BUILDING PERMINS REPORT FOR NOV 1925, WITH COMPARATIVE STATEMENTS FOR OUT 1925, AND NOVEMBER, 1924.

There was a decline in the value of the building permits issued by 60 cities during November as compared with the preceding month and also as compared with November, 1924. The building authorized was valued at \$7,696,099: this was 30.4 p.c. less than the October total of \$11,059,697 and 23.4 p.c. less than the aggregate of \$10,047,273 for November of last year.

Some 50 cities furnished detailed statements, showing that they had issued over 800 permits for dwellings estimated to cost about \$3,300,000, and nearly 1,300 permits for other buildings valued at approximately \$2,100,000. In the preceding month: the erection was authorized of some 1,200 dwellings at a proposed cost of about \$6,400,000 and of over 2,600 r buildings estimated to cost more than \$2,900,000.

All provinces recorded reductions in the value of the building permits issued as compared with October British Columbia and Quebec registered the greatest absolute losses of \$1,143,487 or 58.3 p.c. and \$1,052,837 or 28.2 p.c., respectively.

As compared with November, 1924, Manitoba, Saskatchewan and Alberta reported increases in the value of the building authorized. The last named province showed the most pronounced gain of \$73,040 or 66.1 p.c. Of the declines recorded elsewhere, that of \$1,870,676 or 41.0 p.c. in Quebec was actually the largest, but new Brunswick registered the greatest proportional loss of \$8,990 or \$3.6 p.c.

Montreal and Toronto reported reductions in the value of building permits issued as compared with both October, 1925, and November, 1924, while Winnipeg and Vancouver showed declines in the former and increases in the latter comparison. Three Rivers, Guelph, Hamilton, Kingston, Oshawa, Port Arthur, St. Catharines, St. Thomas, Windsor, Calgary and New Westminster registered increases in both comparisons.

CUMULATIVE RECORD FOR FIRST ELEVEN MONTHS; 1925

The value of the building permits issued by 60 cities during the first eleven menths of the last six years, is shown in the following table, which also gives the average index numbers of wholesale prices of building materials for the same menths:-

Year	Value	Index of Wholesale Prices
		(11 mos. average)
1925	\$115,250,956	153.5
1924	117,397,577	1.59.8
1923	126,227,451	166.9
1922	138,450,681	162.0
1921	110,828,380	185.0
1.920	111,970,591	215.3

There were, therefore, declines in 1925 of 1.8, 8.7 and 16.8 p.c., in the eleven months' aggregate for the 60 cities as compared with 1924, 1923 and 1922, respectively, but the total was higher by 4.0 p.c. than in 1921 and 2.1 p.c. than in 1920.

The table on page 2 gives the value of the building permits issued by 60 cities during October and November, 1925, and November, 1924. The 35 cities for which records are available since 1910 are marked thus "x".
