The annual report of Hospitals in Canada for the year 1944, as in previous years deals with (a) Public Hospitals as defined under the various provincial hospital acts, (b) Private Hospitals and (c) Dominion Hospitals.

The object of this report is to present in as full detail as possible statistical data on hospitals, covering beds and facilities available, hospital personnel, movement of patients and finances, in each of the provinces in Canada.

The thanks of the Dominion Bureau of Statistics is extended to all who contributed the material from which the report was compiled.

This report was prepared under the supervision of James C. Brady, Chief of the Institutional Branch, by J. H. Melanson who was in charge of the compilation and and tabulation of the data appearing in this report.

Statisticien du Dominion.

Le rapport annuel sur les hôpitaux du Canada pour l'année 1944 porte, comme les années précédentes, sur (a) les hôpitaux publics tels que définis par les diverses lois provinciales, (b) les hôpitaux privés et (c) les hôpitaux fédéraux.

L'objet du présent rapport est de présenter aussi en détail que possible des données statistiques sur les hôpitaux à l'égard des lits et des services disponibles, du personnel des hôpitaux, du mouvement des patients et des finances, dans chaque province du Canada.

Le Bureau Fédéral de la Statistique remercie tous ceux qui ont contribué à la préparation de ce rapport.

Le rapport a été préparé sous la direction de James C. Brady, chef de la Branche des Institutions, par J. H. Melanson, préposé à la compilation et à la tabulation des données contenues dans ce rapport.

Introduction	v-viii

PART I - PUBLIC HOSPITALS

A - General Information

Table 1 - Number of hospitals reporting and number of beds, cribs and bassinets	2
2 - Salaried doctors, full time and part time	3
3 - Interns and technicians	4
4 - Graduate nurses	5
5 - Approved schools of nursing	6
6 - Graduate and student dietitians	7
7 - Total personnel	8
8 - Organized medical staffs and staff doctors	9
9 - Non-organized staffs and attending doctors	10
10 - Organized services in acute diseases hospitals	11
11 - X-ray, Clinical laboratories and Physio-therapy departments	12
12 - Patients treated in organized Out-patient departments	13
13 - Social service departments	13
14 - Public hospitals with capacities of less than 100 and over 100 showing percentage of hospitals and percentage of beds, cribs and bassinets in each group	14
15 - Average number of beds in public hospitals of 100 beds or less and over 100 beds	14
16 - Graduate nurses and total personnel per 100 patients	15

B - Movement of Population

Table 17 - Number of public hospitals reporting movement of patients, bed complement and percentage of beds occupied	18-19
18 - Patients in hospital at beginning of year	20-21
19 - Number of admissions	22-23
20 - Number of patients under care	24-25
21 - Number of discharges	26-27
22 - Deaths within 48 hours of admission	28-29
23 - Deaths 48 hours or more after admission	30-31
24 - Total deaths	32-33
25 - Total separations	34-35
26 - Patients in hospital at the end of the year	36-37
27 - Separations, total days of hospitalization and average stay	38-39
28 - Total patient days during the year, daily average number of patients under care and average stay	40-41
29 - Number of births in public and private hospitals compared with totals in Canada	42
30 - Number of live births and still births per thousand in public hospitals	43
31 - Death rate 48 hours or more after admission and gross death rate	44-45
32 - Number of general public hospitals reporting movement of patients, bed complement and percentage of beds occupied, 1940 - 1944	46
33 - Number of admissions to general public hospitals, 1940 - 1944	47
34 - Number of patients under care in general public hospitals, 1940 - 1944	48
35 - Number of discharges from general public hospitals, 1940 - 1944	49
36 - Total number of deaths in general public hospitals, 1940 - 1944	50
37 - Total patient days during the year, daily average number of patients and average stay in general public hospitals by provinces, 1940 - 1944	51

Introduction	v-viii

PARTIE I - HOPITAUX PUBLICS

A - Information générale

Tableau 1 - Hôpitaux ayant fait rapport et nombre de lits, de lits d'enfants et de berceaux	2
2 - Médecins à salaire, service continu et discontinu	3
3 - Internes et techniciens	4
4 - Infirmières diplômées	5
5 - Ecoles d'infirmierie reconnues	6
6 - Diététiciennes diplômées et élèves diététiciennes	7
7 - Personnel complet	8
8 - Personnels médicaux organisés et médecins attachés	9
9 - Personnels médicaux non-organisés et médecins visiteurs	10
10 - Services organisés dans les hôpitaux pour maladies aigües	11
11 - Rayons X, laboratoires cliniques et départements de physio-thérapie	12
12 - Patients traités aux dispensaires organisés pour patients externes	13
13 - Départements de service social	13
14 - Hôpitaux publics d'une capacité de moins et de plus de 100 lits avec mention du pourcentage d'hôpitaux, de lits, de lits d'enfants et de berceaux dans chaque groupe	14
15 - Moyenne de lits dans les hôpitaux publics de moins et de plus de 100 lits	14
16 - Infirmières diplômées et personnel total par 100 patients	15

B - Mouvement de la population

Tableau 17 - Nombre d'hôpitaux publics ayant déclaré le mouvement de la population, le nombre actuel de lits et le pourcentage de lits occupés	18-19
18 - Patients à l'hôpital au commencement de l'année	20-21
19 - Nombre d'admissions	22-23
20 - Nombre de patients en soins	24-25
21 - Nombre de sorties	26-27
22 - Décès en moins de 48 heures après l'admission	28-29
23 - Décès 48 heures ou plus après l'admission	30-31
24 - Total des décès	32-33
25 - Total des séparations	34-35
26 - Patients à l'hôpital à la fin de l'année	36-37
27 - Séparations, total de jours d'hospitalisation et séjour moyen	38-39
28 - Total de jours-patients durant l'année, moyenne quotidienne de patients et séjour moyen	40-41
29 - Nombre de naissances dans les hôpitaux publics et privés en juxtaposition avec les totaux pour le Canada	42
30 - Nombre de naissances vivantes et mort-nés par mille, dans les hôpitaux publics	43
31 - Mortalité 48 heures ou plus après l'admission et mortalité brute	44-45
32 - Nombre d'hôpitaux publics généraux ayant fait rapport, nombre actuel de lits et pourcentage de lits occupés, 1940 - 1944	46
33 - Nombre d'admissions dans les hôpitaux publics généraux, 1940 - 1944	47
34 - Nombre de patients en soins dans les hôpitaux publics généraux, 1940 - 1944	48
35 - Nombre de sorties des hôpitaux publics généraux, 1940 - 1944	49
36 - Nombre total de décès dans les hôpitaux publics généraux, 1940 - 1944	50
37 - Total de jours-patients durant l'année, moyenne quotidienne de patients et séjour moyen dans les hôpitaux publics généraux, par provinces, 1940 - 1944	51

This review of the organization and operation of hospitals in Canada, includes only those hospitals which provided reports meeting certain minimum conditions in the manner of presentation and the completeness of the statistical data. Six public hospitals, of the 592 known to be operating, did not provide such reports and are not included in any of the tables in this volume.

The 586 hospitals for acute diseases which provided reports, had a capacity of 51,913 beds and cribs, and 7,419 bassinets for newborn. General public hospitals had 45,377 or 87.9 per cent of the total number of beds and cribs and 6,708 or 90.5 per cent of the bassinets. The percentage of beds and cribs in other hospitals was as follows: Women's, 1.3 per cent; Children's, 2.1 per cent; Contagious diseases hospitals, 2.1 per cent; Convalescent, 2.2 per cent; Red Cross, 1.0 per cent and Not Classified, 3.9 per cent.

Based on the total population of Canada, the number of beds and cribs per thousand of the general population, by provinces, was: Prince Edward Island, 2.9; Nova Scotia, 4.1; New Brunswick, 3.5; Quebec, 4.1; Ontario, 3.8; Manitoba, 4.7; Saskatchewan, 4.3; Alberta, 5.9; British Columbia, 5.5 and Yukon and Northwest Territories, 1.9; Canada, 4.3 beds.

Hospitals having a total capacity of less than 100 beds, cribs and bassinets numbered 433 or 73.9 per cent of the total, while those having more than 100 beds numbered 153 or 26.1 per cent of the total. The average capacity of all hospitals in Canada was 100.3 beds; hospitals having less than 100 beds averaged 41.3 beds, while those having more than 100 beds averaged 282.6 beds.

PERSONNEL - One hundred and twenty-one public hospitals employed 377 full-time doctors and 122 institutions employed 347 part-time doctors, a total of 724 doctors receiving salary. There were 826 interns employed in 98 hospitals, while a total of 152 hospitals and 738 technicians on their staffs. This latter figure does not include hospitals in the province of Ontario, which with one exception did not report technicians separately.

The number of graduate nurses on hospital staffs was 8,923, an increase of 244 or 2.8 per cent over the preceding year. There were 160 hospitals which had approved schools of nursing, 52 of which had university affiliation. These schools had a total of 1,924 probationers and 9,816 student nurses, 3,684 of whom were graduated during the year. There was an increase over the preceding year of 170 probationers and 364 students. There were 649 more nurses graduated in 1944 than in the preceding year, an increase of 21.3 per cent. The total personnel of all reporting hospitals was 47,302, an increase of 2,938 or 6.6 per cent over the year 1943.

ORGANIZED MEDICAL STAFF - There were 268 hospitals, one more than in 1943, which had organized medical staffs. These hospitals had 8,476 staff doctors, a decrease of 706 from the preceding year. The remaining 318 hospitals, which did not have organized staffs, reported a total of 1,325 doctors who attended patients during the year. Of the 268 hospitals having organized staffs, 207 reported organized services or departments. There were 482 hospitals having X-ray facilities, 200 of these being organized; 263 hospitals had clinical laboratories, 151 of which were organized, while 128 had physiotherapy departments, five of which were organized.

Fifty-seven hospitals supplied reports of their organized out-patient departments. Table 12 shows these departments subdivided under their main headings. The number of patients attending out-patient departments numbered 275,728 and a total of 1,425,872 treatments or visits was reported.

MOVEMENT OF PATIENTS - Tables 17 to 31 inclusive, cover the movement of patients in 586 hospitals for acute diseases. Tables 32 to 38 show comparative figures for the same type of hospitals for the years 1940 - 1944, while Tables 39 to 48 show the movement of patients in general hospitals only, by bed groups. The remaining tables in this section show the movement of patients in units for tuberculosis and for contagious diseases, in public hospitals.

Cette revue de l'organisation et de l'œuvre des hôpitaux au Canada ne comprend que les hôpitaux qui ont fourni un rapport répondant à certaines conditions minimales sous le rapport de la présentation et de l'intégralité des données statistiques. Six hôpitaux publics sur les 592 que l'on sait actifs n'ont pas fourni semblable rapport et n'entrent dans aucun des tableaux de ce volume.

Les 586 hôpitaux pour maladies aiguës qui ont fait rapport ont une capacité de 51,913 lits d'adulte et d'enfant et de 7,419 berceaux pour nouveau-nés. Les hôpitaux publics généraux comptent 45,377 ou 87.9 p.c. de tous les lits et 6,708 ou 90.5 p.c. des berceaux. Le pourcentage de lits dans les autres hôpitaux est le suivant: hôpitaux pour femmes, 1.3; pour enfants 2.1; de contagieux, 2.1; de convalescence, 2.2; Croix-Rouge, 1.0; et non classifiés, 3.9.

Basé sur la population totale du Canada, le nombre de lits par 1,000 âmes de population générale, par provinces, est: Île du Prince-Édouard, 2.9; Nouvelle-Ecosse, 4.1; Nouveau-Brunswick, 3.5; Québec, 4.1; Ontario, 3.8; Manitoba, 4.7; Saskatchewan, 4.3; Alberta, 5.9; Colombie Britannique, 5.5; et Yukon et Territoires du Nord-Ouest, 1.9; Canada, 4.3 lits.

Les hôpitaux d'une capacité de moins de 100 lits et berceaux se chiffrent par 433, ou 73.9 p.c. du total, et les hôpitaux de plus de 100 lits, par 153 ou 26.1 p.c. du total. La capacité moyenne de tous les hôpitaux au Canada est de 100.3 lits; les hôpitaux de moins de 100 lits en ont 41.3 en moyenne et les hôpitaux de plus de 100 lits, 282.6 lits en moyenne.

PERSONNEL - Cent vingt-et-un hôpitaux publics emploient 377 médecins en service continu et 122 institutions occupent 347 médecins en service discontinu, soit en tout 724 médecins salariés. Il y a 826 internes en service dans 98 hôpitaux et 152 hôpitaux comptent 738 techniciens parmi leur personnel. Ce dernier chiffre ne concerne pas les hôpitaux de l'Ontario qui, sauf une exception, n'ont pas déclaré séparément leurs techniciens.

Le nombre d'infirmières graduées faisant partie du personnel des hôpitaux est de 8,923, augmentation de 244 ou de 2.8 p.c. sur l'année précédente. Cent-soixante hôpitaux ont leur école d'infirmière et 52 de ces écoles sont affiliées à une université. Ces écoles comptent en tout 1,924 stagiaires et 9,816 élèves-infirmières dont 3,684 ont obtenu leur diplôme au cours de l'année. Il y a augmentation sur l'année précédente de 170 stagiaires et de 364 élèves. Le nombre d'infirmières diplômées en 1944 augmente de 649 ou 2.3 p.c. sur l'année précédente, le personnel global de tous les hôpitaux qui font rapport est de 47,302, augmentation de 2,938 ou de 6.6 p.c. sur 1943.

PERSONNEL MEDICAL ORGANISE - Il y a un personnel organisé dans 268 hôpitaux, soit un de plus qu'en 1943. Ces hôpitaux ont un personnel global de 8,476 médecins attachés, diminution de 706 sur l'année précédente. Les autres 318 hôpitaux, sans personnel médical organisé, déclarent un total de 1,325 médecins visitant des patients durant l'année. Des 268 hôpitaux avec personnel organisé, 207 déclarent des services ou départements organisés. Il y a un outillage radiologique dans 482 hôpitaux, dont 200 comme service organisé; 263 hôpitaux ont un laboratoire clinique, dont 151 comme service organisé; et 128 hôpitaux ont un département de physiothérapie, dont cinq comme service organisé.

Cinquante-sept hôpitaux font rapport de leur dispensaire organisé pour patients externes. Le tableau 12 fait voir ces dispensaires recoupés d'après leurs principales rubriques. Le nombre de patients fréquentant ces dispensaires est de 275,728 et le total des traitements ou des visites est de 1,425,872.

MOUVEMENT DES PATIENTS - Les tableaux 17 à 31 inclusivement portent sur le mouvement des patients dans les 586 hôpitaux pour maladies aiguës. Les tableaux 32 à 38 contiennent des chiffres comparatifs à l'égard du même genre d'hôpital pour les années 1940 - 1944 tandis que les tableaux 39 à 48 montrent le mouvement des patients dans les hôpitaux généraux seulement, par groupe de lits. Les autres tableaux de cette section font voir le mouvement des patients des unités pour tuberculeux et contagieux dans les hôpitaux publics.

INTRODUCTION

vi.

The 586 public hospitals which provided returns for the year 1944, had a complement of 49,991 beds and cribs, 72.9 per cent of which were occupied during the year. The percentage of occupancy by types of hospitals was as follows: General, 73.3 per cent; Women's, 73.6 per cent; Children's, 83.2 per cent; Contagious Diseases, 41.5 per cent; Convalescent, 72.6 per cent; Red Cross, 47.7 per cent and Not Classified, 84.4 per cent. By provinces the percentages were: Prince Edward Island, 77.9; Nova Scotia, 74.8; New Brunswick, 71.1; Quebec, 77.2; Ontario, 74.5; Manitoba, 71.7; Saskatchewan, 67.3; Alberta, 65.3; British Columbia, 70.7 and Northwest Territories and Yukon, 38.3 per cent. A notable feature of the bed group tables (39-48), is that the percentage of bed occupancy increases directly as the bed capacity increases.

IN RESIDENCE AT BEGINNING OF YEAR - There were in residence, in public hospitals at the beginning of the year, 35,093 patients, distributed as follows: Adults and children, 14,191 males and 16,863 females; Newborn, 2,113 males and 1,926 females. There was an increase of 3.6 per cent in the number in hospital at the beginning of 1944 over the number in residence at the beginning of the preceding year.

ADMISSIONS - The number of adults and children admitted during the year was 1,069,921, while live births in hospitals during the year numbered 164,406, making a total of 1,234,327 admissions during the year 1944. Of these admissions, 505,057 were males, 419,932 being adults and children and 85,075 newborn; the females comprised 649,939 adults and children and 79,331 newborn. The increase in admissions totalled 69,102 or 5.9 per cent more than in 1943. In addition to the infants born alive during the year, there were 4,081 still-born which was 2.4 per cent of the total births in hospitals. (See Table 30).

The following table shows the number per 1,000 of the population of Canada who were admitted to hospitals during the year: (Births are not included).

	Male Hommes	Female Femmes	Total	
Prince Edward Island	44	63	107	Ile du Prince-Edouard
Nova Scotia	34	58	92	Nouvelle-Ecosse
New Brunswick	29	49	78	Nouveau-Brunswick
Quebec	26	36	62	Québec
Ontario	34	55	89	Ontario
Manitoba	40	68	108	Manitoba
Saskatchewan	44	67	111	Saskatchewan
Alberta	52	81	133	Alberta
British Columbia	50	68	118	Colombie Britannique
Yukon and N.W.T.	55	56	111	Yukon et T. N.-O.
CANADA	35	54	89	CANADA

Of the total admissions and births in hospitals, 1,152,616 or 93.3 per cent were admitted to general hospitals.

TOTAL UNDER CARE - A total of 1,269,427 patients were under care in public hospitals for acute diseases during the year 1944. This total was made up as follows: Adults and children, 434,173 males and 666,802 females; Newborn, 87,193 males and 81,250 females. The increase in the number under care in 1944, was 70,327 or 5.9 per cent over 1943.

DISCHARGES AND DEATHS - Separations (discharges and deaths) during the year totalled 1,233,756 or 97.2 per cent of the total under care. Of the separations 40,053 died in hospital, the remainder which was 96.9 per cent of the total, being discharged alive. The ratio of deaths to total under care was 31 per thousand, 22 of these having died 48 hours or more after admission to hospital. The total days' stay of those who were discharged and who died was 14,114,947 days, giving an average stay of 11.1 days per patient. The average stay of adults and children was 11.6 days and of newborn 10.0 days. Of the 40,053 deaths in hospitals, 11,889 or 29.7 per cent died within 48 hours of admission and 28,164 or 70.3 per cent, 48 hours or more after admission.

Les 586 hôpitaux publics qui font rapport pour 1944 ont en tout 49,991 lits dont 72.9 p.c. sont occupés durant l'année. Voici le pourcentage de lits occupés par genre d'hôpital: hôpitaux généraux, 73.3; pour femmes, 73.6; pour enfants, 83.2; de contagieuse, 41.5; de convalescence, 72.6; Croix-Rouge, 47.7; et non classifiés, 84.4. En voici le pourcentage, par province: Ile du Prince-Edouard, 77.9; Nouvelle-Ecosse, 74.8; Nouveau-Brunswick, 71.1; Québec, 77.2; Ontario, 74.5; Manitoba, 71.7; Saskatchewan, 67.3; Alberta, 65.3; Colombie Britannique, 70.7; et T. du N.-O. et Yukon, 38.8. Il y a ceci de remarquable dans les tableaux (39-48) dressés en rapport avec les groupes de lits que le pourcentage de lits occupés augmente en fonction directe de la capacité.

PATIENTS DANS LES HOPITAUX AU COMMENCEMENT DE L'ANNEE - Il y a dans les hôpitaux publics au début de l'année 35,093 patients répartis comme suit: adultes et enfants, 14,191 hommes et 16,863 femmes; nouveau-nés, 2,113 garçons et 1,926 filles. Il y a augmentation de 3.6 p.c. dans le nombre de patients à l'hôpital au début de 1944 au regard de 1943.

ADMISSIONS - Le nombre d'adultes et d'enfants admis durant l'année est de 1,069,921 tandis que les naissances vivantes dans les hôpitaux se chiffrent par 164,406, soit en tout 1,234,327 admissions en 1944. De ce nombre, 505,057 sont des hommes dont 419,932 adultes et enfants et 85,075 nouveau-nés; les femmes comprennent 649,939 adultes et enfants et 79,331 nouveau-nés. L'augmentation des admissions est de 69,102 ou de 5.9 p.c. sur 1943. En plus des naissances vivantes en 1944, il y a 4,081 mort-nés, soit 2.4 p.c. de toutes les naissances à l'hôpital (voir tableau 30).

Le tableau suivant fait voir le nombre de patients par 1,000 âmes de population au Canada admis à l'hôpital (exclusion faite des naissances):

	Male Hommes	Female Femmes	Total	
Prince Edward Island	44	63	107	Ile du Prince-Edouard
Nova Scotia	34	58	92	Nouvelle-Ecosse
New Brunswick	29	49	78	Nouveau-Brunswick
Quebec	26	36	62	Québec
Ontario	34	55	89	Ontario
Manitoba	40	68	108	Manitoba
Saskatchewan	44	67	111	Saskatchewan
Alberta	52	81	133	Alberta
British Columbia	50	68	118	Colombie Britannique
Yukon and N.W.T.	55	56	111	Yukon et T. N.-O.
CANADA	35	54	89	CANADA

Les hôpitaux généraux comptent 1,152,616 admissions et naissances à l'hôpital, soit 93.3 p.c. du total.

TOTAL DES PATIENTS SOIGNE - Les hôpitaux publics pour maladies aiguës soignent en tout 1,269,427 patients en 1944. Ce total se décompose comme suit: adultes et enfants, 434,173 hommes et 666,802 femmes; nouveau-nés, 87,193 garçons et 81,250 filles. L'augmentation du nombre de patients soignés en 1944 est de 70,327 ou de 5.9 p.c. sur 1943.

SORTIES ET DECESES - Les séparations (sorties et décès) en 1944 se chiffrent par 1,233,756, soit 97.2 p.c. de tous les patients soignés. Les décès à l'hôpital s'élèvent à 40,053; les sorties représentent le reste (96.9 p.c.) des séparations. La proportion des décès par rapport au total des patients est de 31 par 1,000, dont 22 surviennent 48 heures ou plus après l'admission. Le séjour global des patients renvoyés ou décédés est de 14,114,947 jours, soit un séjour moyen de 11.1 jours par patient. Le séjour moyen des adultes et enfants était de 11.6 jours et des nouveau-nés, 10.0 jours. Des 40,053 décès à l'hôpital, 11,889 ou 29.7 p.c. surviennent dans les 48 heures après l'admission et 28,164 ou 70.3 p.c., 48 heures ou plus après l'admission.

PATIENT DAYS DURING THE YEAR - The total patient days during the year was 14,975,802, giving an average stay of 11.8 days for all patients. The average stay of adults and children was 12.0 days and of newborn, 9.9 days.

BIRTHS IN HOSPITALS - There were 168,311 births in public hospitals in Canada during the year, 4,081 or 2.4 per cent of which were still-born. The total births in Canada during the year, exclusive of Yukon and N.W.T., was 290,672 of which 283,-975 were live births and 6,697 being still-born. The total births in public and private hospitals comprised 61.6 per cent of all births in Canada.

TUBERCULOSIS AND CONTAGIOUS DISEASES UNITS - Twenty-six hospitals provided returns for the movement of patients in their tuberculosis units. These units had a total capacity of 1,613 beds, 78.9 per cent of which were occupied during the year. There were 3,622 patients under care in these units during the year for a total of 138,871 days, an average stay of 139.9 days per patient. These figures are not included in the movement of population tables. There were 11 hospitals which reported the movement of patients in units or annexes for contagious diseases. These had a total of 337 beds for this class of patient and 35.7 per cent of these beds were occupied during the year. Patients under care number 2,285 with an aggregate stay of 44,461 days, giving an average stay for each patient of 19.4 days. Figures for contagious units are included in the general tables on movement of patients.

FINANCES - The financial statistics of public hospitals for acute diseases for the year 1944 are presented in a form different from that of any preceding year. It is hoped that the changes made will increase the value of these statistics.

There were 560 hospitals which provided reports on Revenue and Expenditures, which met the minimum requirements of the Bureau, while 458 hospitals supplied Balance sheets. This represents 95.5 per cent and 78.1 per cent, respectively of the total number of hospitals reporting.

In Tables 51, 52 and 53, Revenue, Expenditures and Capital are shown by provinces, according to type of hospital, while in Tables 54, 55 and 56 the method of presentation is reversed, the data appearing by type of hospital, according to provinces. Tables 57, 58 and 59 present financial statistics for general hospitals only, these being shown by provinces according to bed groups.

Total Revenue of public hospitals for acute diseases amounted to \$68,263,583 and Total Expenditures to \$68,939,717 showing a net operating loss of \$676,134. Gross earnings from day rate and special services was \$54,336,340 with net deductions on account of free services, rebates, bad debts, etc., of \$5,793,-238, leaving net earnings from patients of \$48,543,102. Grants from provinces for maintenance of patients was \$6,240,738, from municipalities \$4,351,116 and other special grants of \$1,638,-363. The total operating revenue was \$60,773,319, with other, special and capital revenue of \$7,490,264, making a total revenue from all sources, of \$68,263,583. Net earnings from patients comprised 79.8 per cent of the operating revenue; grants and maintenance payments from provinces was 11.2 per cent, while municipal and other grants made 8.9 per cent. The total revenue from all sources was made up as follows: Net earnings from patients, 71.1 per cent; Grants and Payments from provinces, 9.9 per cent; Municipal and Other Grants, 7.9 per cent and Revenue from all other sources, 11.1 per cent.

Detailed figures show that salaries and wages made up the largest single item of expenditures for maintenance; this item amounted to \$31,113,645 or 45.1 per cent of the total expenditures. Supplies was the next largest item, amounting to \$24,015,344 or 34.8 per cent of the total. Dietary supplies amounted to \$11,243,643 which is 46.8 per cent of all supplies and 16.3 per cent of the total expenditures. The cost per patient day for dietary supplies amounted to 73.4 cents. Repairs, replacements and depreciation amounted to \$6,686,728 with other miscellaneous expenditures of \$7,124,000.

Of the \$68,939,717 which was expended for maintenance, \$3,785,-637 was for Out-patients and \$65,154,080 for In-patients. This latter amount divided by the total patient days during the year (15,322,793), gives a cost per patient-day, for all hospitals reporting, of \$4.25. The 458 hospitals which supplied Balance Sheets showed assets amounting to \$207,685,136. This was made

JOURS-PATIENTS DURANT L'ANNEE - Le total de jours-patients durant l'année est de 14,975,802, ce qui donne un séjour moyen de 11.8 jours pour tous les patients. Le séjour moyen des adultes et des enfants est de 12.0 jours; celui des nouveau-nés est de 9.9 jours.

NAISSANCES A L'HOPITAL - Il y a 168,311 naissances dans les hôpitaux publics au Canada durant l'année, dont 4,081 ou 2.4 p.c. sont des mort-nés. Le total des naissances au Canada durant l'année, à l'exclusion du Yukon et des T. du N.-O., est de 290,672 dont 283,975 naissantes vivantes et 6,697 mort-nés. Le total des naissances dans les hôpitaux publics et privés forment 61.6 p.c. de toutes les naissances au Canada.

UNITES POUR TUBERCULEUX ET CONTAGIEUX - Vingt-six hôpitaux font rapport du mouvement des patients dans leurs unités pour tuberculeux. Ces unités ont une capacité totale de 1,613 lits dont 78.9 p.c. sont occupés toute l'année. Durant l'année 3,622 patients hospitalisés dans ces unités y ont séjourné en tout 138,871 jours, soit un séjour moyen de 139.9 jours par patient. Ces chiffres ne sont pas compris dans les tableaux sur le mouvement des patients. Onze hôpitaux font rapport du mouvement des patients dans leurs unités ou annexes pour contagieux. Ces unités disposent de 337 lits dont 35.7 p.c. sont occupés toute l'année. Les patients hospitalisés se chiffrent par 2,285 et leur séjour global est de 44,461 jours, soit un séjour moyen de 19.4 jours par patient. Les chiffres des unités pour contagieux sont compris dans les tableaux généraux sur le mouvement des patients.

FINANCES - La statistique financière des hôpitaux publics pour maladies aigües à l'égard de 1944 est présentée sous une forme différente de l'année précédente. Les changements effectués devraient rendre ces statistiques encore plus utiles.

Cinq cent soixante hôpitaux font rapport de leurs revenus et dépenses d'une manière répondant aux exigences minimas du Bureau tandis que 458 hôpitaux fournissent un bilan, soit 95.5 p.c. et 78.1 p.c., respectivement, de tous les hôpitaux qui font rapport.

Les tableaux 51, 52 et 53 donnent les revenus, les dépenses et le capital des hôpitaux, par province selon le genre d'hôpital, tandis que les tableaux 54, 55 et 56 présentent les mêmes données mais par genre d'hôpital selon la province. Les tableaux 57, 58 et 59 donnent les statistiques financières des hôpitaux généraux seulement, par province selon les groupes de lits.

Les revenus globaux des hôpitaux publics pour maladies aigües s'élèvent à \$68,263,583 et les dépenses globales à \$68,939,717, soit un déficit net d'exploitation de \$676,134. Les recettes brutes provenant des services à taux quotidiens et des services spéciaux sont de \$54,336,340; après déduction nette des services gratuits, des rabaîs, des mauvaises créances, etc. au montant de \$5,793,238, les recettes nettes provenant des patients s'établissent à \$48,543,102. Les subventions des provinces pour le soin des patients sont de \$6,240,738, et des municipalités, de \$4,351,116; les autres subventions spéciales sont de \$1,638,363. Le revenu global d'exploitation est de \$60,773,319 et le revenu d'autres sources, spécial et au compte capital est de \$7,490,264, soit un revenu global de toutes sources de \$68,263,583. Les recettes nettes provenant des hospitalisés forment 79.8 p.c. du revenu d'exploitation; les octrois et les versements d'entretien des provinces, 11.2 p.c.; et les octrois municipaux et autres, 8.9 p.c. Le revenu global de toutes sources se répartit comme suit: recettes nettes des hospitalisés, 71.1 p.c.; octrois et versements des provinces, 9.9 p.c.; octrois municipaux et autres, 7.9 p.c.; et revenu de toutes autres sources, 11.1 p.c.

Les chiffres détaillés montrent que les salaires et gages constituent le grand item des dépenses d'entretien, item qui s'élève à \$31,113,645 ou 45.1 p.c. de toutes les dépenses. Les fournitures viennent ensuite, étant de \$24,015,344 ou 34.8 p.c. du total. Les dépenses en fait de comestibles s'élèvent à \$11,243,-643, soit 46.8 p.c. de toutes les fournitures et 16.3 p.c. de toutes les dépenses. Les réparations, les remplacements et la dépréciation s'élèvent à \$6,686,728 et les autres dépenses diverses, à \$7,124,000.

Sur les \$68,939,717 dépensés pour l'entretien, \$3,785,637 sont imputés aux patients externes et \$65,154,080 aux patients hospitalisés. Ce dernier montant divisé par le total de jours-patient durant l'année (15,322,793) ramène à \$4.25 le coût par jour-patient de tous les hôpitaux qui font rapport. Les 458 hôpitaux qui ont fourni un bilan ont un actif de \$207,685,136,

INTRODUCTION

viii.

up as follows: Current funds, \$23,018,753; Permanent funds, \$26,379,946; and Plant funds, \$158,286,437. The Net Capital of the 458 hospitals reporting was: Working Capital \$5,354,084; Plant Capital, \$34,888,426 making a total of \$40,242,144.

HOSPITALS FOR INCURABLES - There were 15 hospitals for incurables in Canada in 1944. These hospitals had a total capacity of 3,185 beds, while the bed complement or number available for use, was 3,126. One of these institutions is an annex of a general public hospital. There were employed in the 14 incurable institutions: 13 salaried doctors, 157 graduate nurses and a total personnel of 1,228. Ninety-four doctors, in addition to those on salary, attended patients in these institutions.

Patients in residence at the beginning of the year numbered 2,927 and 1,367 were admitted during the year, making a total of 4,294 patients under care during the year. There were 580 patients discharged and 304 died, leaving 2,910 in residence at the end of the year.

The percentage of beds occupied was 92.5 while the average number of patients under care daily was 2,892. The average stay of patients during the year was 245.8 days.

PRIVATE HOSPITALS - The number of private hospitals reporting in 1944 was 267, having a capacity of 3,821 beds and cribs and 758 bassinets. Of the 3,821 beds and cribs 47.9 per cent were occupied during the year.

The private hospitals in Canada cared for a wide variety of cases, e.g., medical and surgical, aged and chronic, convalescent, maternity, etc. There were 70 hospitals with X-ray facilities, 43 had clinical laboratories and 31 had physio-therapy facilities. There was one hospital with a school of nursing and 34 had facilities for out-patients.

The total personnel of the 267 private hospitals was 1,865, divided as follows: 77 salaried doctors, 627 graduate nurses, 20 student nurses and 1,141 other personnel. Doctors in attendance, other than those on salary, numbered 2,860.

There were 2,407 patients in residence at the beginning of the year, 39,932 adults and children were admitted, and there were 10,572 live births, making a total of 53,224 patients under care during the year. Of these 53,224 patients 49,290 were discharged and 1,371 died leaving 2,252 in residence at the end of the year. There was an average of 2,431 patients under care daily during the year and the average stay of all patients was 17.0 days. The adults and children spent an average of 19.0 days in hospital and the newborn, 9.4 days.

DOMINION HOSPITALS - The Indian Health Service of the Department of Health and Welfare operated 13 hospitals in Canada for the care of Indians. These were distributed as follows: Ontario, 3; Manitoba, 3; Saskatchewan, 1; Alberta, 5 and British Columbia, 1. Two of these hospitals were for the treatment of tuberculosis only, while all but two, of the remaining eleven, reported a part of the hospital set aside for tuberculosis patients.

The thirteen hospitals reporting had a bed capacity of 533 beds and cribs and 41 bassinets. The beds were distributed as follows: general medicine and surgery, 196; obstetrics, 26; tuberculosis, 298 and contagious diseases, 13. Fifty-two per cent of the total capacity of Indian hospitals was devoted to the treatment of tuberculosis. These Dominion hospitals employed 8 full-time salaried doctors, 5 part-time salaried doctors, 63 graduate nurses and 110 others, a total of 233 employees.

Of the 533 beds and cribs, an average of 380, or 71.3 per cent were occupied daily. The average stay of all patients was 35.63 days.

There were 429 patients in residence at the beginning of the year, 3,477 adults and children were admitted and 471 infants were born alive in hospital during the year. The total number under care during the year was 4,377 of whom 3,857 were discharged and 130 died, leaving 410 in hospital in the last day of the year.

A list of other hospitals operated by the Department of National Health and Welfare, hospitals operated by the Department of Veteran's Affairs and those operated by the Department of National Defence, (Army), are appended herewith.

répartie somme suit: fonds courants, \$23,018,753; fonds permanents, \$26,379,946; et biens fonds et outillage, \$158,286,437. Le capital net des 458 hôpitaux qui font rapport est: capital de roulement, \$5,354,084, capital immobilisé, \$34,888,426, soit un total de \$40,242,144.

HOPITAUX POUR INCURABLES - Il y a 15 hôpitaux pour incurables au Canada en 1944. Ces hôpitaux ont une capacité globale de 3,185 lits et le nombre de lits disponibles est de 3,126. L'une de ces institutions est une annexe d'un hôpital public général. Les 14 institutions pour incurables emploient 13 médecins salariés, 157 infirmières diplômées et un personnel global de 1,228. En plus des médecins salariés, 94 médecins visitent des patients dans ces institutions.

Il y a 2,927 patients hospitalisés au début de l'année et 1,367 sont admis durant l'année, soit un total de 4,294 patients traités durant l'année. Les sorties s'élèvent à 580 et les décès à 804, ce qui laisse 2,910 patients hospitalisés à la fin de l'année.

Le pourcentage de lits occupés est de 92.5 tandis que le nombre moyen de patients traités par jour est de 2,892. Le séjour moyen des patients durant l'année est de 245.8 jours.

HOPITAUX PRIVES - Le nombre d'hôpitaux privés qui font rapport en 1944 est de 267 ayant une capacité de 3,821 lits et 758 berceaux; 47.9 p.c. des 3,821 lits sont occupés durant l'année.

Les hôpitaux privés au Canada prennent soin d'une grande variété de cas: médecine et chirurgie, vieillesse et maladies chroniques, convalescence, maternité, etc. Soixante-et-dix hôpitaux ont des facilités de rayons X, 43 un laboratoire de clinique et 31 des facilités de physiothérapie. Un hôpital a une école d'infirmières et 34 ont un dispensaire organisé.

Le personnel global des 267 hôpitaux privés est de 1,865 réparti comme suit: 77 médecins salariés, 627 infirmières diplômées, 20 élèves-infirmières et 1,141 autres employés. Les médecins visiteurs, en plus de médecins salariés, se chiffrent par 2,860.

Il y a 2,407 patients hospitalisés au début de l'année; 39,932 adultes et enfants sont admis et il survient 10,572 naissances vivantes, ce qui fait un total de 53,224 patients hospitalisés durant l'année. Des 53,224 patients, 49,290 sont sortis et 1,371 sont morts durant l'année, ce qui laisse 2,252 patients hospitalisés à la fin de l'année. Il y a en moyenne 2,431 patients traités chaque jour durant l'année et le séjour moyen de tous les patients est de 17.0 jours. Les adultes et les enfants passent en moyenne 19.0 jours à l'hôpital et les nouveau-nés 9.4 jours.

HOPITAUX FEDERAUX - Le Service de la santé des Indiens du Ministère de la Santé et du Bien-être maintient 13 hôpitaux au Canada pour les Indiens. Ces hôpitaux se répartissent comme suit: Ontario, 3; Manitoba, 3; Saskatchewan, 1; Alberta, 5; et Colombie Britannique, 1. Deux de ces hôpitaux sont affectés au traitement de la tuberculose seulement; les onze autres, sauf deux signalent qu'une partie de l'hôpital est réservé aux tuberculeux.

Les treize hôpitaux qui font rapport ont une capacité de 533 lits et 41 berceaux. Les lits se répartissent comme suit: médecine générale et chirurgie, 196; obstétrique, 26; tuberculose, 298; et maladies contagieuses, 13. Cinquante-deux p.c. de la capacité globale des hôpitaux pour Indiens est consacrée au traitement de la tuberculose. Ces hôpitaux fédéraux emploient 8 médecins salariés à service continu, 5 médecins salariés à service discontinu, 63 infirmières diplômées et 110 employés, soit un total de 233 employés.

Des 533 lits, une moyenne de 380 ou 71.3 p.c. sont occupés chaque jour. Le séjour moyen de tous les patients est de 35.63 jours.

Il y a 429 patients hospitalisés au début de l'année; 3,477 adultes et enfants sont admis et il survient 471 naissances vivantes à l'hôpital durant l'année. Le nombre global de patients hospitalisés durant l'année est de 4,377 dont 3,857 sont sortis et 130 sont morts, laissant 410 patients à l'hôpital au dernier jour de l'année.

Liste d'autres hôpitaux administrés par le Ministère de la Santé Nationale et du Bien-être Social, par le Ministère des Affaires des Anciens Combattants, et par le Ministère de la Défense Nationale (Armée).

PUBLIC HOSPITALS
HOPITAUX PUBLICS

NOTES ON FINANCIAL STATISTICS

The following hospitals either did not provide financial statistics or their returns were incomplete. They are not included in any of the tables 51 to 59, inclusive.

Nova Scotia	One general and one Red Cross hospital.
Quebec	Three general and two contagious diseases hospitals.
Ontario	One contagious diseases hospital.
Saskatchewan	Nine Red Cross Hospitals.
Alberta	Two general and one contagious diseases hospital.
British Columbia	Two general hospitals.

The following hospitals, though providing returns for Revenue and Expenditures, did not supply a Balance sheet and are not included in Tables 53, 56 or 59.

Prince Edward Island	Two general hospitals.
Nova Scotia	Two general hospitals.
New Brunswick	Three general hospitals.
Quebec	Two general, one children's and one contagious diseases hospital.
Ontario	Two contagious diseases and two Red Cross hospitals.
Saskatchewan	Two general hospitals.
Alberta	No Balance sheets for any public hospitals.

NOTES SUR LES STATISTIQUES FINANCIERES

Les hôpitaux suivants n'ont pas fourni de statistiques financières ou n'ont pas fourni de rapport complet. Ils ne sont compris dans aucun des tableaux 51 à 59 inclusivement.

Nouvelle-Ecosse	Un hôpital général et un hôpital de la Croix-Rouge.
Québec	Trois hôpitaux généraux et deux hôpitaux pour contagieux.
Ontario	Un hôpital pour contagieux.
Saskatchewan	Neuf hôpitaux de la Croix-Rouge.
Alberta	Deux hôpitaux généraux et un hôpital pour contagieux.
Colombie Britannique	Deux hôpitaux généraux.

Les hôpitaux suivants ont fait rapport de leurs revenus et de leurs dépenses mais n'ont pas fourni de bilan et ne sont pas compris dans les tableaux 53, 56 ou 59.

Île du Prince-Edouard	Deux hôpitaux généraux.
Nouvelle-Ecosse	Deux hôpitaux généraux.
Nouveau-Brunswick	Trois hôpitaux généraux.
Québec	Deux hôpitaux généraux, un hôpital pour enfants, et un hôpital pour contagieux.
Ontario	Deux hôpitaux pour contagieux et deux hôpitaux de la Croix-Rouge.
Saskatchewan	Deux hôpitaux généraux.
Alberta	Aucun hôpital public n'a fourni de bilan.
