DEPARTMENT OF TRADE AND COMMERCE
DOMINION BUREAU OF STATISTICS - CANADA
INTERNAL TRADE BRANCH

(Issued February 29th, 1932)

Dominion Statistician: R.H. Coats, B.A., F.S.S. (Hon.), F.R.S.C.
Chief, Internal Trade Branch: Herbert Marshall, B.A., F.S.S.

ESTIMATED BRITISH AND FOREIGN INVESTMENTS IN CANADA,
JANUARY 1ST, 1929 TO 1930.

A revised estimate of the amount of British and Foreign Investments in Canada for the period 1926 to 1930 has been issued by the Dominion Bureau of Statistics. This estimate is based upon more complete information as to the distribution of ownership of the securities of firms located in Canada in 1930, obtained through the Census of Industry and other investigations. Grand total figures in the new estimates show little change but important differences were found in group figures.

Total British and Foreign investments in Canada on January 1st, 1930, were \$6,125,959,000 according to the Bureau's figures. Of this sum \$1,184,676,000 was in Dominion, Provincial and Municipal securities, \$1,674,865,000 in railways, \$628,230,000 in other public utilities, \$520,248,000 in the pulp, paper and lumber industry, \$281,600,000 in mining, \$546,915,000 in metal industries, \$492,376,000 in all other industries, \$250,000,000 in merchandising establishments, \$209,022,000 in finance and insurance and \$338,033,000 in land and mortgages.

Of the total investment in Canada by British and Foreign countries amounting to \$6,125,959,000, the largest share \$3,726,745,000 was held by people of the United States. Britishers held \$2,228,024,000 and other countries \$171,188,000.

Sixty-seven per cent of British investments are in government securities and public utilities (chiefly railways). United States investments are fifty per cent in government securities and public utilities and fifty per cent in other securities, chiefly industrial and mining.

While \$6,125,959,000 appears to be a large sum of indebtedness incurred by Canada in favour of outside countries, it should be viewed in the light of the following facts:

1. Outside countries have in the neighbourhood of \$1,500,000,000 invested in branch plants located in Canada.
2. Canadian investments abroad are estimated as amounting to \$1,781,345,000 on January 1st, 1930.
3. It is estimated by the Bureau that the total business capital employed in Canada amounts to \$17,500,000,000. This sum includes the bonded indebtedness of Dominion, Provincial, and Municipal governments, investments in railways, all manufacturing concerns, mines and metal industries, public utilities, trading establishments, finance, insurance, land and mortgage. It does not include private capital in domestic enterprises such as farms, homes, etc. Of this sum it is estimated that 65 per cent or \$11,375,000,000 is owned in Canada, 15 per cent or \$2,228,000,000 in Great Britain, 21 per cent or \$3,726,745,000 in U.S.A., and 1 per cent or \$171,200,000 in other countries.
4. Canada's National wealth is probably in the neighbourhood of \$50,000,000,000. British and Foreign gross investments in Canada represent only slightly more than 20 per cent of this amount.
