REGISTERED NURSES MANAGEMENT DATA 1986

(formaly known as REVISED REGISTERED NURSES DATA SERIES)

THIS SERIES REFERS TO THE DATA COLLECTED AFTER 1978, THE SCOPE AND NATURE OF WHICH ARE DIFFERENT FROM EARLIER NURSING STATISTICS. UNLIKE PREVIOUS DATA COLLECTED IN THE ANNUAL SURVEY OF REGISTERED NURSES WHICH INCLUDED ALL THOSE REGISTERED IN CANADA DURING AN ENTIRE YEAR, THIS SERIES DESCRIBES ONLY THOSE WHO REGISTERED IN CANADA DURING THE FIRST FOUR MONTHS OF THE REGISTRATION RENEWAL PERIOD. FURTHERMORE, IN THE INTEREST OF PROVIDING MORE TIMELY STATISTICS, THE PROCESSING TIME WAS SIGNIFICANTLY REDUCED BY IMPLEMENTING LESS RIGOROUS EDITS, AND BY USING A SIMPLIFIED METHOD FOR ELIMINATING INTER-PROVINCIAL DUPLICATES. FOR THESE REASONS, CARE MUST BE EXERCISED WHEN ATTEMPTING TO COMPARE THESE DATA WITH THOSE FROM PREVIOUS YEARS.

EDITING THE DATA

Each item of information collected was checked to ensure its validity. When an error was detected, the value of the field was changed to "not stated". This procedure is identical to the one used prior to 1979.

The editing, however, was less extensive in the identification of errors caused by valid but contradictory information found in two or more data fields. One reason for this was the decrease in the number of items collected, thereby reducing the number of possible comparisons. Another was the removal of the procedure which replaced "not stated" values, found on the file after the execution of the edits, with imputed values. A special set of comparisons were needed to facilitate the functioning of the imputation procedure.

A number of comparisons are made on the data collected after 1978 which do eliminate obvious errors.

For example:

- (1) year of Graduation is compared to Year of Birth to eliminate those occurrences of nurses graduating at unreasonably young or old ages; or
- (2) position is compared to Place of Employment to remove impossible combinations such as a director working in a physician's office.

REMOVAL OF INTER-PROVINCIAL DUPLICATES

Information collected in the Survey of Registered Nurses is obtained through the registration process in each of the ten provinces and the Northwest Territories. Because nurses can register in more than one province/territory, it becomes necessary to remove these inter-provincial duplicates to provide a more accurate picture of the actual number of nurses registered in Canada.

Before 1979, the problem was solved by using a very thorough but lengthy linking process which identified all registrations belonging to the same nurse, and which selected one of them as the main record to be used in the calculation of national tabulations. To expedite this activity, certain changes were implemented beginning with the 1979 data. The first of these was the reduction of the information collection period from the 12-month registration year to the first four months of each province's registration year. Although such a process does not cause significant loss of registrations, as most registrations do occur in the initial months of the year, it does reduce the number of duplicate registrations arising from the height of inter-provincial migration occurring during the summer.

Nevertheless, duplicate registrations resulting from nurses habitually maintaining registration in more than one province/territory do remain; and the bulk of these were removed by accepting as main records only those registrations which met the following conditions:

- (1) for nurses employed in nursing, accept the record whose Province of Employment was identical to its Province of Registration; or
- (2) for nurses not employed in nursing, or whose Activity Status was not stated on the registration form, accept the record whose Province of Residence was identical to its Province of Registration.

NOTE: PROVINCE OF REGISTRATION IN THE TABULATIONS IS ALSO THE PROVINCE OF EMPLOYMENT/RESIDENCE.

Such a method for eliminating inter-provincial duplicates does introduce certain errors.

- (1) A nurse lives and registers in one province at the beginning of the year and, one to three months later, moves to and registers in another province; this obvious duplicate will not be detected.
- (2) A nurse, not working in nursing, is registered in a province other than his/her province of residence; this registration will be identified erroneously as a duplicate.
- (3) A nurse working for the Department of National Defence or for Health and Welfare Canada is employed in a province other than his/her province of registration; this registration will be erroneously flagged as a duplicate. These two federal departments only require that their nursing employees be currently registered in Canada, although not necessarily in their province of employment. This will have significant effects on the distribution for the Northwest Territories and only minimal regional effects elsewhere.
- (4) Because there is no licensing authority in the Yukon, all registered nurses working or living in that territory will have their registrations erroneously identified as duplicates. (Special tabulations for the Yukon and Northwest Territories can be prepared upon request).

GLOSSARY

Province of Registration: In these tabulations, this refers to the province or territory in which a nurse is registered AND employed/living. (see Removal of Inter-provincial Duplicates)

Highest Level of Education in Nursing: This refers to the highest among the selections made in the fields describing "Basic Nursing Education" and "Post-basic Education in Nursing".

MARITAL STATUS - Not available in Quebec and Prince Edward Island

FULL-TIME PART-TIME STATUS - Prior to 1984, respondents who indicated working 35 hours or more per week were described as Full-time; whereas those working less than 35 hours were shown as Part-time. Beginning in 1984, respondents who checked the box indicating Full-time are considered Full-time and those who checked Part-time are considered Part-time, regardless of how many hours they indicated they worked.

TABLE OF CONTENTS

Table

- 1 Registered Nurses by Activity Status, Marital Status, Age Group and Province of Registration.
- 2 Registered Nurses by Activity Status, Sex, Highest Level of Education in Nursing and Province of Registration.
- 3 Registered Nurses by Activity Status, Location of Graduation and Province of Registration.
- 4 Registered Nurses, Employed in Nursing, by Age Group, Highest Level of Education in Nursing and Province of Registration.
- 5 Registered Nurses, Employed in Nursing, by Place of Employment, Age Group and Province of Registration.
- 6 Registered Nurses, Employed in Nursing, by Place of Employment, Sex, Marital Status and Province of Registration.
- 7 Registered Nurses, Employed in Nursing, by Position, Place of Employment, Highest Level of Education in Nursing and Province of Registration.
- 8 Registered Nurses, Employed in Nursing, by Position, Place of Employment, Full-time - Part-time and Province of Registration.
- 9 Registered Nurses, Employed in Nursing, by Position, Marital Status, Sex and Province of Registration.
- 10 Registered Nurses, Employed in Nursing, by Position, Age Group and Province of Registration.
- 11 Registered Nurses, Employed in Nursing, by Marital Status, Sex, Hours Worked per Week and Province of Registration.
- 12 Registered Nurses, Not Employed, by Age Group, Highest Level of Education in Nursing and Province of Registration.
- 13 Registered Nurses, Employed in Nursing by Primary Area of Responsibility and Province of Registration.
