BUILDING PERMITS FOR APRIL, 1937, WITH COMPARATIVE STATEMENTS FOR MARCH, 1937, AND APRIL, 1936, AND CUMULATIVE FIGURES FOR FIRST FOUR MONTHS, 1920-1937.

The Dominion Bureau of Statistics tabulated returns from 58 cities which granted permits for construction work valued at \$6,098,036 during April, as compared with \$6,654,516 in the preceding month, and \$3,237,366 in the same month of last year. There was, therefore, a decline of \$556,480 or 8.4 p.c. as compared with March, but in the more significant comparison with April, 1936, there was an increase of \$2,860,670, or 88.4 p.c.

The estimated value of the construction authorized in the first four months of the present year was \$16,568,165; this was considerably higher than the aggregate of \$8,829,837 reported in the period January-April, 1936, being also higher than in these months of any other year since 1931. The cumulative total for the first four months in each of the last six years has been very much lower than in any earlier year of the record; the wholesale prices of building materials, though showing an upward movement in recent months, continue below the average for the seventeen years, 1920 to 1936.

Some 50 cities furnished detailed statistics for April, 1937, showing that they had issued more than 500 permits for dwellings valued at approximately \$1,800,000, and for over 2,700 other buildings, estimated to cost almost \$3,400,000. There was also reported one engineering project, valued at \$357,000. In March, authority was given for the erection of about 370 dwellings and 1,600 other buildings, valued at approximately \$1,210,000 and \$5,400,000, respectively.

Prince Edward Island, Nova Scotia, New Brunswick, Quebec, Manitoba, Saskatchewan and Alberta recorded increases in the value of the building represented by the permits issued during April as compared with the preceding month, the greatest gain of \$764,079 or 119.4 p.c. taking place in Quebec. In Ontario and British Columbia there were in this comparison declines of \$1,192,677 or 30.5 p.c. and \$828,410, or 44.3 p.c., respectively.

As compared with April, 1936, there were increases in Nova Scotia, Quebec, Ontario, Manitoba, Saekatchewan and British Columbia, that of \$1,386,619 or 104.3 p.c. in Ontario and \$970,045 or 218.4 p.c. in Quebec being most noteworthy. In this comparison, Prince Edward Island, New Brunswick and Alberta showed declines, of which that of \$389,069 or 59.6 p.c. in Alberta was greatest.

Three of the four largest cities, - Montreal, Toronto and Winnipeg registered increases in the building authorized during April as compared with the preceding month, and also as compared with April, 1936. In Vancouver, the value was lower than in March, 1937, but higher than in April of last year. Of the other centres, Halifax, New Glasgow, Sydney, Moncton, Saint John, Shawinigan Falls, Sherbrooke, Three Rivers, Westmount, Fort William, Guelph, Hamilton, Kingston, Kitchener, London, Niagara Falls, Owen Sound, Port Arthur, St. Catharines, Sarnia, Sault Ste. Marie, Welland, Riverside, Woodstock, Brandon, St. Boniface, Moose Jaw, Saskatoon, Lethbridge, Medicine Hat, Nanaimo and North Vancouver reported increases in the value of the permits issued as compared with March, 1937, and also with April, 1936.

A STATE OF THE PARTY OF THE PAR

CUMULATIVE RECORD FOR FIRST FOUR MONTHS, 1920-1937.

The following table gives the value of the building authorized by 58 cities during April and in the first four months of each year since 1920, as well as index numbers for the latter, based upon the total for 1926 as 100. The average index numbers of wholesale prices of building materials in the first four months of the same years are also given, (1926=100).

Year	Value of permits issued in April	Value of permits issued in first four months	Indexes of value of permits issued in first four months (1926=100)	Average indexes of wholesale prices of building materials in first four months, (1926 average =100)

1920	15,648,915	34,558,901	83.2	143.1

As already stated, the aggregate for the first four months of this year was decidedly higher than in the same period of 1936, and also substantially exceeded that for any preceding year since 1931. The index numbers of wholesale prices of building materials in 1937, though higher than in the months, January-April in any of the preceding six years, continue lower than in the same period in each of the years, 1920-1930.

Table 1 gives the value of the building permits issued by 58 cities during April and March, 1937, and April, 1936. The 35 cities for which records are available since 1910 are marked thus "x".
