INFORMATION

11-001E DAILY

Issued daily, this bulletin contains news summaries and announcements of reports, reference papers, and their releases and a list of publications released.

11-010 CANADIAN ECONOMIC OBSERVER

Statistics Canada's monthly flagship publication for economic statistics. Each issue contains a monthly summary of the economy, major economic and statistical events, a feature article and technical note. A statistical summary contains a wide range of tables and graphs on the principal economic indicators for Canada, the provinces and major industrial nations. A historical listing of the same data are contained in the Canadian Economic Observer: Historical Supplement (11-210).

11-210 CANADIAN ECONOMIC OBSERVER, HISTORICAL STATISTICAL SUPPLEMENT

An annual companion volume to the monthly report (Catalogue 11-010) containing historical annual series to correspond to those published in the monthly tables. Data covered include the national accounts, prices, international and domestic trade, labour and financial markets. Provincial detail for employment earnings, retail trade, housing and consumer price indexes are also available.

11-402E CANADA YEAR BOOK

This biennial standard statistical reference text on Canada includes topics ranging from education and manufacturing to government finance, international trade, and 1986 Census results. The yearbook also includes charts, statistical tables, index and subject bibliographies. The 1990 edition includes computer-generated maps illustrating significant social and economic trends in Canada. Appendices include a list of federal government departments and agencies, and federal legislation passed since 1987.

12-569E CANSIM, CANADIAN SOCIO-ECONOMIC INFORMATION MANAGEMENT SYSTEM, MINI BASE SERIES DIRECTORY

Statistics Canada makes available through its network of distributors, both the CANSIM main base consisting of some 400,000 economic and financial time series and a subset of some 25,000 which is known as the CANSIM mini base. The CANSIM mini base series directory provides a detailed guide to the standard set of some 25,000 of the most popular time series contained in the mini base. The directory includes: a table of contents which identifies, at a fairly aggregate level, the contents of the mini base and provides a link to the series directory; the contents by subject which outlines the contents of the mini base by broad subject categories; and an alphabetical subject index which comprises a list of key words for the full CANSIM main base with the letter "M" indicating mini base contents.

15-001 GROSS DOMESTIC PRODUCT BY INDUSTRY

This monthly publication contains monthly, quarterly and annual estimates of gross domestic product for 183 industries, including aggregates and special industry groupings. Estimates are available nationally and seasonally adjusted, in millions of dollars at 1986 prices, for the current year and the previous year. The June issue contains historical data covering the most recent several years. A brief text provides analytical highlights, and charts of three major industry groupings are also present.

15-201 THE INPUT-OUTPUT STRUCTURE OF THE CANADIAN ECONOMY

This annual volume contains the national input-output tables at the medium level of aggregation for the most recent reference year, gross domestic product at factor cost by industry, the aggregation parameters and the quality assurance and ratings. For textual material on the input-output accounting framework, models, classification systems, definitions, concepts and sources and methods, see *The Input-Output Structure of the Canadian Economy, 1961-1981 (revised data)* (Catalogue No. 15-510).

15-204E AGGREGATE PRODUCTIVITY MEASURES

This annual publication provides indexes of output per person employed and per person-hour, and indexes of unit labour costs for all commercial industries as well as industry groupings, including commercial goods-producing industries, commercial service-producing industries, agriculture and manufacturing. It also provides comparisons with corresponding U.S.A. official measures where available. Data sources; time series in index form; industrial classification used; and labour productivity, unit labour cost and related data are included. Previously published in Catalogue No. 14-201.

15-510 THE INPUT-OUTPUT STRUCTURE OF THE CANADIAN ECONOMY, 1961-1981 (REVISED DATA)

This publication contains input-output tables for the period 1961 to 1981 which are the results of the latest historical revision of the various accounts which form the Canadian System of National Accounts (CSNA). It also provides the final estimates of Gross Domestic Product at factor cost by industry which establishes the contribution of each industry to the total value of production in the economy. These input-output tables constitute a data bank on the production and distribution activity of all industries in Canada which is integrated to the CSNA through the input-output accounting framework. They show who is producing what (distinguishing roughly 200 industries and 600 commodities), who is buying what (intermediate purchases by producers for the production of other commodities or final purchases by sector) and how much it costs to produce them in material, labour and capital. The introductory chapters cover the following subjects: the input-output accounting framework, the classification system, some special definitions used in the input-output tables, the sources and methods, the aggregation parameters, gross domestic product, some uses and interpretations of the tables and the input-output models used for impact analysis.

15-511 THE INPUT-OUTPUT STRUCTURE OF THE CANADIAN ECONOMY IN CONSTANT PRICES, 1961-1981 (REVISED DATA)

This publication contains input-output tables in constant prices for the period 1961 to 1981 which are the results of the latest historical revision of the various accounts which form the Canadian System of National Accounts (CSNA). It also provides the final estimates of Real Gross Domestic Product at factor cost by industry which establishes the contribution of each industry to the total volume of production in the economy. These tables constitute a data bank on the production and distribution activity of all industries in Canada which is integrated to the CSNA through the input-output accounting framework. They show who is producing what (distinguishing roughly 200 industries and 600 commodities), who is buying what (intermediate purchases by producers for the production of other commodities or final purchases by sector) and how much it costs to produce them in material, labour and capital. The introductory chapters cover the following subjects: the input-output accounting framework, the nature, sources and methods of deflation, Gross Domestic Product and the aggregation parameters.

**15-512 GROSS DOMESTIC PRODUCT BY INDUSTRY (1981=100),
1961-1980**

Gross domestic product by industry at factor cost in 1981 prices by month and by quarter, seasonally adjusted at annual rates, and annual data, in millions of dollars, 1961-1980 for Canada.

31-001 MONTHLY SURVEY OF MANUFACTURING

This monthly publication provides estimated values of manufacturers' shipments, inventories and orders by month, based on a sample of about 11,500 establishments. Data are presented by major groups and selected individual industries as defined by the 1980 Standard Industrial Classification as well as aggregates for durable, non-durable and total manufacturing. Principal series are shown with and without adjustment for seasonal variation. Unadjusted shipment totals by province and by major groups within provinces are also shown. These data are used to monitor the business cycle in the key manufacturing sector of the economy; to evaluate and develop financial and industrial policy; and to provide market data at the detailed industry level.

31-530 DESTINATION OF SHIPMENTS OF MANUFACTURERS

Presents values of shipments of Canadian manufacturing establishments by province of origin and of destination, and gives and "outside Canada" destination. Industry detail includes: all manufacturing, major groups (2 digit S.I.C.) and industry (4 digit S.I.C.) classified according to the 1980 Standard Industrial Classification. The data source is the Census of Manufacturers. The previous edition was 1979 and next edition will be 1989, available about mid 1992.

50-002 SURFACE AND MARINE TRANSPORT - SERVICE BULLETIN

Eight issues per year, this service bulletin presents timely data, time series analysis, and special tabulations covering trucking, rail, bus, urban transit, and marine transportation, and highway infrastructure. Regular topics include the Quarterly For-hire Trucking Survey, the Quarterly Motor Carrier Freight and Household Goods Movers Survey, commodity movements, port activities, vehicle registrations, and fuel sales.

51-002 AIR CARRIER OPERATIONS IN CANADA

This quarterly publication presents operational and financial statistics for the activities of approximately 350 Canadian air carriers. It provides information to be used in the monitoring of the Canadian air transport industry. Specific tabulations presented include data on passenger-kilometers, aircraft hours flown, goods carried, operational expenses and revenues by province and travel by fare type.

51-004 AVIATION - SERVICE BULLETIN

Each month, this bulletin presents the most up-to-date available information gleaned from all of the Aviation Statistics Centre's surveys. Regular features include releases on principal statistics for Canada's major air carriers, airport data, fare basis statistics and traffic data for Canada's most important markets.

51-005 AIR CARRIER TRAFFIC AT CANADIAN AIRPORTS

Released quarterly, this publication presents statistics on airline traffic such as the volume of flights, passengers and cargo, at Canadian airports. Data on Canadian and foreign airlines' regional and local scheduled services have been added to complement the data previously published on the major scheduled services and major charter services. Civil aircraft movement statistics are also shown, thus, providing the overall perspective of aircraft movements at major Canadian airports. The publication presents several summary tables which have been grouped into sections dealing with overall or specialized views of the airline industry. An analysis of the significant changes which have occurred in the survey period is provided, by type of service. Annual summary data are included in the fourth quarter issue.

51-204 AIR PASSENGER ORIGIN AND DESTINATION, DOMESTIC REPORT

This annual publication presents statistics and analysis on the volume of domestic air passenger traffic generated at Canadian cities and carried between pairs of Canadian points. The data may be used to indicate the relative community of interest between Canadian cities.

51-205 AIR PASSENGER ORIGIN AND DESTINATION, CANADA - UNITED STATES REPORT

This annual publication presents an integrated set of Canada/U.S. air passenger origin-destination statistics and analysis, and is the result of an agreement between Canada and the Department of Transportation in the U.S.A. to exchange data from their respective surveys. The data may be used to indicate the relative community of interest between Canada and the United States.

51-206 CANADIAN CIVIL AVIATION

This publication is an annual statistical review of the activities of approximately 260 Canadian air carriers operating in Canada. Finance data include income statements, balance sheets, revenues by province and information on travel by fare type. Operational data include passengers carried, kilometers and hours flown and information on carrier fleets.

51-207 AIR CHARTER STATISTICS

This annual publication contains statistics and analysis on the operations of approximately 100 Canadian and foreign air carriers providing charter services both within Canada and to or from Canada. Data presented in graphical and tabular formats include passengers and cargo volumes along with origins and destinations.

51-501E AVIATION IN CANADA : HISTORICAL AND STATISTICAL PERSPECTIVE ON CIVIL AVIATION

Produced in 1986, this publication describes the Canadian aviation industry from its earliest achievements to the present. It contains data on key markets, airports, air regulation, Canada's air safety record and the growth of recreational flying. The text is complemented by more than 100 charts, tables and photographs. Next issue will be released in 1993.

52-001 RAILWAY CARLOADINGS

This monthly publication presents information on number of cars and tonnes of revenue freight loaded, by Class I and II railways in Canada for 69 commodities. With tables for Eastern and Western Canada supplemented by a chart portraying the daily average freight loaded. This publication is considered a good current indicator of total and regional economic activity.

52-003 RAILWAY OPERATING STATISTICS

Information on seven railways, including operating, financial and traffic statistics, is available in this monthly publication. Data on VIA, Canadian National and Canadian Pacific railway operations are presented separately.

52-216 RAIL IN CANADA

This annual publication provides information relating to the size and structure of the Canadian Railway industry. A general overview of the industry for a six year period is followed by a more in-depth analysis on the economic performance, financial structure and equipment use for the reference period. The publication also provides commodity origin and destination data series supplied by the National Transportation Agency. Each year, one or more special studies on topics related to the railway industry are also presented.

53-003 PASSENGER BUS AND URBAN TRANSIT STATISTICS

This monthly publication outlines passenger revenues, fare passengers carried, vehicle kilometers run and fuel consumed on passenger bus and urban transit systems with gross operating revenues from intercity / urban transit operations exceeding \$1 million.

53-215 PASSENGER BUS AND URBAN TRANSIT STATISTICS

Investment, operating revenues, expenses, and urban transit systems are outlined in this annual publication. Also included are data analysis, methodologies, a glossary and comments on data quality.

53-218 ROAD MOTOR VEHICLES - FUEL SALES

This annual publication presents gross and net sales of gasoline and net fuel sales of diesel oil and liquefied petroleum gas used for automotive purposes are presented by year and by month, by province and territory.

53-219 ROAD MOTOR VEHICLES - REGISTRATIONS

Data on registration of motor vehicles by type including passenger automobiles, trucks, motorcycles, buses, trailers and other vehicles are presented in this annual publication. A historical table of total registrations is provided. Motor vehicle registrations are shown by census divisions and municipalities, where available. Included is a chart showing the interprovincial differences to facilitate analysis of the data.

53-222 TRUCKING IN CANADA

98-124 CANADA'S YOUTH

This study presents a profile on "young Canadians" between the ages of 15 to 24, as defined by the 1986 Census. Data from both the 1981 and 1986 Censuses are often shown together in this study and focus on Canada's youth in terms of demographic structure, living arrangements, education, work activity and income. In addition, wherever possible, data are presented for two subgroups and for the entire youth population for Canada, the provinces and the territories. The subgroups consist of "teens", aged 15 to 19 and "young adults" aged 20 to 24. They are categorized in this way in order to portray a more accurate picture of one of Canada's most valuable resources for our children.

98-125 WOMEN IN THE LABOUR FORCE

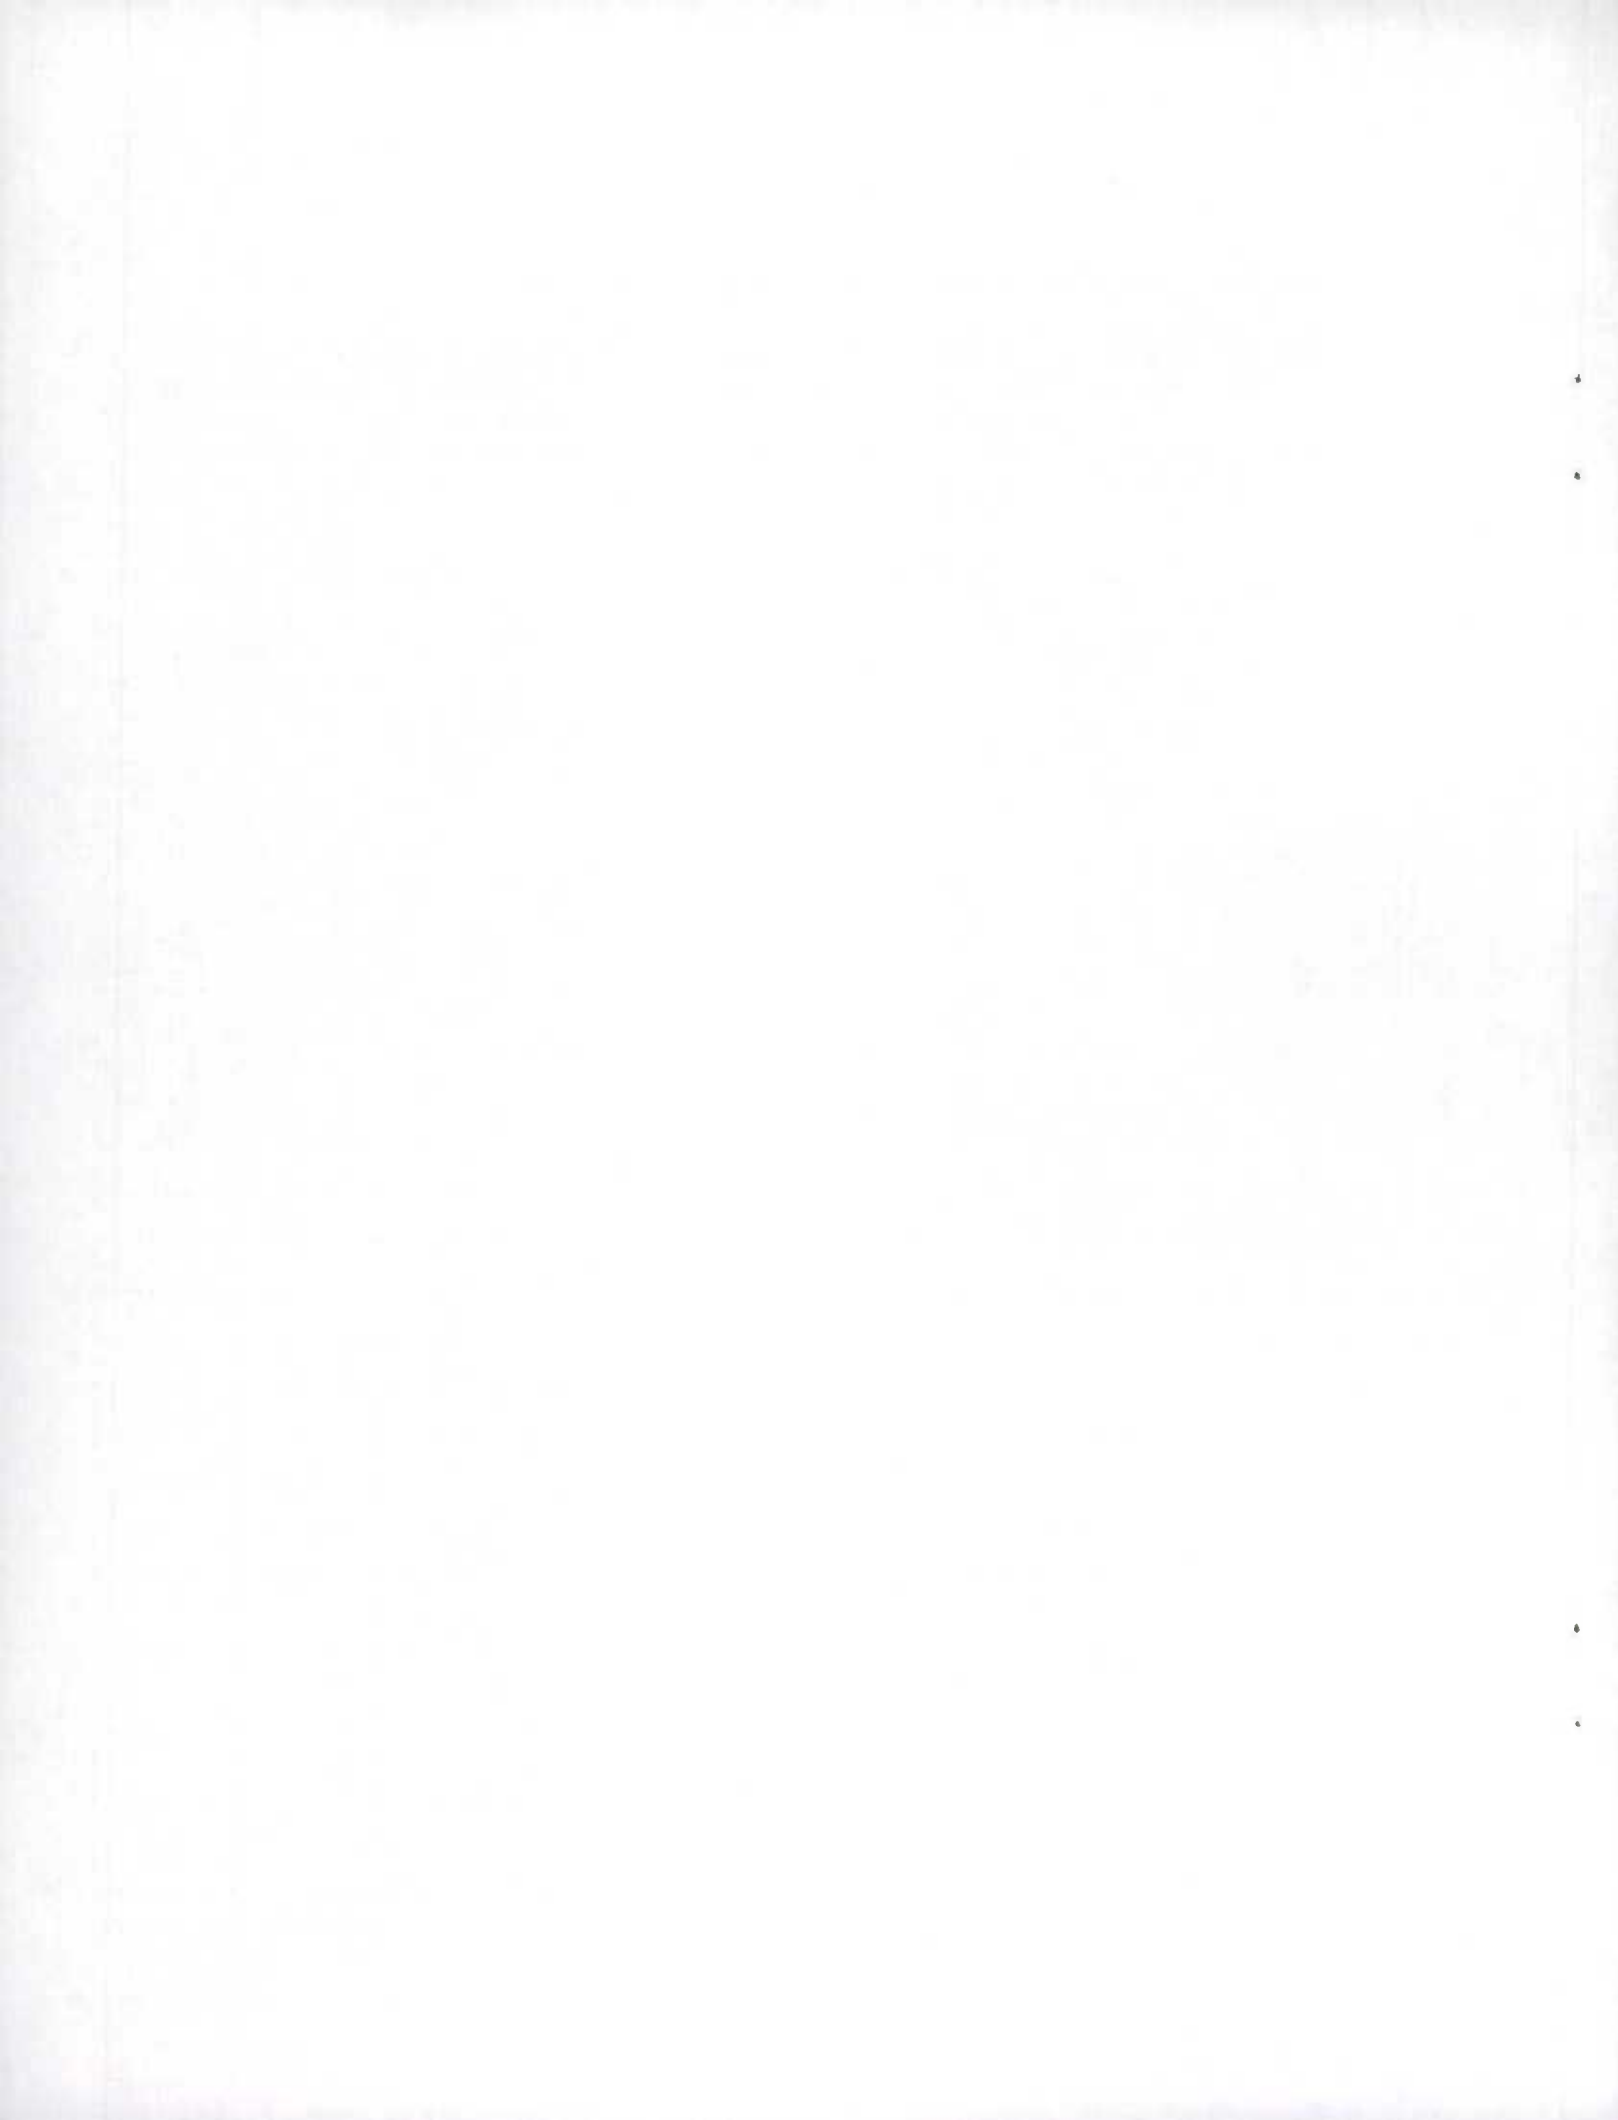

This publication provides a descriptive analysis of women's labour force participation for women who are employed, unemployed and for women who have never been in the labour force. Women are explored in terms of industry, occupation, age, average employment income, marital status, presence of children and education. A number of tables contained in this study also provide comparative analysis between women and men across any of the same variables. In this study, Census data from 1986, data from earlier censuses between 1971 and 1986, and data from related surveys are presented mainly for Canada with only a brief examination of regional variations.

98-129 EMPLOYMENT INCOME

This study presents 1985 employment income for Canada as reported during the 1986 Census. Tabulations for the provinces and territories are briefly presented and only one table features comparisons of employment income for 1970, 1980 and 1985. All data are collected for persons 15 years of age and over and are presented in terms of age, sex, marital status, education, hours and weeks worked, and occupation. The gap between male and female employment earning is also examined in this informative study.

98-135 TRENDS IN OCCUPATION AND INDUSTRY

This study presents readers with 1986 Census data on current patterns of employment by industry and occupation, as well as by age and sex. In addition, data from the 1971 and 1981 Censuses are presented in order to review changes in those patterns and gain insight into how different variables influence particular trends. Data contained in this study are reported mainly for Canada, with statistics for three census metropolitan areas (CMAs) covered only to a limited extent.
