## Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on CD, diskette, computer print-out, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

## How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Industrial Organization and Finance Division,  
Quarterly Financial Statistics Section,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 1-613-951-9843) or to the Statistics Canada reference centre in:

|          |                  |           |                  |
|----------|------------------|-----------|------------------|
| Halifax  | (1-902-426-5331) | Regina    | (1-306-780-5405) |
| Montréal | (1-514-283-5725) | Edmonton  | (1-403-495-3027) |
| Ottawa   | (1-613-951-8116) | Calgary   | (1-403-292-6717) |
| Toronto  | (1-416-973-6586) | Vancouver | (1-604-666-3691) |
| Winnipeg | (1-204-983-4020) |           |                  |

Toll-free access is provided in all provinces and territories, for users who reside outside the local dialing area of any of the regional reference centres.

## How to Order Publications

This and other Statistics Canada publications may be purchased from local authorized agents and other community bookstores, through the local Statistics Canada offices, or by mail order to Marketing Division, Sales and Service, Statistics Canada, Ottawa, K1A 0T6.

(1-613-951-7277)  
Facsimile Number (1-613-951-1584)  
Toronto Credit Card Only (1-416-973-8018)

## Standards of Service to the Public

To maintain quality service to the public, Statistics Canada follows established standards covering statistical products and services, delivery of statistical information, cost-recovered services and services to respondents. To obtain a copy of these service standards, please contact your nearest Statistics Canada Regional Reference Centre.

## Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes. Les données sont disponibles sur disque compact, disquette, imprimé d'ordinateur, microfiche et microfilm, et bande magnétique. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingué et le système d'extraction de Statistique Canada.

## Comment obtenir d'autres renseignements

Toute demande de renseignements au sujet de cette publication ou de statistiques et services connexes doit être adressée à la:

Division de l'organisation et des finances de l'industrie,  
Section des statistiques financières trimestrielles,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 1-613-951-9843) ou au centre de consultation de Statistique Canada à:

|          |                  |           |                  |
|----------|------------------|-----------|------------------|
| Halifax  | (1-902-426-5331) | Regina    | (1-306-780-5405) |
| Montréal | (1-514-283-5725) | Edmonton  | (1-403-495-3027) |

## Note of Appreciation

*Canada owes the success of its statistical system to a long-standing cooperation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.*

## Note de reconnaissance

*Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.*

### NOTE ON CANSIM

The data published in Building Permits (Catalogue No. 64-001) are also available in machine readable form through CANSIM (Canadian Socio-Economic Information Management System). Users interested in accessing data via CANSIM should contact one of Statistics Canada's regional centres at the numbers listed on the inside front cover of this publication, or contact the Marketing Division, Statistics Canada, R.H. Coats Building, Ottawa, Ontario, K1A 0T6 (613) 951-8200

### NOTE CONCERNANT CANSIM

Les données qui sont publiées dans Permis de bâtir (n° 64-001 au catalogue) peuvent être obtenues sous forme lisible par machine, de CANSIM (Système Canadien d'information socio-économique). Les utilisateurs voulant obtenir des chiffres par l'intermédiaire de CANSIM peuvent contacter un des centres de consultation de Statistique Canada dont les numéros de téléphone figurent au verso du couvert de cette publication ou en communiquant directement avec la Division du Marketing, Statistique Canada, Immeuble R.H. Coats, Ottawa, Ontario, K1A 0T6 (613)951-8200.

## **IMPORTANT NOTICE**

With the release of January 1995, a change to the seasonal method have been introduced. For more information, please consult the section 'Adjustment for seasonality' at the end of this publication.

Changes in boundaries, status or names of geographical entities that occurred before January 1995, are reflected in this publication. These geographical changes may be obtained by writing to:

Statistics Canada  
Investment and Capital Stock Division  
Current Investment Indicators Section  
9 D-2, Jean Talon Building  
Tunney's Pasture  
Ottawa, Ontario  
K1A 0T6  
or by telephoning: (613) 951-9689

## **AVIS IMPORTANT**

En vigueur avec l'édition de janvier 1995, un changement à la méthode de désaisonnalisation a été introduit. Pour plus d'information, veuillez vous référer à la section relative à la désaisonnalisation à la fin de la présente publication.

Les changements de limites territoriales, de statuts et de noms d'entités géographiques qui ont eu lieu avant janvier 1995, sont inclus dans la présente publication. Ces changements géographiques sont disponibles en écrivant à:

Statistique Canada  
Division de l'investissement et du stock de capital  
Section des indicateurs courants de l'investissement  
9 D-2, Édifice Jean Talon  
Tunney's Pasture  
Ottawa, Ontario

## Highlights

### Building Permits

October 1995

- Construction permits for housing posted their third increase in the past four months, suggesting that a year-long slide in residential building intentions may be bottoming out.
- In October, municipalities issued building permits worth \$1.2 billion for residential construction, up 8.8%, more than offsetting a drop in September. However, housing permits were still almost 16% below their October 1994 level.
- October's advance in housing -- only the fourth this year -- led the monthly increase in the total value of building permits, which amounted to \$2.0 billion (+3.5%). The upswing in housing intentions coincides with a recent increase in the Conference Board of Canada's index of consumer attitudes, which rose 1.7% in the third quarter of 1995.
- By contrast, non-residential construction intentions recorded their second consecutive monthly decline in October, dropping 2.9% to \$0.9 billion

## Faits saillants

### Permis de bâtir

Octobre 1995

- La valeur des permis de construction résidentielle a augmenté pour une troisième fois en quatre mois, ce qui permet d'entrevoir un terme au ralentissement qui s'observe depuis un an.
- En octobre, les municipalités ont délivré pour 1,2 milliard de dollars de permis de construction résidentielle, une hausse de 8,8% qui a largement compensé la baisse enregistrée en septembre. Toutefois, la valeur des permis de bâtir est toujours inférieure de près de 16% à ce qu'elle était en octobre 1994.
- La progression observée en octobre dans le secteur domiciliaire -- la quatrième seulement depuis le début de l'année -- a été le principal facteur de l'augmentation de la valeur totale des permis de bâtir, qui s'est chiffrée à 2,0 milliards de dollars (+3,5%). Le renforcement des intentions de construction résidentielle coïncide avec l'augmentation de 1,7% , au troisième trimestre de 1995, de l'indice des attitudes des consommateurs publié par le Conference Board du Canada.
- Par contre, la valeur des permis de construction non résidentielle a fléchi pour un deuxième mois d'affilée en octobre, soit de 2,9%, pour se fixer à 0,9 milliard de dollars.

## MONTHLY REVIEW

## APERÇU MENSUEL

**Total value of permits up 3.5%**  
**Valeur totale des permis en hausse de 3,5 %**

— Trend  
Tendance

— Seasonally adjusted  
Données désaisonnalisées

## October 1995

## Summary

**Housing permits post highest increase of 1995**

- In October, housing intentions posted their highest increase of 1995 practically offsetting all losses recorded since February 1995.
- Although far below last year's brief recovery period which peaked at \$1.6 billion in May 1994, the value of residential construction permits has shown some very encouraging signs over the last four months. Those increases coincide with the composite leading indicator's housing index, which went up for the last four consecutive months.
- This month's gain is attributable to the multi-family dwelling intentions which soared 51.9% to \$0.4 billion as compared to last month. By contrast, the single-family dwelling construction intentions which had been on the rise for the last three consecutive months dipped 3.3% to \$0.8 billion in October.
- The recent upsurge in housing permits contrasts sharply to the year-to-date drop of 21.7% in housing construction intentions, compared to 1994. This is reflected in the latest results of Canada Mortgage and Housing Corporation's survey on starts. For October 1995, it reported the lowest level (96,900 units) of housing starts since the recessionary levels of 1982.
- Among the provinces, Ontario (+ 13.4%), British Columbia (+ 14.2%), Quebec (+ 3.1%) and Manitoba (+ 24.4%) showed the best performance in October mainly on the strength of multi-family dwelling construction intentions. In contrast, Saskatchewan (-29.2%), Alberta (-4.2%), Northwest Territories (-99.8%) and New Brunswick (-10.8%) experienced declines due to both residential components.

## Octobre 1995

## Sommaire

**Construction résidentielle : plus importante hausse de 1995**

- En octobre, l'augmentation de la valeur des permis de construction résidentielle la plus importante de 1995, a pratiquement effacé toutes les diminutions enregistrées depuis février 1995.
- Au cours des quatre derniers mois, la valeur des permis de construction résidentielle a suivi une courbe ascendante très encourageante, même si on reste très loin du sommet de 1,6 milliard de dollars atteint en mai 1994, durant une reprise qui fut de courte durée. Ces augmentations coïncident avec la progression, au cours de chacun des quatre derniers mois, de l'indice de l'habitation de l'indicateur avancé composite.
- Le gain ce mois-ci est dû aux logements multifamiliaux, la valeur des permis délivrés pour ce genre de logements ayant fait un bond de 51,9% par rapport au mois précédent pour atteindre 0,4 milliard de dollars. Par contre, la valeur des permis délivrés pour des maisons unifamiliales, en hausse depuis trois mois, a fléchi de 3,3% en octobre pour s'établir à 0,8 milliard de dollars.
- La récente remontée des permis domiciliaires contraste vivement avec la baisse cumulative de 21,7% des intentions de construction résidentielle par rapport à 1994. Ceci est corroboré par les derniers résultats de l'enquête sur les mises en chantier de la Société canadienne d'hypothèques et de logement. Pour octobre 1995, le nombre de mises en chantier (96,900 unités) est le plus faible à être déclaré par la SCHL depuis 1982, alors que la récession sévissait.
- Par province, les meilleurs résultats en octobre ont été observés en Ontario (+ 13,4%), en Colombie-Britannique (+ 14,2%), au Québec (+ 3,1%) et au Manitoba (+ 24,4%), la composante des logements multifamiliaux ayant été le principal facteur d'entraînement. Par contre, les deux composantes résidentielles expliquent les diminutions qu'ont accusé la Saskatchewan (-29,2%), l'Alberta (-4,2%), les Territoires du Nord-Ouest (-99,8%) et le Nouveau-Brunswick (-10,8%).

**Housing permits post highest increase of 1995**

**Les permis domiciliaires affichent la plus forte hausse de 1995**

Données désaisonnalisées

**Non-residential construction intentions down but still strong**

- The value of non-residential permits posted its second consecutive decline in October, down 2.9% to \$0.9 billion.
- This month's setback was due to all three components; industrial (-3.0%), commercial (-2.7%) and institutional (-3.0%). Despite these recent drops, the value of non-residential building intentions from January to October, led by the industrial component, rose 18.3% over the same period last year.
- This confirms Statistics Canada's investment intentions survey released in July, which showed that businesses and governments planned to increase their investment by 7.2% in plant and equipment in 1995 over 1994.
- In October, the only increases in the value of non-residential projects were recorded in Ontario (+14.9%), British Columbia (+28.3%), and Quebec (+1.9%), following major declines in September. By contrast, the largest declines came from Yukon (-95.5%), Alberta (-24.4%), Manitoba (-46.1%) and Saskatchewan (-48.3%).

**Composante non résidentielle : toujours vigoureuse malgré la baisse**

- Pour un deuxième mois d'affilée, la valeur des permis de construction non résidentielle a diminué en octobre, soit de 2,9%, pour se fixer à 0,9 milliard de dollars.
- Le recul d'octobre est imputable aux trois composantes, soit les composantes industrielle (-3,0%), commerciale (-2,7%) et institutionnelle (-3,0%). Malgré ces baisses, la valeur des permis de construction non résidentielle a augmenté de 18,3% entre janvier et octobre par rapport à la même période un an plus tôt, principalement sous l'effet d'entraînement de la composante industrielle.
- Ces résultats corroborent ceux de l'enquête de Statistique Canada sur les perspectives d'investissements diffusés en juillet, qui montrent que les entreprises et les administrations publiques entendent accroître de 7,2% leurs dépenses en installations et équipement en 1995 par rapport à 1994.
- En Octobre, la valeur des projets non résidentiels a progressé uniquement en Ontario (+ 14,9%), en Colombie-Britannique (+ 28,3%) et au Québec (+ 1,9%), alors qu'elle avait fortement diminué en septembre. Par contre, les reculs les plus importants ont été inscrits au Yukon (-95,5%), en Alberta (-24,4%), au Manitoba (-46,1%) et en Saskatchewan (-48,3%).

## Building Permits Indices Indices des permis de bâtir

<sup>1</sup> This series is deflated by using the construction input price index, which includes costs of material and labor.

<sup>1</sup> Cette série est dégonflée à l'aide de l'indice des prix des intrants dans le secteur de la construction, soit le coût du matériel et de la main-d'oeuvre.

<sup>2</sup> The trend-cycle shows the seasonally adjusted value of Building Permits without irregular influences, that can obscure the short-term trend.

<sup>2</sup> La tendance-cycle exprime la valeur désaisonnalisée des permis de bâtir, nette de toutes variations irrégulières qui peuvent masquer la tendance à court terme.

## Building Permits Indices

- The short term trend index for building permits, which smooths irregular month-to-month movements not sustained on a longer period, pursued its downward pattern since July 1994, down 1.0% to 77.9 in October 1995.
- The non-residential building permits short-term trend index which has been generally increasing over 1994 and during the first half of 1995 showed a downward pattern since August 1995, down 0.2% to 88.4 in October. The short term trend for residential building permits posted a 1.7% decline in October to 70.2; and pursued its downward movement started in April 1994.

## Indices des permis de bâtir

- La tendance à court terme de l'indice de la construction, laquelle aplani les mouvements irréguliers d'un mois à l'autre qui ne sont pas maintenus au cours d'une longue période, poursuit toujours son mouvement à la baisse depuis juillet 1994, affichant une diminution de 1,0% en octobre 1995 pour se situer à 77.9.
- La tendance à court terme de l'indice de la construction du secteur non résidentiel qui a été généralement à la hausse en 1994 et durant la première moitié de 1995, affiche un mouvement à la baisse depuis août 1995, diminuant de 0,2% en octobre pour se fixer à 88.4. Quant au secteur résidentiel, la tendance diminue de 1,7% pour se situer à 70.2 en octobre; poursuivant ainsi sa tendance à la baisse amorcée en avril 1994.

<sup>1</sup> Indices are based on the value of the building permits issued and comprise the two following stages: deflation (1986 = 100) and seasonal adjustment of data. For more details on methodology see section III of the publication.<sup>1</sup> Les indices sont basés sur la valeur des permis de bâtir émis et comprennent les deux étapes suivantes: dégonflement (1986 = 100) et désaisonnalisation des données. Pour plus de détails concernant la méthodologie, consultez la section III de la publication.

<sup>1</sup> The indices are based on the value of the building permits issued and comprise the following three stages: deflation (1986 = 100), seasonal adjustment and filtering of data (based on Henderson 23 terms moving average) to produce a trend-cycle. For more details on methodology see section III of publication.<sup>1</sup> Les indices sont basés sur la valeur des permis de bâtir et comprennent les trois étapes suivantes: dégonflement (1986 = 100), désaisonnalisation et lissage (basé sur la méthode de moyenne mobile d'Henderson 23 termes) afin de produire une tendance-cycle. Pour plus de détails concernant la méthodologie, consultez la section III de la publication.

<sup>1</sup> The observed coverage rate is arrived at by dividing the population of reporting municipalities by the total population of each respective geographic entity listed. The population statistics used are derived from the 1991 Census.

<sup>1</sup> Le pourcentage de couverture observée est obtenu en divisant la population des municipalités déclarantes par la population totale de chaque entité géographique citée. Les données de population utilisées proviennent du recensement de 1991.

<sup>2</sup> Included in this category are the following types of dwellings: single-detached and mobile homes.

<sup>2</sup> Les types de logement suivant sont compris dans cette catégorie: maison individuelle et maison mobile.

<sup>3</sup> Cottages are included in the total number of dwelling units.

<sup>3</sup> Le nombre total d'unités de logement comprend les chalets.

\* Notes regarding the non-standard geographic units are listed in part III of this publication.

\* Les explications relatives aux unités géographiques non standard sont montrées à la partie III de cette publication.

<sup>1</sup> Building Permits data being generally subject to varying degree of under valuation, users should be cautious in making comparison from one area to another. It is however believed that average building (excluding land) cost trend within any area is reliable.

<sup>1</sup> Les données sur les Permis de bâtir étant sujettes à divers niveaux de sous-évaluation doivent être utilisées avec prudence lorsqu'il s'agit d'établir des comparaisons d'une région à une autre. Cependant le mouvement de la valeur moyenne des bâtiments (à l'exclusion du terrain) pour une région s'avère fiable.

Tableau 15

Coût moyen<sup>1</sup> des logements, simples et appartements, par catégorie de valeur, Canada et régions, 1995 - fin

Octobre

## Introduction

The purpose of the monthly survey of building permits issued by Canadian municipalities is to collect data on construction intentions. The results of this survey are used by C.M.H.C.<sup>1</sup> as a reference base for conducting a monthly survey of housing starts and completions in accordance with its mandate. The statistics on building permits are also essential for the computation of capital expenditures. Furthermore, since the issuance of a building permit is one of the first steps in the construction process, these statistics are widely used as a leading indicator of building activity.

## Survey Methodology

The Building Permits Survey covers all Canadian municipalities that issue permits. The number of Canadian municipalities currently surveyed exceeds 2,400, representing all the provinces and territories. They account for 93% of the Canadian population. Participation to the survey being voluntary, the survey does not use a predetermined sample of municipalities. In practice, all urban agglomerations are represented in the survey, as well as a fair percentage of rural municipalities. With certain exceptions, the minimum coverage corresponds to the municipalities already included in the Housing Starts and Completions Survey. Non-responding municipalities that issue permits are urged on a regular basis to respond to the survey. Therefore, the number of municipalities covered is increasing continually.

## Collection of Data

The survey is usually conducted by mail, although certain municipalities have the option of responding by telephone. The municipal officer responsible for issuing permits is asked to fill out a form<sup>2</sup> each month describing all major construction projects. The value of the permits reported includes the following expenditures: materials, labour, profit and overhead. The cost of land is never included in the estimated value of the permit while acquisition costs (legal fees, surveying fees and accrued interest) may be included at times.

The municipalities forward a copy of their completed report to the nearest regional office of Statistics Canada and another copy to the local office of the Canada Mortgage and Housing Corporation (C.M.H.C.). To reduce their overhead, an increasing number of respondents are producing a computerized report.

Reports from municipalities which one part of a census metropolitan area or a census agglomeration must be received within 20 days following the month of reference. The other municipalities have 30 days to produce their reports. Only those municipalities that are late in reporting and that are included in the above-mentioned C.M.H.C. survey are subject to follow-up by telephone.

<sup>1</sup> Canada Mortgage and Housing Corporation  
<sup>2</sup> A sample of the Building Permit Form is shown in annex at the end of this section.

## Introduction

L'enquête mensuelle sur les permis de bâtir menée auprès des municipalités canadiennes vise à recueillir des informations sur les intentions de construction. Les résultats de cette enquête servent d'une part de base de référence à la S.C.H.L.<sup>1</sup> dont l'un des mandats est d'effectuer le relevé mensuel du nombre de logements mis en chantier et parachevés. D'autre part, la statistique sur les permis de bâtir constitue un élément essentiel dans le calcul des dépenses d'immobilisation. De plus l'émission du permis de bâtir étant l'une des premières étapes du processus de construction, cette statistique est grandement utilisée comme indicateur avancé de cette activité.

## Méthodologie de l'enquête

L'enquête "Permis de bâtir" vise toutes les municipalités canadiennes émettant des permis. Celles-ci au nombre de 2,400 en provenance de toutes les provinces et territoires regroupent 93% de la population canadienne. Elles ne font pas l'objet d'un échantillon prédéterminé, elles participent plutôt à cette enquête sur une base volontaire. En pratique, toutes les agglomérations urbaines y sont représentées ainsi qu'un bon pourcentage des municipalités rurales. Sauf exception, l'enquête couvre au minimum les municipalités déjà incluses dans l'enquête "Logements mis en chantier et parachevés". Sur une base régulière les municipalités non-répondantes et émettant des permis sont incitées à répondre à l'enquête. De ce fait, le nombre de municipalités couvertes s'accroît continuellement.

## Collecte de données

L'enquête est généralement menée par la poste bien que certaines municipalités puissent choisir de répondre par téléphone. L'agent municipal responsable de l'émission des permis rempli mensuellement un formulaire<sup>2</sup> sur lequel chacun des projets de construction d'envergure doit être décrit. La valeur des permis rapportés comprend les dépenses suivantes: matériaux, main d'œuvre, profits et frais généraux. Le coût du terrain n'est jamais inclus dans la valeur estimative du permis tandis que les frais d'acquisition (actes notariés, frais d'arpentage, intérêts encourus) peuvent à l'occasion y être intégrés.

Après avoir rempli leur rapport, les municipalités en acheminent une copie au bureau régional de Statistique Canada le plus proche et l'autre au bureau local de la Société canadienne d'hypothèques et du logement (S.C.H.L.). Afin de réduire leur fardeau, de plus en plus de répondants produisent un rapport informatisé.

Les rapports des municipalités qui font parties d'une région métropolitaine de recensement ou d'une agglomération de recensement doivent nous parvenir dans les 20 jours suivant le mois visé. Les autres municipalités ont 30 jours pour produire leur rapport. Seules les municipalités retardataires, incluses dans l'enquête de la S.C.H.L. ci-haut mentionnée, font l'objet d'un suivi téléphonique.

<sup>1</sup> Société Canadienne d'hypothèques et du logement.  
<sup>2</sup> Un spécimen du formulaire "Permis de bâtir" est montré en annexe à la fin de cette section.

The reports received at our regional offices are verified, coded and processed; the data is then forwarded to Statistics Canada Head Office.

### Types of Errors

Since the building permit data are extracted from municipal administrative documents, two types of response errors are possible: errors attributable to the permit applicant and errors in transcription by the responding municipality. However, experience has shown that transcription errors are not very common and the increasing number of municipalities producing computerized reports tends to reduce the frequency of this type of error. Errors attributable to a false statement of the cost of construction are more probable. A qualitative survey conducted among major Canadian municipalities has revealed an underestimation of the declared value of buildings for which permits are issued. Since permit fees are in most cases based on the value of the construction, this leads unquestionably to underestimation of project values. The results of that survey also reveal that, in half of the municipalities covered, the value submitted by the applicant is not subject to any verification by municipal officers.

### Quality Control

Strict quality control procedures are applied to ensure that collection, coding and data processing are as accurate as possible. In addition to the usual checks to ensure that the forms are fully completed, quality control procedures established by the Business Survey Methods Division are applied to the coded and processed data. Checks are also performed on totals and the magnitude of data. Reports that fail to meet the quality standards are subject to verification and are corrected as required.

### Reliability

The data presented in this publication are solely those supplied by the respondents. No imputation is done for lack of coverage, concealment or the underevaluation of permits issued. For this reason, the sampling error cannot be computed.

Comparison of data must be done with reservation considering that the methods of issuing permits and the methods of estimating building values can differ from one municipality to another. Also, comparisons involving different periods must take into account the constant increase in the number of municipalities participating in the survey.

The monthly statistics are not corrected for cancelled or expired permits. According to the municipal officers, the proportion of cancelled and unused permits is below 5%.

A leur réception dans nos bureaux régionaux, les rapports sont vérifiés, codés et saisis; l'information est par la suite acheminée au bureau central de Statistique Canada.

### Types d'erreurs

Les données sur les permis de bâtir étant extraites de documents administratifs municipaux, deux types d'erreurs de réponse sont possibles: les erreurs imputables au demandeur de permis et les erreurs de transcription faites par la municipalité répondante. L'expérience prouve que les erreurs de transcription sont peu fréquentes. De plus, du fait qu'un nombre croissant de municipalités produisent des rapports automatisés la fréquence de ce type d'erreur tend à diminuer. Toutefois, les erreurs provenant d'une déclaration erronée du coût du projet de construction sont toujours probables. Une enquête sur "La qualité des données permis de bâtir" tenue auprès des principales administrations municipales canadiennes a révélé que la valeur déclarée des bâtiments pour lesquels un permis est émis est généralement sous-évaluée. Le mode de tarification des permis qui, dans la plupart des cas, est établi en fonction de la valeur de construction mène indubitablement à une sous-évaluation de la valeur des projets. De plus, les résultats de cette enquête révèlent que pour la moitié des municipalités enquêtées, la valeur soumise par le demandeur ne fait l'objet d'aucune vérification de la part des agents municipaux.

### Contrôle qualitatif

Des procédures de contrôle qualitatif rigoureuses sont utilisées afin de s'assurer que la collecte, la codification ainsi que le traitement des données sont effectués avec le plus de précision possible. En plus des vérifications habituelles visant à s'assurer que les formulaires sont complètement remplis, les données codées et saisies sont soumises à un contrôle qualitatif établi par la Division des méthodes d'enquêtes-entreprises. Des vérifications sont également exercées sur les totalisations et l'ordre de grandeur des données. Chaque rapport qui ne répond pas aux critères de qualité retenus fait l'objet d'une vérification et est corrigé au besoin.

### Fiabilité

Les données présentées dans cette publication sont uniquement celles fournies par les répondants. Aucune imputation n'est faite pour le manque de couverture, la clandestinité ou la sous-évaluation des permis émis. Pour cette raison, l'erreur d'échantillonnage ne peut être calculée.

Toute comparaison de données doit être faite avec réserve étant donné que les modalités d'émission de permis ainsi que les méthodes d'estimation des valeurs peuvent différer d'une municipalité à l'autre. De plus, puisque le nombre de municipalités participant à l'enquête s'accroît constamment, on doit tenir compte de ce fait lors de comparaisons touchant des périodes différentes.

Les statistiques mensuelles ne font pas l'objet de correction pour les permis annulés ou périmés. D'après les agents municipaux, le volume d'annulation ou d'inutilisation est inférieur à 5%.

## Survey Coverage

The observed monthly rate of coverage is shown in table 14 on a provincial and infraprovincial basis (economic region, CMA, CA, rural area). For any given geographical entity, it is obtained by dividing the population of reporting municipalities by the total population of the area under study. The reference base for these computations is the population as determined by the 1991 Census.

## Nature of and Basis for Classification

The classification used in this publication deals strictly with **structures** for which a building permit was issued. Permits are generally issued for the following: construction of new buildings, alterations, additions, renovations, etc. Minor repair jobs such as painting, tiling, roofing, etc., for which no permit is required, and engineering work (such as dams, roads, pipelines, etc.), which, by definition, is not a building, are not included in the building permit series. Estimates of such work may be obtained from the publications Construction in Canada (cat. no 64-201) and Private and Public Investment in Canada Intentions (cat. no 61-205).

The description given by the municipalities as to the **type of building** (box #6 of Section A on the form) and the **type of work involved** (box #7 of Section A on the form) forms the basis for classification. The classification of buildings into major groups and subgroups is based on the following: intended use in the case of new buildings; present or intended use of buildings to which improvements are to be made; present use of the existing structure where the proposed construction is intended to provide additional facilities; principal use of the structure where the proposed construction has more than one intended use; however, where the building contains dwellings, the value of the construction is divided between residential and non-residential use.

## Building Categories

This publication, uses the following classification for the **value of permits issued** for construction of new buildings or for improvements: residential, industrial, commercial, institutional and government.

**Residential.** Includes all buildings intended for private occupancy whether on a permanent basis or not. Dwellings are divided into the following types: single-family, mobile, cottage, semi-detached, row house and apartment building.

**Industrial.** Includes all buildings used for manufacturing and processing; transportation, communication and other utilities, and agriculture, forestry and mining.

## Couverture observée

Le taux de couverture observé paraît mensuellement au tableau 14 et est donné sur une base provinciale et infraprovinciale (région économique, RMR, AR, région rurale). Il est obtenu en divisant la population des municipalités rapportantes par la population totale des entités géographiques représentées. La base de référence de ces calculs est la population telle que dénombrée au recensement de 1991.

## Nature et fondement de la classification

La classification utilisée dans la présente publication porte strictement sur les **bâtiments** pour lesquels un permis de bâtir a été émis. Généralement les permis émis correspondent aux travaux suivants: construction de nouveaux bâtiments, transformation de logement, ajout structurel, rénovation, etc. Les travaux de réparation (peinture, réfection de plancher, de toiture, etc.) pour lesquels aucun permis n'est requis et les travaux de génie (tels les barrages, les routes, les oléoducs, etc.), qui par définition ne sont pas des bâtiments, ne sont pas compris dans la présente statistique. Des estimations de ces travaux sont toutefois disponibles en consultant "La Construction au Canada" (no 64-201 au catalogue) et "Investissements privés et publics" (no 61-205 au catalogue).

La description fournie par les municipalités concernant le **type de bâtiment** (case #6 de la Section A du formulaire) ainsi que le **type de travail à effectuer** (case #7 de la Section A du formulaire) constitue le fondement de la classification. La classification des bâtiments en groupes ou sous-groupes principaux se fondent sur les éléments suivants: la destination prévue, dans le cas des immeubles nouveaux; l'utilisation réelle ou prévue des bâtiments auxquels des améliorations sont effectuées; affiliation de l'immeuble où la construction envisagée a pour objet d'assurer des commodités accessoires; la principale utilisation de l'ensemble lorsque la construction projetée est destinée à plus d'une fin, toutefois lorsque le bâtiment abrite des logements on procède à la répartition de la valeur des travaux entre l'usage résidentiel et non résidentiel.

## Catégories de bâtiments

Dans cette publication la **valeur des permis émis** soit pour l'érection de nouveaux édifices ou pour l'exécution de travaux d'amélioration sont regroupés d'après les genres de bâtiments suivants: résidentiel, industriel, commercial, institutionnel et gouvernemental.

**Construction résidentielle.** Comprend tout bâtiment destiné à l'occupation privée soit sur une base permanente ou non. Les logements sont regroupés sous les types suivants: les logements unifamiliaux, mobiles, chalets, semi-détachés, en rangée ainsi que les appartements.

**Construction industrielle.** Englobe tout bâtiment destiné à la fabrication ou à la transformation de produits; au transport, aux communications et autres services d'utilité publique, à l'agriculture, à la sylviculture ainsi qu'à l'exploitation minière.

**Commercial.** Includes all buildings used to house activities related to the tertiary sector, such as stores, warehouses, garages, office buildings, theatres, hotels, funeral parlours, beauty salons and miscellaneous commercial installations such as signs, billboards, etc.

**Institutional and Government.** Includes expenditures made by the community, public and government for buildings and structures - schools, universities, hospitals, clinics, churches, homes for the aged.

The **number of dwelling units** indicates the number of self contained dwelling units created. This should not be confused with the number of structures. For example, an apartment building containing six dwellings will be shown as six dwelling units. When an existing structure is converted into additional housing units, the number of units added is included. This publication uses the following classification for dwelling units:

**Single-family.** Refers to dwellings commonly called "single house". It includes single dwellings that are completely isolated on all sides, including single dwellings linked to other dwellings below ground. Included are bungalows, split levels, two-storey single-family homes built by conventional methods or prefabricated.

**Mobile homes.** Refers to houses designed and constructed to be transported on their own chassis and for easy moving.

**Cottage.** Refers to dwellings that cannot be occupied year-round or on a permanent basis because the facilities required for comfort are inadequate.

**Double or Semi-detached.** Refers to dwellings in which each of the two dwellings are side by side and joined by a common wall or garage, but not attached to any other building and surrounded by open space.

**Row Dwellings.** Refers to a row of three or more dwellings attached to each other without dwellings above or below.

**Apartment Building.** Includes dwellings in a variety of buildings such as duplexes, semi-detached duplexes, triplexes, row duplexes, apartments as such and dwellings adjacent to non-residential structures.

**Conversion.** Refers to the number of dwellings added by conversion of existing structures.

**Construction commerciale.** Il s'agit de tout bâtiment destiné à abriter des activités se rattachant au secteur tertiaire. Par exemple: les magasins, entrepôts, garages, immeubles à bureaux, théâtres, hôtels, salons funéraires, salons de beauté, ainsi que des installations commerciales diverses tel que les enseignes, affiches, etc.

**Construction institutionnelle et gouvernementale.** Comprend les dépenses faites par les collectivités, les corps publics et les gouvernements pour la construction d'immeubles ou bâtiments; par exemple, écoles, universités, hôpitaux, cliniques, églises, foyers de vieillards.

**Le nombre d'unités de logements** correspond au nombre de logements indépendants créés. Il ne faut pas confondre avec le nombre de structures. Par exemple, dans le cas d'un édifice à appartements comptant six logements on fera référence à six unités de logement. Dans le cas de transformation de bâtimens en unités de logement additionnelles, on tient compte du nombre de nouvelles unités créées. Dans cette publication les unités de logements sont regroupées de la façon suivante:

**Maison unifamiliale.** Ce genre de logement est communément appelé "maison simple". Il comprend les logements individuels complètement isolés de tout côté, y compris les maisons individuelles liées à un autre logement uniquement sous le sol. Sont inclus les unifamiliales à deux étages, les bungalows, split level, qu'ils soient construits de façon conventionnelle ou préfabriquée.

**Maison mobile.** Maison conçue et construite pour être transportée sur son propre châssis et qu'on peut déplacer sans grand délai.

**Chalet.** Logement qui ne peut être habité à l'année ou en permanence puisque les installations nécessaires au confort sont insuffisantes.

**Maison double ou semi-détachée.** Correspond à toute maison d'habitation où chacun des deux logements sont côte à côte réunis soit par un mur commun ou un garage, mais non attenants à une autre construction et entourés d'espaces libres.

**Maison en rangée.** Il s'agit d'une rangée d'au moins trois logements réunis côte à côte sans autre logement au-dessus ou au-dessous.

**Maison d'appartements.** Cette catégorie inclut les logements compris dans une variété de bâtiments tels que: les duplex, les duplex jumelés, les triplex, les duplex en rangée, les appartements proprement dit et les logements adjacents à tout édifice non domiciliaire.

**Transformation.** Il s'agit du nombre de logements ajoutés par suite de la transformation d'un bâtiment déjà existant.

## Geographic Classification

Geographic entities are classified according to Standard Geographical Classification (SGC) used by Statistics Canada. Each reporting entity is assigned a twelve-digit SGC code for identification according to the following geographic levels:

- **Province and Territory (PR)** : There are ten provinces and two territories.
- **Economic Region (ER)**: Refers to infraprovincial regions established by the Standards Division of Statistics Canada in 1976. There are sixty-three ERs.
- **Census Division (CD)**: Refers to a group of census subdivisions established by provincial law. There are two hundred and sixty-six CDs (data on this geographic group is available on request).
- **Census Metropolitan Area (CMA)**: Its delineation corresponds to the 1986 Census definition. The term CMA refers to the main labour market area of an urban area (the urbanized core) of at least 100,000 population, based on the Census population figures. The twenty-five CMAs are shown in this publication. Although the 1986 Census defines the Ottawa-Hull area as a single CMA, the area is shown in this publication as two separate entities since it is located in two different provinces.
- **Census Agglomeration (CA)**: Refers to the smaller labour market area of an urbanized core of at least 10,000 population, as defined by the 1986 Census. There are one hundred and fourteen CAs in Canada. When a CA overlaps the boundaries of two provinces, it is shown partly in each province. The Lloydminster agglomeration is an exception to this rule. It is treated as if it was totally located in Alberta.
- **Other Municipalities of at Least 10,000 Population**: Refers to municipalities not included in census agglomerations but with populations of at least 10,000 inhabitants. The distinction is made between these municipalities and CAs in order to permit comparison between the Building Permits Survey and the Housing Starts and Completions Survey which refers to this geographical concept.
- **Rural Area**: Refers to all geographic entities not included in a CMA or CA and not identified as an urban centre by the Canada Mortgage and Housing Corporation.

## Classification géographique

Les entités géographiques sont classifiées selon la Classification Géographique Type (CGT) en usage à Statistique Canada. Un code (CGT) de douze chiffres a été attribué à chaque entité rapportante afin de pouvoir les classifier selon les niveaux géographiques suivants:

- **Province et territoire (Pr)**: On compte dix provinces et deux territoires.
- **Région économique (RE)**: Il s'agit des régions infra-provinciales de Statistique Canada établies par la Division des normes en 1976. On en compte soixante-trois.
- **Division de recensement (DR)**: L'expression division de recensement signifie un regroupement de subdivision de recensement établie par une loi provinciale. On en dénombre deux cent soixante-six (des données sous un tel regroupement géographique sont disponibles sur demande).
- **Région métropolitaine de recensement (RMR)**: Leur délimitation correspond à la définition du recensement de 1986. Le terme (RUR) désigne la principale zone du marché du travail d'une région urbaine (noyau urbanisé) comptant 100,000 habitants ou plus, d'après les chiffres de population du recensement. Les vingt-cinq (RMR) figurent dans cette publication. Toutefois, bien que le recensement de 1986 définisse Ottawa-Hull comme une seule (RMR), elle est présentée ici en deux entités distinctes étant donné qu'elles sont situées dans des provinces différentes.
- **Agglomération de recensement (AR)**: Elle correspond aux zones des marchés de travail moins vastes des noyaux urbanisés comptant 10,000 habitants ou plus, tel que défini au recensement de 1986. On compte cent quatorze (AR) au Canada. Lorsqu'une (AR) chevauche deux provinces elle est présentée partiellement dans chacune de celles-ci. L'agglomération de Lloydminster fait toutefois exception à cette règle, paraissant en totalité en Alberta.
- **Autres municipalités de 10,000 de population et plus**: Il s'agit de municipalités ne faisant pas partie d'agglomérations de recensement dont la taille est d'environ 10,000 habitants. On distingue ces municipalités afin de rendre possible la comparaison entre l'enquête sur les permis de bâtir et celle sur les mises en chantier qui utilise ce concept.
- **Partie rurale**: Sont regroupés sous cette rubrique toutes les entités géographiques ne faisant pas partie d'un (RMR) ou d'une (AR) et n'étant pas non plus un centre urbain identifié par la Société Canadienne d'hypothèques et de logement.

- **Census Subdivision (CSD):** Refers to the general term applying to municipalities, Indian reserves, Indian settlements and unorganized territories. However, since Indian reserves and settlements do not issue building permits, they are not included in this publication.
- **Non-standard Geographic Unit:** The geographic units shown in this publication do not all satisfy the above definition of census subdivision. Some provincial or municipal administrations producing monthly reports do not correspond to the official geographic entities; they are nevertheless shown in this publication under the geographic entity used by these administrations. These so-called non-standard geographic units are few in number and are mostly concentrated in the Maritime provinces; e.g. 'Commission d'urbanisme de Madawaska', Cape Breton Planning Commission, Greater Moncton District, Acadian Peninsula, etc.
- **Sub-division de recensement (SDR):** L'expression subdivision de recensement se rattache aux municipalités, aux réserves indiennes, aux établissements et aux territoires non organisés. Toutefois étant donné que les établissements et les réserves indiennes n'émettent pas de permis de bâtir elles ne sont pas comprises dans cette publication.
- **Unité géographique non-standard:** Les unités géographiques qui apparaissent dans cette publication ne correspondent pas toutes à la définition de subdivision de recensement tel que défini ci-haut. Certaines administrations provinciales ou municipales étant dans l'impossibilité de produire des rapports mensuels conformes aux entités géographiques officielles, nous les publions selon l'entité géographique utilisée par ces administrations. Ces unités géographiques dites non-standards ne sont cependant pas très nombreuses et sont surtout concentrées dans les provinces maritimes. Exemples: Commission d'urbanisme de Madawaska, 'Cape Breton Planning Commission', 'Greater Moncton District', Péninsule Acadienne, etc.

## Territorial Revisions

Territorial boundaries were established according to the 1991 Census definitions. Changes in boundaries, status or name of census subdivisions between censuses are introduced in this publication on a yearly basis. Changes affecting the other geographic units (CMAs, CAs, CDs and ERs) are introduced every five years, eighteen months following the census.

## Revision of Data

Two types of revisions can affect the results of the Building Permits Survey:

**(1) Revisions Due to the Correction of Coding Errors**  
These types of revisions are done on a monthly basis only to the data pertaining to the month preceding the reference period.

**(2) Revisions Due to the addition of Late Reports**  
Late reports for the month preceding the reference period are incorporated into the survey results on a continuing basis. However, reports received after the two-month deadline following the reference month are introduced only at the end of the year. As a result, the data for the last twelve months are subject to revision.

## Révisions territoriales

Les limites territoriales ont été établies conformément aux définitions du recensement de 1991. Durant les périodes intercensitaires les changements de limites, de statuts et de noms des (SDR) sont introduits dans cette publication sur une base annuelle. Les changements affectant les autres unités géographiques (RMR, AR, DR, RE) sont pour leurs parts incorporés sur base quinquennale dix huit mois après la tenue du recensement.

## Révision des données

Les révisions pouvant affecter les résultats de l'enquête sur les permis de bâtir sont de deux natures:

**(1) Révisions dues à la correction d'erreurs de codage**  
Mensuellement, seules les données du mois précédent la période de référence peuvent être affectées par de telles révisions.

**(2) Révisions dues à l'addition de rapports tardifs**  
Les rapports tardifs se rapportant au mois précédent la période de référence sont incorporés aux résultats de l'enquête sur une base courante. Cependant les rapports reçus après la limite de deux mois suivant le mois de référence ne sont introduits qu'à la fin de l'année. Par conséquent, les données des douze derniers mois sont sujettes à révision.

## Adjustment for Seasonality

Seasonally adjusted data for the total number of housing units as well as for the aggregate value of building permits are obtained indirectly, i.e., by adding their seasonally adjusted components. The total number of dwelling units is obtained by summing the seasonally adjusted data for single-family and multiple-use units; the total value of building permits is obtained by summing the following elements: residential, industrial, commercial and institutional. Some series contain no apparent seasonality. In these cases, undajusted values have been tabulated and aggregated to the adjusted values of the other series.

At the end of the year, the chronological series adjusted for seasonality are revised to take into account the most recent seasonal fluctuations. These revisions apply only to the last three years in the series. The revised data are introduced into the CANSIM databank and was for the first time incorporated into the 1989 annual publication on building permits (64-203), which was available at the beginning of 1990.

## Index of Building Construction

Building permits represent one of the first steps of the construction process. They express investment intentions of various economic agents and therefore lead any labour and material expenditures. However, due to the existence of seasonality and extreme building permit values, it is difficult to infer from raw data any real changes in the behaviour of economic agents. In table 8, deflated and adjusted data for seasonality already enable a better interpretation of construction activity because they reflect the real level of intentions. Price indexes used to deflate building permit values are the residential and non-residential construction input price indexes. These composite price indexes are derived from union wage rate indexes and construction material indexes, which are available from the CANSIM databank, matrices 400 and 423. In table 9, a filter is applied to the seasonally adjusted permit values in order to eliminate irregular movements. This allows us to identify major movement in the series. With this filtering, the building permits series then becomes a more reliable trend indicator of the economic activity. Unfortunately, such filtering entails a loss of timeliness.

## Availability of Data

This publication contains only part of the data produced on building permits. However, you may order unpublished tables<sup>3</sup> or address special requests, now available on diskette, to the Current Investment Indicators Section ((613) 951-9689, call collect). The majority of the series presented here is also available on CANSIM in matrices 80 (levels 3-7, 16-22), 129, 137, 443, 989-992, 994, 995 and 4073.

<sup>3</sup> A list of these tables is available from Statistics Canada Head Office or from the regional offices.

## Désaisonnalisation

Les données désaisonnalisées portant sur le total des unités et la valeur aggregée des permis de bâtir sont obtenues indirectement, c'est-à-dire par l'addition de leurs composantes désaisonnalisées. On obtient les unités totales de logement par l'agrégation des données désaisonnalisées de type unifamilial et multiple; la valeur totale des permis résulte pour sa part de la somme des éléments suivants: résidentiel, industriel, commercial et institutionnel. Certaines séries ne présentent aucune saisonnalité apparente. Ainsi, les valeurs non-désaisonnalisées des ces séries ont été utilisées et agrégées aux valeurs désaisonnalisées des autres séries.

À la fin de l'année, les séries chronologiques désaisonnalisées sont révisées afin de tenir compte des plus récentes fluctuations saisonnières. Seules les trois années de fin de série sont affectées par ce processus de révision. Les données révisées sont introduites à la banque de données CANSIM, elles ont été incorporées pour la première fois à la publication annuelle de 1989 sur les permis de bâtir (64-203) laquelle était disponible au début de 1990.

## Indice de la construction

Les permis de bâtir représentent une des premières étapes du processus de construction. Ils expriment les intentions d'investissement des différents agents économiques et par conséquent devancent les dépenses en main d'oeuvre et en matériaux. Cependant, dû à la présence de la saisonnalité et des valeurs extrêmes à l'intérieur des séries, les données brutes ne permettent pas de distinguer tout changement d'attitude des agents économiques. Au tableau 8, les données désaisonnalisées et dégonflées de l'effet de prix permettent déjà une meilleure interprétation de la valeur des permis puisqu'elles reflètent le niveau réel des intentions. Les indices de prix employés pour le dégonflement de la valeur des permis de construire sont les indices de prix des entrées dans la construction résidentielle ou non résidentielle. Ces indices synthétiques sont calculés à partir des indices des salaires syndicaux et des matériaux de construction obtenus de la banque de données CANSIM, matrices 400 et 423. Au tableau 9, un filtre est appliqué aux permis de bâtir afin d'éliminer les valeurs extrêmes. Ce procédé permet d'identifier les mouvements fondamentaux des séries. En lissant le mouvement de la série, celle-ci devient donc un indicateur de tendance beaucoup plus fiable de l'activité économique. Il est à noter qu'une meilleure tendance ne peut être obtenue qu'en sacrifiant un peu d'actualité et c'est la raison pour laquelle les séries sont publiées avec deux mois de retard.

## Disponibilité des données

La présente publication ne renferme qu'une partie des données produites sur les permis de bâtir. On peut cependant en s'adressant à la section des **Indicateurs courants de l'investissement** ((613) 951-9689, *frais virés*) commander soit des tableaux non-publiés<sup>3</sup> ou soumettre des requêtes spéciales. Ces dernières sont maintenant disponibles sur disquette. La plupart des séries présentées ici sont aussi disponibles sur CANSIM dans les matrices 80 (niveaux 3 à 7 et 16 à 22), 129, 137, 443, 989-992, 994, 995 et 4073.

<sup>3</sup> La liste de ces tableaux peut être obtenue en s'adressant soit au bureau central ou au bureaux régionaux de Statistique Canada.

**Bandes de microdonnées connexes à grande diffusion**

Il existe une bande de microdonnées à grande diffusion assurant le couplage des données de l'Enquête sur les frais de logement de 1987 et des données sur le revenu des ménages et sur l'équipement ménager. Le prix demandé pour chaque exemplaire de la bande et la documentation connexe est de \$1,000. On peut se procurer cette bande auprès de la Section des enquêtes sur le revenu et le logement, Division des enquêtes-ménages, Statistique Canada, K1A 0T6, (613)951-9775 ou 951-9778.

On peut également se procurer des bandes portant sur l'Enquête sur les dépenses des familles auprès de la Section des enquêtes sur les dépenses des familles.

**Totalisations spéciales**

Il est également possible de produire, sur la base de recouvrement des coûts, des totalisations spéciales établies conformément à vos spécifications. Veuillez adresser vos demandes de renseignements à cet égard à la Section des Indicateurs courants de l'investissement.

Vous pourrez obtenir de plus amples renseignements sur ces produits et sur d'autres aspects des enquêtes auprès de la Section des Indicateurs courants de l'investissement, Division de l'investissement et du stock de capital, Statistique Canada, K1A 0T6, (613)951-9689.

- ✓ Identify Emerging Trends
- ✓ Define New Markets
- ✓ Pinpoint Profit Opportunities

**T**o safeguard your place in tomorrow's marketplace, you have to be able to anticipate trends today. To do that, you're going to need some insight into the purchasing trends in the Canadian marketplace.

With a complete profile of Canadian consumers, plus an indepth analysis of Canadian industries, the *Market Research Handbook* gives you the most thorough coverage of purchasing trends. This valued bestseller can lead you to new markets by giving you details on:

- ▶ how much money Canadians are earning and what they're spending on cars, rent, home entertainment and household appliances;
  - ▶ the level of sales in retail chain and department stores;
  - ▶ what goods are being traded between Canada, U.S., and other countries;
  - ▶ census data such as: age/sex, schooling, households, unemployment, interprovincial and international migration
- ...and much, much more!

With over 600 pages, the *Handbook* includes more than 200 statistical tables that give you instant access to provincial and national market data. Featured are important economic indicators such as the Gross Domestic Product, Labour Force Productivity, Private and Public Investment and the Consumer Price Index.

Order your copy of the *Market Research Handbook* (Catalogue #63-2240XPB) today for only \$110 in Canada plus \$7.70 GST, US\$132 in the United States, and US\$154 in other countries.

**CALL TOLL-FREE 1-800-267-6677 OR FAX (613)951-1584** and use your VISA or MasterCard. **OR MAIL** your order to: Statistics Canada, Marketing Division, Sales and Service, 120 Parkdale Avenue, Ottawa, Ontario, K1A 0T6, or contact the nearest Statistics Canada Regional Office listed in this publication.

- ✓ Dégagez les nouvelles tendances
- ✓ Définissez les nouveaux marchés
- ✓ Déterminez les possibilités de profit

**P**our maintenir votre place sur le marché de demain, vous devez être en mesure de prévoir les tendances aujourd'hui. Pour ce faire, vous devrez comprendre les habitudes d'achat sur le marché canadien.

Renfermant un profil complet des consommateurs canadiens ainsi qu'une analyse approfondie des industries canadiennes, le *Recueil statistique des études de marché* brosse un tableau exhaustif des habitudes d'achat. Ce précieux best-seller peut vous faire découvrir de nouveaux marchés en vous fournissant les détails suivants :

- ▶ les revenus des Canadiens et leurs dépenses pour la voiture, le loyer, les appareils de divertissement et les appareils ménagers;
  - ▶ le niveau des ventes dans les magasins de détail à succursales et les grands magasins;
  - ▶ les biens échangés entre le Canada, les É.-U. et d'autres pays;
  - ▶ les données du recensement telles que l'âge, le sexe, le niveau de scolarité, les ménages, le chômage, la migration interprovinciale et internationale
- ...et bien plus encore!

Le *Recueil*, contenant plus de 600 pages et au delà de 200 tableaux statistiques, vous permettra d'accéder instantanément aux données provinciales et nationales sur le marché. Il traite d'indicateurs économiques importants tels que le produit intérieur brut, la productivité de la population active, les investissements privés et publics et l'Indice des prix à la consommation.

Procurez-vous votre exemplaire du *Recueil statistique des études de marché* (n° 63-2240XPB au catalogue) dès aujourd'hui pour seulement 110 \$ au Canada plus 7.70 \$ de TPS, 132 \$ US aux États-Unis et 154 \$ US dans les autres pays. Commandez votre exemplaire **PAR TÉLÉPHONE EN COMPOSANT SANS FRAIS** le 1-800-267-6677 **OU PAR TÉLÉCOPIEUR** au (613) 951-1584 et utilisez votre carte VISA ou MasterCard, **OU PAR LA POSTE** à l'adresse suivante : Statistique Canada, Division du marketing, Vente et service, 120, av. Parkdale, Ottawa (Ontario) K1A 0T6, ou communiquez avec le bureau régional de Statistique Canada le plus près dont la liste figure dans la présente publication.

## GENERAL INFORMATION

Confidential when completed

The collection of this information is authorized by the Statistics Act, Revised Statutes of Canada, 1985, Chapter S19.

To avoid duplication of enquiry and to provide consistent statistics, this survey is being conducted under cooperative agreements, made in accordance with the Statistics Act, Revised Statutes of Canada, 1985, Chapter S19 under Section 11 for the exchange of information with the Manitoba Bureau of Statistics, the Saskatchewan Bureau of Statistics and the British Columbia Central Statistics Bureau for respondents in each of the respective provinces, and under Section 12 for joint collection and sharing information with the Northwest Territories Bureau of Statistics and the Canada Mortgage and Housing Corporation.

Agreements coming under Section 12 of the Canada Statistics Act shall not apply to any respondent who give notice in writing to the Chief Statistician that he/she objects to the sharing of the information.

Results of this survey will enable Statistics Canada (STC) to estimate residential and non-residential construction activity at various geographical level. The latter are published monthly in Catalogue 64-001 and annually in Building Permits – Annual Summary, Catalogue 64-203.

PLEASE REFER TO THE SURVEY REPORTING GUIDE AND SELF CODING GUIDE WHEN COMPLETING YOUR REPORT. Additional copies of these guides are available from our STC regional representative.

## RENSEIGNEMENTS GÉNÉRAUX

Confidentiel une fois rempli

La collecte de cette information est autorisée par la Loi sur la statistique, Lois révisées du Canada, 1985, chapitre S19.

Afin d'éviter tout chevauchement des enquêtes et de fournir des statistiques uniformes, Statistique Canada mène cette enquête aux termes d'accords conjoints conclus en vertu de l'article 11 de la Loi sur la statistique, Lois révisées du Canada, 1985, chapitre S19 pour l'échange de renseignements avec le «Manitoba Bureau of Statistics», le «Saskatchewan Bureau of Statistics» et le «British Columbia Central Statistics Bureau» pour les répondants de ces différentes provinces, et en vertu de l'article 12 pour le rassemblement conjoint et l'échange de renseignements avec le «Northwest Territories Bureau of Statistics» et la Société canadienne d'hypothèques et du logement.

Les accords aux termes de l'article 12 de la Loi sur la statistique ne s'appliquent pas aux répondants qui s'opposent à l'échange de renseignements dans une lettre jointe au questionnaire dûment rempli et adressé au statisticien en chef du Canada.

Les résultats de cette enquête permettront à Statistique Canada (SC) d'estimer l'activité de la construction résidentielle et non résidentielle à différents niveaux géographiques. Ces derniers sont publiés mensuellement dans Permis de bâti, n° 64-001 au catalogue et annuellement dans Permis de bâti – Sommaire annuel, n° 64-203 au catalogue.

VEUILLEZ CONSULTER LE GUIDE DE DÉCLARATION DE L'ENQUÊTE ET LE GUIDE POUR AUTOCODAGE POUR COMPLÉTER VOTRE RAPPORT. Des copies supplémentaires sont disponibles auprès du représentant régional de SC

**CONFIDENTIALITY**

Statistics Canada is prohibited by law from publishing any statistics which would divulge information obtained from this survey that relates to any identifiable business, without the previous written consent of that business. The data reported will be treated in strict confidence, used for statistical purposes and published in aggregate form only. The confidentiality provisions of the Statistics Act are not affected by either the Access to Information Act or any other legislation.

La loi interdit à Statistique Canada de publier des statistiques recueillies au cours de cette enquête qui permettraient d'identifier une entreprise sans que celle-ci en ait donné l'autorisation par écrit au préalable. Les données déclarées resteront confidentielles, serviront exclusivement à des fins statistiques et seront publiées uniquement sous forme agrégée. Les dispositions de la Loi sur la statistique qui traitent de la confidentialité ne sont modifiées d'aucune façon par la Loi sur l'accès à l'information ou toute autre loi.

**CONFIDENTIALITÉ**

Please complete and return this form no later than 10 days after the end of the reporting period. Using the envelopes provided, send one copy to the nearest Statistics Canada Regional Office and one to the local office of the Canada Mortgage and Housing Corporation.

Veuillez compléter et retourner ce formulaire au plus tard 10 jours après la fin de la période visée. On vous demande de faire parvenir dans les enveloppes fournies, une copie au bureau régional de Statistique Canada et une au bureau local de la Société canadienne d'hypothèques et de logement.

**MAILING INSTRUCTIONS**

**DIRECTIVES DE RENVOI**

Please complete and return this form no later than 10 days after the end of the reporting period. Using the envelopes provided, send one copy to the nearest Statistics Canada Regional Office and one to the local office of the Canada Mortgage and Housing Corporation.

# Pick a topic... any topic

The *1994 Statistics Canada Catalogue* is your guide to the most complete collection of facts and figures on Canada's changing business, social and economic environment. No matter what you need to know, the **Catalogue** will point you in the right direction.

From the most popular topics of the day - like employment, income, trade, and education - to specific research studies - like mineral products shipped from Canadian ports and criminal victimization in urban areas - you'll find it all here.

... the *1994 Statistics Canada Catalogue* will help you get your bearings...

The **Catalogue** puts all this information at your fingertips. With the expanded index, you can search by subject, author or title - even periodical articles are indexed. There's also a separate index for all our electronic products.

The **Catalogue** has everything you need to access all Statistics Canada's products:

- descriptions of over 25 new titles, plus succinct abstracts of the over 650 titles and 7 map series already produced;
- a complete guide to finding and using statistics;
- electronic products in a variety of media, and

advice on getting expert assistance on electronic products and on-line searches;

■ tabs to each section - so you can immediately flip to the information you need.

#### ... time and time again

To make sure that the **Catalogue** stands up to frequent use, we used a specially coated cover to prevent broken spines, tattered edges and dog-eared corners.

Order today - you'll be lost without it.

# Choisissez un sujet... n'importe lequel

#### Le *Catalogue de Statistique Canada 1994*

est votre guide pour la collection la plus complète de faits et de chiffres dans les domaines, en constante évolution, du commerce, de la société et de l'économie du Canada. Peu importe ce que vous voulez savoir, le **Catalogue** vous mettra sur la bonne piste.

Des sujets actuels les plus populaires - comme l'emploi, le revenu, le commerce et l'éducation - à des études de recherche spécialisées - comme les produits minéraux expédiés des ports canadiens et la victimisation dans les régions urbaines - vous trouverez tout dans ce document.

Le *Catalogue de Statistique Canada 1994* vous aidera à vous orienter...

Le **Catalogue** vous met tous ces renseignements sous la main. L'index augmenté vous permet de chercher par sujet, auteur ou titre - les articles de périodiques sont même indexés. On a aussi ajouté un index séparé pour tous nos produits électroniques.

Le **Catalogue** a tout ce qu'il vous faut pour vous procurer les produits de Statistique Canada :

- descriptions de plus de 25 nouveaux titres et courts résumés des 650 titres et plus et des 7 séries de cartes déjà disponibles;
- guide complet pour obtenir et utiliser les données statistiques;
- produits électroniques sur supports divers et

conseils sur l'obtention d'aide d'experts pour les produits électroniques et les recherches en direct;

■ système d'onglets pour chaque section - pour que vous puissiez immédiatement repérer les renseignements qui vous intéressent.

#### ... maintes et maintes fois

Pour garantir que le **Catalogue** puisse résister à une utilisation fréquente, nous avons utilisé une couverture avec un revêtement spécial conçu pour éviter les dos cassés, les bords abimés et les coins de page pliés.

Commandez aujourd'hui - vous ne pourrez plus vous en passer.

# Are you getting your information on the Canadian economy "first-hand"?

Chances are, you spend hours reading several newspapers and a handful of magazines trying to get the whole economic picture – only to spend even more time weeding out fiction from fact! Wouldn't it be a great deal more convenient (and much more effective) to go straight to the source?

Join the thousands of successful Canadian decision-makers who turn to Statistic Canada's *Canadian Economic Observer* for their monthly briefing. Loaded with first-hand information, collectively published nowhere else, CEO is a quick, concise and panoramic overview of the Canadian economy. Its reliability and completeness are without equal.

## A single source

Consultations with our many readers – financial analysts, planners, economists and business leaders – have contributed to CEO's present, widely-acclaimed, two-part format. The **Analysis Section** includes thought-provoking commentary on current economic conditions, issues, trends and developments. The **Statistical Summary** contains the complete range of hard numbers on critical economic indicators: markets, prices, trade, demographics, unemployment and more.

More practical, straightforward and user-friendly than ever before, the *Canadian Economic Observer* gives you more than 150 pages of in-depth information in one indispensable source.

## Why purchase CEO?

As a subscriber, you'll be directly connected to Statistics Canada's economic analysts – names and phone numbers are listed with articles and features. You'll also receive a copy of CEO's annual **Historical Statistical Supplement – at no additional cost**.

So why wait for others to publish Statistics Canada's data second-hand when you can have it straight from the source? Order your subscription to the *Canadian Economic Observer* today.

---

The *Canadian Economic Observer* (catalogue no. 10-2300XPB) is \$220 annually in Canada, US\$260 in the United States and US\$310 in other countries. Highlights of the *Canadian Composite Leading Indicator* (catalogue no. 11F0008XFE) are available by fax – the same day of release – for \$70 annually in Canada and US\$70 in the United States.

To order, write to: Statistics Canada, Marketing Division, Sales and Service, 120 Parkdale Avenue, Ottawa, Ontario, K1A 0T6 or contact the nearest Statistics Canada Reference Centre listed in this publication. If more convenient, fax your order to 1-613-951-1584 or call toll-free 1-800-267-6677 and use your VISA or MasterCard.

# R ecevez-vous directement vos informations sur l'économie canadienne?

Il est probable que vous passez des heures à lire plusieurs journaux et un paquet de revues pour essayer d'avoir une vue complète de la situation économique, et ensuite passer encore plus de temps à séparer le réel de ce qui ne l'est pas. Ne serait-il pas plus pratique (et beaucoup plus efficace) de remonter directement à la source?

Joignez-vous aux milliers de décideurs canadiens gagnants qui lisent *L'Observateur économique canadien* pour leur séance de rapport mensuelle. Rempli de renseignements disponibles nulle part ailleurs, L'OEC permet d'avoir une vue générale rapide et concise de l'économie canadienne. Il est inégalé par sa fiabilité et son exhaustivité.

## Une seule source

Les consultations que nous avons eues avec nos nombreux lecteurs, des analystes financiers, des planificateurs, des économistes et des chefs d'entreprise, nous ont permis de présenter L'OEC dans son format actuel en deux parties, qui a été bien accueilli. La **section de l'analyse** contient des commentaires qui donnent à réfléchir sur la conjoncture économique, ses problèmes, ses tendances et ses développements. L'**aperçu statistique** contient l'ensemble complet des chiffres réels pour les indicateurs économiques essentiels : les marchés, les prix, le commerce, la démographie, le chômage, et bien d'autres encore.

Plus pratique, plus simple, plus facile à utiliser qu'auparavant, *L'Observateur économique canadien* vous offre plus de 150 pages de renseignements poussés sous une seule couverture.

## P ourquoi acheter L'OEC?

En tant qu'abonné à L'OEC, vous êtes directement relié aux analystes économiques de Statistique Canada : des noms et des numéros de téléphone sont cités dans les articles et les rubriques. Vous recevrez également un exemplaire du **Supplément statistique historique annuel à titre gracieux**.

Pourquoi devez-vous donc attendre que d'autres publient les données de Statistique Canada qu'ils ont reprises alors que vous pouvez les obtenir directement à la source? Abonnez-vous à *L'Observateur économique canadien* dès aujourd'hui.

---

Le prix de l'abonnement annuel à *L'Observateur économique canadien* (n° 10-2300XPB au catalogue) est de 220 \$ au Canada, de 260 \$ US aux États-Unis et de 310 \$ US dans les autres pays. Les faits saillants de l'**Indicateur composite avancé** (n° 11F0008XFF au catalogue) sont offerts par télécopieur – le jour même de leur parution – pour 70 \$ par année au Canada et 70 \$ US aux États-Unis.

Pour commander, écrivez à : Statistique Canada, Division du marketing, Vente et service, 120, av. Parkdale, Ottawa (Ontario) K1A 0T6, ou adressez-vous au Centre de consultation de Statistique Canada le plus proche de chez vous et dont la liste figure dans cette publication. Si vous le préférez, vous pouvez envoyer votre commande par télécopieur au 1-613-951-1584, ou téléphoner sans frais au 1-800-267-6677 et utiliser votre carte VISA ou MasterCard.
