APRIL 1971

## Review of international trade in outstanding securities

In contrast to a net outflow of $\$ 18$ million during March, international portfolio transactions in outstanding securities in April produced a small net inflow of less than half a million dollars. Net inflows of $\$ 13 \mathrm{million}$ from the United States and of almost $\$ 1$ million from other non-European countries were largely offset by net outflows of $\$ 9$ million to the United Kingdom and $\$ 5$ million to other European countries.

The net outflow from trading in Canadian securities was fairly evenly split between debt issues and equities. Net repurchases of Canadian equities occured for the sixth successive month, the net outlfow of $\$ 10$ million equalling that of the previous month. A repurchase balance of $\$ 8$ million from trading in Canadian bonds and debentures compared with a corresponding outflow of $\$ 14$ million in March.

Net inflows of $\$ 18$ million from trading in foreign securities continued a pattern which had been briefly reversed in March of net selling by Canadians on progressively higher values of gross transactions. United States equities were responsible for over 90 per cent of the value of trading in all foreign issues, giving rise to net inflows of almost $\$ 19$ million. During March trading in United States equities resulted in a net outflow of $\$ 18$ million.

In the four months ending April 30, net repurchases of Canadian issues of $\$ 92$ million and net sales of foreign issues of $\$ 68 \mathrm{million}$ resulted in a net capital outflow of $\$ 24$ million. Geographically, net inflows of $\$ 30$ million from the United States and $\$ 4$ million from other non-European countries were more than offset by net outflows of $\$ 53$ million to the United Kingdom and $\$ 5$ million to other European countries. In comparison, in the first four months of 1970 , net inflows of $\$ 112$ million consisted of net sales to the United States, United Kingdom and other European countries of $\$ 95$ million, $\$ 8$ million and $\$ 9$ million respectively, and net purchases of less than half a million dollars from all other countries.
