CANADA'S FOREIGN TRADE, CALENDAR YEAR, 1928.

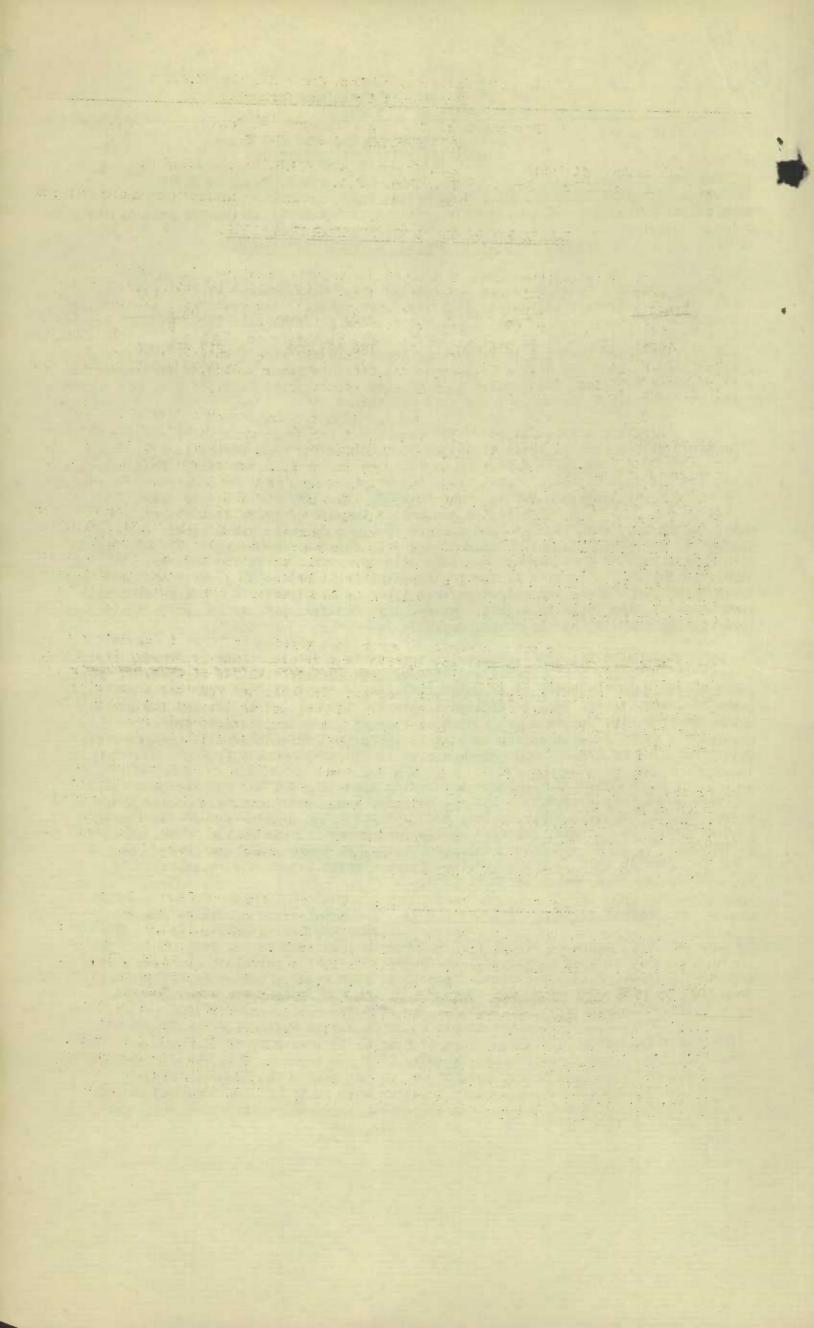

Canada's position among the leading commercial rations of the world in international trade continues to rank very high. World-wide statistics are not yet available for the calendar year 1928, but for the calendar year 1927, Canada cccupied fifth position in import and export trade; second position in exports and total trade per capita; third position in favourable trade balance, and first position in favourable trade balance per capita. Inasmuch as Canada's total trade for 1928 shows an increase of \$270,548,000, imports \$135,200,000, and exports \$135,348,000, her position in international trade in 1928 was well maintained.

During the calendar year 1928 Canada's total trade amounted to \$2,596,448,000, compared with a similar trade of \$2,325,900,000 for the same period in 1927, the increase, 1928 over 1927, amounting to \$270,548,000 or 11.6 per cent. This increase was greater than Canada's total trade thirty years ago. On two occasions, however, Canada's total trade was greater than in 1928, viz.: for the calendar years 1917 (\$2,639,726,000), and 1920 (\$2,598,568,000). Imports in 1928, amounting to \$1,222,318,000, were greater than for any previous calendar year, except for the year 1920 (\$1,336,921,000), while Canada's domestic exports, amounting to \$1,349,751,000, were also greater than for any previous calendar year, except for the year 1917 (\$1,547,341,000). In view of the great deflation in prices in some commodities that has taken place since the record periods 1917 and 1920, this is a truly remarkable achievement, and reflects a great expansion in Canadian production and in the growth of foreign markets for her varied products.

Allowing for price changes, however, the physical volume of Canada's total trade in 1928, for both imports and exports, was greater than for any previous year, the decrease in the total trade in 1928, compared with 1917 and 1920 being entirely due to lower average import and export prices. In fact, an adjustment for price changes in wheat exports along indicates that if the average export price for this commodity in 1928 had been the same as in 1917, the Dominion's total trade would have totalled \$3,027,654,000 compared with \$2,639,726,000 in 1917.

The outstanding feature in Canadian trade in 1928 was the enormous increase in her wheat exports. For the calendar year 1928, total exports of wheat reached 365,428,561 bushels, value, \$433,767,578, the largest twelve months period on record. The largest previous yearly record was for the twelve months ended September 30, 1924, when the total was 294,158,561 bushels, valued at \$301,656,684. The increase in 1928 over the previous largest wheat export was, quantity, 71,270,000 bushels, value, \$132,110,894.

Analysis of Canada's Trade, 1928: The total trade of Canada for the calendar year 1928 was valued at \$2,596,448,000, compared with \$2,325,900,000 in 1927, and \$2,292,281,000 in 1926; the increase over 1927 amounting to \$270,548,000 or 11.6 per cent, and over 1926 to \$304,167,000 or 13.2 per cent. Imports in 1928 were valued at \$1,222,318,000, compared with \$1,087,118,000 in 1927, and \$1,008,342,000 in 1926; increase over the year 1927 amounting to \$135,200,000 or 12.4 per cent, and over 1926 to \$213,976,000 or 21.2 per cent. Export trade (domestic and foreign combined) in 1928 was valued at \$1,374,130,000; in 1927 at \$1,238,782,000, and in 1926 at \$1,283,939,000; the increase over the year 1927 amounting to \$135,348,000 or 10.9 per cent, and over 1926 to \$90,191,000 or 7.0 per cent. The domestic exports of Canada in 1928 amounted to \$1,349,751,000; in 1927 to \$1,218,337,000; and in 1926 to \$1,268,582,000; the increase over 1927 amounting to \$131,414,000 or 10.7 per cent, and over 1926 to \$81.169,000 or 6.4 per cent.

Trade Balances: On December 31, 1920, Canada's visible trade balance was unfavourable, amounting to \$34,116,000. Since then it has been favourable. During the past three years there has been a substantial decline in the favourable trade balance, until on December 31, 1928, it was \$151,812,000, compared with \$392,905,000 three years ago. This decline is due in part to lower prices received for staple products exported. During the past eight calendar years the trade balances with (a) All countries; (b) the United Kingdom; and (c) the United States, were as under:

Calendar Years	(a)	Favourable With All Countries	(b)	Favourable With United Kingdom	(c)	Unfavourable With United States
1921 1922 1923 1924 1925 1926 1927 1928		17,216,000 135,769,000 125,499,000 262,467,000 392,905,000 275,597,000 151,664,000 151,812,000		186,693,000 238,768,000 207.410,000 239,570,000 331,095,000 295,750,000 229,498,000 257,171,000		217,568,000 158,338,000 177,484,000 101,519,000 97,430,000 190,855,000 215,719,000 312,049,000

Duty Collected: During the year ended December 31, 1928, the duty collected on imports amounted to \$192,266,000, as compared with \$168,303,000 for the same period in 1927; \$155,166,000 in 1926; \$137,858,000 in 1925; \$124,163,000 in 1924; \$136,065,000 in 1923; \$132,172,000 in 1922; and \$117,693,000 in 1921. The duty collected for 1928 exceeded that collected for any calendar year period, except for the year 1920 when it amounted to \$203,029,000. The average ad valorem rate on total imports for each of the past nine calendar years was: 1920, 15.2%; 1921, 14.7%; 1922, 17.3%; 1923, 15.1%; 1924, 15.2%; 1925, 15.5%; 1926, 15.4%; 1927, 15.5%; and 1928, 15.7%.

The imports from foreign countries during the Trade by Countries, 1928: calendar year 1928 were valued at \$968,204,000, and from the British Empire at \$254,114,000; the increase in 1928 over the same period in 1927, in the case of foreign countries being \$121,475,000, and the British Empire \$13,725,000: while the exports of Canadian produce to foreign countries amounted to \$804,297,000, and to the British Empire to \$545,454,000; the exports to foreign countries showing an increase of \$85,979,000, and to the British Empire an increase of \$45,435,000. From 1927 to 1928 the imports from foreign countries, except the United States, increased \$2,958,000, and from the British Empire, except the United Kingdom, \$5,093,000; while the exports to foreign countries, except the United States, increased \$68,015,000, and to the British Empire, except the United Kingdom, \$8,850,000. The exports to the United States, from 1927 to 1928, increased \$17,964,000, while the exports to other foreign countries during the same period increased \$68,026,000. The trade of Canada, both import and export, with the United States, exceeds that with any other country. In 1928 imports from the United States were valued at \$825,741,000, and domestic exports at \$492,541,000; the increase in imports over 1927 being \$118,517,000, and in exports \$17,964,000. The trade of Canada with the United Kingdom comes next in importance. Imports from the United Kingdom in 1928 amounted to \$190.712,000, and domestic exports to \$446,137,000; the increase in imports over 1927 amounting to \$8,632,000, and in exports to \$36,585.000. Imports from and exports to Germany, the Netherlands, Japan, France and Belgium, from 1927 to 1928 show increases. Imports in order of importance were: France, \$26,940,000, increase \$387,000; Germany, \$19,887,000, increase \$3,084,000; Japan, \$12,818,000, increase \$978,000; Belgium, \$11,767,000, increase \$1,583,000; and the Netherlands, \$8,982,000, increase \$573,000; while the exports to the same countries were: the Netherlands, \$48,430,000, increase \$21,119,000; Germany \$45,626,000, increase \$21,119,000; Germany crease \$5,445,000; Japan, \$38,675,000, increase \$9,046,000; Belgium, \$27,731,000, increase \$9,662,000; and France, \$14,321,000, increase \$2,618,000. For further information as to total trade with other principal countries see the following table.

Canada's Trade with Principal Countries, 1928.

Note: Countries arranged in order of importance.

1928, amounting to \$135,200,000, occurred in each of the nine main groups, while the increase in the domestic exports group, amounting to \$131,414,000, occurred in six of the main groups. The total increase for the six main export groups that had increases amounted to \$134,213,000, while the decrease in the three that had decreases totalled \$2,799,000. The import groups arranged in order of importance of increases were: (1) Iron and Its Products, \$322,959,000, increase \$74,807,000; (2) Fibres, Textiles and Textile Products, \$201,748,000, increase \$18,256,000; (3) Non-Ferrous Metals and Their Products, \$68,939,000, increase \$9,743,000; (4) Animals and Animal Products, \$70,213,000, increase \$6,906,000; (6) Non-Metallic Minerals and Their Products and Paper, \$57,319,000, increase \$6,768,000; (7) Chemicals and Allied Products, \$36,964,000, increase \$3,651,000; (8) Miscellaneous Commodities, \$65,742,000, increase \$2,938,000; and (9) Agricultural and Vegetable Products, \$236,261,000, increase \$2,745,000. The six domestic export groups which had increases, arranged in order of importance, were: (1) Agricultural and Vegetable Products, \$651,078,000, increase \$104,784,000; (2) Non-Ferrous Metals and Their Products

Imports for Canadian Industries, 1928: An analysis of the statistics in the following table showing "Imports of Sixty-Three Leading Commodities for Canadian Industries" (calendar year 1928) indicates that the increase in Canada's imports, 1928 over 1927, amounting to \$135,200,000, was only partially due to increased imports of raw materials. While the value of the imports of raw, semi-mamufactured and fully mamufactured products for Canadian industries in 1928 amounted to \$386,032,000, as against \$355,186,000 in 1927, increase \$30,392,000; the proportion of the imports of raw materials of this amount totalled \$186,458,000, semi-mamufactured products \$88,132,000, and fully mamufactured products \$111,442,000; the increase in 1928 over 1927 being: raw materials \$6,615,000; semi-mamufactured products \$318,000; and fully mamufactured products \$22,959,000. The percentages of the increase of imports in 1928 of commodities mentioned for Canadian industries were: raw materials, 21.8%; semi-mamufactured products, 2.7%; and fully mamufactured products, 75.5%.

A further analysis will show that thirty-nine of the sixty-three commodities listed show increases in value, and twenty-four show decreases, while thirty-one of the forty-eight commodities, for which there are quantity statistics, show increases, and seventeen show decreases. Of the forty-eight commodities for which there are quantity statistics, nine show decreases in the quantity imported, and increases in the value, viz.: raw rubber, automobile engines, tin plate, alumina, manila and sisal grass, tin in blocks, etc., raw cocoa, oxide of manganese, and silica sand for industries; while six show decreases in the quantity imported, and increases in the value, viz.: raw cotton, raw hides, raw wool, wool tops, gums and resins, and ores of metals. Of the fifteen commodities entered at value only, eleven show increases and four decreases. The following table gives more detailed information as to the imports of commodities for Canadian industries, with increase or decrease, 1928 compared with 1927.

The seal that the The property of the control of the c
