PREFACE

From 1936-38 to 1956-58 a biennial survey was published with separate editions in English and in French. This was known as Part I of the Biennial Survey of Education and bore the Catalogue Number 81-401. Commencing with the 1958-59 report, the survey became annual and bilingual.

This volume presents statistics and related information covering (1) pre-school or kindergarten, (2) primary or elementary and (3) secondary education in public, private and Federal schools. Included also are certain data on teacher-training. A directory of organizations concerned with elementary and secondary education, a list of Canadian education journals, and a selected bibliography also form a part of this report.

The tables on teachers' salaries and qualifications are abbreviated, since detailed data on these are published in "Salaries and Qualifications of Teachers in Public Elementary and Secondary Schools". Financial statistics appear in the "Survey of Education Finance"; and tables on business colleges and night classes are reported in the "Survey of Vocational Education and Training" and the "Survey of Adult Education" respectively.

Questions concerning the content of this publication, or suggestions for additional data, should be directed to Dr. F.E. Whitworth, Director of the Education Division, or to T.N. LeSeilleur, Chief of the Elementary and Secondary Education Section.

WALTER E. DUFFETT,
Dominion Statistician.

PRÉFACE

Un relevé biennal, avec éditions en langue anglaise et en langue française, a paru de 1936-1938 à 1956-1958. Il s'agissait de la Partie I du Relevé biennal de l'enseignement (no de catalogue 81-401). À compter du rapport de 1958-59, la publication est devenue annuelle et bilingue.

Le présent rapport donne la statistique visant: 1) les maternelles ou jardins d'enfants, 2) l'enseignement primaire ou élémentaire, et 3) l'enseignement secondaire. Il contient aussi quelques données sur la formation des instituteurs. Elle compte aussi une liste d'organismes intéressés à l'enseignement élémentaire et secondaire, une énumération des publications ayant trait à l'enseignement au Canada et une bibliographie sélective.

Les tableaux relatifs au traitement et à la formation des instituteurs sont abrégés, car les détails paraissent dans "Traitements et qualification des instituteurs des écoles publiques élémentaires et secondaires". La statistique financière paraît dans "Les finances de l'enseignement" et les tableaux ayant trait aux collèges commerciaux et aux cours du soir sont dans le "Relevé de la formation professionnelle et technique" et dans "L'éducation des adultes", respectivement.

Toute question au sujet de la matière de la présente publication, ou toute demande de renseignements, devrait être adressée à M. F.E. Whitworth, directeur de la Division de l'éducation, ou à M. T.N. LeSeilleur, chef de la Section de l'enseignement élémentaire et secondaire.

WALTER E. DUFFETT,
Statisticien du Dominion.

SYMBOLS

The interpretation of the symbols used in the tables throughout this publication is as follows:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- x medians not calculated (number of classified teachers less than 30).

NUMBERING OF TABLES

The tables in this survey are grouped into four sections:

1. Summaries
2. Public Schools
3. Federal Schools
4. Private Schools

The number for each table begins with the number of the section followed by a dash. The next two digits indicate the order of the table in the section. Thus 2-04 indicates the fourth table in Section 2—Public Schools.

SIGNES CONVENTIONNELS

Signification des signes utilisés dans les tableaux de la présente publication:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- x médianes non calculées (nombre d'instituteurs classés moindre que 30).

NUMÉROTAGE DES TABLEAUX

Les tableaux du présent rapport sont groupés en quatre sections:

1. Sommaires
2. Écoles publiques
3. Écoles fédérales
4. Écoles privées

Le numéro de chaque tableau commence par le numéro de la section, suivi d'un tiret. Les deux autres chiffres indiquent l'ordre du tableau dans la section. Ainsi 2-04 indique qu'il s'agit du quatrième tableau de la Section 2—Écoles publiques.

PART I

PARTIE I

INTRODUCTION

INTRODUCTION

Under the authority of Section 93 of the British North America Act (1867), formal education in Canada is a provincial responsibility, except for certain special fields which are administered by the Government of Canada such as the education of Indians and Eskimos, other children in the Northwest Territories, inmates of penitentiaries, and children of Armed Forces personnel on national defense stations in Canada and abroad. The Federal Government also shares with the provinces the financial burden of secondary and post-secondary vocational and technical education.

Because each province has the authority and responsibility for organizing its own education system, educational policies, organizations and practices differ from province to province. Nevertheless, there is a basic pattern common to all provinces in that each has established a Department (Ministry) of Education responsible for the organization and administration of public education, curricula, certification of teachers, etc. Municipal school boards (either elected or appointed) are responsible for building and operating schools, including the hiring of teachers.

For statistical purposes, it has been customary to divide elementary-secondary education into two sections, while in practice there is often no rigid distinction between the elementary and secondary levels. For example, most provinces are moving towards or have already developed a tripartite system with Grades 1 to 6 designated as elementary, Grades 7 to 9 as junior high and Grades 10 to 11, 12 or 13 as senior high. The exceptions to this are Quebec and Ontario.

Up to the time of writing this report, Quebec has a 7-4 system, although in 1965-66 it will be converted to a 6-5 system. In Ontario, where junior high schools are few, the traditional elementary and secondary divisions are maintained in an 8-5 system. In British Columbia Grades 1 to 7 are considered as elementary and Grades 9 to 13 secondary, the latter being divided into junior and senior secondary.

In terms of curricula each province has a tripartite division. In terms of grades or years these are:

6-2-3 Newfoundland	11
6-2-5 Ontario	13
6-3-3 Nova Scotia, New Brunswick, Manitoba, Saskatchewan, Alberta.	12
6-4-2 Prince Edward Island	12
7-2-3 Québec	12
7-3-3 British Columbia	13

When examining the above, it should be remembered that a senior matriculation year is not provided for in the curricula of Newfoundland,

En vertu de l'article 93 de l'Acte de l'Amérique du Nord britannique (1867), l'enseignement régulier au Canada relève des provinces, sauf certains domaines spéciaux administrés par l'État, telle l'instruction des Indiens et des Esquimaux, d'autres enfants des Territoires du Nord-Ouest, des détenus des pénitenciers, et des enfants du personnel militaire des postes de la défense nationale au Canada et à l'étranger. Le gouvernement fédéral partage également avec les provinces le fardeau financier de l'enseignement professionnel et technique secondaire et post-secondaire.

Parce que chaque province peut et doit mettre sur pied son propre système éducatif, les régimes, les modes et les méthodes diffèrent d'une province à l'autre. Néanmoins, il existe une trame fondamentale commune à toutes les provinces puisque chacune a établi un ministère de l'Éducation responsable de l'organisation et de l'administration de l'instruction publique, des programmes d'études, des certificats de pédagogie, etc. Les commissions scolaires municipales (élues ou désignées) sont chargées de la construction et de l'administration des écoles, y compris l'engagement des instituteurs.

Aux fins de la statistique, l'habitude a été de diviser l'instruction élémentaire-secondaire en deux secteurs, alors qu'en pratique il n'existe souvent aucune distinction absolue entre l'élémentaire et le secondaire. Par exemple, la plupart des provinces s'acheminent vers ou ont déjà développé un régime tripartite dont les cours 1 à 6 sont dits élémentaires, les cours 7 à 9 secondaires juniors et, les cours 10, 11, 12 ou 13, secondaires seniors. Les exceptions sont le Québec et l'Ontario.

Jusqu'au moment d'imprimer le présent rapport, le Québec avait un régime 7-4, mais il sera converti en 1965-66 à un régime 6-5. En Ontario, où les écoles secondaires juniors sont peu nombreuses, les divisions traditionnelles élémentaires et secondaires sont maintenues dans un régime 8-5. En Colombie-Britannique, les cours 1 à 7 sont dits élémentaires et les cours 9 à 13, secondaires, ces derniers divisés entre secondaires junior et secondaires senior.

Pour ce qui est du programme d'études, chaque province a une division tripartite. Pour ce qui est des cours ou des années, ce sont:

6-2-3 Terre-Neuve	11
6-2-5 Ontario	13
6-6-3 Nouvelle-Écosse, Nouveau-Brunswick, Manitoba, Saskatchewan, Alberta.	12
6-4-2 Île-du-Prince-Édouard	12
7-2-3 Québec	12
7-3-3 Colombie-Britannique	13

En étudiant ce qui précède, on doit se souvenir que l'année d'immatriculation senior n'est pas prévue dans le programme d'études de Terre-Neuve, de

NOTE: THE ABOVE GIVES A GENERAL PICTURE OF THE GRADE STRUCTURE ONLY. CERTAIN VARIATIONS IN ORGANIZATION AND CURRICULA ARE DISREGARDED IN THE INTERESTS OF SIMPLICITY. FOR EXAMPLE, THE CURRICULA, PARTICULARLY OF THE SECONDARY GRADES, VARIES WIDELY AMONG THE PROVINCES.

NOTA: L'ILLUSTRATION CI-DESSUS DONNE UNE VUE D'ENSEMBLE DE L'ORGANISATION DES CLASSES SEULEMENT. CERTAINES VARIATIONS D'ORGANISATION ET DE PROGRAMMES SONT MISES DE CÔTÉ POUR PLUS DE SIMPLICITÉ. PAR EXEMPLE, LES PROGRAMMES, SURTOUT DANS LES CLASSES SECONDAIRES, VARIENT CONSIDÉRABLEMENT D'UNE PROVINCE À L'AUTRE.

Prince Edward Island and New Brunswick, although there are a few schools in Newfoundland and New Brunswick which offer the year. Where there is no senior matriculation year, students may enter university after junior matriculation, in which case they normally take an additional year (i.e., four years) for a pass degree. In Nova Scotia, Quebec and British Columbia admission to university may be at either the junior or senior matriculation level.

In this report, teachers are classified as elementary if they teach any grade or combination of grades 1 to 8 or if they teach both elementary and secondary grades in rural schools of less than six classrooms. Similarly, secondary teachers are those who teach only grades above grade 8 or who teach both elementary and secondary grades in urban areas or in rural schools of more than six classrooms.

All teacher-training in Canada is post-secondary. In five provinces, it is provided in both teachers' colleges and university faculties of education, while in Newfoundland, Manitoba, Saskatchewan, Alberta and British Columbia, all teacher-education is carried out by the provincial universities. One of the recommendations of the Parent inquiry into education in Quebec was that all teacher-training in that province be under the jurisdiction of the universities.

For the purposes of this report, public schools are those which are supported by local taxation, supplemented by provincial grants and administered by appointed or elected municipal school boards in accordance with the Education Act of the province or territory in which they are located. Included are the denominational schools of Newfoundland, the Protestant and Roman Catholic separate schools where such exist and provincial schools at the elementary-secondary level.

Provincial schools are of two sorts: (a) those operated by departments of the provincial government, and (b) a group of schools in the province of Quebec which may be described as being under provincial supervision.

Schools operated by provincial departments include county vocational schools of Nova Scotia, and Prince Edward Island, the trade and technical schools of Quebec and the schools for the blind and deaf outside Quebec.

In Quebec there are a considerable number of schools to which the province pays a maintenance grant, pays the salaries of some or all of the teachers, determines the course of study, sets

l'Île-du-Prince-Édouard et du Nouveau-Brunswick, mais que certaines écoles à Terre-Neuve et au Nouveau-Brunswick comprennent cette année. Lorsque l'année d'immatriculation senior n'existe pas, les étudiants peuvent s'inscrire à l'université après l'immatriculation junior et, dans ce cas, ils suivent ordinairement une année supplémentaire (i.e. quatre années) pour obtenir un grade. En Nouvelle-Écosse, au Québec et en Colombie-Britannique, l'admission à l'université est au niveau de l'immatriculation junior ou senior.

Dans le présent rapport, les instituteurs sont classés comme élémentaires s'ils enseignent au moins une des années 1 à 8, ou s'ils enseignent des cours élémentaires et secondaires dans une école rurale comptant moins de six classes. De même, les instituteurs secondaires sont ceux qui enseignent seulement après la 8e année, ou qui enseignent des classes élémentaires et secondaires dans les régions urbaines ou dans des écoles rurales comptant plus de six classes.

Toute la formation pédagogique au Canada est post-secondaire. Dans cinq provinces, elle est donnée dans les écoles de pédagogie et aux facultés universitaires d'éducation, tandis qu'à Terre-Neuve, au Manitoba, en Saskatchewan, en Alberta et en Colombie-Britannique, toute l'éducation pédagogique relève des universités provinciales. Une des recommandations de l'enquête Parent sur l'enseignement au Québec veut que toute la formation pédagogique dans la province tombe sous la juridiction des universités.

Dans le présent rapport, les écoles publiques sont celles qui sont soutenues par les taxes locales, auxquelles s'ajoutent des subventions provinciales; elles sont administrées par des commissions scolaires municipales, désignées ou élues, conformément à la loi régissant l'instruction dans la province ou le territoire où elles sont situées. Sont comprises les écoles confessionnelles de Terre-Neuve, les écoles séparées protestantes et catholiques là où il y en a, et les écoles provinciales élémentaires-secondaires.

Les écoles provinciales sont de deux genres: (a) celles qui sont administrées par les ministères provinciaux et (b) celles d'un groupe d'écoles de la province de Québec qui peuvent être décrites comme étant soumises à la surveillance provinciale.

Les écoles administrées par les services provinciaux comprennent les écoles professionnelles des comtés de la Nouvelle-Écosse et de l'Île-du-Prince-Édouard, les écoles de métiers et les écoles techniques du Québec, et les écoles pour les aveugles et les sourds en dehors du Québec.

Le gouvernement québécois verse une subvention d'appoint à bon nombre d'écoles; il paie le traitement d'une partie ou de tous les enseignants, établit leurs programmes d'études, prépare leurs examens et

examinations and supervises them through a provincial official. These include agriculture schools, intermediate family schools, family institutes and schools of fine arts. These are classified as being under provincial supervision.

There are schools in each province which are neither publicly financed nor publicly administered but are operated privately by an individual association or corporation. These include private nursery and kindergarten schools, private elementary-secondary day and residential schools, business colleges, trade schools and correspondence schools. Data on private schools in this report cover only the academic elementary-secondary schools and private kindergartens. Data on business colleges and trade schools are published in the annual "Survey of Vocational Education and Training".

The education of Indian children, except for those in the Northwest Territories, is the responsibility of the Indian Affairs Branch of the Department of Citizenship and Immigration. Day schools, residential schools, seasonal schools and hospital classes are operated in all provinces except Newfoundland. There is also one school in the Yukon. Most of these are elementary schools; Indian pupils of secondary school age attend nearby public secondary schools where their tuition is paid by Indian Affairs.

Indian day schools are all government owned and operated. The residential schools are of two sorts: (a) those owned and financed by the Federal Government but operated under the auspices of religious bodies; and (b) those owned and operated by religious bodies but financed by grants from the Federal Government.

The Department of Northern Affairs and National Resources is responsible for the education of all Indian and Eskimo children north of the 60th parallel of latitude (except in the Yukon) and along the coastal region of northern Quebec. The Government of the Yukon and the Council of the Northwest Territories are each responsible for the education of all other children within their respective territories.

There are three schools operated by local school boards in the MacKenzie District of the Northwest Territories. A public school board and a Roman Catholic separate schoolboard each operate a school at Yellowknife, and a Roman Catholic board operates a school at Hay River.

The education of school age dependents of armed forces personnel in Canada and abroad is the responsibility of the Department of National Defence. There are schools for elementary and secondary pupils on the principal National Defence

les fait surveiller par un fonctionnaire provincial. Ces écoles comprennent les écoles d'agriculture, les écoles familiales intermédiaires, les instituts familiaux et les écoles de beaux-arts. Elles font partie de la catégorie des écoles sous la surveillance des autorités provinciales.

Dans chaque province, des écoles ne sont ni financées par les deniers publics, ni publiquement administrées; elles sont dirigées privément par quelque association ou société indépendante. Elles comprennent les garderies et jardins d'enfants, les externats et pensionnats privés élémentaires-secondaires, les collèges commerciaux, les écoles de métiers et les écoles de cours par correspondance. Les données sur les écoles privées dans le présent rapport ne visent que les écoles élémentaires-secondaires régulières et les jardins d'enfants privés. Les données sur les collèges et écoles de métiers paraissent dans le rapport annuel "Relevé de la formation professionnelle et technique".

L'instruction des enfants indiens, sauf ceux des Territoires du Nord-Ouest, relève de la Direction des affaires indiennes du ministère de la Citoyenneté et de l'Immigration. Il existe des externats, des pensionnats, des écoles saisonnières et des cours hospitaliers dans toutes les provinces sauf à Terre-Neuve. Le Yukon compte aussi une école. La plupart sont des écoles élémentaires; les élèves indiens en âge de fréquenter l'école secondaire étudient dans les écoles publiques avoisinantes où leurs frais de scolarité sont payés par les Affaires indiennes.

Les externats pour les enfants indiens appartiennent tous à l'État. Les pensionnats sont de deux genres: (a) ceux qui appartiennent au gouvernement fédéral et sont financés par lui, tout en étant dirigés par une communauté religieuse; (b) ceux qui appartiennent à une communauté religieuse et sont administrés par elle, mais qui sont financés par le gouvernement fédéral.

Le ministère du Nord et des Ressources nationales est responsable de l'éducation de tous les enfants indiens et esquimaux au nord du 60e parallèle de latitude (sauf au Yukon) et le long de la région côtière du Québec septentrional. Le gouvernement du Yukon et le Conseil des Territoires du Nord-Ouest sont chacun responsables de l'éducation de tous les autres enfants de leurs territoires respectifs.

Trois écoles sont administrées par des commissions scolaires locales dans le District du MacKenzie des Territoires du Nord-Ouest. Une commission scolaire publique et une commission scolaire des écoles séparées catholiques romaines administrent chacune une école à Yellowknife, et une commission catholique romaine administre une école à Hay River.

L'éducation des personnes d'âge scolaire qui dépendent du personnel militaire, au Canada et à l'étranger, relève du ministère de la Défense nationale. Des écoles pour les élèves des cours élémentaires et secondaires existent dans les établissements de la

establishments across Canada. Since these schools operate within the framework of the public schools of the provinces in which they are located, statistics on these schools are included with those of the public schools. However, data are shown separately for the schools operated in conjunction with National Defence establishments in England, France, Belgium, Germany and Sardinia.

This publication is designed to give, insofar as possible, detailed comparable statistical data on the public elementary-secondary systems of the ten provinces, and on private and federal schools. The statistical tables are organized into five sections: (I) summary tables for all types of schools, (II) public school systems (III) federal schools, (IV) private schools and (V) statistics on population of school age and interprovincial movement. A selected bibliography on elementary-secondary education, a directory of organizations concerned with elementary-secondary education and a list of Canadian education journals also form a part of the report.

Défense nationale partout au Canada. Comme ces écoles fonctionnent dans le cadre des écoles publiques de la province où elles sont situées, la statistique concernant ces écoles est comprise avec celle des écoles publiques. Toutefois, les données sont indiquées séparément pour les écoles administrées avec les établissements de la Défense nationale en Angleterre, en France, en Belgique, en Allemagne et en Sardaigne.

Cette publication présente, autant que possible, des données statistiques comparables sur les régimes publics élémentaires-secondaires dans les dix provinces, ainsi que sur les écoles privées et publiques. Les tableaux statistiques sont groupés en cinq sections: (I) tableaux sommaires pour toutes les catégories d'écoles; (II) régimes scolaires publics; (III) écoles fédérales; (IV) écoles privées; (V) statistiques visant la population d'âge scolaire et déplacements inter-provinciaux. Une bibliographie sélectionnée de l'enseignement élémentaire-secondaire, un répertoire des organismes intéressés à l'enseignement élémentaire-secondaire et une liste des publications sur l'enseignement au Canada font également partie du rapport.

REVIEW OF STATISTICS

Schools

In 1962-63 there were 25,487 elementary and secondary schools in operation in Canada, with a total enrolment of 4,589,487. Most of these schools (93 p.c.) were under public control or public supervision, 5 p.c. were private schools and 2 p.c. were administered by departments of the Federal Government.

From 1951 to 1963 the number of public schools decreased from 30,987 to 23,751, a decrease of 23 p.c. During the same period the total public school enrolment increased by 82 p.c. and the teaching staff by 84 p.c. The gradual decrease in the number of schools can be explained in part by a gradual movement of population over the past decade from rural areas to larger urban areas, resulting in an increase in the number of larger schools but a much more marked decrease in small rural schools, particularly one-room schools. Also, the trend in most provinces is towards constructing regional schools, many of which are located in small urban centres, to serve large, sparsely-populated rural areas.

Of the 17,607 public schools in the nine provinces exclusive of Quebec, 6 p.c. were all-grade schools, 80 p.c. provided instruction at the elementary level only and 6 p.c. enrolled pupils in secondary grades only. The remaining 8 p.c. is composed of elementary-junior high, junior high and junior-senior high schools.

REVUE DE LA STATISTIQUE

Écoles

En 1962-63, le Canada comptait 25,487 écoles élémentaires et secondaires, dont les inscriptions totales s'élevaient à 4,589,487. La plupart de ces écoles (93 p. 100) étaient sous régie ou surveillance publique, 5 p. 100 étaient des écoles privées et 2 p. 100 des écoles dirigées par des ministères du gouvernement fédéral.

De 1951 à 1963, le nombre des écoles publiques a diminué de 30,987 à 23,751, recul de 23 p. 100. Durant la même période, les inscriptions totales aux écoles publiques ont augmenté de 82 p. 100, et le personnel enseignant, de 84 p. 100. La diminution régulière du nombre des écoles s'explique en partie par la migration graduelle, durant la dernière décennie, de la population des régions rurales vers les grandes régions urbaines, apportant une augmentation dans le nombre des grandes écoles, mais une diminution plus marquée dans les petites écoles rurales, surtout dans les écoles d'une seule classe. De plus, la plupart des provinces tendent vers la construction d'écoles régionales, dont plusieurs sont situées dans de petits centres urbains, afin de desservir les grandes régions rurales peu habitées.

Sur les 17,607 écoles publiques des neuf provinces (sauf le Québec), 6 p. 100 étaient des écoles à cours complet, 80 p. 100 n'offraient qu'un enseignement élémentaire et 6 p. 100 ne recevaient que les élèves du secondaire. Les autres (8 p. 100) comprennent des écoles élémentaires supérieures junior, des écoles junior supérieures et des écoles secondaires junior-senior.

Of all public schools outside of Quebec which enrolled students in secondary grades, 44 p.c. were all-grade schools and 39 p.c. had secondary grades only. The remaining 17 p.c. were junior high and junior-senior high schools.

Outside of Quebec, 30 p.c. of all private schools were elementary, 44 p.c. were secondary and 26 p.c. provided instruction at both the elementary and secondary levels; 88 p.c. of the private schools were church-sponsored (66 p.c. Roman Catholic). Thirty-nine per cent were residential schools.

Enrolment

Of the 4,589,487 students enrolled in all elementary-secondary schools in 1962-63, 95 p.c. were in public schools, 4 p.c. were in private schools and 1 p.c. in DND schools overseas, Indian schools and schools operated by the Department of Northern Affairs and National Resources. The total enrolment represents an increase of 4.1 p.c. over 1961-62.

Enrolment at the secondary level was 24 p.c. of the total. This represents an increase of 9.5 p.c. over the previous year. Over the same period, elementary enrolment increased by 2.5 p.c.

Enrolment in public elementary-secondary schools in 1962-63 reflects an increase of 4.2 p.c. over 1961-62 and 73 p.c. over 1951-52. Over the same years, enrolments in private schools increased by 6.4 p.c. and 48 p.c. respectively.

Teachers

The total teaching staff in elementary-secondary schools in 1962-63 was 184,036, an increase of 6.3 p.c. over the previous year; 94 p.c. of these were teaching in public schools and 5 p.c. in private schools.

The number of teachers in public schools has increased by 84 p.c. since 1951, or an average increase of 7 p.c. per year, approximately equal to the average increase in enrolment. The increase in number of teachers can also be explained in part by the concern over teaching-load and class-size and attempts to keep these at an acceptable level. In addition, the number of teachers of special subjects such as industrial arts, commercial, physical education, music, etc., has increased considerably in the period under review and the size of administrative and pupil-personnel staff has been growing at an accelerating rate.

Abstraction faite du Québec, il convient de noter que de toutes les écoles publiques, qui comptaient des étudiants au secondaire, 44 p. 100 offraient un cours complet, et 39 p. 100, un enseignement secondaire seulement. Les autres (17 p. 100) étaient des écoles junior supérieures ou junior-senior.

Hors du Québec, 30 p. 100 de toutes les écoles privées étaient des écoles élémentaires, 44 p. 100 des écoles secondaires, et 26 p. 100 des écoles offrant un enseignement élémentaire et secondaire; 88 p. 100 étaient des écoles privées confessionnelles (66 p. 100 des écoles catholiques). Enfin, 39 p. 100 étaient des pensionnats.

Inscriptions

Sur les 4,589,487 étudiants inscrits dans toutes les écoles élémentaires et secondaires en 1962-63, 95 p. 100 l'étaient dans des écoles publiques, 4 p. 100 dans des écoles privées et 1 p. 100 dans les écoles d'outre-mer du ministère de la Défense nationale, dans les écoles pour Indiens et dans celles que dirige le ministère du Nord canadien et des ressources nationales. Les inscriptions totales accusent donc une augmentation de 4.1 p. 100 sur 1961-62.

Les inscriptions au niveau secondaire représentaient 24 p. 100 du total. C'est là une augmentation de 9.5 p. 100 sur l'année précédente. Durant la même période, les inscriptions au primaire ont augmenté de 2.5 p. 100.

En 1962-63, les inscriptions dans les écoles publiques élémentaires et secondaires reflètent un accroissement de 4.2 p. 100 sur l'année précédente, et de 7.3 p. 100 sur 1951-52. Durant la même période, celles des écoles privées ont augmenté respectivement de 6.4 p. 100 et 48 p. 100.

Instituteurs

Le personnel enseignant des écoles élémentaires et secondaires en 1962-63 se chiffrait par 184,036, augmentation de 6.3 p. 100 sur l'année précédente; 94 p. 100 de ce nombre enseignaient dans les écoles publiques, et 5 p. 100 dans les écoles privées.

Le nombre des instituteurs dans les écoles publiques a augmenté de 84 p. 100 depuis 1951, ou une augmentation moyenne de 7 p. 100 par année c'est-à-dire une augmentation moyenne égale à l'augmentation d'inscriptions. L'augmentation du nombre d'instituteurs peut être aussi expliquée par l'inquiétude qui a été soulevée par le poids de la tâche imposée au corps enseignant et par la densité des classes afin de les garder à un niveau acceptable. En outre, le nombre d'instituteurs chargés d'enseigner des matières spéciales (commerciales, arts industriels, culture physique, musique etc.) a fortement augmenté durant la période de revue et les cadres de l'administration, y compris ceux des services personnels des élèves se sont élargis à un rythme accéléré.

Teachers' Salaries

During the period 1951-52 to 1962-63 median salaries of teachers in public schools in the nine provinces exclusive of Quebec increase, on the average \$2,214 (96 p.c.). The largest percentage increase was in Newfoundland (192 p.c.) while the lowest was in British Columbia (75.6 p.c.). It should be noted, however, that in 1962-63, teachers in the public schools of British Columbia had the highest median salary (\$5,466) while Newfoundland had the lowest (\$2,667).

In all provinces, teacher salary schedules are based principally upon qualifications and experience. An examination of average salaries shows differences between elementary and secondary teachers.

At both the elementary and secondary level, the median salary for women was lower than that for men (except for elementary teachers in Newfoundland), despite the fact that generally the median experience for women was higher than that for men. This may be explained by the fact that men teachers generally have higher qualifications than women and that larger proportions of men than women are heads of departments, principals of schools, etc.

Teaching Experience and Tenure

Median total teaching experience for teachers in public schools for the nine provinces exclusive of Quebec was 7 years 4 months (7-4) as of the beginning of the school year 1962-63. Secondary teachers reported higher experience than elementary teachers (8-5 vs. 7-0); the difference was most pronounced in Saskatchewan (4 years 7 months). The exceptions are Nova Scotia and Ontario with differences of less than one year.

Except for secondary teachers in Ontario and Saskatchewan, median experience for women was higher than that for men in all provinces and at both levels of teaching.

Median experience has not varied greatly in the last 20 years. The lowest during this period was 6-7 in 1943-44 and the highest in 1959-60 (8-1).

Generally speaking, median tenure, with the exception of the war years has been increasing a very small amount each year (from 1-6 in 1940-41 to 3-0 in 1962-63).

Class Size

Data on class size are available for nine provinces only (not including Quebec).

Traitements des instituteurs

Durant la période 1951-52 à 1962-63, le traitement médian des instituteurs des écoles publiques dans neuf provinces (Québec exclus) a augmenté, en moyenne de \$2,214 (96 p. 100). L'augmentation procentuelle la plus importante a été celle de Terre-Neuve (192 p. 100) et la plus basse, celle de la Colombie-Britannique (75.6 p. 100). Cependant, notons qu'en 1962-63, les instituteurs des écoles publiques de la Colombie-Britannique recevaient le traitement médian le plus élevé (\$5,466); ceux de Terre-Neuve, le moins élevé (\$2,667).

Dans toutes les provinces, l'échelle des traitements se fonde principalement sur la formation et l'expérience des instituteurs. L'examen des traitements moyens montre bien les différences qui existent entre les instituteurs de l'élémentaire et ceux du secondaire.

Aux niveaux de l'élémentaire et du secondaire, le traitement médian des femmes était moins élevé que celui des hommes (sauf dans le cas de l'élémentaire à Terre-Neuve), même si les institutrices possédaient un degré d'expérience médian supérieur à celui des instituteurs. Cela peut s'expliquer du fait que ces derniers ont des degrés généralement supérieurs à ceux des femmes et qu'une plus grande proportion d'hommes sont chefs de département, ou directeurs d'école, etc.

Expérience et service courant

L'expérience médiane totale des instituteurs des écoles publiques dans les neuf provinces (Québec excepté) était de 7 ans et 4 mois (7-4) au début de l'année scolaire 1962-63. Les instituteurs du secondaire ont accusé une expérience plus grande que ceux de l'élémentaire (8-5 contre 7-0), la différence la plus prononcée s'observait en Saskatchewan (4 ans et 7 mois). En Nouvelle-Écosse et en Ontario cependant, il y a une différence de moins d'un an.

Sauf dans le cas des instituteurs du secondaire en Ontario et en Saskatchewan, l'expérience médiane des femmes était plus grande que celle des hommes dans toutes les provinces, aux deux niveaux de l'enseignement.

L'expérience médiane n'a pas beaucoup varié ces 20 dernières années. La moins élevée a été de 6-7 en 1943-44 et la plus élevée, de 8-1 en 1959-60.

En général, le service courant médian, à l'exception des années de guerre, a augmenté quelque peu chaque année (de 1-6 en 1940-41 à 3-0 en 1962-63).

Densité des classes

Les données sur la densité des classes existent pour neuf provinces seulement, à l'exclusion du Québec.

The median size of classes in all public schools was 31 pupils, varying from 26 in Saskatchewan to 33 in British Columbia.

As medians do not give any indication of dispersion above and below this measure of central tendency, the accompanying table gives a percentage distribution of classes of various sizes.

The table shows that 74.9 p.c. of classes of elementary grades only had enrolments of 34 or less, while for secondary classes the corresponding percentage was 75.4. Similarly the percentage of larger classes (35 or more) was greater for elementary than for secondary, 25.1 p.c. as compared with 24.6 p.c.

For all classes in public schools, 64.8 p.c. had enrolments between 20 and 34 pupils, the corresponding percentages for elementary and secondary being 65.6 and 61.9 respectively.

La densité médiane des classes de toutes les écoles publiques était de 31 élèves et variait de 26 en Saskatchewan à 33 en Colombie-Britannique.

Comme les médianes ne renseignent aucunement sur la dispersion au-dessus et au-dessous de cette mesure de la tendance centrale, le tableau ci-joint donne la répartition procentuelle des classes à densité variée.

Ce tableau révèle qu'un peu plus de 74.9 p. 100 des classes élémentaires seulement avaient des effectifs de 34 élèves ou moins, contre 75.4 p. 100 dans le cas des classes secondaires. De même, la proportion des classes à forte densité (35 élèves ou plus) était beaucoup plus élevée au niveau élémentaire (25.1 p. 100) qu'au niveau secondaire (24.6 p. 100).

Pour toutes les classes dans les écoles publiques, 64.8 p. 100 effectuent des inscriptions entre 20 et 34 élèves, les pourcentages pour l'élémentaire et le secondaire étant de 65.6 p. 100 et de 61.9 p. 100 respectivement.

Percentage Distribution of Classes by Enrolment, 1962 - 63
Répartition procentuelle des classes par inscriptions, 1962 - 63

Enrolment in class — Inscriptions en classe	All classes — Toutes classes	Classes of elementary grades only — Classes élémentaires seulement	Classes of secondary grades only — Classes secondaires seulement
Under 20 — Moins de 20	10.4	9.3	13.5
20 - 29	34.6	34.4	34.8
30 - 34	30.2	31.2	27.1
35 - 39	19.4	19.3	20.1
40 and over — 40 et plus	5.4	5.8	4.5

Class size, as presented in Table 2-04 and as analysed briefly in the foregoing table, ought not to be confused with pupil-teacher ratio which is normally obtained by dividing the total enrolment by the total number of teachers (including special teachers, and some supervisory, administrative and pupil-personnel staff). Class size is based upon the actual enrolment in class, without regard to the number of teachers involved in instructing the class, and the median is the point in the distribution above and below which 50 p.c. of the reported enrolments fall. Consequently, pupil-teacher ratio will be smaller than median class size, although the latter gives a much more representative picture of the actual size of classes, on the average, that teachers instruct in a classroom situation.

Il ne faut pas confondre la densité représentée au tableau 2-04 et exposée brièvement dans le tableau à venir, avec le rapport élèves-instituteur qui s'obtient normalement en divisant le total des inscriptions par le nombre total des instituteurs (y compris certains instituteurs spéciaux et certaine surveillance ainsi que certains employés de l'administration des services personnels des élèves). La densité des classes se fonde sur le nombre réel d'inscriptions dans la classe, sans égard au nombre d'instituteurs qui enseignent dans cette classe, tandis que la médiane est le point de la répartition au-dessus et au-dessous duquel se situent 50 p. 100 des inscriptions signalées. Le rapport élèves-instituteur est donc inférieur à la densité médiane des classes bien que la dernière donne une idée plus représentative de la densité actuelle des classes, selon la moyenne, que lorsqu'un instituteur enseigne toujours dans le même local.

Total	14,728	7,795	1,182	23,705

¹ The following is the breakdown of Protestant schools: 391 Church of England, 307 United Church, 86 Salvation Army, 4 Seventh Day Adventist, 53 Pentecostal.

² Includes R.C. and Protestant schools under school commissions and other schools under provincial supervision — agriculture schools, family institutes and trade and technical schools.

³ Separate schools in Ontario are at elementary level.

¹ Voici la répartition des écoles protestantes: 391 Église d'Angleterre, 307 Église Unie, 86 Armée du salut, 4 Adventistes du 7^e jour, 53 Pentecostales.

² Comprend les écoles catholiques et protestantes qui relèvent des commissions scolaires et d'autres écoles qui relèvent de l'administration provinciale — écoles d'agriculture, instituts familiaux et écoles de métiers ou techniques.

³ Les écoles séparées de l'Ontario n'existent qu'à l'échelon élémentaire.

¹ Does not include separate schools.

² Fully qualified elementary teachers are those with junior matriculation and 2 or more years or senior matriculation and one or more years of professional training. At the secondary level they are teachers with 4 or more years of education beyond junior matriculation including professional training.

³ Comprises teachers and principals instructing primary or elementary grades only, and those teaching both elementary and secondary grades in rural schools with less than 6 rooms.

⁴ Comprises teachers and principals instructing secondary grades only, and those teaching both elementary and secondary grades in urban centres or in rural schools with more than 5 rooms.

¹ Ne comprend pas les écoles séparées.

² Pour l'enseignement élémentaire, les instituteurs pleinement compétents sont ceux qui, après leur immatriculation junior, ont reçu deux ans ou plus (ou après leur immatriculation senior une année ou plus) de formation professionnelle. Pour l'enseignement secondaire, ce sont ceux qui, après leur immatriculation junior ont fait 4 années ou plus d'études supérieures y inclus la formation professionnelle.

³ Comprend les instituteurs et les directeurs des classes primaires ou des classes élémentaires seulement et ceux qui enseignent les classes élémentaires et secondaires dans les écoles rurales de moins de 6 classes.

⁴ Comprend les instituteurs et les directeurs des classes secondaires seulement et ceux qui enseignent les classes élémentaires et secondaires dans les centres urbains et les écoles rurales de plus de 5 classes.

¹ Figures for the years 1867 to 1900 were published in Table 1 of the 1936-38 edition of this survey and those for the individual years 1902 to 1940 in the 1950-1954 edition.

² Newfoundland included in total for Canada from 1948-49.

³ The figures for Quebec in Tables 2-13 and 2-14 include independent schools; those for other provinces do not. The enrolment in the Quebec independent schools for 1962-63 was 97,079 including an additional 20,472 students in schools not accounted for in this table previous to 1959.

¹ Les chiffres de 1867-1900 figurent au tableau 1 de l'édition de 1936-38 du Felevé; ceux de 1902 à 1940, dans l'édition de 1950-1954.

² Terre-Neuve est comprise dans le total du Canada à partir de 1948-49.

³ Les chiffres du Québec dans les tableaux 2-13 et 2-14 comprennent les écoles indépendantes; les chiffres des autres provinces ne les comprennent pas. Les inscriptions aux écoles indépendantes du Québec en 1962-63 se chiffraient par 97,079 compris 20,472 étudiants des écoles qui n'étaient pas incluses avant 1959.

¹ Commercial and Industrial one-year courses; the figures for Manitoba, Saskatchewan and British Columbia include "New Canadian" pupils.

² Includes the high school grades in Prince of Wales College.

³ Includes R.C. and Protestant schools under school commissions and other schools under provincial supervision — agriculture schools, family institutes and trade and technical schools.

⁴ Since Grade VIII is considered a secondary grade in Quebec, enrolments in this grade are included in the total for secondary rather than elementary.

¹ Comprend les écoles catholiques qui relèvent des commissions scolaires et d'autres écoles qui relèvent de l'administration provinciale — écoles d'agriculture, instituts familiaux et écoles de métiers ou techniques.

² Les chiffres relatifs aux cours post-secondaires ne sont pas donnés dans ce tableau. Les inscriptions aux XIIe et XIIIe années sont limitées aux dernières années des cours secondaires.

³ Ces élèves sont dans des instituts familiaux seulement.

¹ Newfoundland included in total for the nine provinces from 1949, Quebec from 1959.² Includes Prince of Wales College.³ Approximate division by sex; totals are exact.⁴ Since grade VIII is considered a secondary grade in Quebec, enrolments in this grade are included in the total for secondary rather than elementary.⁵ Secondary school enrolment in Ontario is that of the last day in May up to 1943 and net enrolment for the school year thereafter.¹ Terre-Neuve comprise dans le total pour les neuf provinces à partir de 1949, Québec à partir de 1959.² Y compris le collège *Prince of Wales*.³ Répartition approximative par sexe; les chiffres du total sont exacts.⁴ Comme la 8e année est classée à l'échelle secondaire au Québec, les inscriptions de cette année figurent avec le total du cours secondaire et non élémentaire.⁵ Les inscriptions aux écoles secondaires de l'Ontario sont celles du dernier jour de mai jusqu'en 1943, et le chiffre net des inscriptions de l'année scolaire ensuite.

¹ Brevets C and B are terminal two-year courses.

² Includes 540 students in the course leading to both a Brevet A and a baccalaureate (see footnote 3).

³ The undergraduate course leading to the baccalaureate and the Brevet A is given in Normal schools affiliated with universities (see footnote 2).

¹ Les brevets C et B s'obtiennent au terme d'un cours de 2 ans.

² Y compris 540 étudiants du cours couronné par un Brevet A et un baccalauréat (voir renvoi 3).

³ Le cours conduisant au baccalauréat et au Brevet A, se donne dans les écoles normales affiliées aux universités (voir renvoi 2).

¹ As reported in the Annual Report of the Department of Citizenship and Immigration for the fiscal year ending March 31, 1963.

² Teachers' reports to DBS.

³ Includes 3 schools in Quebec, located in the St. Regis agency, with a total of 17 teachers.

⁴ Includes one special training school in Edmonton.

¹ D'après le rapport du ministère de la Citoyenneté et de l'immigration pour l'exercice financier terminé le 31 mars 1963.

² Rapports des instituteurs au B.F.S.

³ Comprend 3 écoles du Québec, situées dans l'agence St-Regis et comptant 17 instituteurs.

⁴ Comprend une école de formation spéciale à Edmonton.

¹ The provincial teachers' certificates required to teach in high schools. Most of these have university degrees.

² Academic training of senior matriculation level plus at least one year professional training.

³ Academic training of junior matriculation level plus one year professional training.

⁴ Lower qualifications.

¹ Brevet provincial d'enseignement dans les écoles secondaires. La plupart de ces instituteurs ont un grade universitaire.

² Immatriculation senior et au moins un an de formation professionnelle.

³ Immatriculation junior et une année de formation professionnelle.

⁴ Degré inférieur d'instruction ou de formation.

¹ Lay teachers only; since many members of religious orders receive only a nominal salary or no salary, they are not included. These are salaries actually paid and make no allowance for free board or other privileges.

¹ Instituteurs laïques seulement; comme plusieurs membres des communautés religieuses ne touchent qu'un traitement nominal ou n'en touchent pas, ils ne sont pas inclus. Les traitements indiqués sont les traitements versés de fait et ne tiennent pas compte de la pension gratuite ni d'autres privilèges.

PART IV
DIRECTORY OF CANADIAN ORGANIZATIONS CONCERNED WITH
ELEMENTARY AND SECONDARY EDUCATION

PARTIE IV
RÉPERTOIRE DES ORGANISMES CANADIENS DE L'ENSEIGNEMENT
ÉLÉMENTAIRE ET SECONDAIRE

This list attempts to classify organizations in the field of education on the basis of their nature or function rather than on the basis of the area they serve. Those concerned with areas smaller than provinces are not as a rule included.

Dans le présent répertoire les organismes d'enseignement sont autant que possible selon leur nature ou leurs fonctions plutôt que selon le territoire qu'ils desservent. Ceux qui exercent dans des territoires de moindre étendue qu'une province ne sont pas inclus en général.

GOVERNMENT DEPARTMENTS OF EDUCATION — MINISTÈRES DE L'INSTRUCTION PUBLIQUE

The "Departments of Education" are listed here. In addition some of the other provincial departments administer schools and colleges of special kinds. Included among these are the Department of Youth in Quebec and the Departments of Agriculture and Labour in most of the Provinces. — Les "ministères de l'Instruction publique", sont énumérés ci-dessous. En outre, certains autres ministères provinciaux administrent des écoles et des collèges d'un caractère particulier, entre autres, le ministère de la Jeunesse, dans le Québec, et les ministères de l'Agriculture et du Travail dans la plupart des provinces.

National — Organismes nationaux

Canada. — Indian Education — Superintendent of Education, Education Division, Indian Affairs Branch, Department of Citizenship and Immigration, R.F. Davey, Ottawa. — **Instruction des Indiens** — Surintendant du service de l'éducation, Direction des affaires indiennes, ministère de la Citoyenneté et de l'Immigration, R.F. Davey, Ottawa.

Canada. — Servicemen's Dependents' Schools — Director of Education, Department of National Defence, A.A. Smith, 3836 "A" Building, Cartier Square, Ottawa. — **Écoles pour les enfants des militaires** — Directeur de l'enseignement, ministère de la Défense nationale, A.A. Smith, 3836 "A", Cartier Square, Ottawa.

Canada. — Yukon — See "Provinces and Territories" below. — Voir "Organismes provinciaux et territoriaux" ci-dessous.

Canada. — Northwest Territories — Chief, B. Thorsteinsson, Education Division, Northern Administration Branch, Department of Northern Affairs and National Resources, Kent-Albert Building, 150 Kent Street, Ottawa. — **Territoires du Nord-Ouest** — Chef, Division de l'éducation, Direction des régions septentrionales, ministère du Nord canadien et des Ressources nationales, édifice Kent-Albert, 150, rue Kent, Ottawa.

Provinces and Territories — Organismes provinciaux et territoriaux

Newfoundland. — Deputy Minister of Education, P.J. Hanley.

Prince Edward Island. — Deputy Minister and Director of Education, M. MacKenzie.

Nova Scotia. — Deputy Minister of Education, H.P. Moffatt.

New Brunswick. — Deputy Ministers of Education, F.T. Atkinson and J.G. DeGrace.

Québec. — Sous-ministre de l'Éducation, Arthur Tremblay.

Ontario. — Deputy Minister of Education, Z.S. Phimister.

Manitoba. — Deputy Minister of Education, B. Scott Bateman.

Saskatchewan. — Deputy Minister of Education, L.H. Bergstrom.

Alberta. — Deputy Minister of Education, W.H. Swift.

British Columbia. — Deputy Minister of Education, G. Neil Perry; Superintendent of Education, F.P. Levis.

Yukon. — Superintendent of Schools, Harry Thompson, Department of Education, Whitehorse. — Surintendant des écoles, Harry Thompson, département de l'Instruction publique, Whitehorse.

Northwest Territories. — See "National" above. — **Territoires du Nord-Ouest.** — Voir "Organismes nationaux" ci-dessus.

SCHOOL TEACHERS AND PRINCIPALS' ORGANIZATIONS — ASSOCIATIONS D'INSTITUTEURS ET DE PRINCIPAUX

National — Association nationale
