SALES AND PURCHASES OF SECURITIES BETWEEN CANADA AND OTHER COUNTRIES

JULY 1970

Review of international trade in outstanding securities

International transactions in outstanding securities in July led to a net inflow of \$11.7 million. The trend apparent in recent months continued as net sales of foreign securities more than offset net purchases of Canadian securities. Gross trading fell to the lowest level since November, 1966. The secondary market in bonds and debentures again attracted a relatively large proportion of funds, representing approximately one-third of gross trading. The average yield on Canadian industrial bonds declined by 13 points in July in line with a gradual easing of monetary conditions. Stock prices were relatively stable, exhibiting moderate upward movement. Geographically, net sales of \$13.1 million and \$1.6 million resulted from transactions with residents of the United States and countries outside Europe, while net purchases of \$2.3 million and \$0.7 million occurred in trading with residents of the United Kingdom and other European countries respectively.

Trading in Canadian securities declined in value by 30 per cent during July and resulted in net outflows of \$22.1 million. The decline was most marked in the sale of stock to United States residents which, at \$8 million, was less than at any time since 1966. Net outflows of \$6.3 million in bonds and \$15.8 million in stocks were recorded.

Net sales by Canadians of some \$33.8 million arose from trading in foreign securities. Transactions with United States residents accounted for 96 per cent of gross turnover and produced net inflows of \$34.2 million.

In the year to date, trading in outstanding securities has resulted in net inflows to Canada of \$100 million, compared with net inflows of \$86 million for the first seven months in 1969. On a bilateral basis, inflows of \$125 million from the United States thus far this year have been partially off-set by outflows of just over \$2 million to the United Kingdom, \$21 million to other European countries, and about \$2 million to the rest of the world.

(1) The classification "Other finance company obligations" previously included in this statement, consisting of bank loans and inter-company accounts, can be obtained from the "Quarterly Estimates of the Canadian Balance of International Payments" (DBS Catalogue No. 67-001), where a more comprehensive presentation and analysis of Canada's capital movements in short-term forms is given.

(2) Based on Government of Canada securities having an original term over one year.

(3) Including bankers' acceptances.

(4) Including notes of banks, mortgage loan companies and municipal and provincial governments.
