PREFACE

This edition of the Dominion Bureau of Statistics Reference Paper 55 is the first revision of the original January 1955 publication. It is hoped that in future it will be brought up to date every other year, alternating with new editions of the biennial Reference Paper 21, *Post-graduate Scholarships and Fellowships Open to Canadian Students*.

Considerable reorganization has been done for this edition. All member institutions of the National Conference of Canadian Universities were invited to submit details of their awards; awards tenable at more than one institution are listed in separate sections and not under each institution; and an index of awards open to students from other countries is included.

The awards listed are limited to entrance scholarships and bursaries valued at \$100 or more. Most of the institutions included also have various loan funds and in-course awards, details about which can be found in the calendars of the individual universities or colleges.

This Reference Paper was prepared in the Education Division of the Bureau under the supervision of Ralph D. Mitchener, Chief of the Higher Education Section.

Dominion Statistician.

PRÉFACE

La présente édition du Document de référence n° 55 du Bureau fédéral de la statistique constitue la première révision de la publication originale de janvier 1955. On espère qu'à l'avenir, elle sera mise à jour tous les deux ans, en alternant avec les nouvelles éditions du Document de référence biennal 21, *Post-graduate Scholarships and Fellowships Open to Canadian Students*.

La présente édition a été considérablement remaniée. Toutes les institutions membres de la Conférence nationale des universités canadiennes ont été invitées à soumettre les détails des bourses qu'elles offrent. Les bourses valables à plus d'une institution figurent dans des sections séparées et non sous chaque institution. Enfin, on trouvera une liste des bourses accessibles aux étudiants d'autres pays.

La liste se limite aux bourses d'entrée et aux bourses d'une valeur de \$100 ou plus. La plupart des institutions énumérées disposent aussi de fonds de prêt et de bourses de promotion; on trouvera des précisions sur ce sujet dans les annuaires des divers universités ou collèges.

Le présent document a été préparé par la Division de l'éducation du Bureau, sous la direction de M. Ralph D. Mitchener, chef de la Section de l'enseignement supérieur.

Statisticien du Dominion.

INTRODUCTION

Method of Compilation of Material:

In addition to notices of awards that have come to the attention of the Education Division of the Bureau since the publication of the previous edition, the following procedure was used in compiling the entries:

1. All institutions included in the 1955 edition were invited to revise that listing of their awards.

2. All other institutions not included in the first edition, but who were members of the National Conference of Canadian Universities, were requested to submit details of their entrance awards.

3. Various national groups, including the Canadian Federation of Catholic University Students, the Imperial Order Daughters of the Empire, and the Canadian Legion of the British Empire Service League, were asked to give assistance in compiling various new entries.

Method of Listing Awards:

A somewhat different grouping of awards, under three main sections, has been used for this edition. It includes:

I. Awards open to residents of more than one province at institutions in more than one province.

II. Awards open to residents of single provinces (exclusive of awards tenable only at one institution).

III. Awards tenable at single institutions only. These awards, listed by province and institution, are classified for each institution in the following manner:

A. **National:** Awards open to students throughout Canada.

B. **Provincial:** Awards open to students from one province only (usually the province within which the institution is located, although some awards, as for example at certain Maritime institutions, are for students in more than one Maritime province).

C. **Other:** Awards open either to students from specific localities within a province or to certain specific groups of students.

Information in Section III is printed in the language of instruction (English or French) of the institution under which it appears.

In order to explore fully all available sources of awards tenable at any institution, the prospective student should consult all three sections.

Réunion des matériaux:

Outre les avis de bourses qui sont parvenus à la Division de l'éducation du Bureau depuis la publication de l'édition précédente, voici le procédé utilisé pour réunir la matière du catalogue:

1. Toutes les institutions figurant dans l'édition de 1955 ont été invitées à reviser leur liste de bourses.

2. Toutes les institutions qui ne figuraient pas dans la première édition, mais qui sont membres de la Conférence nationale des universités canadiennes, ont été priées de soumettre les détails de leurs bourses d'entrée.

3. On a demandé l'aide de divers groupements nationaux, dont la Fédération canadienne des universitaires catholiques, l'Impérial Order Daughters of the Empire, et la Légion canadienne de la British Empire Service League, pour relever les nouvelles bourses.

Groupeement des bourses:

Dans la présente édition, les bourses sont groupées un peu différemment, sous trois grandes sections. En voici les titres:

I. Bourses accessibles aux résidents de plus d'une province et valables aux institutions de plus d'une province.

II. Bourses accessibles aux résidents d'une seule province (à l'exclusion des bourses valables à une institution).

III. Bourses valables dans une seule institution. Groupées par province et institution, ces bourses sont classées, pour chaque institution, de la façon suivante:

A. **Nationales:** Bourses accessibles à tous les étudiants canadiens.

B. **Provinciales:** Bourses accessibles aux étudiants d'une seule province (habituellement la province où est située l'institution, bien que quelques bourses, par exemple dans certaines institutions des Maritimes, s'adressent à plus d'une province Maritime).

C. **Autres bourses:** Bourses accessibles, soit à des étudiants d'une localité déterminée dans une même province, soit à certains groupes déterminés d'étudiants.

Les renseignements contenus dans la section III sont rédigés dans la langue d'enseignement (anglais ou français) de l'institution sous laquelle ils sont donnés.

Afin d'explorer à fond toutes les sources de bourses pour chaque institution, le futur étudiant doit consulter les trois sections. Les bourses valables à

Awards tenable at more than one institution are not included in the listings in Section III, but appear in either Sections I or II.

Information that was received after the main sections were compiled is included in an addenda at the end of this publication. These later entries are not indexed.

General Notes on Awards Listed:

The closing date for application means the date by which completed application forms, official reports of standing, and other supporting documents must be in the hands of the awarding bodies. Initial contact should be made as early as possible before the closing dates in order to allow a sufficient interval for any exchange of correspondence and for the collection and forwarding of the necessary documents. As in most cases no personal interview is possible prior to the granting of the awards, applications and other material should be as complete as possible.

Awards Open to Students from Abroad:

The index on page 8 lists those awards that are open to students from other countries.

Graduate Awards Open to Canadian Students:

D.B.S. Reference Paper 21, *Post-graduate Scholarships and Fellowships Open to Canadian Students*, (latest edition December 1954), gives information on awards open to Canadian university graduates. It is intended that it will be revised every two years, alternating with this publication so that new editions of both will appear biennially.

Further Information on Canadian Institutions of Higher Education:

A detailed listing of institutions and faculties of study, together with general information on entrance requirements and fees, appears in D.B.S. Reference Paper 48, *Canadian Institutions of Higher Education, 1955-56*.

Addresses of Institutions Included in this Publication:

The names and addresses of the institutions included in this catalogue appear below. They are in the language used in instruction in the university or college named.

Memorial University of Newfoundland, St. John's, Newfoundland.

St. Dunstan's College, Charlottetown, Prince Edward Island.

Acadia University, Wolfville, Nova Scotia.

Dalhousie University, Halifax, Nova Scotia.

Mount Saint Vincent College, Halifax, Nova Scotia.

plus d'une institution ne figurent pas à la section III, mais aux sections I ou II.

Les renseignements reçus après la rédaction des sections principales figurent dans un addenda à la fin de la publication. Ces inscriptions tardives ne sont pas indexées.

Renseignements généraux sur les bourses du catalogue:

La date limite de demande signifie la date à laquelle les formulaires dûment remplis, les rapports scolaires officiels et autres documents à l'appui doivent parvenir aux organismes attributeurs. Les démarches initiales doivent être faites assez tôt pour permettre un échange de correspondance et pour recueillir et expédier les documents nécessaires. Comme dans la plupart des cas, il ne peut y avoir d'entrevue personnelle avant l'octroi des bourses, la demande d'admission et les autres documents doivent être aussi complets que possible.

Bourses accessibles aux étudiants de l'étranger:

L'index de la page 8 groupe les bourses accessibles aux étudiants d'autres pays.

Bourses pour gradués accessibles aux étudiants canadiens:

Le Document de référence n° 21 du B.F.S., *Post-graduate Scholarships and Fellowships Open to Canadian Students* (dernière édition en décembre 1954), fournit des indications sur les bourses accessibles aux étudiants diplômés des universités canadiennes. On se propose de le réviser tous les deux ans, de sorte qu'il alternera avec la présente publication; ainsi, une nouvelle édition de chaque document paraîtra tous les deux ans.

Autres renseignements sur les institutions canadiennes d'enseignement supérieur:

Le Document de référence n° 48 du B.F.S., *Institutions canadiennes d'enseignement supérieur, 1955-1956*, renferme une liste détaillée des institutions et facultés ainsi qu'un aperçu des conditions d'admission et des frais.
