SALES AND PURCHASES OF SECURITIES BETWEEN CANADA AND OTHER COUNTRIES

October 1970

Review of security trading during October

Portfolio transactions in outstanding securities between Canadians and non-residents gave rise to a net outflow of \$52.9 million in October. Stock prices reached a 5-month peak in the second week of October and drifted lower thereafter. The overall level of stock prices, as represented by the DBS Investors' index, was slightly above that of the previous month. Gross trading was also up from the comparatively high September level, an indication perhaps of the relative liquidity of assets maintained during the recent past by investors, especially institutions. It appears that these assets were beginning to be committed once again to equity investment, with purchases of foreign stocks increasing markedly. In October, this resurgence of buying pressure resulted in net outflows for the purchase of foreign securities and net inflows from the sale to non-residents of Canadian securities. The net efflux of \$52.9 million in October was comprised of outflows to the United States and United Kingdom of \$53.4 million and \$2.8 million respectively which were partly offset by inflows of \$1.9 million and \$1.4 million from other European countries and all other countries respectively.

A sales balance of \$3.7 million was the first inflow from transactions in outstanding Canadian securities since March, 1970. Gross sales to non-residents climbed 20 per cent from the previous month's level, while repurchases from non-residents declined slightly. Trading in Canadian equities led to a net inflow of \$4.4 million, as gross transactions with residents of the United States and of European countries other than the United Kingdom were especially high. Transactions in outstanding bonds and debentures declined both in value and proportion, representing 24 per cent of trading in all types of Canadian securities, compared with 30 per cent in September.

Transactions in foreign securities resulted in net purchases of \$56.6 million. Gross transactions increased by 8 per cent. Purchases of United States common and preference stocks gave rise to net outflows of \$49.0 million, and accounted for 88 per cent of gross trading in all foreign securities. Net purchases of outstanding United States bonds and debentures resulted in an outflow of \$4.0 million, while trading in issues of all other countries gave rise to outflows of \$3.6 million.

In the first ten months of 1970 the net purchase balance of \$38 million was accounted for by outflows to the United States, United Kingdom, and other European countries of \$10 million, \$15 million and \$21 million respectively, partly offset by a net inflow of \$8 million from all other countries. By comparison, in the first ten months of 1969 the net sales balance of \$115 million was made up of inflows of \$33 million from the United States, \$20 million from the United Kingdom, \$40 million from other European countries, and \$22 million from all other countries.

(1) The classification "Other finance company obligations" previously included in this statement, consisting of bank loans and inter-company accounts, can be obtained from the "Quarterly Estimates of the Canadian Balance of International Payments" (DBS Catalogue No. 67-001), where a more comprehensive presentation and analysis on Canada's capital movements in short-term forms is given.

(2) Based on Government of Canada securities having an original term over one year.

(3) Including bankers' acceptances.

(4) Including notes of banks, mortgage loan companies and municipal and provincial governments.
