JULY 1971

## Review of international trade in outstanding securities

Transactions in outstanding securities during July gave rise to net inflows into Canada of almost $\$ 12$ million, compared with a net inflow of $\$ 2$ million in June. Trading resulted in a $\$ 26$ million inflow from the United States and net outflows to the United Kingdom, other European countries and all other countries of $\$ 9$ million, \$4 million and \$1 million respectively.

Net purchases of Canadian issues totalling $\$ 8$ million were reduced from previous months' levels. As in June, trading in Canadian equities gave rise to net outflows of $\$ 7$ million, but net purchases of Canadian bonds and debentures and other securities of less than $\$ 1$ million were down sharply from the corresponding outflows in earlier nonths, incluaing a $\$ 6$ million outflow in Jume.

In foreign security trading a net inflow of 520 milion was up from the previous month's inflow of $\$ 15$ million. In July, net sales of United States equities were off sharply-some $\$ 18$ million compared with $\$ 31$ million in June. Net purchases of United States bonds and debentures, totalling $\$ 5$ million in July, were also down from the previous month's outflow of $\$ 8$ million, while the movement resulting from transactions in all other securities changed from a net outflow of $\$ 8$ million in June to a net inflow in July of more than $\$ 3$ million.

In the seven months ended July 31 1971, portfolio security transactions resulted in net inflows of $\$ 7$ million. Net sales of $\$ 139$ million in foreign securities were more than offset by net repurchases of Canadian issues amounting to $\$ 132$ million. Net inflows from the United States totalled $\$ 99$ million while trading with the united Kingdom, other Europe, and other countries produced net outflows of $\$ 75$ million, $\$ 16$ million and $\$ 1$ million respectively. Total net inflows of $\$ 107$ million during the first seven months of 1970 were comprised of net inflows of $\$ 127$ million from the United States and net outflows of just over $\$ 3$ million to the United Kingdom, $\$ 15$ million to other European countries and $\$ 2$ million to all other countries.

Note: Quarterly totals may include amounts related to transactions not allocable to a particular month
As figures are rounded, totals may not equal sum of component parts.
