## NOV 161956

SALES AND PURCHASES OF SECURITIES
Price: $\$ 1.00$ per year, $10 \neq$ per copy.

## BETWEEN CANADA AND OTHER COUNTRIES

## Security Transections - Third Quarter, 1956

Transactions in Canadian securities during the third quarter of 1956 led to a capital inflow of $\$ 245$ million, bringing the nine-month total to a record $\$ 554$ mililion. The quarterly infiows in both the second and third quarters were exceeded only in the third quarter of 1950 . The movement included $\$ 69$ million from the net sale of Canadian stocks and bonds and $\$ 200$ million from the sale to non-residents of new issues less $\$ 24$ million of Canadian securities owned by non-residents which were retired.

Net sales to non-residents of outstanding Canadian stocks reached a new level of $\$ 77$ million in the third quarter, rising by $\$ 15$ million over the previous record established in the second quarter. While the balance of $\$ 25$ million with the United States was some $\$ 10 \mathrm{~m} 11110$ below the second quarter cotal, the balance with the United Kingdom more than doubled, reaching an impressive $\$ 34$ mililon, while transactions with other over= seas countries also led to a sharply increased inflow of $\$ 18$ million. Net sales for nine months totalled $\$ 171$ million, comprising $\$ 84$ million to the United States, $\$ 52$ mililon to the United Kingdom, and $\$ 35$ million to other countries. Trading in other outstanding Canadian securities, mainly bonds and debentures, led to net repurchases during the quarter of $\$ 8$ million, net sales of $\$ 3 \mathrm{million}$ and $\$ 5$ million to the United kingdom and to other overseas countries having partly offset net repurchases of $\$ 16$ million from the United States.

Figures and comments covering new issues and retirements of Canadian securities appear on page 8.
Transactions in foreign securities led to a small capital inflow of $\$ 5$ million during the quarter. Canadians sold on balance $\$ 9$ million of outstanding issues but purchased $\$ 4$ million of new issues.

Trade in Outstanding Securities - September. 1956
The net capital inflow from trade in all outstanding securities during September was $\$ 23.5$ million, compared with $\$ 27.7$ milion in August. Sales of Canadian securities were somewhat higher than in August, but there was a sharp reduction in net sales by Canadians of United States stocks.

Statistics on pages 2 to 7 of this bulletin cover transactions in outstanding securities reported by investment firms, stock exchanges, and other security dealers in Canada. Not included are sales of new issues and retirements of called or matured securities, security transactions of short-term character analogous to changes in bank balances, and some transactions by other than reporting agencies. More complete statistics of capital movements will be found in the annual and quarterly reports on The Canadian Balance of International Payments.

Prepared in the Balance of Payments Section, International Trade Division.

Bonds and debentures:
Government of Canada, direct .........

The proceeds of new issueg sold to non-residents during the third quarter were the highest since quarterly series were comenced in 1950. Residents of the Uaited States bought about 85 per cent of the total. Approximately 70 per cent of the new bonds and debentures sold to non-residents during the quarter were payable solely or optionally in foreign currencies.
