Overview

Estimates from Statistics Canada's Labour Force Survey for March 1992 show a sharp rise in the seasonally adjusted level of unemployment (+74,000) and a substantial decline in employment (-53,000). Following little change in the last quarter of 1991, the unemployment rate has been increasing since January and rose to 11.1 in March from 10.6 in February. Continuing the trend of recent months, there were losses in both full-time employment and employment in manufacturing.

Aperçu

Les estimations tirées de l'Enquête sur la population active de Statistique Canada pour mars 1992 indiquent une très forte hausse de l'estimation désaisonnalisée du chômage (+74,000) et un recul important de l'emploi (-53,000). Après avoir montré peu de variations durant le dernier trimestre de 1991, le taux de chômage augmente depuis janvier et passe de 10.6 en février à 11.1 en mars. L'emploi à temps plein et celui du secteur manufacturier poursuivent leurs tendances à la baisse observées pendant les derniers mois.

### **Unemployment Rate - Taux de Chômage Seasonally Adjusted - Désaisonné**

Employment and employment/population ratio

For the week ending March 21, 1992, the seasonally adjusted employment estimate fell 53,000 to 12,233,000, the fifth consecutive monthly decline. The decrease in this month's employment level was noted in full-time employment (-56,000) and was concentrated among women aged 25 and over. The overall employment/population ratio continued its downward trend, falling to 58.4 (-0.3) in March.

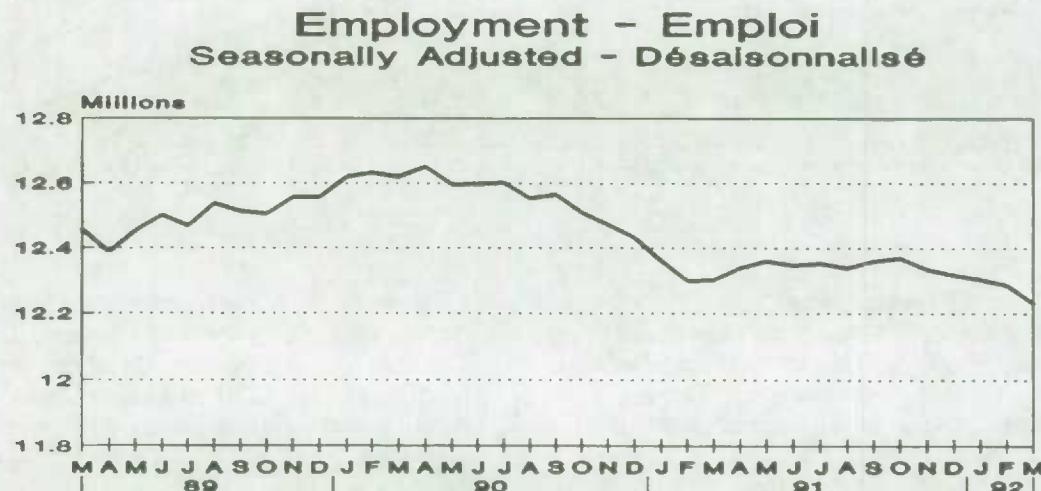

- Employment among women aged 25 and over decreased by 34,000 and their employment/population ratio fell to 51.2 (-0.5).
- Employment fell by an estimated 31,000 in manufacturing (-1.7%), by 27,000 in services (-0.6%) and by 20,000 in public administration (-2.3%). Employment increased by 26,000 in transportation, communication and other utilities (+2.8%) and by 15,000 in construction (+2.2%). There was little change in the remaining industries.

Emploi et rapport emploi-population

Pour la semaine qui s'est terminée le 21 mars 1992, le niveau désaisonné de l'emploi tombe de 53,000 à 12,233,000, en chute pour le cinquième mois de suite. La baisse s'observe dans la catégorie du temps plein (-56,000) et elle est concentrée chez les femmes âgées de 25 ans et plus. Le rapport emploi-population global poursuit sa tendance à la baisse, se fixant à 58.4 (-0.3) en mars.

- Chez les femmes de 25 ans et plus, l'emploi diminue de 34,000 et le rapport emploi-population tombe à 51.2 (-0.5).
- L'emploi décroît d'environ 31,000 dans le secteur manufacturier (-1.7%) de 27,000 dans les services (-0.6%) et de 20,000 dans l'administration publique (-2.3%). Il augmente de 26,000 dans les transports, communications et autres services publics (+2.8%) et de 15,000 dans la construction (+2.2%). Il se produit peu de variations dans les autres secteurs.

- The estimated level of employment fell by 4,000 (-2.1%) in Newfoundland, by 6,000 (-1.6%) in Nova Scotia, by 25,000 in Ontario (-0.5%) and by 4,000 in Manitoba (-0.8%) and Saskatchewan (-0.9%). There was no significant change noted in the remaining provinces.
- Le niveau de l'emploi recule de 4,000 (-2.1%) à Terre-Neuve, de 6,000 (-1.6%) en Nouvelle-Écosse, de 25,000 en Ontario (-0.5%) et de 4,000 au Manitoba (-0.8%) et en Saskatchewan (-0.9%). Il ne survient aucune variation significative dans les autres provinces.

#### Unemployment and Participation Rate

In March 1992, the seasonally adjusted estimate of unemployment jumped 74,000 to 1,525,000. The unemployment rate rose 0.5 to 11.1, the highest since January 1985. The participation rate was unchanged this month at 65.6 after having declined 0.6 over the previous four months.

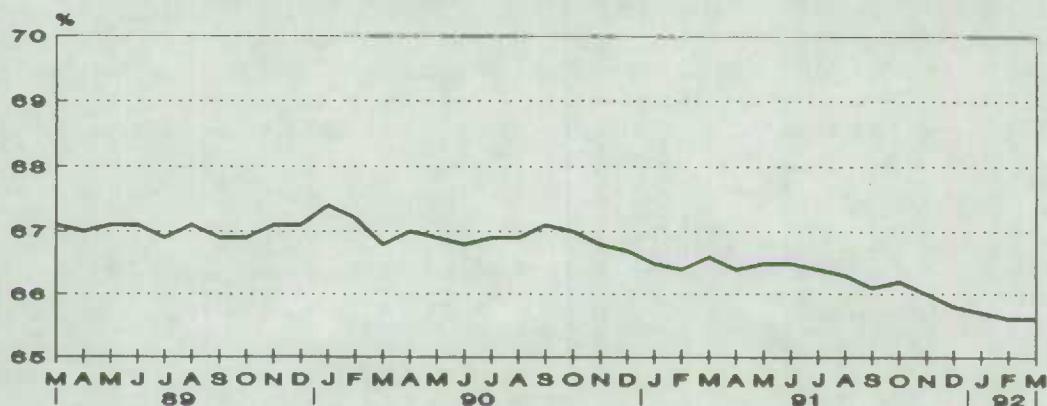

- The rise in the number of unemployed occurred among adults aged 25 and over - up 37,000 for men and 28,000 for women.
- The unemployment rate for adults rose by 0.5 to 9.8 while the rate for youths aged 15 to 24 increased by 0.3 to 16.9.
- The unemployment rate for adult men rose to 10.4 (+0.5) exceeding the previous high of 10.3 in December 1982. While the unemployment rate for the overall population remains below levels experienced in the early 1980's, the higher rate for adult males reflects the severity of job losses in the goods-producing sector.

#### Chômage et taux d'activité

En mars 1992, le niveau désaisonné du chômage bondit de 74,000 pour atteindre 1,525,000. Le taux de chômage monte de 0.5 pour se fixer à 11.1, le plus haut niveau depuis janvier 1985. Le taux d'activité demeure inchangé en mars à 65.6 après avoir baissé de 0.6 au cours des quatre derniers mois.

- L'augmentation du nombre de chômeurs s'observe chez les adultes âgées de 25 ans et plus; en hausse de 37,000 chez les hommes et de 28,000 chez les femmes.
- Le taux de chômage passe à 9.8 (+0.5) chez les adultes; et à 16.9 (+0.3) chez les jeunes de 15 à 24 ans.
- Le taux de chômage chez les hommes adultes a monté à 10.4 (+0.5); ce taux excède le sommet (10.3) atteint en décembre 1982. Alors que le taux global de chômage demeure sous le niveau des taux prévalant au début des années 80, le plus haut taux chez les adultes masculins témoigne du grand nombre des pertes d'emploi dans le secteur de la production de biens.

## Participation Rate - Taux d'activité Seasonally Adjusted - Désaisonnalisé

- The level of unemployment rose by 3,000 in Newfoundland, 5,000 in Nova Scotia, 20,000 in Québec, 29,000 in Ontario, 6,000 in Manitoba, and by 4,000 in Saskatchewan. There was no significant change in the remaining provinces.
- By province, the seasonally adjusted unemployment rates and the monthly changes are as follows:
- Le nombre de chômeurs s'accroît de 3,000 à Terre-Neuve, de 5,000 en Nouvelle-Écosse, de 20,000 au Québec, de 29,000 en Ontario, de 6,000 au Manitoba et de 4,000 en Saskatchewan. Il se produit aucune variation significative dans les autres provinces.
- Selon la province, les taux désaisonnalisés de chômage et les variations mensuelles sont les suivants:

|                      | March | Month to Month Change |                       |
|----------------------|-------|-----------------------|-----------------------|
|                      | Mars  | Variation mensuelle   |                       |
| Newfoundland         | 20.3  | + 1.4                 | Terre-Neuve           |
| Prince Edward Island | 17.1  | + 0.6                 | Île-du-Prince-Édouard |
| Nova Scotia          | 13.3  | + 1.3                 | Nouvelle-Écosse       |
| New Brunswick        | 13.2  | + 0.5                 | Nouveau-Brunswick     |
| Québec               | 12.5  | + 0.6                 | Québec                |
| Ontario              | 10.5  | + 0.6                 | Ontario               |
| Manitoba             | 9.9   | + 1.1                 | Manitoba              |
| Saskatchewan         | 7.9   | + 0.9                 | Saskatchewan          |
| Alberta              | 9.6   | 0.0                   | Alberta               |
| British Columbia     | 10.3  | + 0.3                 | Colombie-Britannique  |

### Changes since March 1991 (unadjusted estimates)

- The overall employment estimate fell by 94,000 from the level of a year ago (-0.8%). It declined by 65,000 (-1.0%) for men and by 30,000 (-0.5%) for women.
- For persons aged 15 to 24, employment decreased by 85,000 (-4.3%) and the employment/population ratio fell 2.1 to 50.2.

### Par rapport à mars 1991 (données non désaisonnalisées)

- Dans l'ensemble, l'emploi diminue de 94,000 (-0.8%) par rapport au niveau enregistré un an plus tôt. Le niveau baisse de 65,000 (-1.0%) chez les hommes et de 30,000 (-0.5%) chez les femmes.
- Chez les personnes âgées de 15 à 24 ans, l'emploi fléchit de 85,000 (-4.3%) et le rapport emploi-population baisse de 2.1 pour se fixer à 50.2.

- Full-time employment (persons usually working 30 hours or more per week) decreased by 146,000 (-1.5%) while part-time employment increased by 51,000 (+2.4%).
- Employment was down by 132,000 in the goods-producing industries (-4.1%) while it rose slightly in the service-producing sector.
- Employment in manufacturing declined by 106,000 (-5.9%). Losses were concentrated in Ontario (-93,000).
- The estimated level of unemployment rose by 103,000 to 1,695,000 (+6.5%) and the unemployment rate increased 0.8 to 12.5.
- The participation rate decreased by 0.9 to 64.9 and the employment/population ratio fell by 1.3 to 56.8.
- La catégorie du temps plein (personnes travaillant habituellement 30 heures ou plus par semaine) régresse de 146,000 (-1.5%), alors que celle du temps partiel monte de 51,000 (+2.4%).
- L'emploi recule de 132,000 (-4.1%) dans le secteur des biens, tandis qu'il augmente légèrement dans le secteur des services.
- L'emploi baisse de 106,000 (-5.9%) dans le secteur manufacturier. Les pertes d'emploi sont concentrées en Ontario (-93,000).
- Le nombre estimatif de chômeurs grimpe de 103,000 pour atteindre 1,695,000 (+6.5%) et le taux de chômage passe à 12.5 (+0.8).
- Le taux d'activité tombe à 64.9 (-0.9) et le rapport emploi-population, à 56.8 (-1.3).

#### Other Highlights

Since 1979, Statistics Canada has added supplementary questions to the March Labour Force Survey to provide a measure of discouraged workers. These are persons not in the labour force who want a job, but who have not looked because they believe no suitable work is available.

The monthly survey provides a complementary measure of discouraged workers, but requires persons to have looked for work sometime in the last six months (see Table 35 in **The Labour Force** (Cat. No. 71-001)). Estimates from the March supplementary survey refer to a broader group by removing the requirement of having looked sometime in the last six months.

#### Highlights from the March 1992 survey:

- An estimated 99,000 jobless Canadians were identified as discouraged workers in March, little changed from the estimate of a year ago. For March 1992, the number of discouraged workers was equally distributed between men and women.
- Approximately 43,000 were between the ages of 25 to 44, another 37,000 were aged 45 or older, with youths making up the rest (19,000).
- Discouraged workers were concentrated in the Atlantic provinces (30,000), Québec (32,000) and Ontario (23,000).

#### Autres faits saillants

Depuis 1979, Statistique Canada ajoute des questions supplémentaires à l'enquête sur la population active menée en mars afin de prendre une mesure des travailleurs découragés. Ceux-ci sont des inactifs qui désirent un emploi mais qui n'en n'ont pas cherché un parce qu'ils croient qu'il n'y a pas d'emploi qui leur convienne de disponible.

L'enquête mensuelle fournit une mesure complémentaire des travailleurs découragés mais exige que ces personnes aient cherché du travail à un moment donné au cours des six mois précédents l'enquête (consulter le tableau 35 dans L'enquête sur la population active, numéro 71-001 au catalogue). Les estimations de l'enquête supplémentaire de mars vise un groupe plus large en éliminant l'exigence d'avoir cherché du travail à un moment quelconque au cours des six mois précédents.

#### Voici les faits saillants pour l'enquête de mars 1992:

- En mars, on estime à 99,000 le nombre de Canadiens sans emploi identifiés comme étant des travailleurs découragés. Ceci a peu varié par rapport à l'an dernier. Au mois de mars 1992, le nombre de travailleurs découragés était également réparti entre les hommes et les femmes.
- Environ 43,000 de ces personnes faisaient partie des 25 à 44 ans, un autre 37,000 étaient âgées de 45 ans et plus; les jeunes constituaient la balance 19,000.
- Les travailleurs découragés sont concentrés dans les provinces de l'Atlantique (30,000), au Québec (32,000) et en Ontario (23,000).

A set of standard tabulations from the March Supplementary Survey (1979-1992), will be published in the March issue of *The Labour Force* (Cat. No. 71-001).

For further information on these numbers, and/or to obtain a copy of the tabulations, contact:

#### Notes to Data Users

1. A new Guide to Labour Force Survey Data is now available. This publication discusses relevant concepts and terminology and explores the survey questionnaire on an item-by-item basis. It also briefly covers methodology and collection procedures and provides a summary of the available data.

A useful addition to this improved publication is a new labour force survey dictionary that provides detailed definitions of survey terms and variables.

The Guide to Labour Force Survey Data (71-528, \$45) is now available. See "How to Order Publications" or contact your nearest Statistics Canada Regional Reference Centre.

2. The publication Labour Force Annual Averages, 1991 (Catalogue number 71-220) is now available. This publication contains the annual averages of the estimates published each month in *The Labour Force* (Catalogue number 71-001). It also contains more detailed estimates of the annual averages by province and subprovince. An article describing the profound changes in services sector employment since 1976 is also included.

3. The publication Historical Labour Force Statistics (Catalogue number 71-201), containing revised seasonally adjusted data and other chronological series, is now available. The data in this publication will also be available on diskette in a menu-driven format. The data is now available on CANSIM.

#### Notes aux utilisateurs des données

1. Un nouveau **Guide d'utilisation des données de l'Enquête sur la population active** est maintenant disponible. Cette publication explique les concepts et la terminologie de l'enquête et décrit le questionnaire étape par étape. Elle couvre brièvement la méthodologie et les méthodes de collecte et fournit un sommaire des données disponibles.

Une nouveauté fort utile a été ajoutée à cette version du guide: un dictionnaire de l'Enquête sur la population active qui présente des définitions des termes et des variables utilisés dans l'enquête.

Le **Guide d'utilisation des données de l'Enquête sur la population active** (71-528, 45 \$) est maintenant en vente. Consultez la rubrique "Comment commander les publications" ou contactez le Centre des consultations de Statistique Canada le plus près.

2. La publication intitulée Moyennes annuelles de la population active 1991, numéro 71-220 au catalogue est maintenant disponible. Cette publication contient les moyennes annuelles des estimations publiées mensuellement dans *La population active* numéro 71-001 au catalogue. Elle contient aussi des estimations de moyennes annuelles plus détaillées aux niveaux provincial et infraprovincial. Cette publication contient aussi un article décrivant les changements profonds de l'emploi dans le secteur des services depuis 1976.

3. La publication Statistiques chronologiques sur la population active (71-201 au catalogue), qui contient les données désaisonnalisées révisées et d'autres séries chronologiques, est maintenant disponible. Les données de la publication seront aussi disponibles sur diskettes et seront dirigées par menu. Ces données sont présentement disponibles sur CANSIM.

4. Monthly data are available on CANSIM on the day of release at 7 a.m. E.D.T.

For further information call:

Doug Drew  
Vincent Ferrao  
Jean-Marc Lévesque  
Deborah Sunter  
Michael Sheridan

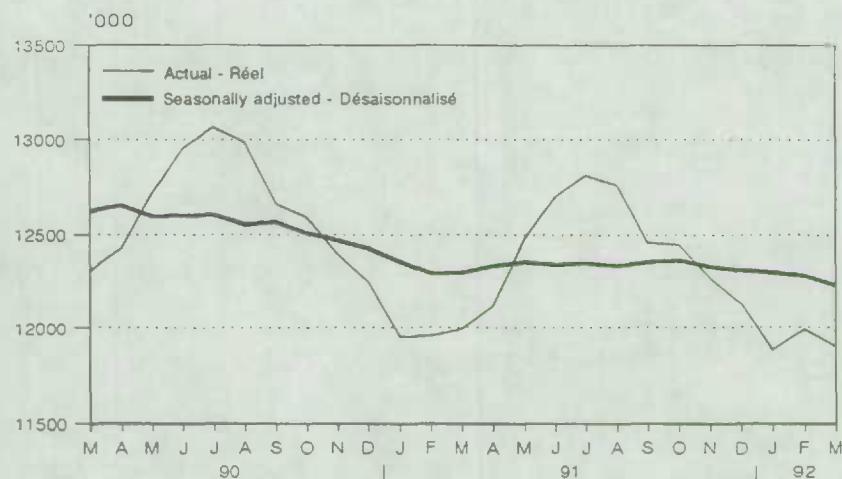

4. Les données mensuelles sont disponibles sur CANSIM dès 7 heures (HAE) le jour même de leur diffusion.

Note: The sum of seasonally adjusted provincial estimates may differ from the national total which is obtained by adding the age by sex components shown on table 1.

Note: La somme des estimations désaisonnalisées au niveau provincial peut différer du total national qui est obtenu en additionnant les composantes âge selon le sexe présentées au tableau 1.

TABLE 2. Seasonally Adjusted Estimates and Change over Previous Period, Provinces.

Note: The sum of seasonally adjusted provincial estimates may differ from the national total which is obtained by adding the age by sex components shown on table 1.

Note: La somme des estimations désaisonnalisées au niveau provincial peut différer du total national qui est obtenu en additionnant les composantes âge selon le sexe présentées au tableau 1.

Note: Estimates by industry and of full-time and part-time employment are independently seasonally adjusted. The national total, which is obtained by adding the age by sex components shown on table 1, may differ from the sum of independently derived series.

Nota: Les estimations selon la branche d'activité et pour l'emploi à plein temps et à temps partiel sont désaisonnalisées indépendamment les unes des autres. Le total national obtenu par l'addition des composantes âge selon le sexe présentées au tableau 1 peut différer de la somme de séries dérivées indépendamment.

(1) Since subprovincial estimates are subject to wide margin of errors, the monthly estimates are averaged over a period of three months. The resulting series show less irregular movements, while preserving the underlying trend of the monthly series. A feature article on moving averages was published in the January 1991 issue of 'The Labour Force', (catalogue 71-001). Puisqu'elles sont sujettes à de fortes marges d'erreur, les estimations infraprovinciales sont présentées sous forme de moyennes trimestrielles. La série obtenue contient moins d'observations irrégulières, tout en préservant la tendance sous-jacente de la série mensuelle. Un article portant sur les moyennes mobiles ont paru dans le numéro de janvier 1991 de 'La Population Active', (71-001 au catalogue).

TABLE 8A. Estimates by Metropolitan Areas (1981 boundaries), Seasonally Adjusted and Actual, Three-Month Moving Averages(1).

TABLEAU 8A. Estimations selon la région métropolitaine (limites de 1981), données désaisonnalisées et brutes, moyennes mobiles de trois mois(1).

(1) Since subprovincial estimates are subject to wide margin of errors, the monthly estimates are averaged over a period of three months. The resulting series show less irregular movements, while preserving the underlying trend of the monthly series. A feature article on moving averages was published in the January 1991 issue of 'The Labour Force', (catalogue 71-001). Puisqu'elles sont sujettes à de fortes marges d'erreur, les estimations infraprovinciales sont présentées sous forme de moyennes trimestrielles. La série obtenue contient moins d'observations irrégulières, tout en préservant la tendance sous-jacente de la série mensuelle. Un article portant sur les moyennes mobiles ont paru dans le numéro de janvier 1991 de 'La Population Active', (71-001 au catalogue).

TABLE 9A. Estimates by Economic Region (1981 boundaries), Three-Month Moving Averages Ending in March 1992.  
 TABLEAU 9A. Estimations selon la région économique (limites de 1981), moyennes mobiles de trois mois se terminant en mars 1992.

Note : See the November 1990 issue of catalogue 71-001 for a detailed introduction to these regions.

Nota : Pour une introduction détaillée à ces régions, voir le numéro de novembre 1990 de la publication 71-001 au catalogue.

(1) Since the Labour Force Survey is not conducted in the Yukon and Northwest Territories, the rate for region 62 is provided by Employment and Immigration Canada and not by Statistics Canada.  
 L'enquête n'étant pas menée au Yukon et dans les Territoires du Nord-Ouest, le taux pour la région 62 est dispensé par Emploi et Immigration Canada et non par Statistique Canada.
