Vol. 10

No. 3.

SALES AND PURCHASES OF SECURITIES BETWEEN CANADA AND OTHER COUNTRIES

March, 1944.

Net sales of securities by Canada to other countries increased to \$10.7 million in March compared with \$7.5 million in February and \$6.1 million in January. Sales of Canadian bonds to the United States continued to be the predominant element in the import of capital.

Sales of Canadian bonds to the United States accounted for \$9.8 million of the net sales of all securities to the United States of \$11.4 million. The demand for provincial issues, evident in earlier months of the year, increased with net sales of provincial issues amounting to \$4.3 million. Sales of corporation bonds of \$2.0 million also were higher than previously, as were net sales of municipals of \$1.9 million. Net sales of Dominion issues were \$1.0 million and sales of Dominion guarantees of \$0.8 million were the lowest in a number of months. Unguaranteed railway issues, in contrast to previous months during the year, were repurchased on balance. Canadian stocks were also repurchased while net sales of United States stocks amounted to \$2.0 million.

Net repurchases of securities of \$1.2 million from the United Kingdom were distributed among Canadian bonds and stocks.

While the volume of transactions with other countries expanded in March the net sales of \$0.5 million were comparable with previous months.

In the first three months of 1944 net sales of securities to all countries were \$24.3 million compared with \$39.3 million in the same quarter of 1943. This decline is principally due to the lower sales of Canadian bonds which amounted to \$21.7 million on balance in 1944 compared with \$31.6 million in the corresponding quarter of 1943. Sales of United States securities were also smaller in 1944 while there were repurchases of Canadian stocks in 1944 compared with net sales of stock in 1943.

The net index numbers of common stock prices in Canada declined slightly while the United States index increased. The mid month prices of the government bonds shown in Table 4 continued to be relatively stable. The official buying and selling rates for foreign exchange remained at the levels fixed in September, 1939.

The international trade in securities shown by statistics in this bulletin was carried on through the medium of the investment dealers, stock exchanges, banks, Canadian branches of United States houses and other agencies in Canada. It should be noted that certain types of international security transactions are not included in these statistics. Besides some transactions carried on directly outside of Canada independently of the reporting agencies the most important group of security transactions not included are the redemption of called or matured Canadian bonds owned abroad and official repatriation operations. For a period of years, retirements of Canadian bonds owned outside of Canada have exceeded flotations of new issues abroad by substantial amounts. Statistics of these capital movements are included in the annual reports of the Canadian Balance of International Payments.

This Bureau is co-operating in the conservation of paper on account of the present critical shortage thereof. If this bulletin is not needed by you, please notify the Dominion Statistician and your name will be removed from our mailing list.

\$1.00 a year; single copies 10 cents.

+ All prices are quoted on an "and interest" basis. The price of the United Kingdom War Loan has been adjusted from the "flat" basis on which it is quoted in London.

x Yield on a comparable taxable security which would give an equivalent net return to holders who were subject to income tax at the flat corporation rates. This rate was 16½% to December 31, 1939; 18% to June, 1940; and 20.9% in July, August and September; and 24% in October and thereafter.
