EXPLANATORY NOTES

This occasional, separate publication of *Shipments, Inventories and Orders in Manufacturing Industries* contains series of monthly estimates of values for the period from January 1974 to December 1976 that supplement data in the regular monthly publication of the same title. (Catalogue 31-001).

Commencing with the March 1974 issue of that publication, data were published for selected individual industries classified according to the 1970 Standard Industrial Classification and for certain industry groups by province, but, in any one issue, for three months of data only along with that for the comparable period of the previous year. Therefore this issue will be of use to those who need data covering a longer time period.

Monthly estimates for 1974 have been adjusted to Census of Manufactures benchmarks for that year and include revisions to the sample panel dictated by reclassification and re-examination of the establishment content of each industry as a result of that census. A summary adjustment of 1975 shipments values to preliminary census data for the latter year has also been incorporated. The 1976 estimates are projections based on the results of the monthly survey of shipments, inventories and orders.

There are two tables in this issue. Table 1, displaying major industry group shipments by province, backs up and links directly with Table 5 in the regular monthly publication. The other, Table 2, containing detail for 89 selected individual industries, backs up and links directly to Table 6 of that publication.

Because certain industry group totals for individual provinces may be suppressed from time to time there may be discontinuity in the availability of data. That is, when analysis of Census of Manufactures data indicates suppression is required for a yearly total, estimates for a specific industry or industry group within a province will no longer be published, although such publication, because of the estimating and benchmarking procedures used, would not violate the confidentiality provisions of the Statistics Act.

Monthly values of industry group total shipments by province for the years 1970 and 1971 were published in the historical supplement Catalogue 31-519 Occasional, for the year 1972 in Catalogue 31-520 Occasional, and for the year 1973 in Catalogue 31-521 Occasional. These monthly estimates are not available for periods prior to January 1970. At the aggregate level, the Canada totals of shipments by major industry group are comparable with those published without seasonal adjustment in Table 3 of the regular monthly publication of *Shipments, Inventories and Orders*, (Catalogue 31-001).

NOTES EXPLICATIVES

Cette publication hors série et distincte intitulée *Stocks, livraisons et commandes des industries manufacturières* renferme des séries d'estimations mensuelles pour la période de janvier 1974 à décembre 1976 qui viennent ainsi compléter celles de la publication mensuelle du même titre (n° 31-001 au catalogue).

À compter du numéro de mars 1974, on a publié des données pour certaines industries selon la Classification des activités économiques de 1970 et selon certains groupes d'industries par province, mais portant toujours sur trois mois, en plus de celles relatives à la période correspondante de l'année précédente. La présente édition sera donc utile à ceux qui veulent des données couvrant une période plus longue.

Les estimations mensuelles pour 1974 sont ajustées en fonction des repères du recensement des manufactures de cette année-là et contiennent aussi les révisions des échantillons qui ont été reclassifiées d'après le contenu de chaque industrie. Un ajustement sommaire des valeurs des livraisons de 1975 au recensement préliminaire est aussi inclus. Les estimations mensuelles pour 1976, sont des projections basées sur les résultats de l'enquête mensuelle sur les livraisons, les stocks et les commandes.

On trouvera ici deux tableaux. Le tableau 1 donne les livraisons des groupes d'activités économiques par province et se rattache directement au tableau 5 de la publication mensuelle régulière; le tableau 2, qui contient des précisions sur 89 industries sélectionnées, se rattache directement au tableau 6 de cette même publication.

En raison de la suppression occasionnelle de certains totaux des groupes d'industries pour une province donnée, il peut arriver que les données disponibles viennent à manquer. En d'autres mots, si l'analyse des données du recensement des manufactures révèle qu'il faut supprimer le total pour une année quelconque, les estimations relatives à une industrie particulière ou à un groupe d'industries au sein d'une province ne pourront être publiées, même si une telle publication, en raison de méthodes d'estimation et de raccordement utilisées, ne contreviendrait pas aux dispositions et la Loi sur la statistique relatives au secret.

Les valeurs mensuelles des livraisons totales par groupe d'industries par province ont paru dans les suppléments chronologiques, pour 1970 et 1971 (n° 31-519 au catalogue, hors série), pour l'année 1972 (n° 31-520 au catalogue, hors série) et pour l'année 1973, (n° 31-521 au catalogue, hors série). Ces estimations mensuelles ne sont pas disponibles pour les périodes antérieures à janvier 1970. Au niveau des agrégats, les totaux des livraisons pour le Canada par groupe d'industries sont comparables aux chiffres non désaisonnalisés qui figurent au tableau 3, de la publication mensuelle *Stocks, livraisons et commandes des industries manufacturières*, (n° 31-001 au catalogue).

Users who wish to make comparisons between the selected individual industry estimates in this publication and those published earlier and classified to the 1960 Standard Industrial Classification would be advised to consult the 1970 Revised edition of the *Standard Industrial Classification*, (Catalogue 12-501) for differences in the content of the series.

Nous conseillons aux utilisateurs qui aimeraient établir des comparaisons entre les estimations de certaines industries dans la Classification type des industries de 1960, de consulter la version révisée de 1970 intitulée *Classification des activités économiques*, (n° 12-501F au catalogue) pour saisir les différences de contenu des séries.
