SALES AND PURCHASES OF SECURITIES

BETWEEN CANADA AND OTHER COUNTRIES

A substantial sales balance or capital import occurred from trade in outstanding securities between Canada and other countries during May, 1958. There were net sales of \$14.5 million to the United States, \$1.5 million to the United Kingdom, and \$0.9 million to other overseas countries. The net sales balance of \$16.9 million compared with a repurchase balance or capital export of \$4.4 million in April.

Most of the net sales were Canadian securities. The total of \$15.2 million included \$8.9 million of outstanding Canadian bonds and debentures, and \$6.4 million of Canadian common and preference stocks. There were net sales of \$12.7 million of Government of Canada direct issues probably related to the new financing carried out in Canada in this month, but there were repurchases of some \$4 million of outstanding provincial issues. The net sales of Canadian bonds included \$6.1 million to the United States, \$1.5 million to the United Kingdom and \$1.4 million to other countries. Net sales of outstanding Canadian stocks to the United States amounted to \$6.5 million but the balance with the United Kingdom was negligible and there were net repurchases from other overseas countries.

Trade in outstanding foreign issues led to a resales balance of \$1.6 million in contrast to net purchases of \$0.9 million in April. There were net sales of \$2.0 million to the United States, mainly of United States corporate bonds and debentures.

During the first 5 months of 1958, the net capital import from trade in outstanding securities was \$18.3 million. This compared with \$86 million in the corresponding period of 1957. But in contrast to 1957, when there were net outflows of \$6 million to the United States from these transactions, and inflows of \$92 million from overseas countries, in 1958 all but \$3 million of the inflow has, on balance, been from the United States.

It will be noted that the representative issues of the Government of Canada, the United States and the United Kingdom for which quotations appear in Table 6 have been changed. The issues previously shown mature in 1968 and 1969. Quotations on long-term issues maturing between 1975 and 1983 have replaced these medium terms.

Statistics in this bulletin cover transactions in outstanding securities reported by investment firms, stock exchanges, and other security dealers in Canada. Not included are sales of new issues and retirements of called or matured securities, security transactions of a short-term character analogous to changes in bank balances, and some transactions by other than reporting agencies. More complete statistics of capital movements will be found in the annual and quarterly reports on The Canadian Balance of International Payments.

Prepared in the Balance of Payments Section, International Trade Division.
