¹Excluding traffic offences.²Rates are calculated on the basis of 100,000 population using population data supplied by provincial governments and have been rounded to remove the decimal.³For British Columbia municipal police forces, Camrose and Lacombe, Alberta, Moncton and Dieppe, New Brunswick and St. John's, Newfoundland, crimes occurring within the jurisdiction of a municipal police force but handled by the RCMP have been attributed to the municipality in question.⁴Non-Respondents in 1991 = Baie St. Paul, Québec and Chapais, Québec.⁵Non-Respondents in 1991 = Baie-James, Québec, Matagami, Québec, Mistassini, Québec, Murdochville, Québec, Terrasse-Vaudreuil, Québec, Waswanipi, Québec and Hastings, Ontario.

Notes:

The reader is cautioned that there are problems in attempting to make comparisons between urban crime rates using the data in this table. The problem is that all municipal police forces do not have jurisdiction over comparable urban environments; for example, the Vancouver Police Department has responsibility for policing only the highly developed downtown part of the urban area while the surrounding suburban areas are policed by other municipal police forces. This is in contrast with the situation in Winnipeg in which the jurisdictional boundary of the police department coincides closely with the urbanized area. This means that the crime statistics from these two police departments cannot be directly compared because they police different environments. As a solution to this problem, the Policing Services Program staff are currently working to organize crime statistics according to Census Metropolitan Areas, thus making the data much more comparable.

¹Sans les infractions au code de la route.

²Les taux sont calculés pour 100,000 habitants à l'aide des données démographiques fournies par les administrations provinciales et ont été arrondis pour supprimer la décimale.

³En ce qui concerne les corps policiers municipaux de la Colombie-Britannique, Camrose et Lacombe, Alberta, Moncton et Dieppe, Nouveau-Brunswick et de St. John's, Terre-Neuve, les crimes relevant de la compétence d'un corps policier municipal mais traités par la GRC ont été attribués à la municipalité en question.

⁴Non-Repondant en 1991 = Baie St. Paul, Québec et Chapais, Québec.

⁵Non-Repondant en 1991 = Baie-James, Québec, Matagami, Québec, Mistassini, Québec, Murdochville, Québec, Terrasse-Vaudreuil, Québec, Waswanipi, Québec et Hastings, Ontario.

Notes:

Le lecteur est prié de noter que l'établissement de comparaisons entre les taux de criminalité urbaine à partir des données présentées dans cette publication pose certaines difficultés. Le problème vient du fait que les services de police municipaux n'exercent pas tous leur compétence dans des milieux urbains comparables. Par exemple, le corps policier de Vancouver assure le maintien de l'ordre uniquement dans la partie la plus développée du centre-ville, tandis que les banlieues environnantes relèvent d'autres corps policiers municipaux. Par ailleurs, à Winnipeg, les limites des territoires desservis par le service de police correspondent étroitement à la région urbanisée. Ainsi, on ne peut faire une comparaison directe entre les statistiques de la criminalité de ces deux corps policiers car ils assurent des services de police dans des milieux différents. Pour résoudre ce problème, le personnel du Programme des services policiers s'emploie actuellement à organiser les statistiques de la criminalité selon les régions métropolitaines de recensement, ce qui augmentera la comparabilité des données.
