REMARKS

The 1976 Census of Canada Final Population Count for Provinces by Census Subdivisions and Enumeration Areas (Indian Reserves), the 1977 Indian Housing Survey, the Schedule of Indian Bands and Reserves, and the Registered Indian Population by Sex and Residence for Bands, Districts, Regions, and Canada as of December 31, 1980 were all used to prepare this tabulation of the estimated registered Indian population.

The following rules were utilized in distributing the on reserve (own band) registered Indian population by Indian reserve:

1. In the first instance, the entire on reserve (own band) population for a particular band was assigned to the unique inhabited Indian reserve for that band.
2. In the case of more than one inhabited Indian reserve for a particular band, the entire on reserve (own band) population for that band was distributed by inhabited Indian reserve proportionate to the 1976 Census of Canada populations of the relevant inhabited Indian reserves.
3. In the case of an inconsistency between the 1976 Census of Canada population for particular Indian reserves and the on reserve (own band) population for the corresponding band, the district or band office was contacted by telephone to resolve the inconsistency.
4. In the case of an inconsistency between the on reserve (own band) population for a particular Indian band and the Schedule of Indian Bands and Reserves with respect to reserves set aside for the use of the band, the Schedule was accepted as correct.
5. The 1977 Indian Housing Survey was used to identify inhabited Indian reserves not appearing as such in the 1976 Census of Canada Population Count.
6. Finally, any other inconsistencies within the material used in the preparation of this tabulation were resolved by contacting the district or band office by telephone.

OBSERVATIONS

Voici la liste des documents qui ont été utilisés pour dresser le présent tableau de la population estimée des Indiens inscrits:

Le Recensement du Canada, population finale, pour les provinces par la subdivision du recensement et du secteur de dénombrement (réserves indiennes) de 1976; L'Enquête sur le logement des Indiens en 1977; La Liste des bandes et des réserves indiennes; et La Population indienne inscrite selon le sexe et la résidence pour les bandes, les districts, les régions du Canada au 31 décembre 1980.

Les règles suivantes ont régi la répartition de la population dans une réserve indienne (propre bande) des Indiens inscrits selon la réserve indienne:

1. En premier lieu, on a attribué la population dans une réserve (propre bande) pour une bande à l'unique réserve habitée par cette bande.
2. Dans le cas où plus d'une réserve indienne est habitée par une bande, la population dans une réserve pour cette bande (propre bande) était répartie selon la réserve indienne habitée proportionnellement aux populations des réserves indiennes habitées lors du recensement du Canada en 1976.
3. Dans le cas d'une contradiction entre la population du recensement du Canada de 1976 pour des réserves indiennes particulières et la population dans une réserve (propre bande) pour la bande correspondante, on a téléphoné aux personnes responsables du bureau de district ou à celui de la bande pour résoudre le problème.
4. Dans le cas d'une contradiction entre la population dans une réserve (propre bande) pour une bande particulière et la liste des bandes et les réserves indiennes en ce qui a trait aux réserves mises de côté pour l'usage de la bande, on a accepté la liste comme présentable.
5. Nous avons utilisé l'enquête sur le logement des Indiens de 1977 pour identifier les réserves indiennes qui sont habitées mais qui ne sont pas indiquées comme telles par le recensement du Canada sur la population de 1976.
6. En dernier lieu, pour toute autre contradiction entre divers documents utilisés dans l'élaboration de ce tableau, on a communiqué avec la personne responsable du district ou de la bande.
