## PREFACE

The present volume contains the Annual Report of Hospitals in Canada for the year 1948, and covers Public, Private and Dominion Government Hospitals. Hospitals are classed as public in accordance with the definitions contained in the several provincial hospital Acts.

The report presents statistical data on hospital services and activities, and includes detailed information on personnel, beds and facilities available, movement of patients, and finances, in each province.

The Bureau acknowledges with thanks the cooperation given by hospital staffs and by provincial Departments of Health in supplying the information contained in this report.

The report was prepared in the Institutions Section of the Health and Welfare Division of the Dominion Bureau of Statistics.

HERBERT MARSHALL,

*Director, Statistics.*

## PRÉFACE

Le présent volume contient le Rapport annuel des hôpitaux du Canada en 1948 et comprend les hôpitaux publics et privés ainsi que ceux du gouvernement fédéral. Les hôpitaux publics sont ainsi classés, d'après les définitions données dans les diverses lois provinciales sur les hôpitaux.

Le rapport présente des données statistiques sur les services et les initiatives des hôpitaux et renferme des renseignements détaillés sur le personnel, la capacité en lits et les facilités offertes par l'hôpital, le mouvement des malades et les finances, dans chaque province.

Le Bureau remercie sincèrement le personnel des hôpitaux et des ministères provinciaux de la Santé de leur collaboration et de la statistique dont se compose le rapport.

Le rapport a été préparé par la Section des institutions de la Division de la santé et du bien-être du Bureau fédéral de la statistique.

HERBERT MARSHALL,

*Directeur des Statistiques.*

## TABLE OF CONTENTS

Preface .....	3
Table of contents.....	5-7
Introduction .....	9-13

### Part I - PUBLIC HOSPITALS

#### A - General Information

Table	Page
1. Bed capacity of reporting hospitals.....	16
2. Bed capacity of general hospitals, by bed groups .....	17
3. Distribution of bed complement according to clinical departments.....	18
4. Ownership of public hospitals.....	19
5. Organized services in public hospitals.....	19
6. Radiology, clinical laboratories and physiotherapy departments.....	20
7. Approved schools of nursing.....	21
8. Salaried doctors, full-time and part-time.....	22
9. Interns and technicians.....	23
10. Nursing personnel.....	24
11. Graduate and student dieticians.....	25
12. Total personnel, and personnel per 100 patients under care daily.....	26
13. Organized and non-organized medical staffs	27
14. Social service departments.....	28
15. Percentage of hospitals and of beds in hospitals of less than 100 beds and in hospitals of 100 or more beds.....	28
16. Organized out-patient departments.....	29

#### B - Movement of Patients

17. Hospitals reporting, with bed complement and percentage of beds occupied.....	33
18. Patients in hospital at the beginning of the year	34-35
19. Number of admissions.....	36-37
20. Patients under care.....	38-39
21. Number of discharges.....	40-41
22. Total deaths.....	42-43
23. Total separations.....	44-45
24. Patients in hospital at the end of the year	46-47
25. Separations, with total days of hospitalization and average stay.....	48-49
26. Total patient days during the year, daily average number of patients and average stay	50-51
27. Births in public and private hospitals, and rate per 1,000 births in Canada.....	52
28. Live births, still births and still births per 1,000 births in hospitals.....	53
29. Gross death rate.....	54
30. Bed complement, patients under care and percentage of beds occupied in general hospitals, 1944-48.....	55
31. Admissions to general hospitals, 1944-48	56
32. Patients under care in general hospitals, 1944-48 .....	57

## TABLE DES MATIÈRES

Préface .....	3
Table des matières.....	5-7
Introduction .....	9-13

### Partie I - HÔPITAUX PUBLICS

#### A - Renseignements généraux

## INTRODUCTION

This report is divided into three parts and provides information regarding the organization and operation of Public, Private and Dominion Hospitals in Canada during the year 1948. Information concerning Hospitals for Mental Diseases and Sanatoria for Tuberculosis appears in separate reports, and is not included in this volume.

### Part I. — PUBLIC HOSPITALS

The information appearing in this section covers only those hospitals which provided reports meeting certain minimum conditions in the manner of presentation and the completeness of the statistical data. Of the 688 public hospitals known to be operating in 1948, ten did not provide such reports and are not included in any of the tables in this section.

#### Accommodation

The 678 public hospitals which provided reports, had a capacity of 55,899 beds and cribs, and 9,037 bassinets for newborn. General hospitals had 49,730 or 88.9 per cent of the total number of beds and cribs, and 8,171 or 90.4 per cent of the bassinets. The percentage of beds and cribs in other public hospitals was as follows: Women's, 1.6 per cent; Children's, 2.1 per cent; Contagious Diseases, 1.4 per cent; Convalescent, 1.3 per cent; Red Cross, 0.9 per cent and Not Classified, 3.6 per cent.

The number of beds and cribs per thousand of the general population<sup>1</sup>, as estimated by the Dominion Bureau of Statistics, was: Prince Edward Island, 5.0; Nova Scotia, 4.7; New Brunswick, 4.2; Quebec, 4.0; Ontario, 3.6; Manitoba, 4.6; Saskatchewan, 5.4; Alberta, 5.8; British Columbia, 5.3; Yukon and Northwest Territories, 1.8, and Canada, 4.3 beds.

Hospitals with a total capacity of less than 100 beds, cribs and bassinets numbered 513 or 75.7 per cent of the total, reporting, while those having more than 100 beds numbered 165 or 24.3 per cent of the total. The average capacity of all hospitals with less than 100 beds averaged 37.4 beds, and those with more than 100 beds averaged 276.5 beds.

#### Personnel

One hundred and forty public hospitals employed 367 full-time doctors and 141 institutions employed 400 part-time doctors, a total of 767 doctors receiving salary. There were 1,333 interns employed in the 93 hospitals and a total of 211 hospitals had 1,063 technicians on their staffs. This latter figure does not include hospitals in the Province of Ontario, which did not report technicians separately.

The number of graduate nurses on hospital staffs was 12,220, an increase of 732 or 6.4 per cent over the preceding year. There were 162 public hospitals which had approved schools of nursing, 64 of which had university affiliation. These schools had a total of 2,895 probationers and 11,206 student nurses and 3,646 students were graduated during the year. Probationers numbered 133 more than in 1947, and student nurses showed an increase of 786. There were 148 more nurses graduated in 1948 than in the preceding year, an increase of 4.2 per cent. Total personnel of all reporting hospitals was 64,065, an increase of 3,370 or 5.3 per cent over the year 1947.

#### Organized medical staff

There were 285 hospitals, which reported organized medical staffs. These hospitals had 11,953 staff doctors, an increase of 922 from the preceding year. Of the remaining hospitals, which did not have organized staffs, 363 reported a total of 1,275 doctors who attended patients

1. Census and Estimated Population of Canada and The Provinces by sex and age group, 1931-1948. *Vital Statistics, Analytical Report No. 1*. (Ottawa, D.B.S. 1948) page 21.

## INTRODUCTION

Le présent rapport est divisé en trois parties et comprend la statistique sur l'organisation et l'oeuvre des hôpitaux publics et privés ainsi que de ceux du gouvernement fédéral au Canada en 1948. Les statistiques sur les hôpitaux pour maladies mentales et les sanatoriums font l'objet de rapports distincts et ne sont pas comprises dans le présent volume.

### Partie I. — HÔPITAUX PUBLICS

La statistique de la présente section n'a trait qu'aux hôpitaux qui fournissent des rapports conformes à certaines conditions essentielles concernant la méthode de présentation et l'intégralité des données statistiques qui sont fournies. Sur les 688 hôpitaux publics dont l'exploitation est connue en 1948, dix n'ont pas rempli de rapports conformément à ces exigences et ils ne sont pas inclus dans les tableaux de la présente section.

#### Capacité en lits

Les 678 hôpitaux publics faisant rapport ont une capacité de 55,899 lits pour adultes et enfants et 9,037 berceaux pour les nouveau-nés. Les hôpitaux généraux déclarent 49,730 ou 88.9 p. 100 de tous les lits d'adultes et d'enfants et 8,171 ou 90.4 p. 100 des berceaux. Le pourcentage de lits pour adultes et enfants des autres hôpitaux publics est ainsi réparti: femmes 1.6 p. 100, enfants 2.1 p. 100, contagieux, 1.4 p. 100, convalescents 1.3 p. 100, Croix-rouge, 0.9 p. 100 et non classés 3.6 p. 100.

Le nombre de lits pour adultes et enfants par millier d'habitants<sup>1</sup>, d'après les estimations du Bureau fédéral de la statistique, est le suivant: Île du Prince-Édouard 5.0, Nouvelle-Ecosse 4.7, Nouveau-Brunswick 4.2, Québec 4.0, Ontario 3.6, Manitoba 4.6, Saskatchewan 5.4, Alberta 5.8, Colombie-Britannique 5.3, Yukon et Territoires du Nord-Ouest 1.8 et Canada 4.3 lits.

Les hôpitaux dont la capacité totale est de moins de 100 lits d'adultes, et d'enfants et de berceaux, représentent 513 ou 75.7 p. 100 des hôpitaux faisant rapport et ceux qui comptent 100 lits et plus, 165 ou 24.3 p. 100 du total. La capacité moyenne de tous les hôpitaux ayant moins de 100 lits ont 37.4 lits en moyenne et ceux qui ont plus de 100 lits une moyenne de 276.5 lits.

#### Personnel

Cent quarante hôpitaux publics emploient 367 médecins en service continu et 141 institutions maintiennent 400 médecins en service discontinu, soit 767 médecins salariés. Le nombre d'internes en service est de 1,333 dans 93 hôpitaux et un total de 211 hôpitaux déclarent 1,063 techniciens faisant partie du personnel. Ce dernier chiffre ne comprend pas les hôpitaux de la province d'Ontario qui n'ont pas déclaré séparément leurs techniciens.

Le nombre d'infirmières diplômées qui font partie du personnel des hôpitaux est de 12,220, soit 732 ou 6.4 p. 100 de plus que l'année précédente. On compte 162 hôpitaux publics ayant des écoles autorisées d'infirmières dont 64 sont affiliées aux universités. Ces écoles comprennent un total de 2,895 stagiaires et 11,206 élèves-infirmières et 3,646 étudiantes ont gradué durant l'année. Le nombre de stagiaires est de 133 de plus qu'en 1947 et celui des élèves-infirmières augmente de 786. Le nombre d'infirmières diplômées augmente de 148 en 1948 sur l'année précédente ou de 4.2 p. 100. Le personnel complet de tous les hôpitaux faisant rapport s'élève à 64,065, soit 3,370 ou 5.3 p. 100 de plus qu'en 1947.

#### Personnel médical organisé

Il y a un personnel médical organisé dans 285 hôpitaux qui comptent 11,953 médecins attachés ou 922 de plus que l'année précédente. Des autres hôpitaux, qui n'ont pas de personnel organisé, 363 déclarent un total de 1,275 médecins visitants pour l'année, alors que 40 ne mentionnent aucun

1. Population de recensement et population estimative du Canada et des provinces par sexe et groupe d'âge, 1931-1948. *Statistiques vitales, Rapport analytique no 1* (Ottawa, B.F.S., 1948), p. 21.

during the year, while 40 hospitals did not report any attending staff. Of the 285 hospitals having organized staffs, 239 reported organized services of departments. There were 562 hospitals with X-ray facilities, 207 of these being organized; 345 hospitals had clinical laboratories, 137 of which were organized; 277 had physiotherapy departments, 119 of which were organized.

Fifty-three hospitals supplied reports on their organized out-patient departments. Table 16 shows these departments sub-divided under their main headings. The number of patients attending out-patient departments was 869,609 and a total of 1,488,260 treatments or visits was reported.

#### Movement of patients

The 678 public hospitals which provided returns for the year 1948, had a complement of 58,375 beds and cribs, 74.3 per cent of which were occupied during the year. The percentage of occupancy by types of hospitals was as follows: General, 74.5 per cent; Women's, 70.7 per cent; Children's, 82.3 per cent; Contagious Diseases, 27.9 per cent; Convalescent, 75.2 per cent; Red Cross, 48.0 per cent and Not Classified, 87.4 per cent. By provinces, the percentages were: Prince Edward Island, 74.6; Nova Scotia, 66.9; New Brunswick, 73.9; Quebec, 76.0; Ontario, 77.8; Manitoba, 70.8; Saskatchewan, 72.9; Alberta, 71.2; British Columbia, 71.2 and Northwest Territories and Yukon, 50.0 per cent. A notable feature of Table 39, is that the figure representing the bed occupancy of each bed group increased with the increase in the size of the bed group.

#### In residence at the beginning of the year

There were in residence, in public hospitals at the beginning of the year, 41,519 patients, distributed as follows: Adults and children, 16,447 males and 20,236 females; Newborn, 2,484 males and 2,352 females. There was an increase of 2.7 per cent in the number in hospital at the beginning of 1948 over the number in residence at the beginning of the preceding year.

#### Admissions

The number of adults and children admitted during the year was 1,425,874; live births in hospitals during the year numbered 240,553, making a total of 1,666,427 admissions during the year 1948. Of these admissions, 675,735 were males, 552,779 of whom were adults and children, and 122,956 newborn; the females comprised 873,095 adults and children, and 117,597 newborn. The increase in admissions totalled 73,778 or 4.6 per cent more than in 1947. In addition to the infants born alive during the year, there were 4,842 still-born which was 2.0 per cent of the total births in hospitals in Canada inclusive of Yukon and Northwest Territories. (See table 28).

The following table shows the number per 1,000 of the estimated population of Canada<sup>1</sup>, who were admitted to hospitals during the year: - (Births are not included).

	Male	Female	Total
Prince Edward Island.....	47	81	128
Nova Scotia.....	36	66	102
New Brunswick.....	44	76	120
Quebec.....	29	46	75
Ontario.....	41	67	108
Manitoba.....	46	78	124
Saskatchewan.....	39	99	168
Alberta.....	68	102	170
British Columbia.....	61	84	145
Yukon and Northwest Territories.....	68	57	125
Canada.....	43	67	110

Of the total admissions and births in hospitals, 1,567,785 or 94.1 per cent were admitted to general hospitals.

1. Census and Estimated Population of Canada and The Provinces by sex and age group, 1931-1948. *Vital Statistics, Analytical Report No. 1.* (Ottawa, D.B.S. 1948) page 21.

personnel médical visitant. Sur 285 hôpitaux ayant un personnel organisé, 239 déclarent des services organisés ou départements: 562 ont des services de radiologie dont 207 sont organisés, 345 ont des laboratoires cliniques dont 137 sont organisés, 277 ont des départements de physiothérapie dont 119 sont organisés.

Cinquante-trois hôpitaux font rapport concernant leurs dispensaires. Le tableau 16 énumère ces départements recoupés d'après leurs principales rubriques. Le nombre de malades qui fréquentent les dispensaires est de 869,609 et un total de 1,488,260 traitements ou visites est déclaré.

#### Mouvement des malades

Les 678 hôpitaux publics qui font rapport pour l'année 1948 comptent un total de 58,375 lits pour adultes et enfants dont 74.3 p. 100 sont occupés durant l'année. Le pourcentage de lits occupés par genre d'hôpital est le suivant: général 74.3 p. 100, femmes 70.7 p. 100, enfants 82.3 p. 100, contagieux 27.9 p. 100, convalescents 75.2 p. 100, Croix-rouge, 48.0 p. 100 et non classés 87.4 p. 100. Les pourcentages par province sont: Île du Prince-Édouard 74.6, Nouvelle-Écosse 66.9, Nouveau-Brunswick 73.9, Québec 76.0, Ontario 77.8, Manitoba 70.8, Saskatchewan 72.9, Alberta 71.2, Colombie-Britannique 71.2 et Territoires du Nord-Ouest et Yukon 50.0 p. 100. Le trait saillant du tableau 39 est que le chiffre représentant les lits occupés de chaque groupe de lits augmente en même temps que l'importance du groupe de lits.

#### Hospitalisés au début de l'année

Les hôpitaux publics comptent au début de l'année 41,519 malades hospitalisés ainsi répartis: adultes et enfants, 16,447 hommes et garçons et 20,236 femmes et filles; nouveau-nés, 2,484 garçons et 2,352 filles. Le nombre de malades hospitalisés au début de l'année 1948 augmente de 2.7 p. 100 sur celui de l'année précédente.

#### Admissions

Le nombre d'adultes et d'enfants admis durant l'année est de 1,425,874, le nombre de naissances vivantes dans les hôpitaux de 240,553 au cours de l'année, soit un total de 1,666,427 admissions en 1948, dont 675,735 hommes comprenant 552,779 hommes et garçons et 122,956 nouveau-nés; les femmes comprennent 873,095 femmes et filles et 117,597 nouveau-nées. Les admissions augmentent au total de 73,778 ou 4.6 p. 100 comparativement à 1947. En plus des naissances vivantes de l'année, on compte 4,842 mort-nés, soit 2.0 p. 100 du total des naissances dans les hôpitaux au Canada, y compris le Yukon et les Territoires du Nord-Ouest (voir tableau 28).

Le tableau suivant donne le nombre, par 1,000 de la population estimative du Canada<sup>1</sup>, de personnes hospitalisées durant l'année, (naissances non comprises):

	Hommes	Femmes	Total
Île du Prince-Édouard.....	47	81	128
Nouvelle-Écosse.....	36	66	102
Nouveau-Brunswick.....	44	76	120
Québec.....	29	46	75
Ontario.....	41	67	108
Manitoba.....	46	78	124

Sur le total des admissions et des naissances, 1,567,785 ou 94.1 p. 100 sont déclarées par les hôpitaux généraux.

1. Population de recensement et population estimative du Canada et des provinces par sexe et groupe d'âge, 1931-1948. *Statistiques vitales, Rapport analytique no 1* (Ottawa, B.F.S., 1948), p. 21.

**Total under care**

A total of 1,707,946 patients were under care in public hospitals for acute diseases during the year 1948. This total was made up as follows: Adults and children, 569,226 males and 893,331 females; Newborn, 125,440 males and 119,949 females. The increase in the number under care in 1948 was 74,877 or 4.6 per cent over 1947.

**Discharges and deaths**

Separations (discharges and deaths) during the year totalled 1,664,299 or 97.4 per cent of the total under care. Of the separations, 44,462 or 2.7 per cent died in hospital, the remainder which was 97.3 per cent of the total, being discharged alive. The ratio of deaths to total under care was 26 per thousand. The total days' stay of those who were discharged and who died was 16,833,039 days; an average stay of 10.1 days per patient. The average stay of adults and children was 10.5 days and of newborn 7.9 days.

**Patient days during the year**

The total patient days during the year was 17,793,754 giving an average stay of 10.4 days for all patients. The average of adults and children was 10.8 days and of newborn 8.0 days.

**Births in hospitals**

There were 245,108 births in public hospitals in Canada during the year, 4,814 of these were still-born. These figures exclude births in the Yukon and Northwest Territories where 259 live births and 4 stillbirths were reported. The total births in Canada during the year were 354,156<sup>1</sup>, of which 347,307 were live births and 6,849 were still-born. The total births in public and private hospitals comprised 72.7 per cent of all births in Canada. (See Table 27).

**Tuberculosis and contagious diseases units**

Eighteen hospitals provided returns for the movement of patients in their tuberculosis units. These units had a total capacity of 1,055 beds, 83.1 per cent of which were occupied during the year. There were 2,251 patients under care in these units during the year for a total of 320,148 days, an average of 142.2 days per patient. These figures are not included in the movement of population tables (No. 17 to 44 inc.). There were 10 hospitals which reported the movement of patients in units or annexes for contagious diseases. These had a total of 293 beds for this class of patients and 30.0 per cent of these beds were occupied during the year. Patients under care numbered 2,741 with an aggregate stay of 32,166 days, giving an average stay for each patient of 11.7 days. Figures for contagious disease units are included in the general tables on movement of patients.

**Finances**

There were 610 hospitals which provided reports on Revenue and Expenditures, which met the minimum requirements of the Bureau, while 579 of these hospitals supplied Balance Sheets. This represents 90.0 per cent and 85.4 per cent, respectively of the total number of hospitals reporting.

Total Revenue of reporting public hospitals amounted to \$130,109,251 and Total Expenditures to \$125,005,399 showing a net operating profit of \$5,103,852. Gross earnings from day rate and special services was \$104,720,340 with net deductions on account of free services, bad debts, etc., of \$11,468,635 leaving net earnings from patients of \$93,251,705. Grants from provinces totalled \$11,637,675; from municipalities \$10,325,853 and other special grants \$310,170. The Total operating revenue was \$115,525,403; with other, special and capital revenue of \$14,583,848 making a total revenue from all sources of \$130,109,251. Net earnings from patients comprised 80.7 per cent of the

1. *Vital Statistics of Canada, 1950* (Ottawa, Dominion Bureau of Statistics, 1950) pp. 8, 9.

**Total des malades soignés**

Un total de 1,707,946 malades sont soignés dans les hôpitaux publics pour maladies aiguës en 1948; ils sont ainsi répartis: adultes et enfants, 569,226 hommes et garçons et 893,331 femmes et filles; nouveau-nés, 125,440 garçons et 119,949 filles. Le nombre de malades soignés en 1948 augmente de 74,877 ou 4.6 p. 100 sur 1947.

**Sorties et décès**

Les séparations (sorties et décès) s'élèvent à 1,664,299 durant l'année ou 97.4 p. 100 de tous les malades soignés. Sur le nombre de malades qui ont quitté l'hôpital, 44,462 ou 2.7 p. 100 sont décédés à l'hôpital et le reste, soit 97.3 p. 100 du total, sont sortis vivants. La proportion de décès par rapport au total des malades soignés est de 26 par millier. Le séjour total des personnes sorties et décédées est de 16,833,039 jours ou 10.1 jours par malade en moyenne. Le séjour moyen des adultes et enfants est de 10.5 jours et celui des nouveau-nés de 7.9 jours.

**Jours-malade de l'année**

Le nombre de jours-malade durant l'année est de 17,793,754 ou un séjour moyen de 10.4 jours pour les malades. La moyenne pour les adultes et enfants est de 10.8 jours et pour les nouveau-nés de 8.0 jours.

**Naissances dans les hôpitaux**

On compte 245,108 naissances dans les hôpitaux publics du Canada durant l'année dont 4,814 mort-nés. Ces chiffres excluent les naissances au Yukon et dans les Territoires du Nord-Ouest où 259 naissances vivantes et 4 mort-nés sont déclarés. Le total des naissances au Canada durant l'année s'élève à 354,156<sup>1</sup> dont 347,307 naissances vivantes et 6,849 mort-nés. Le total des naissances dans les hôpitaux publics et privés comprend 72.7 p. 100 de toutes les naissances au Canada (voir tableau 27).

**Annexes pour tuberculeux et pour contagieux**

Dix-huit hôpitaux fournissent des rapports sur le mouvement des malades dans leurs annexes pour tuberculeux dont la capacité totale est de 1,055 lits dont 83.1 p. 100 sont occupés durant l'année. Le nombre de malades soignés dans ces annexes durant l'année est de 2,251 pendant un total de 320,148 jours, soit une moyenne de 142.2 jours par malade. Ces statistiques ne sont pas comprises dans le mouvement de la population des tableaux 17 à 44 inclusivement. Dix hôpitaux déclarent le mouvement des malades des unités ou annexes pour contagieux, qui comprennent un total de 293 lits pour cette catégorie de malades et 30.0 p. 100 de ces lits sont occupés durant l'année. Le nombre de malades soignés est de 2,741 et le séjour collectif est de 32,166 jours ou une moyenne de 11.7 jours par malade. Les statistiques des annexes pour contagieux se trouvent dans les tableaux généraux sur le mouvement des malades.

**Finances**

On compte 610 hôpitaux publics qui font rapport de leurs recettes et de leurs dépenses et répondent aux conditions essentielles fixées par le Bureau, alors que 579 de ces hôpitaux fournissent un bilan, ce qui représente 90.0 p. 100 et 85.4 p. 100 respectivement du nombre total d'hôpitaux faisant rapport.

Les recettes totales des hôpitaux publics qui font rapport s'élèvent à \$130,109,251 et les dépenses totales à \$125,005,399, indiquant un gain net de gestion de \$5,103,852. Les recettes brutes provenant des services au taux au jour le jour et des services spéciaux sont de \$104,720,340 avec déductions nettes de \$11,468,635 pour services gratuits, mauvaises créances, etc., laissant des recettes nettes de \$93,251,705. Les subventions des provinces forment un total de \$11,637,675, des municipalités \$10,325,853 et les autres subventions spéciales \$310,170. Le revenu total de gestion est de \$115,525,403 et, avec les autres revenus spéciaux et de capital de \$14,583,848, il atteint le montant

1. *Statistiques vitales du Canada, 1950* (Ottawa, Bureau fédéral de la statistique, 1950, pp. 8, 9.

operating revenue; grants and maintenance payments from provinces was 10.0 per cent, municipal and other grants made 9.2 per cent. The total revenue from all sources was made up as follows: Net earnings from patients, 71.7 per cent; Grants and payments from provinces, 8.9 per cent; Municipal and other grants, 8.2 per cent and Revenue from all other sources 11.2 per cent.

Detailed figures show that salaries and wages made up the largest single item of expenditures for maintenance; this item amounted to \$60,218,934 or 48.2 per cent of the total expenditures. Supplies was the next largest item, amounting to \$46,185,072 or 36.9 per cent of the total. The cost of dietary supplies was \$19,720,389 or 42.7 per cent of all supplies, and 15.8 per cent of the total expenditures. The cost per patient day for dietary supplies amounted to \$1.11. Repairs, replacements and depreciation amounted to \$9,375,878 with other miscellaneous expenditures of \$3,854,708.

Of the \$123,392,325 expended for maintenance, \$7,832,103 was for out-patients and \$115,560,222 for in-patients. This latter amount divided by the total patient days during the year (17,755,956), gives a cost per patient day for all hospitals of \$6.51. The 579 hospitals which supplied balance sheets, showed assets amounting to \$276,964,031. This was made up as follows: Current funds, \$36,427,453; Permanent funds, \$25,699,493 and Plant funds \$214,837,085. The Net capital of these hospitals was: Working capital, \$16,946,997 and Plant capital \$133,201,084 making a total of \$150,148,081.

#### Hospitals for incurables

There were 21 hospitals for incurables in Canada which provided reports for 1948. These hospitals had a total capacity of 3,067 beds; the bed complement or number available for use, was 3,267. Three of these institutions are annexes of general public hospitals. There were employed in the remaining 18 incurable institutions: 23 salaried doctors, 229 graduate nurses and a total personnel of 1,631. In addition to those on salary, 59 doctors attended patients in these institutions.

Patients in residence at the beginning of the year numbered 2,898 and 1,779 were admitted during the year, making a total of 4,677 patients under care during the year. There were 480 patients discharged and 1,167 died, leaving 3,030 in residence at the end of the year.

The percentage of beds occupied was 90.9 and the average number of patients under care daily was 2,917. The average stay of patients during the year was 331.9 days.

#### Part II. - PRIVATE HOSPITALS

The number of private hospitals reporting in 1948 was 209, and these had a capacity of 3,350 beds and cribs and 647 bassinets. Of the 3,350 beds and cribs 67.6 per cent were occupied during the year.

The private hospitals in Canada cared for a wide variety of cases, e.g., medical and surgical, aged and chronic, maternity, convalescent, etc. There were 69 hospitals with X-ray facilities, 37 had clinical laboratories, 28 had physiotherapy facilities, and 30 had facilities for out-patients.

The total personnel of the 209 private hospitals was 1,996 divided as follows: 53 salaried doctors, 649 graduate nurses, and 1,294 other personnel. Doctors in attendance, other than those on salary, numbered 2,793.

There were 2,244 patients in residence at the beginning of the year, 47,094 adults and children were admitted, and there were 12,192 live births, making a total of 59,286 patients under care during the year. Of these patients 57,752 were discharged and 1,520 died, leaving 2,258 in residence at the end of the year. There was an average of 2,531 patients under care daily during the year and the average stay of all patients was 15.0 days. The adults and children spent an average of 16.9 days in hospital and the newborn, 7.7 days.

global de \$130,109,251 provenant de toutes sources. Les recettes nettes provenant des malades forment 80.7 p. 100 des revenus de gestion; les subventions et versements des provinces pour l'entretien, 10.0 p. 100, et les subventions municipales et autres, 9.2 p. 100. Le revenu total de toutes les sources est ainsi composé: recettes nettes provenant des malades, 71.7 p. 100; subventions et versements des provinces 8.9 p. 100; subventions et versements des municipalités et autres, 8.2 p. 100 et recettes provenant de toutes autres sources, 11.2 p. 100.

Des statistiques détaillées montrent que les traitements et salaires représentent le plus fort chef de dépenses pour l'entretien, qui s'élève à \$60,218,934 ou 48.2 p. 100 de toutes les dépenses. Les fournitures viennent ensuite avec \$46,185,072 ou 36.9 p. 100 du total. Le coût des provisions alimentaires est de \$19,720,389 ou 42.7 p. 100 du prix de toutes les fournitures et 15.8 p. 100 de toutes les dépenses. Les frais quotidiens par malade en aliments diététiques sont \$1.11. Les réparations, les renouvellements et la dépréciation s'élèvent à \$9,375,878 et les diverses autres dépenses à \$3,854,708.

Sur \$123,392,325 dépensés pour l'entretien, \$7,832,103 sont consacrés aux malades des dispensaires et \$115,560,222 aux malades hospitalisés. Ce dernier montant, divisé par le total des jours-malade de l'année (17,755,956), donne \$6.51 de frais journaliers par malade pour tous les hôpitaux. Les 579 hôpitaux qui fournissent un bilan indiquent un actif de \$276,964,031 ainsi composé: fonds courants \$36,427,453, fonds permanents \$25,699,493 et biens-fonds et équipement \$214,837,085. Le capital net de ces hôpitaux se compose ainsi: capital roulant \$16,946,997 et capital fixe \$133,201,084 formant un total de \$150,148,081.

#### Hôpitaux pour incurables

Vingt et un hôpitaux pour incurables au Canada font rapport en 1948. Leur capacité globale est de 3,067 lits et le nombre réel de lits ou lits pouvant être utilisés, de 3,267. Trois de ces institutions sont des annexes des hôpitaux publics généraux. Le personnel des 18 autres institutions pour incurables comprend 23 médecins salariés, 229 infirmières diplômées et un personnel global de 1,631 personnes. En plus des médecins salariés, 59 médecins soignent les malades de ces institutions.

Les malades hospitalisés au début de l'année sont au nombre de 2,898 et 1,779 sont admis au cours de l'année, soit un total de 4,677 malades soignés durant l'année; 480 malades sont sortis et 1,167 sont décédés laissant 3,030 malades hospitalisés à la fin de l'année.

Le pourcentage de lits occupés est de 90.9 et le nombre moyen de malades soignés par jour est de 2,917. Le séjour moyen des malades pour l'année est de 331.9 jours.

#### Partie II. - HÔPITAUX PRIVÉS

Le nombre d'hôpitaux privés qui font rapport pour 1948 est de 209 et la capacité de 3,350 lits pour adultes et enfants et 647 berceaux. Sur 3,350 lits pour adultes et enfants, 67.6 p. 100 sont occupés durant l'année.

Les hôpitaux privés au Canada soignent des cas très divers, soit médicaux et chirurgicaux, sénilité et maladies chroniques, maternité, convalescents, etc. Soixante-neuf hôpitaux ont des services de radiologie, 37 des laboratoires cliniques, 28 des services de physiothérapie et 30 des dispensaires.

Le personnel total des 209 hôpitaux privés est de 1,996 personnes ainsi réparties: 53 médecins salariés, 649 infirmières diplômées et 1,294 autres employés. Le nombre de médecins attachés, autres que les médecins salariés, est de 2,793.

Il y a 2,244 malades hospitalisés au début de l'année; 47,094 adultes et enfants sont admis et 12,192 naissances vivantes sont enregistrées au cours de l'année, formant un total de 59,286 malades soignés durant l'année. De ces malades, 57,752 sont sortis et 1,520 sont décédés, laissant 2,258 malades hospitalisés à la fin de l'année. La moyenne de malades soignés par jour durant l'année est de 2,531 et le séjour moyen de tous les malades est de 15.0 jours. Le séjour moyen des adultes et des enfants est de 16.9 jours et celui des nouveau-nés de 7.7 jours.

### Part III. - DOMINION HOSPITALS

This part covers hospitals operated by the Departments of National Health and Welfare, Veterans' Affairs, and National Defence.

The Department of National Health and Welfare had 27 hospitals in operation during the year, 20 of which were operated by the Indian Health Service Division and 7 by the Quarantine and Sick Mariners Division. Three Indian Hospitals did not provide reports for the year 1948.

The Department of Veterans' Affairs operated 34 hospitals for the care and treatment of ex-service personnel, 13 of these provided active treatment, 7 were Health and Occupational Centres for convalescent patients and 5 were special institutions. Veterans' Homes, of which there were 9, are primarily intended for the domiciliary care of the older age group.

The Department of National Defence operated 21 hospitals of which 15 provided service to the Army, 2 to the Navy and 4 to the Air Force.

### Partie III. - HÔPITAUX DU GOUVERNEMENT FÉDÉRAL

La présente partie du rapport comprend les hôpitaux administrés par les ministères de la Santé et du Bien-être social, des Affaires des anciens combattants et de la Défense nationale.

Le ministère de la Santé et du Bien-être social administre 27 hôpitaux durant l'année dont 20 par l'entremise de la Direction des services de santé des Indiens et 7 par celle du Service de la quarantaine et du traitement des marins malades. Trois des hôpitaux pour les Indiens n'ont pas fourni de rapport pour 1948.

Le ministère des Affaires des anciens combattants administre 34 hôpitaux pour le soin et le traitement des anciens combattants; 13 de ces hôpitaux donnent des traitements, 7 sont des centres de thérapie professionnelle et d'hygiène pour les convalescents et 5 sont des institutions spéciales. Neuf des hospices d'anciens combattants sont principalement destinés au soin domiciliaire des plus âgés.

Le ministère de la Défense nationale exploite 21 hôpitaux dont 15 reçoivent le personnel de l'armée, 2 de la Marine et 4 de l'Aviation.

The first part of the history of the United States is the story of the early years of the nation. It begins with the discovery of the continent by Christopher Columbus in 1492. The early years of the nation were marked by the struggle for independence from Great Britain. The American Revolution was a struggle for the right of self-government. The Declaration of Independence was signed on July 4, 1776. The Constitution was adopted in 1787. The early years of the nation were a time of growth and expansion. The United States became a powerful nation in the world.

The second part of the history of the United States is the story of the middle years of the nation. It begins with the War of 1812. The War of 1812 was a struggle for the right of self-government. The United States emerged from the war as a more powerful nation. The middle years of the nation were a time of growth and expansion. The United States became a powerful nation in the world.

## NOTES ON SECTION A AND B

Hospitals which provided neither statistical nor financial returns and are not included in any of the tables in this volume:

Nova Scotia.....	One Contagious Diseases Hospital.
Quebec.....	One General and one Contagious Diseases Hospital.
Manitoba.....	One General Hospital.
Alberta.....	One General and one Contagious Diseases Hospital.
British Columbia.....	Three General Hospitals.
N.W.T. ....	One General Hospital.

## NOTES ON FINANCES

To reconcile patient days in Expenditures tables (48-51-54) with patient days in the Movement of Patients section, add in Col. 1 the days in Chronic and Tuberculosis units and deduct in Col. 2 the days in hospitals which did not supply Financial returns:

	(1) Add Ajouter	(2) Deduct Soustraire	Net difference on expenditures tables Différence nette des tableaux de dépenses

## RENOIS DES SECTIONS A ET B

Hôpitaux qui ne fournissent aucun rapport statistique ou financier et qui ne sont compris dans aucun des tableaux du présent volume:

Nouvelle-Écosse.....	Un hôpital de contagieux.
Québec.....	Un hôpital général et un hôpital de contagieux.
Manitoba.....	Un hôpital général.
Alberta.....	Un hôpital général et un hôpital de contagieux.
Colombie-Britannique.....	Trois hôpitaux généraux.
T.N.-O. ....	Un hôpital général.

## RENOIS CONCERNANT LES FINANCES

Pour concilier les jours-malades figurant aux tableaux des dépenses (48-51-54) avec les jours-malades figurant à la section "Mouvement des malades", additionner à la col. 1 les jours-malade déclarés par les unités pour maladies chroniques et la tuberculose et soustraire à la col. 2 les jours-malade déclarés par les hôpitaux qui n'ont pas fait de rapport financier:

Number of hospitals which supplied reports of Revenue and Expenditures but did not supply a Balance Sheet:

Prince Edward Island.....	2 General.
Nova Scotia.....	2 General: 1 Women's.
Quebec.....	2 General: 1 Women's: 1 Contagious Diseases.
Ontario.....	1 Contagious Diseases.
Manitoba.....	3 General: 1 Contagious Diseases.
Saskatchewan.....	1 General.
Alberta.....	4 General: 2 Women's: 1 Childrens: 2 Contagious Diseases.

Nombre d'hôpitaux qui fournissent des rapports sur les recettes et les dépenses mais qui ne donnent pas de bilan:

Île du Prince-Édouard.....	2 généraux.
Nouvelle-Écosse.....	2 généraux: 1 pour les femmes.
Québec.....	2 généraux: 1 pour les femmes; 1 de contagieux.
Ontario.....	1 de contagieux.
Manitoba.....	3 généraux: 1 de contagieux.
Saskatchewan.....	1 général.
Alberta.....	4 généraux: 2 pour femmes; 1 pour enfants; 2 de contagieux.

1. Integrated with D.V.A. Hospital at same location.

2. Opened June 1948.

3. Laboratory and physiotherapy facilities at Goose Bay and Fort Nelson are minimal.

Note. In addition to hospitals, the Armed Services maintain small emergency and minor case sick quarters in Stations and Establishments. Each Naval ship has a sick bay with 1 to 12 beds.

The number of patients in the Naval, Army and Air Force hospitals include members of the Armed Forces, Allied Forces, civilians (in certain prescribed areas), also Eskimos and Indians.

1. Incorporé à l'hôpital des anciens combattants du même endroit.

2. Inauguré en juin 1948.

3. Les facilités de laboratoire et de physiothérapie à Goose-Bay et Fort-Nelson sont rudimentaires.

Nota. En plus des hôpitaux, les services armés maintiennent des centres pour menus cas urgents et maladies bénignes aux divers postes et établissements. Chaque navire de la Marine possède une infirmerie de 1 à 12 lits.

Le nombre de malades des hôpitaux de la Marine, de l'Armée et de l'Aviation comprend des membres des forces armées, des forces alliées, des civils (dans certaines régions circonscrites) ainsi que des Esquimaux et des Indiens.
