PRELIMINARY CRIME AND TRAFFIC ENFORCEMENT STATISTICS, FIRST QUARTER 1975, CANADA, THE PROVINCES AND TERRITORIES

The attached tables show preliminary figures for the number of actual offences and offence rates for Canada, the provinces and territories, for the first quarter of 1975. Comparable figures for the first quarter of 1974 are presented to allow for the analysis of trends.

Crime and Traffic Enforcement Statistics are compiled from offence data reported monthly by the police under the Uniform Crime Reporting Program. These data are subject to revision.

It is important to note that the extent to which these statistics reflect the crime situation in Canada depends upon a large number of underlying factors. These include the tendency of the public to report crimes, density and composition of the population, policies and reporting procedures of contributing police forces, and internal or external pressures to reduce crime.

Any questions concerning these preliminary statistics should be sent to:

STATISTIQUES PROVISOIRES SUR LA CRIMINALITÉ ET L'APPLICATION DES RÈGLEMENTS DE LA CIRCULATION, PREMIER TRIMESTRE DE 1975, CANADA, PROVINCES ET TERRITOIRES

Les tableaux ci-joints présentent pour le premier trimestre de 1975 des données préliminaires sur le nombre de délits réels et les taux délictuels au Canada et dans les provinces et les territoires. La présentation de chiffres comparables pour le premier trimestre de 1974 permettra de dégager des tendances.

Les statistiques sur la criminalité et l'application des règlements de la circulation sont établies à l'aide des données sur les délits communiquées tous les mois par la police dans le cadre du programme de déclaration uniforme de la criminalité. Ces données sont susceptibles d'être rectifiées.

Il importe de noter que la mesure dans laquelle ces statistiques rendent compte de la criminalité au Canada dépend d'un grand nombre de facteurs sous-jacents, dont la tendance du public à signaler les actes criminels, la densité et la composition de la population, la politique et les méthodes de déclaration des sûretés participantes, les pressions intérieures ou extérieures en vue de la réduction de la criminalité.

Toute question au sujet de ces statistiques provisoires devra être adressée à:

Rates appearing in the attached tables are based on 100,000 of the estimated total population derived from Census figures for June 1, 1973 and June 1, 1974.

A. Crime

In January 1974, police began reporting crime in greater detail. Eighteen major classifications with 72 sub-classifications by type of offence were introduced. This breakdown replaced that of 26 offence classifications reported since 1962. The expansion in crime coverage was achieved in co-operation with the Canadian Association of Chiefs of Police Committee on Uniform Crime Reporting.

The national rate for total Criminal Code offences in the first quarter of 1975 increased 7.6% over the corresponding period of 1974. Three provinces, Prince Edward Island, Nova Scotia, and Saskatchewan, showed increases of more than 20%. The rate dropped slightly in both New Brunswick and Quebec.

Nationally, the rate for crimes of violence (which include homicide, sexual offences, assaults (not indecent) and robbery) increased by 4.5%. This resulted primarily from a 37.7% rise in the rate of robbery offences.

Property crime (which includes breaking and entering, theft of motor vehicles, all other thefts, having stolen goods, and frauds) rose in Canada by 7.5%. An increase was recorded in all provinces; except for Newfoundland and Quebec, where the rate dropped 2.3% and 6.3% respectively.

The rate for all other Criminal Code offences (which include prostitution, gaming and betting, offensive weapons, and all other crimes under the Criminal Code except those relating to traffic enforcement) increased in most of the country. The national rate rose by 8.7%; the largest increase, 37.5%, was recorded in Nova Scotia.

The national rate for Federal Statute drug offences decreased by 5.2% from the first quarter of 1974 to the first quarter of 1975. The rate for other Federal Statute offences rose by 2.2% during this period. Provincial Statute and Municipal By-Law offences both declined in rate, by 1.2% and 20.1% respectively.

Les taux figurant dans les tableaux sont fondés sur une tranche de 100,000 habitants de l'estimation de la population totale d'après les chiffres du recensement pour le 1er juin 1973 et le 1er juin 1974.

A. Criminalité

En janvier 1974, la police a commencé à déclarer la criminalité plus en détail. On a adopté 18 grandes catégories ainsi que 72 sous-catégories selon le genre de délit. Cette répartition a remplacé le schéma de classification employé depuis 1962 aux fins de la déclaration et qui comportait 26 catégories de délits. Cette extension de l'observation statistique de la criminalité a été réalisée avec la collaboration du Comité de la déclaration uniforme de la criminalité de l'Association canadienne des chefs de police.

Au premier trimestre de 1975, le taux national pour l'ensemble des infractions au Code criminel a augmenté de 7.6 % par rapport à celui de la période correspondante de 1974. Trois provinces, à savoir l'Île-du-Prince-Édouard, la Nouvelle-Écosse et la Saskatchewan, ont fait paraître une augmentation de plus de 20 %. Le taux a fléchi légèrement tant au Nouveau-Brunswick qu'au Québec.

À l'échelle nationale, le taux relatif aux crimes de violence, qui comprennent l'homicide, les délits d'ordre sexuel, les voies de fait (sans les attentats à la pudeur) et le vol qualifié, a augmenté de 4.5 %, surtout en raison d'une hausse de 37.7 % du taux relatif au vol qualifié.

Les crimes contre la propriété, à savoir l'introduction par effraction, le vol de véhicules automobiles, tous les autres vols, la possession de biens volés et les fraudes, ont présenté pour l'ensemble du Canada un taux d'accroissement de 7.5 %. Toutes les provinces ont fait ressortir une augmentation, sauf Terre-Neuve et le Québec, le taux y fléchissant respectivement de 2.3 % et de 6.3 %.

Le taux relatif à toutes les autres infractions au Code criminel (prostitution, jeu et paris, armes offensives, toutes autres infractions au Code criminel sauf celles relatives aux règlements de la circulation) a augmenté dans la majeure partie du pays. Le taux national a progressé de 8.7 %; l'augmentation la plus importante, soit 37.5 %, a été observée en Nouvelle-Écosse.

Dans le cas des infractions aux lois fédérales en matière de drogue, le taux national a diminué de 5.2 % entre le premier trimestre de 1974 et le premier trimestre de 1975. Le taux relatif aux autres infractions aux lois fédérales a augmenté de 2.2 % pendant cette période. Les taux relatifs aux infractions aux lois provinciales et aux règlements municipaux ont tous deux marqué un recul, fléchissant respectivement de 1.2 % et de 20.1 %.

B. Traffic Enforcement

Of the eight Criminal Code traffic offences, the most significant change in rate was reported for criminal negligence, causing bodily harm. The national rate increased by 87.5% in the first quarter of 1975 over the same period of 1974.

Total charges for Federal and Provincial Statutes and for Municipal By-Law offences decreased in rate, by 15.3%, 5.3%, and 7.8% respectively.

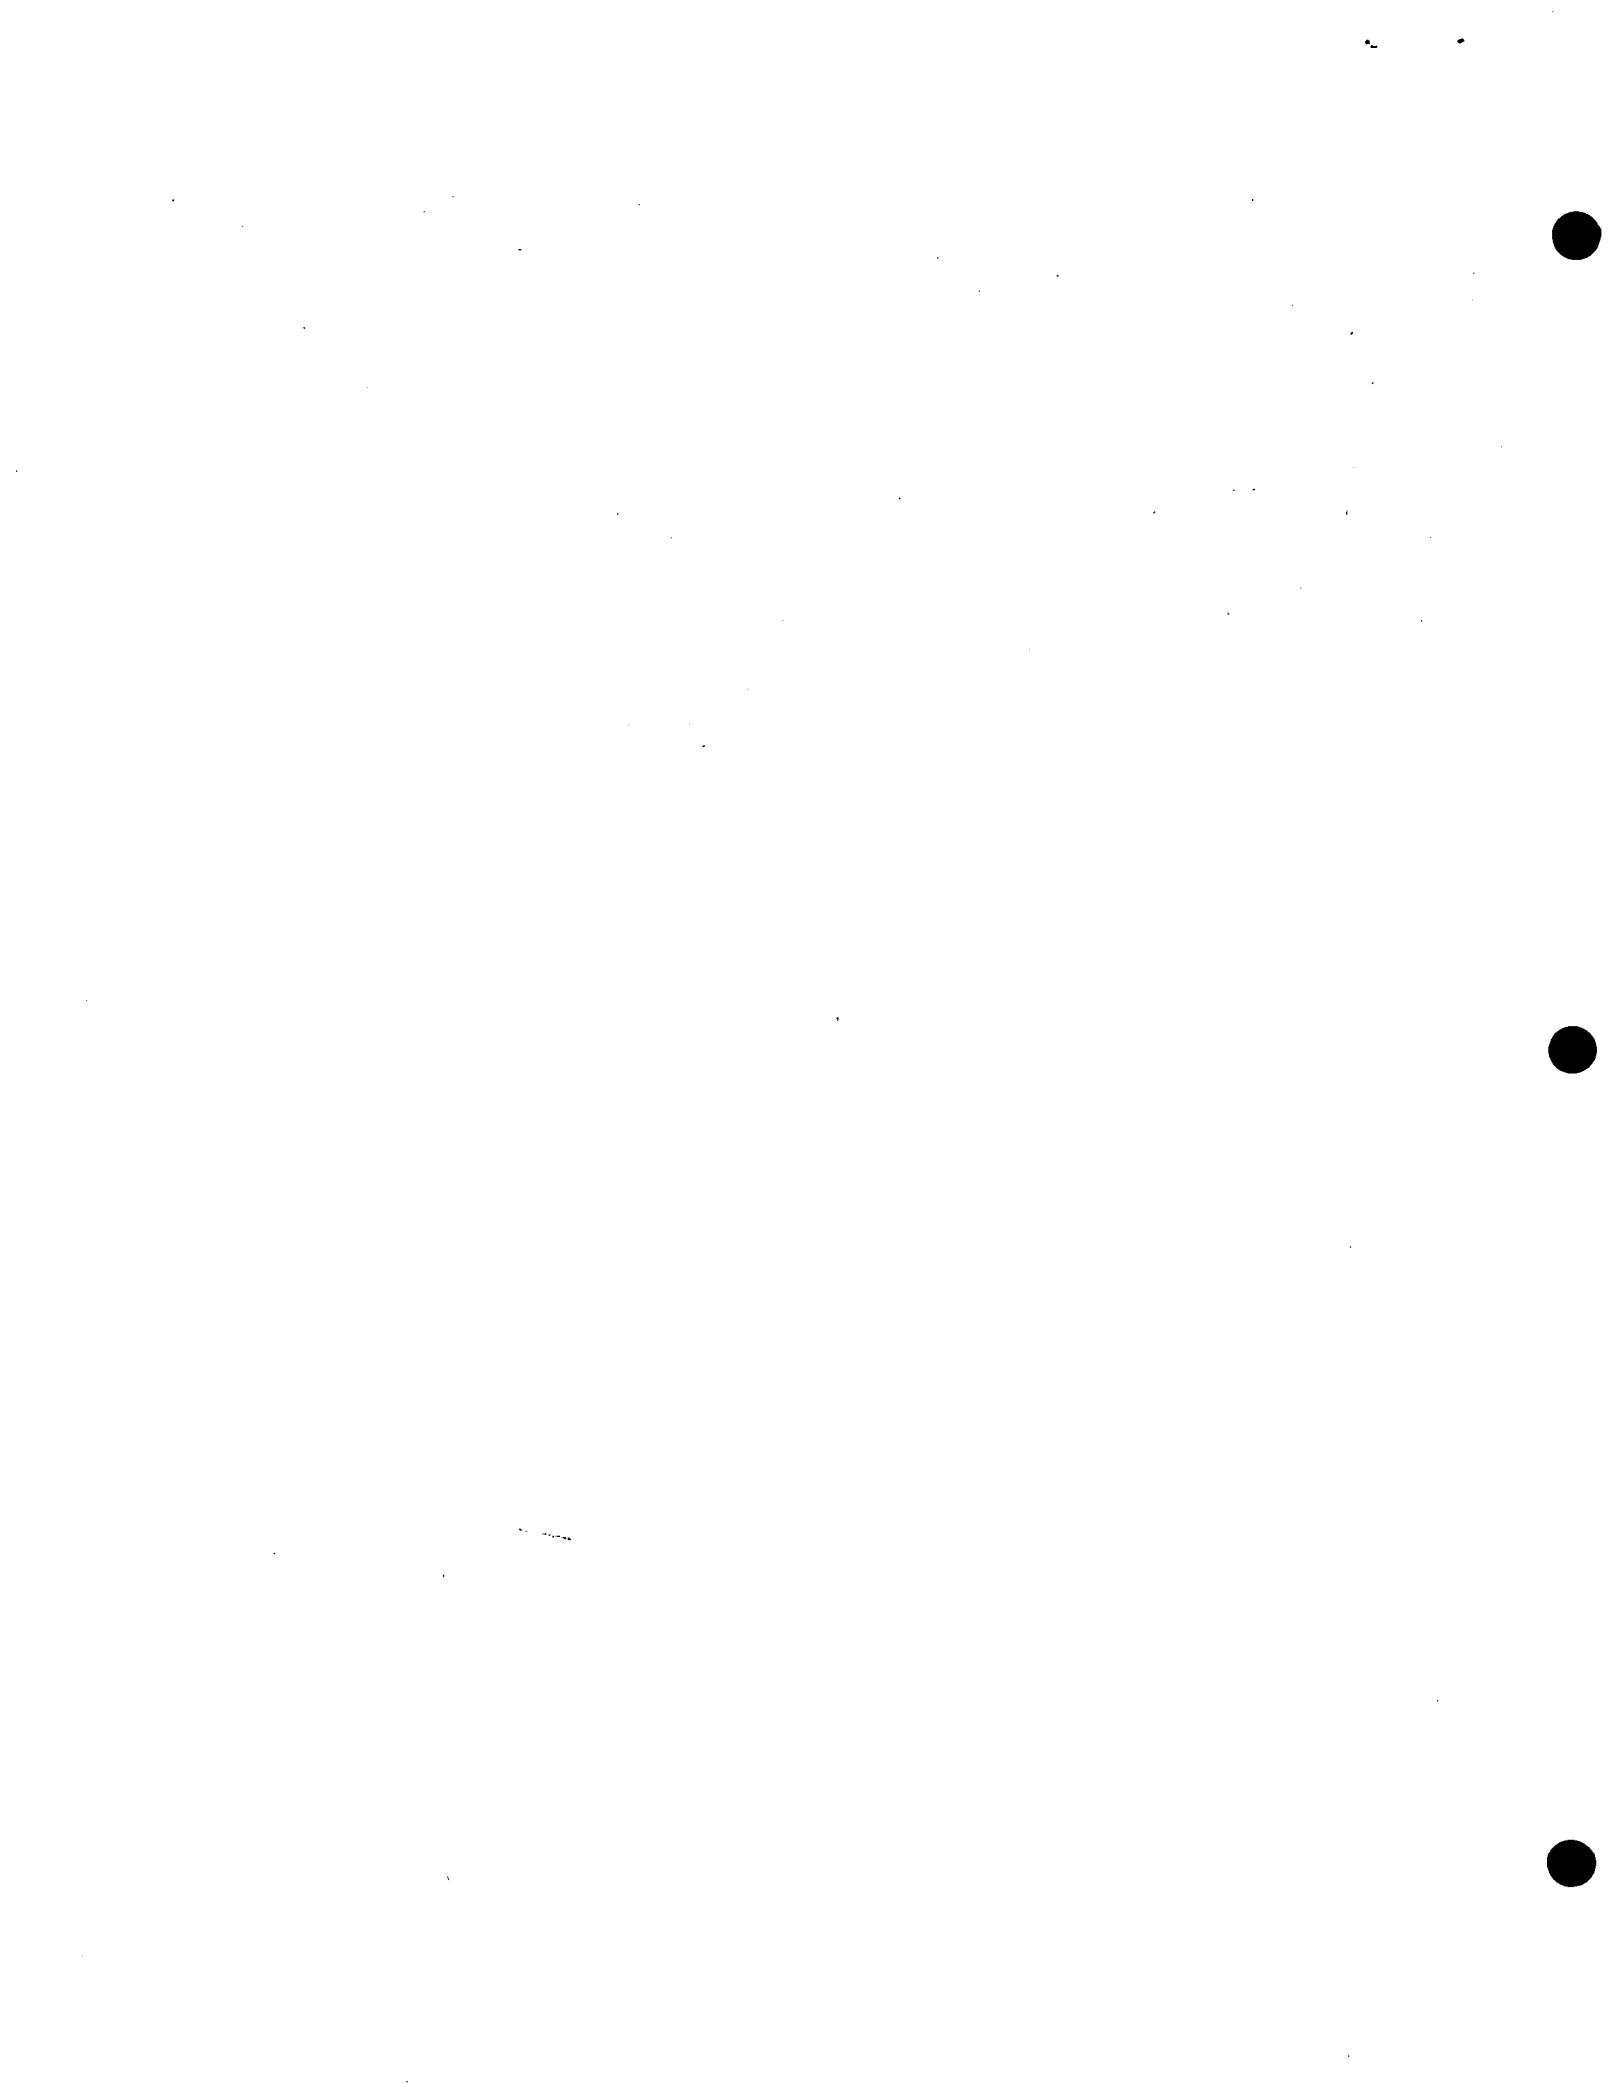

Decreases were reported, nationally, for all traffic accident statistics. The rate dropped by 8.4% for traffic accidents, 18.9% for persons killed, and 15.1% for persons injured.

B. Application des règlements de la circulation

Des huit infractions au Code criminel en matière de circulation, c'est la négligence criminelle causant des lésions corporelles qui a vu son taux présenter la variation la plus importante. Le taux national a progressé de 87.5 % au premier trimestre de 1975 en regard de la période correspondante de 1974.

Le taux global d'inculpation à l'égard des lois fédérales, des lois provinciales et des règlements municipaux a fléchi respectivement de 15.3 %, de 5.3 % et de 7.8 %.

À l'échelle nationale, il y a eu baisse pour l'ensemble des éléments d'observation dans le cas des accidents de la circulation. Le taux a diminué de 8.4 % pour ce qui est des accidents de la circulation comme tels, de 18.9 % dans le cas des personnes tuées et de 15.1 % dans celui des personnes blessées.
