# POLICE STATISTICS

## STATISTIQUE DE LA POLICE

1954

The report of Police Statistics for the year 1954 attempts to give a survey of activities of municipal forces in incorporated urban centres of 4,000 population or more, and of provincial, federal and railway police, in districts under their jurisdiction.

Most urban centres are policed by municipal forces, although, in some places, the Royal Canadian Mounted Police provide this service under contract. This force also supplies provincial service, under contract, for Newfoundland, Prince Edward Island, Nova Scotia, New Brunswick, Manitoba, Saskatchewan, Alberta and British Columbia.

Agreements with the Ontario Provincial Police for municipal service are in force in certain Ontario centres. The Ontario Provincial Police also patrol rural areas and unorganized parts of the province outside these centres.

Although this report gives a general picture of police activities in Canada, there are gaps which are not covered. These gaps are:

- (a) incorporated urban centres of less than 4,000 population which have their own forces and are not covered either by the Royal Canadian Mounted Police or by the Ontario Provincial Police.
- (b) territory in the province of Quebec outside the centres of 4,000 population and over, covered by the Provincial Police of that Province.

Part I gives the reports of municipal, Ontario Provincial and Royal Canadian Mounted Police, in centres of 4,000 population and over for the calendar year 1954. It includes data reported by 244 urban centres (245), (figures in brackets are for 1953) 15 district municipalities (16), 15 townships (16), and one unorganized district.

Part II shows the work of the Royal Canadian Mounted, Ontario Provincial and Railway Police. It covers the activities of the Royal Canadian Mounted Police at the Federal, Provincial and Municipal levels in all areas of Canada where they serve. It includes the work of the Ontario Provincial Police in the districts indicated in the

Le rapport statistique sur la police pour l'année 1954 vise à donner un aperçu de l'activité de la police municipale dans les centres urbains de 4,000 habitants et plus, ainsi que de la police provinciale, de la police fédérale et de la police des chemins de fer dans les secteurs confiés à leur surveillance.

La plupart des centres urbains ont leur propre service municipal de police; cependant, en vertu d'entente, en certains endroits ce service est confié à la Gendarmerie royale du Canada. Par suite d'entente aussi, la Gendarmerie royale assure la surveillance à Terre-Neuve, dans l'Île-du-Prince-Édouard, en Nouvelle-Écosse, au Nouveau-Brunswick, au Manitoba, en Saskatchewan, en Alberta et en Colombie-Britannique.

Des accords avec la police provinciale de l'Ontario assurent un service municipal de sûreté dans certains centres ontariens. La police provinciale de l'Ontario surveille aussi les régions rurales et les régions non constituées de la province en dehors de ces centres.

Bien que le rapport donne un tableau d'ensemble de l'activité policière au Canada, il comporte certaines lacunes. Ce sont:

- a) centres urbains constitués, de moins de 4,000 habitants, qui ont leur propre sûreté et qui ne sont pas sous la surveillance ni de la Gendarmerie royale du Canada ni de la police provinciale de l'Ontario.
- b) territoire de la province de Québec en dehors des centres de 4,000 habitants et plus et dont la surveillance est confiée à la sûreté provinciale de cette province.

La partie 1 porte sur la police municipale, la police provinciale de l'Ontario et la Gendarmerie royale du Canada dans les centres de 4,000 habitants et plus, année civile 1954. Elle comprend des chiffres déclarés par 244 centres urbains (245)—(chiffres de 1953 entre parenthèses)—15 municipalités de district (16), 15 cantons (townships) (16), et un district non constitué.

La partie 2 souligne le travail de la Gendarmerie royale du Canada, de la police provinciale de l'Ontario et de la police des chemins de fer. Elle porte sur l'activité de la Gendarmerie royale du Canada aux niveaux fédéral, provincial et municipal dans toutes les régions du pays sous sa protection. Elle comprend le travail de la police provinciale de l'Ontario dans

tables. The tables also give data on the activities of the Railway Police in their areas of jurisdiction. The R.C.M.P. data shown in these tables are compiled in accordance with the R.C.M.P. statistical system, which differs from the system used to compile all other data in the report. The differences are pointed out in the footnotes to appropriate tables.

"Offences known to the police", in this report, include offences and attempted offences which become known to a police force, on being reported by any person, including a police officer. Complaints about offences, or attempts, which upon investigation prove to be groundless are not included. Offences known to the police provide the basic data for estimating the prevailing volume and trends of criminality. In attempting any estimate, the gaps in reporting noted above must be borne in mind.

The population figures in this report are taken from the 1951 Census.

**Ratio of Police per 1,000 Population in Urban Centres of 4,000 Population and over.**

Province	Ratio of Police per 1,000 Population
Newfoundland .....	2.0
Quebec.....	1.7
Ontario.....	1.5
Alberta.....	1.5
Manitoba .....	1.5
New Brunswick.....	1.5
British Columbia .....	1.4
Saskatchewan.....	1.3
Nova Scotia.....	1.1
Prince Edward Island .....	1.1
Canada .....	1.5

les districts indiqués aux tableaux. Les tableaux donnent aussi les chiffres sur l'activité de la police des chemins de fer dans les endroits commis à sa surveillance. Les chiffres sur la Gendarmerie royale qui paraissent aux présents tableaux sont calculés en conformité du mode statistique de calcul de la Gendarmerie, mode qui diffère de celui qui a servi au calcul de tous les autres chiffres du rapport. Les différences sont indiquées aux tableaux appropriés.

Dans le présent rapport, les "Délits connus de la police" comprennent les délits et tentatives de délits portés à la connaissance de la police par l'intermédiaire de toute personne, y compris un agent de police. Il n'est pas tenu compte des plaintes relatives aux délits ou tentatives de délits lorsque, après enquête, elles se sont révélées sans fondement. Les délits connus de la police fournissent les données de base pour l'estimation des tendances et du volume courants de la criminalité. Pour établir toute estimation cependant, il faut se rappeler les lacunes mentionnées ci-haut.

Les chiffres de la population qui figurent au présent rapport sont ceux du recensement de 1951.

**Proportion d'agents de police pour 1,000 personnes dans les centres urbains de 4,000 habitants et plus.**
