## Security Transactions - First Quarter, 1957

Portfolio security transactions between Canada, and other countries during the first quartex of 1957 led to a sales balance of $\$ 232$ million. The net inflow of capital to Canada from such transactions has now exceeded $\$ 200$ million for four successive quarters. The balance during the first three months of this year included a record of $\$ 248$ million from the sale to non-residents of new Canadian issues and \$4l million from the net sale of outstanding Canadian stocks and bonds less $\$ 43$ million retirements of Canadian securities held by non-residents and $\$ 14$ million net purchases of forej securities. Details of the new issues and retirements appear on the final page of this report.

Transactions in outstanding Canadian securities resulted in a sales balance of $\$ 41$ milliort. Capital inflows of $\$ 34$ million and $\$ 15$ million were recorded from transactions with the United Kingdom and other countries respectively, while trading with the United States led to a repurchase balance or capital outflow of $\$ 8$ million. United Kingdom investors bought, on balance, $\$ 27$ million of outstanding Canadian common and preference stocks during the quarter and residents of the United States and other countries increased their holdings by $\$ 8$ million each. Repatriation through trading in outstanding Canadian bonds, debentures, etc. continued during the first quarter although at a reduced rate. Net repurchases from residents of the United States amounted to $\$ 16$ million but Canadians continued to sell securities to residents of overseas countries, as has been the case since the first quarter of 1956 . The trading in bonds and debentures reflected net sales of $\$ 2.5$ million of municipal and $\$ 10.0$ million of corporation issues while net repurchases were recorded for all other classes of funded debt.

Transactions in foreign securities led to a net capltal outflow of $\$ 14$ million during the quarcer. This included a purchase balance of $\$ 11$ million outstanding issues which is the largest since that reported in the first quarter of 1956 when trading was significantly influenced by the participation by Canadians in a public redistribution of stock of a United States corporation. The outflow during the first quarter of 1957 covers mainly the acquisition by Canadlans of $\$ 8$ million United States bonds and debentures and $\$ 4$ million United States stocks.

## Trade in Outstanding Securities - March, 1957

Trading in outstanding securities between Canada and other countries during March resulced in a capital inflow of $\$ 12$ million. Transactions in Canadian securities led to a sales balance of $\$ 16.5$ million but a purchase balance from trade in foreign securitles reduced this capital inflow by $\$ 4.5$ million. There were net purchases of $\$ 3.8$ million from the United States but net sales of $\$ 13.1$ miliion and $\$ 2.7$ million to the United Kingdom and other countries respectively.

Statistics on pages 2 to 7 of this bulletin cover transactions in outstanding securities reported by investment firms, stock exchanges, and other security dealers in Canada. Not included are sales of new issues and retirements of called or matured securtties, security transactions of a short-term character analogous to changes in bank balances, and some transactions by other than reporting agencies. More complete statistics of capital movements will be found in the annual and quarterly reports on The Canadian Balance of International Payments.
