REGISTRATIONS OF BIRTHS, DEATHS AND MARRIAGES, NOVEMBER, 1930.

The Dominion Bureau of Statistics issues to-day the number of registrations of births, deaths and marriages during the month of November, 1930 in cities with a population of 10,000 at the last Census. Stillbirths are registered both as births and deaths.

As compared with October, births registered in November showed a decrease of 11 per cent. In the Maritime Provinces the decline was  $10\frac{1}{2}$  per cent, in Quebec 4 per cent, in Ontario 16 per cent, in the Prairie Provinces  $12\frac{1}{2}$  per cent and in British Columbia  $10\frac{1}{2}$  per cent.

Deaths registered in these cities in November numbered 9 per cent less than in the preceding month. In the Maritime Provinces there was an increase of 8 per cent, but Quebec showed a reduction of 5 per cent, Ontario of  $11\frac{1}{2}$  per cent, the Prairie Provinces of 14 per cent and British Columbia of  $15\frac{1}{2}$  per cent.

The number of marriages registered in November was less by 19 per cent than in October. In the Prairie Provinces there was a slight increase, amounting to only 1 per cent, but the other sections of the country registered declines, amounting to  $9\frac{1}{2}$  per cent in the Maritime Provinces,  $35\frac{1}{2}$  per cent in Quebec,  $21\frac{1}{2}$  per cent in Ontario and 27 per cent in British Columbia.

1. The purpose of this study is to determine the effect of the new tax system on the distribution of income in Canada. The study is based on the 1980 Survey of Consumer Expenditures and the 1980 Survey of Income and Taxation. The results show that the new tax system has had a significant effect on the distribution of income, with the highest income households receiving the largest benefits. The study also shows that the new tax system has had a significant effect on the distribution of income, with the highest income households receiving the largest benefits.
