SALES AND PURCHASES OF SECURITIES BETWEEN CANADA AND OTHER COUNTRIES

NOVEMBER 1971

Review of International Trade in Outstanding Securities

Portfolio transactions in outstanding securities during November resulted in an outflow of \$13 million a swing of \$26 million from a \$13 million inflow in October. Net outflows occurred with all geographical areas except European countries other than the United Kingdom, for which no net movement was recorded, and amounted to \$8 million, \$4 million, and \$1 million for the United States, United Kingdom and "all other countries", respectively.

Trading in outstanding Canadian securities gave rise to a net outflow of \$23 million up \$16 million from \$7 million in October. Sales to non-residents declined only marginally and the change was mainly the result of increased gross repurchases of Canadian securities from non-residents. Net purchases of Canadian bonds and debentures during November were \$12 million of which \$10 million was with the United States. Canadians were net buyers of Canadian equities from the United States and the United Kingdom of \$6 million and \$4 million respectively. Net repurchases of Canadian equities from all countries were \$11 million.

Transactions in foreign securities resulted in a net inflow of \$10 million, down about \$10 million from the October level. The reduction occurred on a substantially reduced volume of trading and reduced inflows occurred with all geographical areas. Gross sales of United States equities to residents of the United States declined by \$37 million. This was largely offset by a corresponding reduction in purchases of \$33 million. The reduced volume was concurrent with a weakening in stock prices in both Canada and the United States.

In the eleven months ended November 30, 1971, trading in outstanding securities between Canadians and non-residents resulted in a net outflow of \$17 million. Net inflows of \$127 million from the United States and \$1 million from "all other countries" were more than offset by net outflows of \$118 million to the United Kingdom and \$27 million to other European countries. Of the total capital movements, net outflows of \$235 million resulted from trading in Canadian securities and net inflows of \$218 million from trading in foreign securities. By comparison, international security trading for the same period in 1970 led to net outflows of \$62 million. Net outflows of \$23 million to the United States, \$23 million to the United Kingdom and \$22 million to other European countries were slightly reduced by net inflows of \$6 million from all other countries.

(1) The classification "Other finance company obligations" previously included in this statement, consisting of bank loans and inter-company accounts, can be obtained from the "Quarterly Estimates of the Canadian Balance of International Payments" (DBS Catalogue No. 67-001), where a more comprehensive presentation and analysis on Canada's capital movements in short-term forms is given.

(2) Based on Government of Canada securities having an original term over one year.

(3) Including bankers' acceptances.

(4) Including notes of banks, mortgage loan companies and municipal and provincial governments.
