## INVENTORIES, SHIPMENTS AND ORDERS IN MANUFACTURING INDUSTRIES

(Historical Supplement 1970-1973)

## STOCKS, LIVRAISONS ET COMMANDES DES INDUSTRIES MANUFACTURIÈRES

(Supplément chronologique 1970-1973)

### NOTICE TO USERS

Contains estimated monthly values of shipments, by Industry Group and Province, 1970-1973 and estimated monthly values of shipments, orders and inventories in selected individual industries, 1970-1973.

### AVIS AUX UTILISATEURS

Ce numéro contient les valeurs estimatives, par mois, pour les livraisons, par groupe d'industries et province, 1970-1973 et les valeurs estimatives, par mois, pour les livraisons, commandes et stocks de certaines industries particulières, 1970-1973.

Published by Authority of  
The Minister of Industry, Trade and Commerce

Publication autorisée par  
le ministre de l'Industrie et du Commerce

## EXPLANATORY NOTES

This occasional, separate publication of Shipments, Inventories and Orders in Manufacturing Industries contains series of monthly estimates of values for the period from January, 1970 to December 1973 that supplement data in the regular monthly publication of the same title. (Catalogue 31-001).

Commencing with the March 1974 issue of that publication, data were published for selected individual industries classified according to the 1970 Standard Industrial Classification and for certain industry groups by province, but, in any one issue, for three months of data only along with that for the comparable period of the previous year. Therefore this issue will be of use to those who need data covering a longer time period.

The monthly estimates for 1970 and 1971 are adjusted to Census of Manufactures benchmarks for those years and the estimates for 1972 and 1973 are projections from 1971 based on the results of the monthly survey of shipments, inventories and orders.

There are two tables in this issue. Table 1, displaying major industry group shipments by province, backs up and links directly with Table 5 in the regular monthly publication. The other, Table 2, containing detail for 89 selected individual industries, backs up and links directly to Table 6 of that publication.

Because certain industry group totals for individual provinces may be suppressed from time to time, there may be discontinuity in the availability of data. That is, when analysis of Census of Manufactures data indicates suppression is required for a yearly total, estimates for a specific industry or industry group within a province will no longer be published, although such publication, because of the estimating and benchmarking procedures used, would not violate the confidentially provisions of the Statistics Act.

Monthly values of industry group total shipments by province are not available prior to January 1970. At the aggregate level, the Canada totals of shipments by major industry group are the same as those published without seasonal adjustment in Table 3 of the January 1974 monthly publication. Insofar as Canada totals by month prior to 1970 are concerned, all major industry group totals, except those for Major Group 3, Rubber and Plastics Industries; Major Group 5, Textile Industries and Major Group 20, Miscellaneous Manufacturing Industries are directly comparable in definition of content with the major group totals previously published for the years 1961 to 1969 in sundry monthly issues and classified to the 1960 Standard Industrial Classification.

Users who wish to make comparisons between the selected individual industry estimates in this publication and those published earlier and classified to the 1960 Standard Industrial Classification would be advised to consult the 1970 Revised edition of the Standard Industrial Classification, (Catalogue 12-501) for differences in the content of the series.

There have, additionally, been some changes made in the groupings of inventory components from those previously published, to make the data more useful. Unlike previously published data for selected industries, the series included now are no longer grouped to satisfy certain unique sampling limitations that formerly existed and may be defined according to the 1970 Standard Industrial Classification parameters.

## NOTES EXPLICATIVES

Cette publication hors série et distincte intitulée Stocks, livraisons et commandes des industries manufacturières renferme des séries d'estimations mensuelles pour la période janvier 1970-1973 qui viennent ainsi compléter celles de la publication mensuelle du même titre (n° 31-001 au catalogue).

À compter du numéro de mars 1974, on a publié des données pour certaines industries selon la Classification des activités économiques de 1970 et selon certains groupes d'industries par province, mais portant toujours sur trois mois, en plus de celles relatives à la période correspondante de l'année précédente. La présente édition sera donc utile à ceux qui veulent des données couvrant une période plus longue.

Les estimations mensuelles pour 1970 et 1971 sont ajustées en fonction des repères du recensement des manufactures de ces années-là, tandis que les estimations pour 1972 et 1973 sont projetées sur la base des repères pour 1971 à partir des résultats de l'enquête mensuelle sur les livraisons, les stocks et les commandes.

On trouvera ici deux tableaux. Le tableau 1 donne les livraisons des groupes d'activités économiques par province et se rattache directement au tableau 5 de la publication mensuelle régulièrre; le tableau 2, qui contient des précisions sur 89 industries sélectionnées, se rattache directement au tableau 6 de cette même publication.

En raison de la suppression occasionnelle de certains totaux des groupes d'industries pour une province donnée, il peut arriver que les données disponibles viennent à manquer. En d'autres mots, si l'analyse des données du recensement des manufactures révèle qu'il faut supprimer le total pour une année quelconque, les estimations relatives à une industrie particulière ou à un groupe d'industries au sein d'une province ne pourront être publiées, même si une telle publication, en raison des méthodes d'estimation et de raccordement utilisées, ne contreviendrait pas aux dispositions de la Loi sur la statistique relatives au secret.

Les valeurs mensuelles du total des livraisons par groupe d'industries par province et ce, jusqu'en janvier 1970, ne sont pas disponibles. Au niveau des agrégats, les totaux des livraisons pour le Canada par groupe d'industries sont identiques à celui figurant avant désaisonnalisation dans le tableau 3 de la publication mensuelle de janvier 1974. En ce qui concerne les totaux par mois, au Canada, avant 1970, tous les totaux des groupes d'industries, sauf dans le cas du groupe 3, Industrie du caoutchouc et des produits en matière plastique, du groupe 5, Industrie textile, et du groupe 20, Industries manufacturières diverses, sont directement comparables, pour ce qui est de la définition du contenu, aux totaux des groupes publiés antérieurement pour la période 1961-1969 dans les différentes publications mensuelles et classées selon la Classification type des industries de 1960.

Nous conseillons aux utilisateurs qui aimeraient établir des comparaisons entre les estimations de certaines industries de cette publication et celles publiées plus tôt, qui figurent dans la Classification type des industries de 1960, de consulter la version révisée de 1970 intitulée Classification des activités économiques, (n° 12-501F au catalogue) pour saisir les différences de contenu des séries.

En outre, on a apporté certains changements aux regroupements des éléments des stocks par rapport à ceux publiés antérieurement afin de rendre les données plus accessibles. Les séries actuelles ne sont plus groupées, comme l'étaient les données de certaines industries publiées par le passé, afin de tenir compte de certaines contraintes uniques d'échantillonnage qui n'existent plus et elles peuvent dorénavant être définies selon la Classification des activités économiques de 1970.
