STATISTICAL REPORT ON THE OPERATION OF THE UNEMPLOYMENT INSURANCE ACT

August - 1949

During August, 57,750 claims for Unemployment Insurance benefit were filed at local offices of the Unemployment Insurance Commission compared with 49,586 in July and 32,182 during August 1948. Included in this total are revised claims (i.e. reconsiderations of existing claims) numbering 7,459 in August, 6,100 in July and 7,210 in August last year. Thus, initial and renewal claims, representing mainly new cases of unemployment recorded among insured persons, totalled 50,291 in August, 43,486 in July and 24,972 in August 1948.

Ordinary claims on the live unemployment register at August 31st totalled 80,813 (57,349 male and 23,464 female) as against 79,902 (56,279 male and 23,623 female) at the end of July and 44,273 (28,114 male and 16,159 female) on August 31, 1948. An unemployment register is maintained for each claim and remains in the live file so long as the claim is active. Ordinary claimants are those who have separated from their previous employments and thus, ordinary claims on the live unemployment register represent the number of cases of unemployment recorded among insured persons at a certain time. In addition there were 13,066 (10,638 male and 2,428 female) "other claims" on the live register at August 31st compared with 14,444 (11,100 male and 3,344 female) at the end of July and 3,088 (2,561 male and 527 female) at August 31st last year. "Other claims" are largely short-time claims, i.e. claims filed by those who have been put on short time at their places of employment.

Claimants on the live unemployment register at August 31st are classified, in Table C, according to the number of days they have been continuously on the register since the last initial or renewal claim was filed. This represents the duration, up to the time the count is made, of cases of recorded unemployment. Since, however, an odd few days of employment that do not interfere with the claimant's regular reporting to the local office and sick days and other non-available days that do not interfere with two consecutive reporting days, do not result in his register becoming "dormant", the days counted here are only days of proven unemployment. Sundays are ignored in making the count and an initial claim that immediately follows the termination of the claimant's immediately preceding benefit year is not taken as breaking his period on the register.

A total of 58,634 claims was disposed of at adjudicating centres during August, including 315 special requests not granted (i.e. requests for antedating, extension of the two-year period and dependency rate of benefit) and 831 cases referred to courts of referees for further consideration. Of the remaining 57,488 claims, in which the main consideration was entitlement to benefit, 44,660 were considered entitled to benefit and 12,828 not entitled to benefit.

Chief reasons for non-entitlement as given by adjudicating officers were : "insufficient contributions while in insurable employment" 3,884 cases, "voluntarily left employment without just cause" 3,671 cases,

## RAPPORT STATISTIQUE SUR L'OPÉRATION DE LA LOI D'ASSURANCE-CHÔMAGE

Août - 1949

En août, 57,750 réclamations de prestations d'assurance-chômage sont déposées aux bureaux locaux de la Commission d'assurance-chômage, en comparaison de 49,586 en juillet et 32,182 en août 1948. Ce total comprend les réclamations revisées (c'est-à-dire la reconsideration des réclamations déjà existantes) qui se chiffrent par 7,459 en août, 6,100 en juillet et 7,210 en août l'an dernier. Ainsi, les réclamations initiales et renouvelées, qui représentent surtout des nouveaux cas enregistrés de chômage parmi les personnes assurées, s'élèvent à 50,291 en août, 43,486 en juillet et 24,972 en août 1948.

Les réclamations ordinaires inscrites au registre actif de chômage s'élèvent à 80,813 (57,349 hommes et 23,464 femmes) le 31 août, contre 79,902 (56,279 hommes et 23,623 femmes) à la fin de juillet et 14,273 (28,111 hommes et 16,159 femmes) le 31 août 1948. Un registre de chômage est gardé pour chaque réclamation et reste dans les dossiers pendant tout le temps que la réclamation est active. Les réclamants ordinaires sont ceux qui sont séparés de leur emploi et, par conséquent, les réclamations ordinaires inscrites au registre actif de chômage représentent le nombre de cas enregistrés de chômage parmi les personnes assurées à un certain moment. En plus, il y a 13,066 (10,638 hommes et 2,428 femmes) "autres réclamations" inscrites au registre actif de chômage le 31 août, en comparaison de 14,444 (11,100 hommes et 3,344 femmes) à la fin de juillet et 3,088 (2,561 hommes et 527 femmes) le 31 août l'an dernier. Les "autres réclamations" sont surtout déposées par des personnes en chômage partiel, c'est-à-dire celles qui travaillent à temps réduit dans les établissements où elles sont employées.

Le tableau C classe les personnes inscrites au registre actif de chômage le 31 août, d'après le nombre de jours d'inscription continue au registre depuis la dernière réclamation initiale ou renouvelée. Cela représente la durée des cas de chômage enregistrés, jusqu'au moment du comptage. Quelques jours d'emploi, de maladie ou d'indisponibilité qui ne nuisent pas à la visite régulière du réclamant au bureau local pour deux jours d'inscription consécutive ne rendent pas son dossier inactif. Les jours comptés ici ne comprennent que les jours de chômage prouvé. Les dimanches ne sont pas comptés et une réclamation qui suit immédiatement la fin d'une année de prestations n'est pas considérée comme brisant la période continue d'inscription au registre.

En août, les centres d'adjudication disposent de 58,634 réclamations, dont 315 demandes spéciales rejetées (demandes relatives à l'antidate, à l'extension de la période de deux ans ou aux prestations supplémentaires pour ceux qui ont des personnes à charge) et 831 cas renvoyés aux tribunaux arbitraux. Sur les 57,488 autres réclamations, où la décision visait spécialement l'admissibilité aux prestations, 47,660 sont considérées comme ayant droit à la prestation et 12,828, comme n'y ayant pas droit.

"refused an offer of work and neglected an opportunity to work" 1,445 cases, "not unemployed" 959 cases, "not capable of and not available for work" 885 cases.

During August, 34,422 persons commenced the receipt of benefit payments. Benefit payments during August amounted to \$3,717,000 for 1,650,997 compensated days compared with \$3,371,183 for 1,525,462 compensated days in July and \$1,835,846 for 944,430 compensated days in August 1948.

During the week of August 13th to 19th, 62,705 persons received benefit payments amounting to \$813,027 for 361,497 compensated unemployed days compared with 65,957 persons paid \$828,934 for 383,338 compensated days in the week of July 9th to 15th. Thus, the average duration of the unemployment compensated was 5.8 days both in the week ending August 19th and that ending July 15th. The average amount of benefit paid per beneficiary was \$12.97 in the week ending August 19th and \$12.57 in the week ending July 15th. The average amount of benefit paid per compensated day of unemployment was \$2.25 in the week ending August 19th and \$2.16 in the week ending July 15th.

Tables A to G<sup>1</sup> following, present data respecting the number of claims filed and their disposition; the persons signing the live unemployment register by type of claim and by number of days continuously on the register by sex; chief reasons for non-entitlement to benefit; number of days' benefit paid and amount of benefit paid, by province, for the month of AUGUST 1949, with comparative figures for August 1948 and number of beneficiaries, days' benefit paid and amount of benefit paid for the week ending with the third Friday in the month.

---

1. - For a more complete explanation of the **administrative procedures** out of which these data emerge, see the Appendix on page 3 of the July 1949 issue.

Les principales raisons d'inadmissibilité à la prestation, données par les adjudicateurs, sont : "contributions insuffisantes dans un emploi assurable", 3,884 cas; "emploi quitté volontairement et sans juste cause" 3,671 cas; "refus d'une offre de travailler ou négligence de saisir une occasion de travailler", 1,445 cas; "non en chômage", 959 cas; "incapable de travailler ou indisponible", 885 cas.

En août, 34,422 personnes commencent à recevoir des prestations. Les prestations s'élèvent à \$3,717,000 pour 1,650,997 jours de chômage indemnisé, en comparaison de \$3,371,183 pour 1,525,462 jours de chômage indemnisé en juillet et \$1,835,846 pour 944,430 jours en août 1948.

Durant la semaine du 13 au 19 août, 62,705 personnes reçoivent des prestations au montant de \$813,027 pour 361,497 jours de chômage indemnisé, en comparaison de 65,957 personnes qui touchent \$828,934 pour 383,338 jours de chômage indemnisé durant la semaine du 9 au 15 juillet. Ainsi, la durée moyenne de chômage indemnisé est de 5.8 jours durant la semaine terminée le 19 août, ainsi que celle terminée le 15 juillet. Le montant moyen de prestations payées par prestataire s'élève à \$12.97 durant la semaine terminée le 19 août et \$12.57 durant celle du 15 juillet. Le montant moyen de prestations payées par jour de chômage indemnisé est de \$2.25 durant la semaine terminée le 19 août et \$2.16 durant celle du 15 juillet.

Les tableaux A à G<sup>1</sup> qui suivent, offrent des données concernant le nombre de réclamations déposées et leur règlement; le nombre de personnes ayant signé le registre actif de l'assurance-chômage, selon le genre de réclamation et selon le nombre de jours d'inscription continue au registre, par sexe; les principales causes d'inadmissibilité aux prestations; le nombre de jours indemnisés et le montant des prestations versées, par province, pour le mois d'AOUT 1949 avec chiffres comparatifs d'août 1948, ainsi que le nombre de prestataires, le nombre de jours indemnisés et le montant des prestations versées durant la semaine terminée le troisième vendredi du mois.

---

1. Voir l'appendice à la page 3 du rapport de juillet 1949 pour une explication plus détaillée de la méthode administrative de calculer les données.
