Voir les notes a la fin du tableau.

- <sup>1</sup>Sauf les affaires reliées à la circulation. Les données ne comprennent pas les affaires concernant la GRC dans le secteur de compétence, à part les exception suivantes: St. John's, Labrador City, Corner Brook et Churchill Falls, T-N; Bathurst, Dieppe, Moncton et Sussex, N-B; Camrose et Lacombe, Alta; et tous les corps policiers municipaux de C.-B.
- <sup>2</sup>Les taux sont calculés pour 100,000 habitants. Les estimations des populations sont fournies par le projet "QuickStat" du CCSJ, sauf pour celles de la Colombie-Britannique qui sont obtenues du gouvernement provincial.
- <sup>3</sup>Depuis 1992, les données concernant les affaires relatives aux règlements municipaux ne sont pas disponibles. Par conséquent, on doit exclure ces données lorsqu'on établit des comparaisons entre les données des années antérieures et celles de 1992 et des années suivantes.
- <sup>4</sup>En 1992, la police de la région métropolitaine de Toronto a adopté le programme "révisé" de la déclaration uniforme de la criminalité (DUC). Auparavant, elle déclarait ses données sur la DUC en utilisant la règle des infractions multiples. Par conséquent, on doit faire preuve de prudence lorsque l'on compare les données courantes à celles de 1991 ou des années antérieures pour Toronto, l'Ontario et le Canada. Pour 1993, les affaires relatives aux lois provinciales pour Toronto sont des estimations.
- <sup>5</sup>Les affaires relatives aux lois provinciales sont des estimations à York.
- <sup>6</sup>Les affaires relatives aux lois provinciales sont sous-dénombrées à Fredericton, St. Stephen-Milltown et Windsor.
- <sup>7</sup>Tous les comptes sont des estimations à Joliette.
- <sup>8</sup>Non-répondants au niveau du groupe de taille 7 : Standoff, Alberta.
- <sup>9</sup>Non-répondants au niveau du groupe de taille 8 : Gleichen, Alberta.
- <sup>10</sup>Non-répondants au niveau du groupe de taille 9 : Baie St-Paul, Mistassini, Chisasibi, Waswanipi et Wemindji, Quebec.

Notes:

Le lecteur est prié de noter que l'établissement de comparaisons entre les taux de criminalité urbaine à partir des données présentées dans cette publication pose certaines difficultés. Le problème vient du fait que les services de police municipaux n'exercent pas tous leur compétence dans des milieux urbains comparables. Par exemple, le corps policier de Vancouver assure le maintien de l'ordre uniquement dans la partie la plus développée du centre-ville, tandis que les banlieues environnantes relèvent d'autres corps policiers municipaux. Par ailleurs, à Winnipeg, les limites des territoires desservis par le service de police correspondent étroitement à la région urbanisée. Ainsi, on ne peut faire une comparaison directe entre les statistiques de la criminalité de ces deux corps policiers car ils assurent des services de police dans des milieux différents. Pour résoudre ce problème, le personnel du Programme des services policier emploie actuellement à organiser les statistiques de la criminalité selon les régions métropolitaines de recensement, ce qui augmentera la comparabilité des données.

<sup>1</sup>Excludes traffic incidents. Also excludes all RCMP cases in the municipal force area, with the following exceptions: St. John's, Labrador City, Corner Brook and Churchill Falls, Nfld; Bathurst, Dieppe, Moncton and Sussex, N.B.; Camrose and Lacombe, Alta; and all B.C. municipal police forces.

<sup>2</sup>Rates are calculated on the basis of 100,000 population. The population estimates are supplied by the CCJS project "QuickStat", with the exception of the B.C. populations which were obtained from the provincial government.

<sup>3</sup>As of 1992, data on municipal by-law offences are not available. When comparing previous years to 1992 or later, municipal by-law data must be excluded.

<sup>4</sup>In 1992, Metropolitan Toronto Police converted to the "revised" Uniform Crime Reporting (UCR) Survey.

Metropolitan Toronto Police had historically reported their crime data to the UCR Survey according to a multiple offence scoring rule. Therefore, caution should be used when comparing current data to 1991 data or earlier years for Toronto, Ontario and Canada. In 1993, Toronto's provincial statute incidents are estimated.

<sup>5</sup>Provincial Statute incidents are estimated in York.

<sup>6</sup>Provincial Statute incidents are undercounted in Fredericton, St. Stephen-Milltown and Windsor.

<sup>7</sup>All counts are estimates in Joliette.

<sup>8</sup>Non-respondents in Group Size 7 : Standoff, Alberta.

<sup>9</sup>Non-respondents in Group Size 8 : Gleichen, Alberta.

<sup>10</sup>Non-respondents in Group Size 9 : Baie St. Paul, Mistassini, Chisasibi, Waswanipi and Wemindji, Québec.

#### Notes:

The reader is cautioned that there are problems in attempting to make comparisons between urban crime rates using the data in this table. The problem is that all municipal police forces do not have jurisdiction over comparable urban environments; for example, the Vancouver Police Department has responsibility for policing only the highly developed downtown part of the urban area while the surrounding suburban areas are policed by other municipal police forces. This is in contrast with the situation in Winnipeg in which the jurisdictional boundary of the police department coincides closely with the urbanized area. This means that the crime statistics from these two police departments cannot be directly compared because they police different environments. As a solution to this problem, the Policing Services Program staff are currently working to organize crime statistics according to Census Metropolitan Areas, thus making the data much more comparable.
