SALES AND PURCHASES OF SECURITIES

BETWEEN CANADA AND OTHER COUNTRIES

Although the volume of trading in outstanding securities between Canada and other countries in November remained at the same level as the previous month, the sales balance was larger and resulted in a net capital inflow of \$10.6 million. Canadians repurchased outstanding Canadian bonds and debentures in contrast to the sales balances of the two preceding months, but were again, on balance, sellers of Canadian common and preference stocks as has been the case for each month since the end of 1953, with the exception of October.

Trade with the United States during the month resulted in a sales balance or capital import of \$6.2 million. This sales balance is the largest recorded since April 1955. Net sales of Government of Canada and municipal issues more than offset net repurchases recorded for provincial and corporation issues, to leave a sales balance of \$0.5 million. Transactions in Canadian common and preference stocks resulted in a sales balance of \$1.4 million. The largest part of the capital import came from the net sale of \$4.3 million of foreign securities, of which \$3.9 million represented United States common and preferences stocks. This development may have been related to the sharp recovery which occurred in stock prices in the United States and the reduced discount on the United States dollar.

Trading with the United Kingdom resulted in a sales balance of \$2.9 million, representing mainly Canadian securities. A sales balance of \$1.4 million was also recorded for other overseas countries and although there were net repurchases of Canadian bonds and debentures, these were not sufficient to offset net sales of more than \$5 million of Canadian common and preference stocks.

During the eleven month period of 1955, the net capital outflow amounted to \$18 million in contrast to the inflow of \$63 million recorded for the same period of 1954. Net sales of outstanding Canadian stocks continued to increase, amounting in the eleven months to more than \$140 million, compared with \$121 million recorded for the whole of 1954. Net repurchases of Canadian bonds and debentures, mainly Government of Canada direct and provincial issues, reached almost \$180 million, a significant amount when compared to the \$66 million repurchase balance recorded for the whole of 1954.

Statistics in this bulletin cover transactions in outstanding securities reported by investment firms, stocks exchanges, and other security dealers in Canada. Not included are sales of new issues and retirements of called or matured securities, security transactions of a short-term character analogous to changes in bank balances, and some transactions by other than reporting agencies. More complete statistics of capital movements will be found in the annual and quarterly reports on THE CANADIAN BALANCE OF INTERNATIONAL PAYMENTS.

Prepared in the Balance of Payments Section, International Trade Division.
