BUILDING PERMITS FOR NOVEMBER, 1939, WITH COMPARATIVE STATEMENTS FOR OCTOBER, 1939,  
AND NOVEMBER, 1938, AND CUMULATIVE FIGURES FOR FIRST ELEVEN MONTHS, 1920-1939.

The aggregate value of the construction represented by the building permits issued by 58 cities during November was \$4,148,889. This was a decrease of \$1,463,380, or 26.1 p.c., as compared with the October figure of \$5,612,269, while the total was lower by \$553,448, or 11.8 p.c., than in November, 1938, when the estimated value of the building authorized by these cities was \$4,702,337. The latest figure was also below that for November, 1937, but with these exceptions was the largest for that month in the years since 1931.

The value of the building permits taken out in the first eleven months of the present year was \$53,688,802; this was lower than the aggregate of \$57,434,417 reported in the period, January-November, 1938, but substantially exceeded the total for the same months in any other year since 1931. However, the eleven months' aggregate in each of these years has been very much lower than in preceding years of the record; the wholesale prices of building materials have recently been lower than in the same period of either 1938 or 1937, although they continue higher than in any of the years, 1931-1936.

Some 50 cities furnished detailed statistics for November 1, 1939, showing that they had issued more than 500 permits for dwellings estimated to cost approximately \$1,850,000, and about 1,900 permits for other buildings estimated at over \$2,200,000. There were also two engineering projects, valued at \$23,000. During October, permits were issued for the erection of about 580 dwellings and 2,200 other buildings, estimated to cost approximately \$1,900,000 and \$3,600,000, respectively.

Quebec and Saskatchewan reported increases over October in the value of the building authorized; the former gain amounted to \$340,847, or 36.4 p.c., while that in Saskatchewan was very slight. Reductions in this comparison were indicated in the remaining provinces, that of \$1,118,059, or 36.2 p.c., in Ontario being most pronounced.

As compared with November, 1938, New Brunswick and Alberta showed increases, of \$31,785, or 82.5 p.c., and \$91,112, or 124.3 p.c., respectively. Of the declines elsewhere reported, those of \$306,329, or 81.7 p.c., in Nova Scotia, and \$244,106, or 16.1 p.c., in Quebec were largest.

Of the four most populous centres, Montreal and Toronto recorded increases in the value of the building authorized in November as compared with the preceding month, but in each case the total was lower than in November of last year. In Winnipeg and Vancouver, the aggregate value was lower than in either October, 1939, or November of last year. Of the other centres, Moncton, Saint John, Sherbrooke, Three Rivers, Chatham, Kitchener, Owen Sound, St. Catharines, St. Thomas, York & East York Townships, Riverside, Moose Jaw, Lethbridge and Victoria reported higher building authorizations than in either the preceding month, or the same month of 1938.

-2-  
CUMULATIVE RECORD FOR FIRST ELEVEN MONTHS, 1920-1939.

The following table shows the value of the building authorized by 58 cities during November and in the first eleven months of each year since 1920, as well as index numbers for the latter, based upon the total for 1926 as 100. The January-November index numbers of wholesale prices of building materials in these years are also given, (average 1926=100).

Year	Value of permits issued in November	Value of permits issued in first eleven months	Indexes of value of permits issued in first eleven months (1926=100)	Average indexes of wholesale prices of building materials in first eleven months, (Average 1926=100)

1920	5,627,949	112,175,268	77.4	144.3

The aggregate for the first eleven months of this year was lower by \$3,745,615 than in 1938, but was greater than in the same period of any other year since 1931. The average index number of wholesale prices of building materials, though lower than in 1937 and 1938, was higher than in preceding years since 1930.

The accompanying table gives the value of the building permits issued by 58 cities in October and November, 1939, and November, 1938. The 35 cities for which records are available since 1910 are marked thus "x".
