INTRODUCTION

Statistics on hospitals have been compiled and published annually, in varying degrees of detail by Statistics Canada since 1931. Currently, an extensive array of statistics relating to the facilities available, services provided, personnel employed, educational programs and finances of general and allied special hospitals, mental institutions and residential care facilities operating in Canada are prepared by the Health Care Section of the Canadian Centre for Health Information of Statistics Canada. A series of quarterly and annual reports are published, to provide users with a comprehensive presentation of statistics.

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data, and to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

Other Data

The tables now available in five volumes contain detailed information on a wide range of hospital utilization and expenditures statistics. Readers who require a set of detailed hospital indicators should consider the companion set of tables **Annual Return of Hospitals - Hospital Indicators** (formerly Catalogue 83-233).

Depuis 1931, Statistique Canada recueille tous les ans des statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. À l'heure actuelle, la Section des soins de santé du Centre canadien d'information sur la santé de Statistique Canada établit un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique et la situation financière des hôpitaux généraux et spéciaux divers ainsi que des établissements pour malades mentaux et de soins spéciaux en activité au Canada. Elle publie une série de bulletins trimestriels et annuels pour donner aux utilisateurs une idée générale de la statistique hospitalière.

Statistique Canada remercie les hôpitaux du pays qui ont établi et présenté les données à diffuser dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour les efforts qu'ils ont déployés afin d'uniformiser la comptabilité et la tenue des registres.

Autres données

Les tableaux maintenant disponibles en cinq volumes contient des renseignements détaillés sur une vaste gamme de statistiques concernant l'utilisation et les dépenses des hôpitaux. Les lecteurs qui ont besoin d'un ensemble d'indicateurs détaillés des hôpitaux devraient considérer l'achat de son tableau complémentaire intitulé **Rapport annuel des hôpitaux - Indicateurs des hôpitaux** (anciennement n° 83-233 au catalogue).

Those who require more recent data, but do not require the detail found in these tables are encouraged to refer to **Hospital Statistics - Preliminary Annual Report** (formerly Catalogue 83-217) and **Quarterly Hospital Information System - Hospital Indicators** (formerly Catalogue 83-002). The tabulations in these reports are limited to key areas of hospital utilization and expenditures.

Users whose requirements are confined to the number of hospitals in operation and their approved bed complements might be interested in **List of Canadian Hospitals** (formerly Catalogue 83-201). This publication, in addition to listing the names and addresses of all Canadian Hospitals, contains useful tables relating hospitals and beds to Canadian population figures, hospital ownership and type and size of hospital. The publication also includes some time-series tables on beds and beds per 1,000 population.

For further information on hospital statistics, contact the Health Care Section at (613) 951-1650.

Les lecteurs qui ont besoin de données plus récentes, mais non du niveau de détail présenté dans ces tableaux sont encouragés à consulter les rapports intitulés **La statistique hospitalière - Rapport annuel préliminaire** (anciennement n° 83-217 au catalogue) et **Programme de renseignements hospitaliers trimestriels - Indicateurs des hôpitaux** (anciennement n° 83-002 au catalogue). Les totalisations figurant dans ces rapports portent uniquement sur les principaux aspects de l'utilisation et des dépenses des hôpitaux.

Les utilisateurs dont les besoins se limitent au nombre d'hôpitaux en activité et au nombre de lits approuvés que ceux-ci contiennent pourraient être intéressés par la publication intitulée **Liste des hôpitaux canadiens** (anciennement n° 83-201 au catalogue). Outre qu'elle dresse la liste des noms et adresses de tous les hôpitaux canadiens, cette publication renferme des tableaux utiles établissant des rapports entre les hôpitaux et les lits, d'une part, et les chiffres de population canadienne, les propriétaires des hôpitaux ainsi que le genre et la taille de ces derniers, d'autre part. Enfin, elle contient des tableaux de séries chronologiques sur les lits et sur les lits pour 1,000 habitants.

Pour plus d'information concernant les statistiques des hôpitaux, téléphoner la section des soins de la santé à (613) 951-1650.

Coverage

The survey frame is a list of all the general and allied special hospitals in operation in Canada. This list is updated annually by the provincial hospital authorities. Since all general and allied special hospitals in the country are involved, the data presented in this report are not subject to sampling variability. There were 1,224 general and allied special hospitals in operation in Canada at the end of the fiscal year 1986-87. The 1,152 hospitals which reported data included in this report accounted for 99% of the approved bed complement of all the hospitals in operation.

Psychiatric hospitals are included in the tabulations. Formerly, statistics for those hospitals were included in **Mental Health Statistics, Volume III** (Catalogue 83-205). This publication was discontinued after the 1980-81 edition was released.

Format

The data for the five volumes have been derived from the Annual Returns of Health Care Facilities - Hospitals, Parts One and Two. Data appearing in this publication comprise only a small part of the information available in either summary or indicator form by province, type and size of hospital. In some tabular presentations, components may not add to totals due to rounding. Also, in some cases, the components were not available. The release of unpublished data is subject to the confidentiality

Champ d'observation

La base de sondage consiste dans une liste de tous les hôpitaux généraux et spéciaux divers en activité au Canada. Cette liste est mise à jour tous les ans par les administrateurs provinciaux de l'assurance-hospitalisation. Comme tous les hôpitaux généraux et spéciaux divers du pays participent à l'enquête, les données de la présente publication ont été recueillies à partir d'un échantillon qui ne varie pas. À la fin de l'année financière 1986-87, il y avait 1,224 hôpitaux généraux et spéciaux divers en activité au Canada. Les 1,152 hôpitaux qui ont déclaré les données figurant dans le présent bulletin représentaient 99% du nombre total de lits approuvés de tous les hôpitaux en activité.

Les hôpitaux psychiatriques sont incluses dans ce rapport. Antérieurement, les données de ces établissements étaient présentées dans **La statistique de l'hygiène mentale, volume III**, (n° 83-205 au catalogue). Cette publication a été discontinuée après l'édition de 1980-81.

Présentation

Les données pour les cinq volumes proviennent du Rapport annuel des établissements de santé, première partie et deuxième partie. Les données figurant dans la présente publication ne comprennent qu'une petite partie des renseignements disponibles sur les hôpitaux. Les données recueillies sont disponibles sous forme sommaire ou d'indicateurs par province, genre et taille de l'hôpital. Dans certains tableaux, par suite de l'arrondissement des chiffres, il est possible que la somme des postes ne corresponde pas

provisions of the Statistics Act and its use may therefore be restricted. Provision of data may entail a charge depending on the complexity and nature of the tabulations required.

Data Capture and Editing

The provincial plan authorities distributed the multicopy Annual Return forms and collected and returned one data set to Statistics Canada in the form of either completed questionnaires and/or computer tapes. The hospitals, the provinces and the Department of National Health and Welfare also received copies of the forms for their own purposes. Quebec sends its data on computer tape to Statistics Canada where concordance with other provincial data is established.

Although the forms had already been scrutinized at the hospital and provincial levels, further manual and computer edits and consistency checks were carried out at Statistics Canada. Problems identified by these editing procedures were resolved by comparison with prior years' forms and by liaison with provincial authorities. The Statistics Canada edit program is based on concepts and definitions determined and continuously reviewed by the appropriate provincial and federal agencies. Definitions and explanations are found in the Glossary and throughout the text, as well as on the reporting forms themselves and in the supportive manuals, Instructions and Definitions for the Annual Return of Health Care Facilities - Hospitals, Parts One and Two and the Canadian Hospital Accounting Manual and its Supplement.

au total. En outre, les chiffres n'étaient pas disponibles dans certains cas. La diffusion des données non publiées est assujettie aux dispositions de la Loi sur la statistique relatives au caractère confidentiel des renseignements, sont utilisations peut être restreint et Statistique Canada peut exiger des frais selon la complexité et la nature des totalisations demandées.

Saisie et vérification des données

Les autorités des régimes provinciaux ont distribué les formules du rapport annuel et ont recueilli et retourné un ensemble de données à Statistique Canada sous forme de questionnaires remplis et/ou de bandes d'ordinateur. Les hôpitaux, les provinces et le ministère de la Santé et du Bien-être social du Canada ont également reçu des exemplaires des formules. Québec envoie ses données sur rubans magnétiques à Statistique Canada où les concordancess sont établies avec les autres données provinciales.

Même si les hôpitaux et les provinces avaient déjà examiné les formules, Statistique Canada a procédé à d'autres vérifications manuelles et automatisées et à des contrôles de compatibilité. On a résolu les problèmes repérés au cours de ces vérifications en comparant les formules à celles des années précédentes et en restant en contact avec les autorités provinciales. Le programme de vérification de Statistique Canada est fondé sur les concepts et définitions déterminés et constamment révisés par les organismes provinciaux et fédéraux intéressés. Les définitions et explications trouvent dans la terminologie et le texte ainsi que dans les formules de déclaration et les manuels de directives, dans les Directives et définitions pour le rapport annuel des établissements de santé, première et deuxième parties et dans le Manuel de comptabilité des hôpitaux du Canada et son supplément.
