.

Collecte des données

Les renseignements proviennent des fabricants et des importateurs d'instruments et d'outillage agricoles, qui ont déclaré, dans la mesure du possible, leurs ventes aux utilisateurs finals; quand ce n'était pas possible, on s'est contenté du chiffre des livraisons aux distributeurs ou aux vendeurs. La répartition des ventes par province est fondée sur la situation géographique des vendeurs ou, dans le cas des ventes directes aux utilisateurs finals, sur le lieu de résidence de l'acheteur. Il n'est pas tenu compte des ventes à l'exportation.

Qualité des données

Ceci est une enquête exhaustive sur les ventes d'instruments et d'outillage agricoles et de ce fait n'est pas sujette aux erreurs d'échantillonage. Parmi les 280 firmes connues comme étant actives, 12 furent estimées représentant 0.5 % des ventes totales de 1975 qui se chiffraient à \$1,110,341,000.

Valeurs

Toutes les ventes sont indiquées au prix d'achat des vendeurs, avant deduction des escomptes de caisse, des primes de bons résultats et de la valeur des reprises.

Accessoires

La valeur des accessoires vendus avec la machine est comptée avec la valeur de la machine, à moins que l'accessoire ne figure séparément dans le questionnaire. Les accessoires vendus séparément et qui ne font pas l'objet d'une rubrique distincte sont déclarés à la rubrique résiduaire de chaque groupe de marchandises, au tableau 4. La répartition par province des ventes de pièces de rechange figure au tableau 2. Les données sur les pièces de rechange représentent les ventes aux vendeurs et non pas aux utilisateurs finals.

Secret

En conformité des exigences de la Loi sur la statistique et pour protéger les intérêts des enquêtés, il a fallu supprimer certains articles. Dans certains cas, on a supprimé d'autres articles pour empêcher qu'en soustrayant tous les articles restants du total de la ligne ou de la colonne, on en arrive à obtenir le détail confidentiel. Ce genre de renseignements est indiqué par un "x".

Liste des enquêtés

Une liste des noms et adresses des enquêtés se trouve dans l'appendice.

Revise name or address if not correct

INSTRUCTIONS

This survey is intended to measure the size of the Canadian new farm implement and equipment market in detailed commodity breakdown. Some of the commodities listed in this questionnaire are not used exclusively for agricultural purposes and therefore in such cases respondents are asked to exclude sales for non-farm use wherever possible.

In order to avoid duplication in reporting, all respondents are requested to adhere to the following instructions:

1. Report sales of farm machinery and equipment
 - (a) MANUFACTURED BY YOUR COMPANY
 - and/or
 - (b) IMPORTED DIRECTLY BY YOUR COMPANY

NOTE: If you purchase farm machinery or equipment from a Canadian manufacturer or an importer do not report the sale of these purchased products, since they will be reported by the manufacturer or importer.

2. Report sales to Canadian end users where possible. If you cannot determine sales to end users, your shipments to distributors or dealers will be accepted. **Exclude all export sales and sales of used implements and equipment.**
3. All dollar sales should be reported in Canadian dollars and reflect dealers' net buying price. Do not deduct cash discounts, volume or performance bonuses, special discounts or value of trade-ins. Do not include value of exports.
4. The value of attachments sold with machines should be included with the value of the machine unless the attachment is identified separately in this form.
5. Report sales of machines and attachments as identified in the questionnaire. All sales of machines and attachments not identified should be reported in the "all other" category of the respective commodity group.
6. Report sales by province on the basis of dealer location. Manufacturers or importers selling directly to end users should report such sales in the province in which the end user resides.
7. Report sales of repair parts (Section 1 only) to dealers, not to end users. Value of repair parts should be net of returns. Do not deduct cash, volume or performance discounts.
8. Report for the 1976 calendar year, if possible, or for your financial year ending at any time between April 1, 1976, and March 31, 1977.
9. If internal accounting records do not provide the detail required to complete this form, please provide estimates.

Indicate the classification which most closely describes your business:

Manufacturer Importer Importer-distributor Distributor Dealer Importer-dealer

1. REGIONAL DISTRIBUTION OF DOLLAR SALES - 1976

| Province | Sales of all new farm machinery equipment and attachments | | Sales of repair parts |
|--|---|----|-----------------------|
| | 1 | 2 | |
| | \$ | \$ | |
| Canada | 0 | | |
| Atlantic Provinces | 1 | | |

Corriger le nom ou l'adresse s'il y a lieu

DIRECTIVES

La présente enquête a pour objet de mesurer l'étendue du marché canadien des instruments et du matériel agricoles neufs en établissant une répartition détaillée des marchandises. Certaines des marchandises énumérées dans le questionnaire ne servent pas uniquement à des fins agricoles. On ne doit donc pas, si possible, tenir compte des ventes à des fins non agricoles.

Afin d'éviter tout double compte, les répondants sont priés de se conformer aux règles suivantes:

1. Déclarez les ventes d'instruments et de matériel agricoles
 - a) QUE VOUS AVEZ FABRIQUÉS

et/ou
 - b) QUE VOUS AVEZ IMPORTÉS

Note: Si vous avez acheté des instruments ou du matériel agricole d'un autre manufacturier canadien ou d'un importateur, ne déclarez pas la vente de ces produits: c'est le manufacturier ou l'importateur qui les déclarera.
2. Dans la mesure du possible, déclarez les ventes aux utilisateurs canadiens. Si vous ne pouvez déclarer vos ventes aux utilisateurs, déclarez vos expéditions aux distributeurs ou aux concessionnaires. Ne déclarez pas les exportations ni les ventes d'instruments et de matériel d'occasion.
3. Il faut déclarer la valeur des ventes en dollars canadiens, au prix net payé par le concessionnaire. Ne déduisez pas les escomptes, ni les rabais de quantité, ni les ristournes, ni les reprises. Ne tenez pas compte des exportations.
4. Déclarez la valeur des accessoires vendus avec les machines, à moins qu'ils ne figurent ailleurs dans la formule de déclaration.
5. Déclarez les ventes d'instruments et de matériel en respectant les dénominations qui figurent dans le questionnaire. Toutes les ventes d'instruments et de matériel qui ne sont pas précisés dans le questionnaire doivent être déclarées sous le poste "Tous autres" de la rubrique appropriée.
6. Déclarez le nombre d'appareils vendus d'après la province dans laquelle le concessionnaire exerce son activité. Si des ventes ont été faites directement du manufacturier ou de l'importateur à l'utilisateur, déclarez-les dans la province de résidence de l'utilisateur.
7. Ne déclarez que les ventes de pièces de rechange (rubrique 1) aux concessionnaires. Déduisez la valeur des pièces reprises. Ne déduisez ni les escomptes, ni les rabais de quantité, ni les ristournes.
8. Si c'est possible, établissez votre déclaration d'après l'année civile 1976 ou d'après l'année financière se terminant entre le 1^{er} avril 1976 et le 31 mars 1977.
9. Si vous ne trouvez pas les renseignements demandés dans vos livres comptables, veuillez donner des chiffres estimatifs.

Indiquer le classement qui s'apparente le plus avec votre entreprise:

Fabricant Importateur Importateur-distributeur Distributeur Concessionnaire Importateur-concessionnaire

1. RÉPARTITION RÉGIONNALE DES VENTES EN DOLLARS, 1976

| Province | Ventes totales de machines, équipement et accessoires agricoles neufs | Ventes de pièces de rechange |
|--|---|------------------------------------|
| | 1 | 2 |
| Canada | 0 | \$ |
| Provinces de l'Atlantique | 1 | \$ |
| Québec | 4 | |
| Ontario | 5 | |
| Manitoba | 6 | |
| Saskatchewan | 7 | |
| Alberta | 8 | |
| Colombie-Britannique (y compris le Yukon et les Territoires du Nord-Ouest) | 9 | |
