Memorandum

RE PAS RÉTÉ

Estimated Population of Canada by provinces at June 1, 1955.

The estimated population of Canada at June 1, 1955, was 15,601,000. This figure results from a population accounting which starts with the 1951 Census, adds births and immigration, and deducts deaths and an estimate of emigration for the subsequent years.

The 1955 estimate is distributed by provinces as follows:

|                             |            |
|-----------------------------|------------|
| Canada .....                | 15,601,000 |
| Newfoundland .....          | 412,000    |
| Prince Edward Island .....  | 108,000    |
| Nova Scotia .....           | 683,000    |
| New Brunswick .....         | 558,000    |
| Quebec .....                | 4,520,000  |
| Ontario .....               | 5,183,000  |
| Manitoba .....              | 849,000    |
| Saskatchewan .....          | 889,000    |
| Alberta .....               | 1,066,000  |
| British Columbia .....      | 1,305,000  |
| Yukon .....                 | 10,000     |
| Northwest Territories ..... | 18,000     |

For each province the same general method is used as for Canada, but the figures on migration are less complete. The principal data are Labour Force Survey indications of net interprovincial movement.

The historical record by provinces is shown on the reverse of this sheet.

A Census of Canada will be taken in 1956. All figures presented here for the years 1952-1955 will be subject to revision until the data from the 1956 Census become available.

2001-501  
29-7-55

Population estimative du Canada par province le 1er juin 1955.

La population estimative du Canada le 1er juin 1955 est de 15,601,000. Ce chiffre est obtenu au moyen d'une comptabilité démographique commencée avec le recensement de 1951 et où les naissances et l'immigration sont ajoutées à la population et les décès et l'emigration estimative pour les années subsequentes en sont déduits.

La population estimative de 1955 se répartit entre les provinces de la façon suivante:

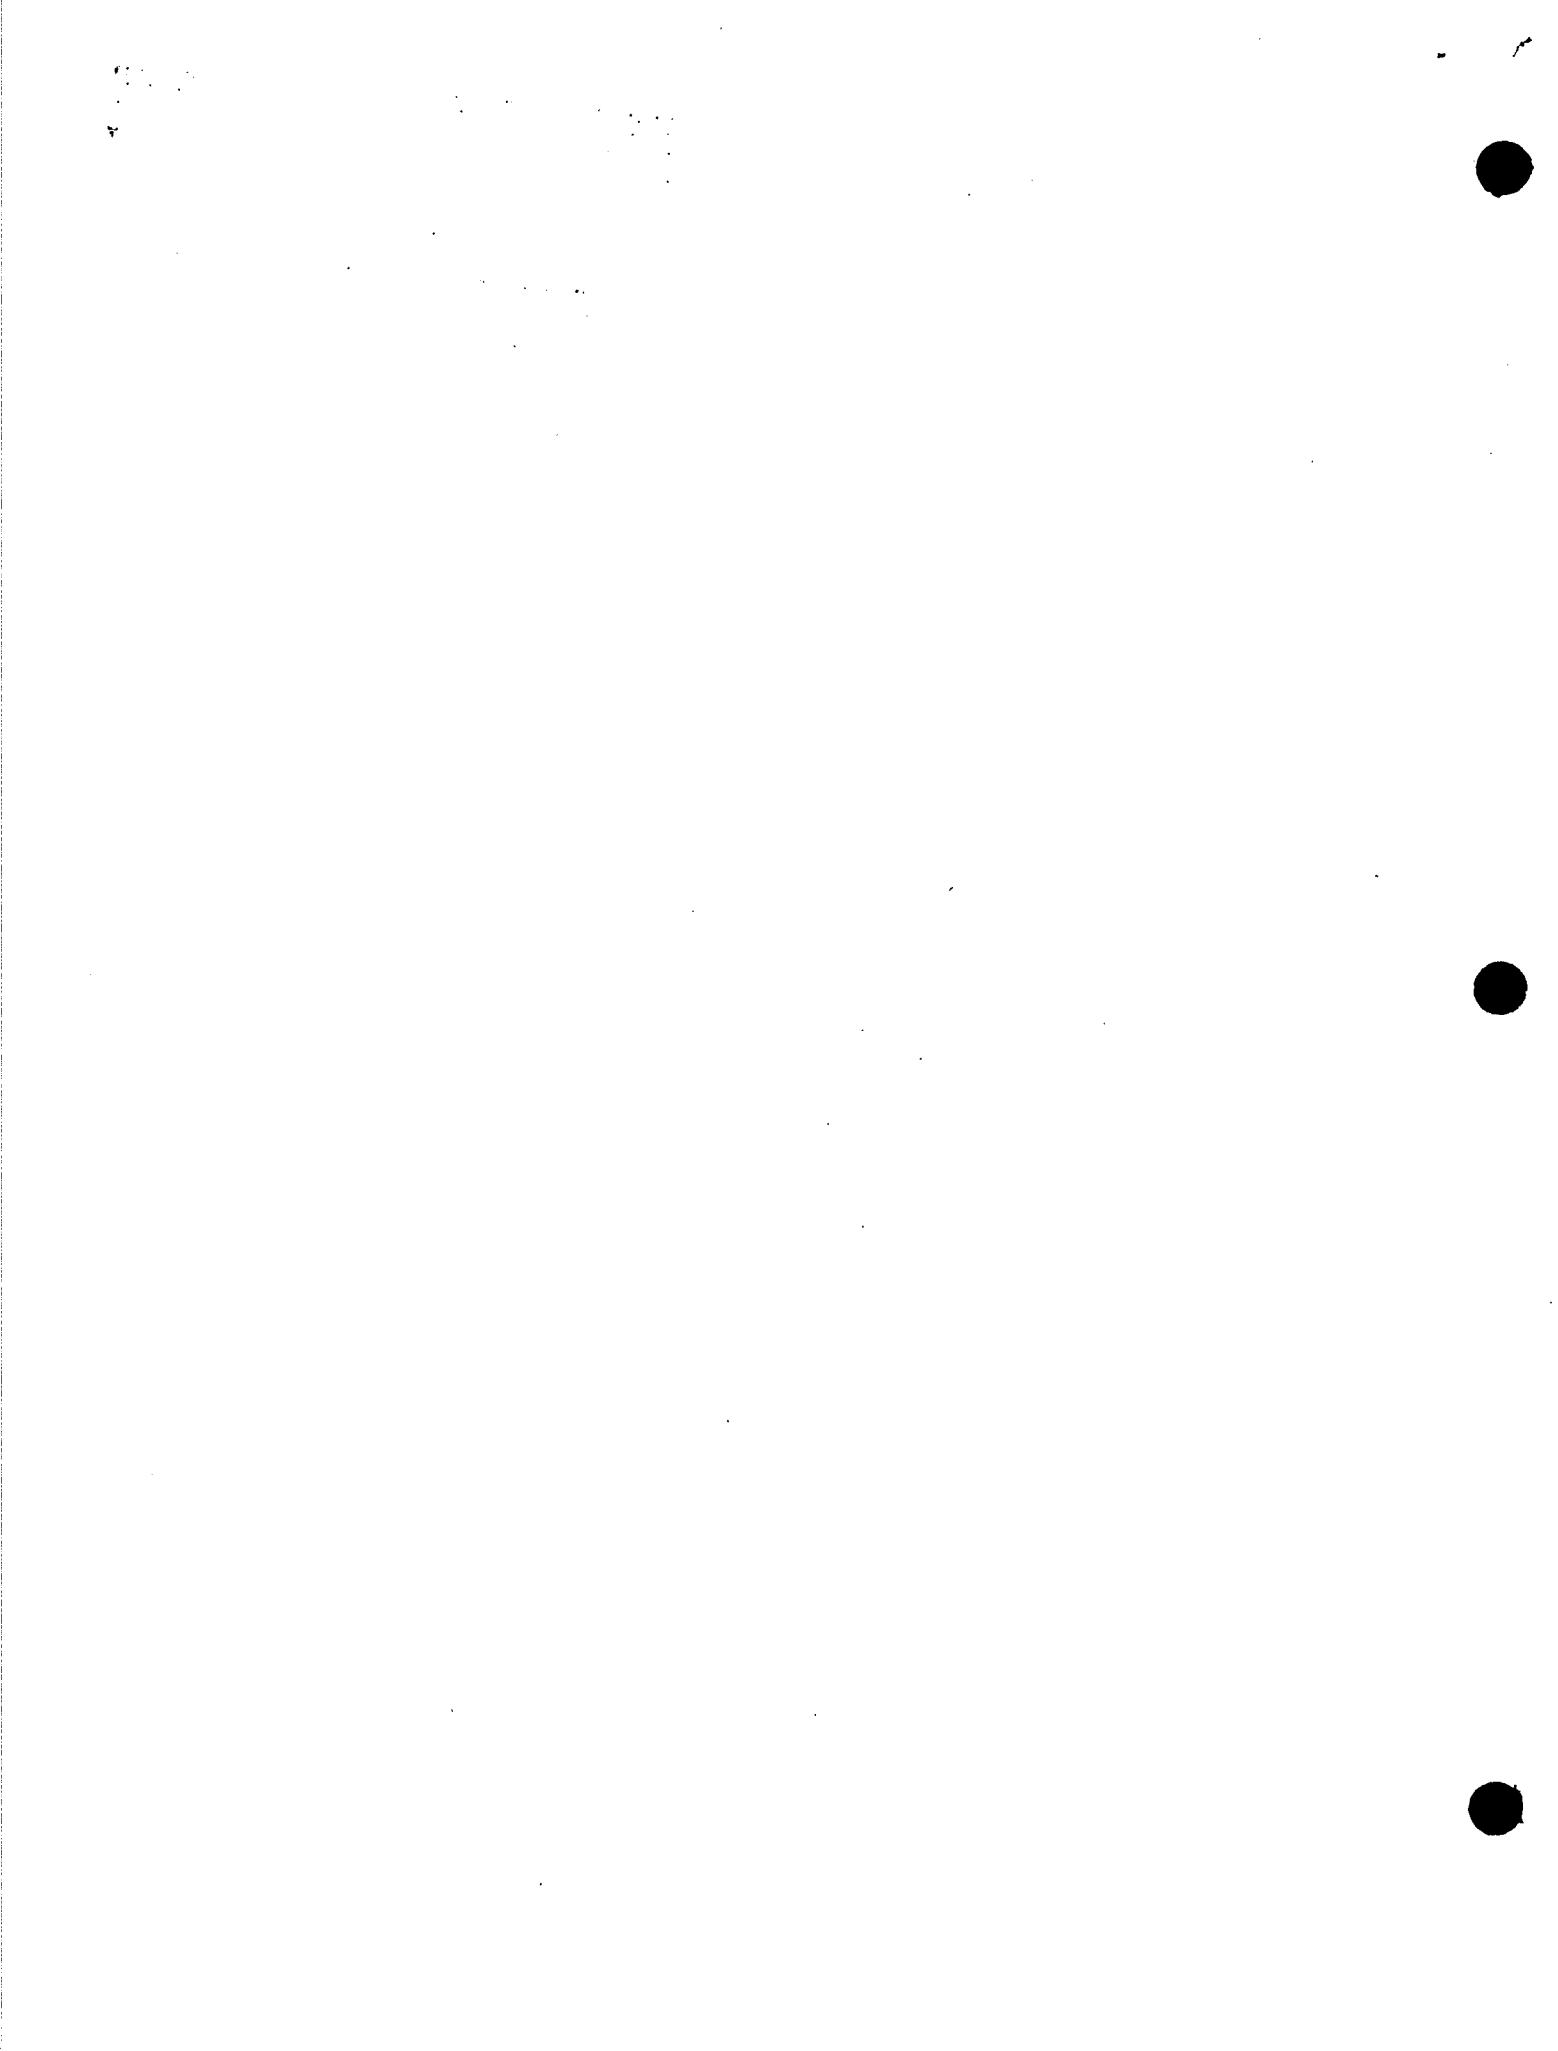

|                             |            |
|-----------------------------|------------|
| Canada .....                | 15,601,000 |
| Newfoundland .....          | 412,000    |
| Prince Edward Island .....  | 108,000    |
| Nova Scotia .....           | 683,000    |
| New Brunswick .....         | 558,000    |
| Quebec .....                | 4,520,000  |
| Ontario .....               | 5,183,000  |
| Manitoba .....              | 849,000    |
| Saskatchewan .....          | 889,000    |
| Alberta .....               | 1,066,000  |
| British Columbia .....      | 1,305,000  |
| Yukon .....                 | 10,000     |
| Northwest Territories ..... | 18,000     |

On emploie pour chaque province la même méthode générale que pour le Canada, mais les chiffres sur la migration sont moins complets. Les principales données sont les indications du mouvement interprovincial net, d'après le relevé de la main-d'œuvre.

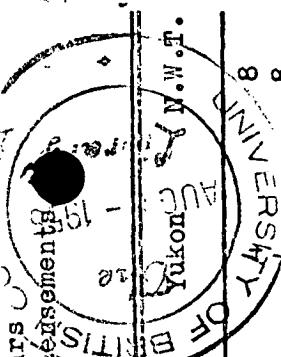

Les données chronologiques, par province, sont indiquées au verso de cette page.

Il y aura un recensement du Canada en 1956. Tous les chiffres donnés ici pour les années 1952-1955 seront sujets à rectification lorsque ceux du recensement de 1956 seront connus.
