TABLEAUX SOMMAIRES:

1. Importations par pays.....

2. Importations par sections des principaux pays.

TABLEAUX DETAILLES:

3. Importations par marchandises et pays:

1. **Source of Data:** Import documents collected by Canada Customs are the basic source of import statistics, except for data on imports of electricity, which are reported by the importing firms directly to Statistics Canada.
2. **Timing:** Import statistics for any month include goods declared on import entries received at Statistics Canada up to the last working day in the month. Generally speaking, compilation is based on a statistical month rather than a calendar month: e.g. imports of motor vehicles from the U.S.A. cover the period from the 26th of one month to the 25th of the following month. There could also be a lapse of up to a week in the receipt of documents from outlying customs posts. Electricity imports are included in statistics for the month following that in which these imports actually occurred.
3. **Coverage:** Import statistics include all goods which are cleared by Customs on arrival in Canada, together with goods which are entered into customs warehouses. The following commodity movements are excluded from import statistics (being however recorded separately as Special Transactions – Non-trade in Table 4): settlers' effects; private donations and gifts; tourist purchases exempt from duty; goods imported by foreign representatives in Canada or brought back by Canadians returning from postings abroad; temporary imports for exhibition or competition, including films. Bunker supplies and ships' stores purchased by Canadian vessels or aircraft abroad, temporary imports and goods merely moving in transit through Canadian territory are not reflected in any of the statistics.
4. **Classification:** Importers, when reporting to Revenue Canada, Customs and Excise, classify commodities according to the "Canadian International Trade Classification" (cf. Cat. 12-544, Statistics Canada). For publication purposes, in accordance with the confidentiality restrictions of the Statistics Act, a condensed classification is used. This classification, complete with a full description for each class, whose reproduction in a monthly publication is not feasible, is found in the "Trade of Canada Commodity Classification" (cf. Cat. 12-520E, Statistics Canada), which is distributed free on request to subscribers of "Imports by Commodities" (cf. Cat. 65-007, Statistics Canada). These classifications are based on the "Standard Commodity Classification" (cf. Cat. 12-502, Statistics Canada).
5. **Country and area of consignment:** Imports are classified to the country from which goods are consigned to Canada, except for goods originating in Central or South America but consigned to Canada from the United States. These goods are credited to the country of origin. Statistics are compiled and presented for the individual countries listed on page 8 of this report. A classification of countries with a statement of territorial limits used for statistical purposes will be found in the Merchandise Trade – Imports Cat. no. 65-203 – Exports Cat. no. 65-202. Amendments effective in any year are listed in the January report for that year. Effective January, 1976, the "principal trading areas" shown in some tables include new groupings which are defined below:

Other E.E.C.: Belgium, Denmark, France, Germany (F.R.), Ireland, Italy, Luxembourg, Netherlands (the U.K. is also a member of the E.E.C. but is shown separately because of the importance of its trade with Canada).

Other O.E.C.D.: Austria, Finland, Greece, Iceland, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, Australia, New Zealand. (The E.E.C. countries, United States, Japan and Canada are also members of O.E.C.D.-The Organization for Economic Cooperation and Development).

Other America: This group includes all countries and territories of North and South America (other than the United States and Canada) including Greenland, Bermuda and Puerto Rico.
1. **Source des données:** La statistique des importations se fonde principalement sur les documents d'importation recueillis par les Douanes du Canada, sauf dans le cas des importations d'électricité, qui sont déclarées directement à Statistique Canada par les compagnies importatrices.
2. **Périodes de temps:** La statistique des importations pour un mois quelconque comprend les marchandises déclarées dans les documents d'importation parvenus à SC durant ce mois, jusqu'au dernier jour ouvrable inclus. En général, le calcul est basé sur un mois fixé pour les besoins de la statistique plutôt que sur un mois civil: par ex. les importations de véhicules automobiles des Etats-Unis couvrent la période du 26 d'un mois au 25 du mois suivant. Il peut également y avoir un décalage d'une semaine avant l'arrivée des documents provenant des postes de douane éloignés. Les importations d'électricité sont comprises dans la statistique du mois suivant celui où elles ont effectivement eu lieu.
3. **Couverture:** La statistique des importations comprend toutes les marchandises dédouanées dès leur arrivée au Canada plus les marchandises entreposées à la douane. Les mouvements de marchandises suivants sont exclus de la statistique des importations (ils sont toutefois classés séparément comme Transactions spéciales-hors commerce, au tableau 4); les effets d'immigrants; les dons et cadeaux privés; les achats des touristes exempts de douane; les marchandises importées par des diplomates étrangers au Canada ou rapportées par les Canadiens rentrant de leur service à l'étranger; les importations provisoires pour des expositions ou des concours, y compris les films. Les approvisionnements de soute et de bord achetés à l'étranger par les navires et les avions canadiens, les importations provisoires et les marchandises ne faisant que passer par le territoire canadien, ne figurent dans aucune statistique.
4. **Classification:** Dans leurs déclarations à Revenu Canada, Douanes et Accise, les importateurs classent les marchandises d'après la "Classification canadienne pour le commerce international" (no. 12-544 au cat. de Statistique Canada). Dans nos publications, conformément aux restrictions de confidentialité énoncées dans la Loi sur la statistique, on utilise une version abrégée. Cette classification comprend une description complète de chaque catégorie et ne peut être reproduite dans une publication mensuelle. Les abonnés de la publication "Importations par marchandises" (no. 65-007 ou cat. de Statistique Canada) pourront donc obtenir sur demande et à titre gracieux la "Classification des marchandises pour le commerce du Canada" (no. 12-520F au cat. de Statistique Canada). Ces deux classifications se fondent sur la "Classification type des produits" (no. 12-502 au cat. de Statistique Canada).
5. **Pays et région de consignment:** Les importations sont classées selon le pays dans lequel elles ont été consignées à destination du Canada, sauf en ce qui concerne les marchandises provenant de l'Amérique centrale ou de l'Amérique du Sud qui sont expédiées au Canada par les Etats-Unis; ces marchandises sont attribuées au pays d'origine. Les données statistiques sont calculées et présentées pour chaque pays mentionné à la page 9 de la présente publication. Une classification des pays ainsi que l'exposé des limites territoriales employées aux fins de la statistique sont donnés dans le Commerce de Marchandises Importations no. 65-203 au cat.-Exportations no. 65-002 au cat. Les modifications apportées à une année quelconque paraissent dans le rapport de janvier de cette année-là. A partir de janvier 1976, les "marchés principaux" apparaissant dans certains tableaux comprennent les nouveaux groupements définis ci-dessous:

Autres C.E.E.: Allemagne (R.F.), Belgique, Danemark, France, Irlande, Italie, Luxembourg, Pays-Bas (le Royaume-Uni est aussi membre de la C.E.E. mais il est séparé dans les statistiques à cause de son importance dans le commerce du Canada).

Autres O.C.D.E.: Autriche, Espagne, Finlande, Grèce, Islande, Norvège, Portugal, Suède, Suisse, Turquie, Australie, Nouvelle-Zélande. (Les pays membres de la C.E.E., les Etats-Unis, le Japon et le Canada sont aussi membres de l'O.C.D.E. – l'Organisation pour la coopération et le développement économique.)

Autres Amérique: Cette catégorie comprend tous les pays et les territoires de l'Amérique du nord et du sud (sauf les Etats-Unis et le Canada), y compris le Groënland, les Bermudes et Porto Rico.

6. **Quantities:** Tables 3 and 4 show quantities, where available, in terms of the units listed on page 7 of this report. Measures of weight or volume generally exclude any packing required for shipment and numbers refer to complete (or substantially complete) units imported, excluding parts.
7. **Valuation:** Imports are generally recorded at the values established for Customs duty purposes according to the provisions of the Customs Act. Customs values are identical to selling prices for most arms-length transactions. However, Customs values exceed company transfer prices for most transactions between affiliated firms. (Beginning in 1970, imports of automotive products from the United States have been recorded at company transfer prices rather than Customs values.) Import documents are required to show values which exclude all transportation charges. Some imports from the United States are however purchased on a "delivered" basis and their prices therefore reflect an allowance for transportation costs.
8. **Abbreviations:** Designations of countries and commodities used in this report are often abbreviated or shortened. A key to abbreviations of countries appears on page 8 of this report, and comprehensive descriptions of commodities and commodity groups appear in the "Trade of Canada Commodity Classification" (cf. above). The letters "n.e.s." mean "not elsewhere specified".
9. **Revisions:**
- a. **Data for current month:** Statistics for the current month (i.e. the month which is subject of the report) in the "Preliminary Statement of Canadian Trade" and in the Summary of External Trade (65-001) have not been audited for reporting or processing errors with the exception of transactions of \$1,000,000 or more. Figures for the current month in Imports by Commodities (65-007), Exports by Commodities (65-004), Imports by Countries (65-006) and Exports by Countries (65-003) are fully audited.
- b. **Data for previous months of the current year:** Figures for previous months of the current year remain subject to revision until the reports for December have been published. Commodity/country subtotals revised by \$10,000 or more are shown in the monthly report 65-007 and 65-004 in the month following their application (e.g. report 65-007 for June will show data revised in May for the months January through April of the current year).
- c. **Monthly data for previous years:** Data for any year previous to the current year are subject to revision only in March of each year. Any monthly commodity/country figures revised at that time will be shown in the March issues of reports 65-007 and 65-004.
- Note:** Cumulative totals in all reports reflect all revisions applied up to the date of printing.
10. **Treatment of Confidential Information:** It is occasionally necessary to withhold publication of details where commodity or country information is known to involve disclosure. The suppression of commodity-by-country detail, however, affects neither class nor country totals, which include all transactions reported during the calendar month.
6. **Quantités:** Les tableaux 3 et 4 donnent les quantités, lorsqu'elles sont disponibles, exprimées dans les unités énumérées à la page 7 de ce bulletin. Les mesures de poids ou de volume excluent habituellement l'emballage nécessaire à la livraison et les nombres représentent le nombre d'articles complets (ou presque complets) importés, sans les pièces.
7. **Évaluation:** Les importations sont habituellement présentées selon les valeurs établies aux fins du prélèvement des droits de douane conformément aux dispositions de la Loi sur les douanes. Les valeurs des douanes sont identiques aux prix de vente dans le cas de la plupart des opérations entre parties indépendantes. Toutefois, les valeurs douanières dépassent les prix de transfert des sociétés dans le cas de la majorité des opérations entre entreprises affiliées. (À partir de 1970, les importations de produits de l'industrie automobile en provenance des États-Unis sont indiquées aux prix de transfert et non pas selon les valeurs fixées en douane.) Les valeurs déclarées dans les documents d'importation ne doivent pas comprendre les frais de transport. Certaines importations en provenance des États-Unis sont toutefois sur une base de livraison et leur prix englobe par conséquent les frais de transport.
8. **Abréviations:** Les noms de pays et de marchandises cités dans la présente publication sont souvent abrégés ou raccourcis. L'explication des abréviations des pays figure à la page 9 du présent rapport, tandis que les descriptions complètes des marchandises et des groupes de marchandises figurent dans la "Classification des marchandises pour le commerce du Canada," (mentionnée ci-dessus). Les lettres "n.d.a." signifient "non dénommé ailleurs".
9. **Rectifications:**
- a. **Données du mois courant:** Les statistiques du mois courant (c.-à-d. le mois visé dans la publication) figurant dans le "Communiqué préliminaire sur le commerce du Canada", le Sommaire du commerce extérieur (65-001) n'ont pas été vérifiées quant aux erreurs de déclaration et de traitement à l'exception des opérations d'au moins \$1,000,000. Les chiffres du mois courant dans Importations par marchandises (65-007), Exportations par marchandises (65-004), Importations par pays (65-006) et Exportations par pays (65-003) ont fait l'objet d'une vérification complète.
- b. **Données des mois précédents de l'année courante:** Les chiffres des mois précédents de l'année courante demeurent sujets à révision jusqu'à la parution des publications pour décembre. Les totaux rectifiés par \$10,000 ou plus au niveau de marchandise/pays figurent dans les publications mensuelles 65-007 et 65-004 du mois qui suit leur application (par ex., le numéro de juin de la publication 65-007 présentera les données qui ont été rectifiées en mai pour les mois de janvier à avril de l'année courante).
- c. **Données mensuelles des années précédentes:** Les données pour toute année antérieure à l'année courante sont sujettes à révision seulement en mars de chaque année. Les chiffres mensuels par marchandises/pays qui seront rectifiés à ce moment-là paraîtront dans les éditions de mars des publications 65-007 et 65-004.
- Nota:** Les totaux cumulatifs figurant dans toutes les publications prennent en compte toutes les rectifications apportées jusqu'à la date d'impression.
10. **Renseignements confidentiels:** Il est parfois nécessaire de supprimer le détail des données relativement à certaines marchandises ou à certains pays pour protéger le caractère confidentiel des données individuelles. La suppression du détail des marchandises par pays ne modifie toutefois pas les totaux par classe ou pays, qui comprennent toutes les opérations dont il a été fait rapport au cours du mois civil.

11 Notes on Sampling

Commencing January 1, 1975, documents of imports from the United States valued at less than \$2,500 each have been subject to a 10 per cent systematic sample to provide estimates for low-value imports from that country. Import documents from the U.S. exceeding \$2,500 and all import documents from other countries, regardless of value, continue to be processed and compiled by complete count.

All documents are stored into homogeneous commodity groupings according to tariff item information on the document. The low-value documents covering imports from the U.S. are selected from each commodity grouping and are subject to a systematic sample with a random start.

Once the document is selected through the sample procedure, the value, quantity and customs duty of each sample line are mechanically inflated by dividing by the sampling ratio. For example, if the sampling ratio were 1/10, all lines shown on the sampled documents would be multiplied by 10, and the estimates thus derived are included with the complete count statistics.

It should be noted that the aggregate value of low-value documents of U.S. imports accounts for 4 per cent to 5 per cent of the import total, (6 per cent to 8 per cent for imports from the U.S.) but accounts for some 55 per cent of all documents (some 70 per cent of documents for imports from the U.S.).

The estimated \$140 million a month of low-value U.S. imports is subject to a sampling variability of about 2/3 per cent. This means that there is a 1 in 3 chance of the estimated value differing from the "true" value by more than 2/3 per cent and a 1 in 100 chance of a difference of more than 1 2/3 per cent.

Estimates for individual commodity classes are of course subject to varying degrees of sampling variability. The closeness of individual estimation to "true" values also varies with the universe of documents selected for the particular class in any particular sample. While it is difficult to represent this in tabular form, readers should be aware that the odds against a particular estimate being close to the true value by a specified percentage increase quite rapidly as the universe of documents upon which the estimate is based decreases.

11. Notes sur La Méthode d'Echantillon

Depuis le 1er janvier 1975, on établit à partir d'un échantillon systématique de 10 p. 100 des documents concernant les importations d'une valeur inférieure à \$2,500 des estimations sur les marchandises de faible valeur importées des Etats-Unis. Les données sur les marchandises valant plus de \$2,500 importées des Etats-Unis et sur toutes les marchandises importées des autres pays, quelle qu'en soit la valeur, continueront d'être dépouillées et compilées exhaustivement.

Tous les documents sont répartis en groupes homogènes de marchandises, suivant les groupes du tarif douanier. Sur chaque groupe, on prélève les documents sur les marchandises de faible valeur importées des Etats-Unis et on procède à un sondage systématique dont le premier élément est choisi au hasard.

Pour chaque document sélectionné par sondage, on gonfle automatiquement la valeur, la quantité et les droits de douane figurant sur chaque ligne, en les divisant par le taux d'échantillonnage. Par exemple, si le taux d'échantillonnage est de 1/10, les données sur chaque ligne des documents sélectionnées sont multipliées par 10 et les estimations ainsi calculées sont incorporées aux résultats de la compilation exhaustive.

Il convient de noter que les documents sur les importations de faible valeur en provenance des Etats-Unis représentent de 4 p. 100 à 5 p. 100 de la valeur globale des importations (de 6 p. 100 à 8 p. 100 des marchandises importées des Etats-Unis), mais quelque 55 p. 100 de l'ensemble des documents (environ 70 p. 100 des documents sur les importations des Etats-Unis).

Vu qu'elle résulte d'un sondage, la valeur estimative des marchandises de faible valeur importées chaque mois des Etats-Unis (140 millions de dollars) peut varier d'environ 2/3 p. 100 par rapport à la valeur "réelle". Cela veut dire que, dans 1 cas sur 3, la valeur estimative diffère de la valeur réelle de plus de 2/3 p.100 et dans 1 cas sur 100 d'une différence de plus de 1 2/3 p.100.

La variabilité de sondage des estimations peut varier d'une catégorie de marchandises à une autre. L'écart entre chaque estimation et la valeur "réelle" varie également, dans tout sondage, en fonction de l'univers de documents sélectionné pour chaque catégorie. Il est difficile de représenter ceci sous forme de tableau, mais le lecteur ne doit pas oublier que le nombre de chances d'obtenir une estimation ne différant pas de la valeur réelle de plus de tel pourcentage diminue rapidement si l'univers de documents qui sert de base à l'estimation se restreint.

UNITS OF QUANTITY

7

BBL	Barrels	M C F	Thousand cubic feet
