INTRODUCTION

The 1983-84 quarterly reports, Hospital Indicators, represent the fifteenth full year of operation of the Statistics Canada Quarterly Hospital Information System.

The data presented in this publication are derived from questionnaires completed by individual participating hospitals at the end of each quarter, on a cumulative basis, from April 1, 1983 to September 30, 1983.

Tabulations are compiled from data received from the hospitals which report during a given quarter. The tabulations, therefore, represent the statistics for a particular type, size and province to the extent reported by the participating hospitals. The indicators are presented in the form of standard deviations, quartiles, and arithmetic mean values which provide statistical measures of utilization, cost and productivity.

Data for hospitals located in the Yukon and Northwest Territories, notably federal hospitals, do not appear as such in tabular presentations due to the constraints imposed by tabular planning requirements but are included in the Canada total.

It should be noted that the indicators shown in this report are selected ones and that a substantial number of indicators which do not appear in published form are available from the Institutional Statistics section. These indicators are described in Statistics Canada's publication Quarterly Hospital Information System, 1978-79, a guide prepared by the Institutional Statistics section.

Les rapports trimestriels de 1983-84, sur les indicateurs d'hôpitaux, représentent la quinzième année d'activité du Programme de renseignements hospitaliers trimestriels de Statistique Canada.

Les données contenues dans ces publications viennent des questionnaires complétés par les hôpitaux participants à la fin de chaque trimestre et sur une base cumulative, c'est-à-dire du 1 avril 1983 au 30 septembre 1983.

Les totalisations sont compilées à partir des données reçues des hôpitaux pour un trimestre déterminé. Les totalisations représentent les statistiques pour un genre, une grandeur et une province en particulier, relevées par les hôpitaux participants. Les indicateurs sont présentés sous forme d'écart-types, de quartiles et de moyennes arithmétiques qui fournissent des mesures d'utilisation, de coût et de productivité.

Les données pour les hôpitaux situés dans le Yukon et les Territoires du Nord-Ouest, notamment des hôpitaux fédéraux, ne sont pas présentées dans les tableaux par suite des contraintes imposées par les exigences de la planification tabulaire mais sont inclus dans le total pour le Canada.

Il est à noter que les indicateurs, montrés dans ce rapport, ont été choisis et qu'un plus grand nombre d'indicateurs n'apparaissent pas dans cette publication sont disponibles à la Section de la statistique des établissements. Ces indicateurs sont décrits dans la publication de Statistique Canada; Programme de renseignements hospitaliers trimestriels, 1978-79, un guide préparé par la Section de la statistique des établissements.
