#### REPORT

OF THE

INDIAN BRANCH

**DEPARTMENT** 

OF THE

#### SECRETARY OF STATE FOR THE PROVINCES.

To His Excellency the Right Honorable Lord LISGAR, G.C.B., G.C.M.G., Governor General of Canada, & c., & c., & c.

#### MAY IT PLEASE YOUR EXCELLENCY: -

I have the honor to lay before Your Excellency the report made to me by the deputy Superintendent General of the Indian Branch of this Department, with such accounts and returns, as will enable Your Excellency to understand the working of that branch during the past year.

It will be perceived that the funds invested for the different bands in Ontario and Quebec are on the increase, and that the interest is regularly paid.

The Department has steadily kept in, view the policy of the statutes to which it is bound to conform. The Indians everywhere have been encouraged to self-reliance and mental development. The schools already in existence have been sustained, and others have been established or aided.

A good deal of diversity of opinion exists among many of the more intelligent Indians, as to some clauses of the laws by which their affairs are regulated. A general council was held at Brantford during the past summer, and certain resolutions were passed, to which due weight will be given, should the Indian laws be revised.

I have endeavored to visit a certain number of the reserves in all the Provinces during the past summer, and to make myself, by personal observation and intercourse, familiar with the progress which has been made in Canada to elevate the aborigines; and I am in hopes that during the current year something like an approach to the Canadian system may be introduced into Nova Scotia and New Brunswick.

All of which is respectfully submitted.

JOSEPH HOWE,

### DEPARTMENT OF SECRETARY OF STATE FOR THE PROVINCES, INDIAN BRANCH. OTTAWA. February 2, 1871.

SIR, - I have the honor to place before you the tabular statements, detailing in the usual form the operation of the Indian branch of the Public Service, during the year which terminated on the 30th June last. The Acts framed in the years 1868 and 1869, relating to Indian affairs, were designed to lead the Indian people by degrees to mingle with the white race in the ordinary avocations of life. It was intended to afford facilities for electing, for a limited period, members of bands to manage, as a Council, local matters that intelligent and educated men, recognized as chiefs, should carry out the wishes of the male members of mature years in each band, who should be fairly represented in the conduct of their internal affairs.

Thus establishing a responsible, for an irresponsible system, this provision, by law, was designed to pave the way to the establishment of simple municipal institutions. The statute 32 and 33 Vic, chap. 6, gives to the bands, by section II, authority to frame rules and regulations subject to confirmation by the Governor in Council for: -

- 1st. The care of the public health.
- 2nd. The observance of order and decorum at assemblies of the people in General Council, or on other occasions.
- 3rd. The repression of intemperance and profligacy.
- 4th. The prevention of trespass by cattle.
- 5th. The maintenance of roads, bridges, ditches and fences.
- 6th. The construction, maintenance and repair of school houses, council houses, and other Indian public building.
- 7th. The establishment of pounds and the appointment of pound keepers.

It had been for some time evident that among the educated Indians, a need had been felt for improvement in the conducting of matters of internal government; this exhibited itself in expressions of dissatisfaction with the proceedings of chiefs holding office for life, and in some bands holding it by descent, who, however unprogressive and unfit, could not be removed except for gross misconduct. Nevertheless, the new plan of appointment has found, as yet, little acceptance with the Indian people in general. With the exception of the Mohawks of the Bay of Quinté, they have evinced no desire to identify themselves with the proposed new order of things, or to give effect to it by applying for authority to hold elections.

There are, however, some bands who doubtless will avail themselves of the new mode of selecting chiefs, and are beginning to estimate its value. I had proposed to the Chippewas, Ottawas and Pottawatamies of Walpole Island, and the Chippewas and Munsees of the Thames, some six or eight years since, to elect a limited number of Councillors to manage their local business, as had previously been done by the Mohawks, and they carried out the proposition, and are satisfied with the improvement which it produced. The seeming apathy of others may be accounted for from the fact that the Indian mind is in general slow to accept improvements until much time is consumed in discussion and reflection. And it would be premature to conclude that the bands are averse to the elective principle, because they are backward in perceiving the privileges which it confers.

As respects the largest and most influential Indian community in Canada, the Six Nations, their reluctance to accept the Act is attributable to the circumstance, that a council consisting of more than fifty chiefs, vacancies in whose ranks are filled up by descent, is the governing body, and although an outcry against arbitrary courses of procedure is occasionally raised, their numbers and the power they have long exercised uncontrolled, enable them to keep in subjection their people, who are rarely permitted to take part in discussions connected with the general welfare of the community.

The time must, however, arrive when the opinions and wishes of the majority will be consulted; and were the votes of the whole adult population polled, I have no doubt that a very large majority wold be in favor of an elective Council.

telligent men, who feel the injustice of being excluded from any voice in deliberations which materially affect their interests.

The Legislative enactments alluded to, concern also the tenure under which individual Indians hold their farm-lands, and the proposal to confer upon each member of a band, a more secure tenere by which, with certainty, to hand real estate down from the present proprietors to their descendants, requires to be better comprehended by those people before they can appreciate its advantages.

Very many, however, prefer trafficking one with another, often to the injury of their families, to being limited to a life interest. Their old system is now exhibiting its fruits, and we find families, consisting of active young men, actually without any land, while on the other hand a few cunning unscrupulous persons have by jobbery acquired possession of two or three times as much land as the proper quota. This requires a remedy, and the Act of 1869, when worked out as intended, will supply it; but time is requisite, and a system which had grown into existence before I joined the Department, and which did not prevent Indians leasing their farms to persons of other origin, instead of cultivating them for their families, has induced the tendency to indolence, and its concomitant misfortunes observable among so many people to Indian blood.

This must gradually be discontinued if they are to be made useful members of society. I am glad, nevertheless, to bear testimony to the commendable industry of many Indians, and I do not desire to disparage the endeavors made by them to farm successfully. The Agricultural Exhibition, held during the last season among the Six Nations, indicated progress, and the aid to purchase seed and agricultural implements, periodically supplied to several bands in Lower Canada, it is hoped will enable them the better to support their families in comfort. As hunting becomes less profitable agriculture takes its place, and this assistance, the better to enable them to carry it on, is important to all the bands.

Two of the Upper Canada bands, the one settled on the Christian Island and the other on Parry Island, applied to be provided with working oxen. This request was complied with, and Mr. Beatty, who has taken much interest in the Parry Island Indians, has informed me that the clearing, fencing and cultivating of land by them affords promise of material advancement.

The Appendix will exhibit the number, locality and the attendance of pupils at the Indian schools, aided and sustained by this Department.

The Mount Elgin Institution, situated on the reserve belonging to the Chippewas of the Thames, is now in active operation. Workshops, for the erection of which money was contributed from Indian funds, have been built; and it is believed that the instruction in mechanical arts, which was a condition upon which the establishment was entrusted to the Wesleyan Methodists body, will result in important benefits to the bands, of which the young people, there educated, are members. The Lower Canada fund having admitted of increased assistance to the Indians of the Province of Quebec they have been more liberally aided than in former years.

Regular medical aid to the Micmacs of the south shore of the Lower St. Lawrence has been provided, and to the Montagnais Indians, of the north shore, among whom smallpox had appeared. A medical practitioner was sent to vaccinate those who had not previously been vaccinated. This precautionary measure has, it is trusted, been the means of averting serious ravages by that disease from those people.

At Caughnawaga, by contributing more freely to the salaries of the teachers of the Indian schools there, a large increase of pupils has occurred, and money has been supplied both there and at Lorette to be expended on the school buildings. The new Indian Church at the River Desert Settlement, in the Township of Manawaki, has been liberally assisted, with a view to its completion, and the road through the township improved at the expense of Indian funds. The Indian settlement in Manawaki progresses, and each head of a family has a farm lot assigned to him. And as a respectable periodical payment, derived from interest on timber sold, is divided among the band, it is hoped that the work of settlement will proceed at an accelerated pace. The reserve set apart in the Township of Viger, belonging to the Amalacites, formerly of Isle Verte, who had not

recently cultivated their reserve, having been surrendered for sale, the chief part of the lands therein have been disposed of at fair prices.

The larger portion of the lands at Lake St. John, in the Township of Ouiatchouan, set apart under the provisions of the Act 14 and 15 Vic., cap. 106, for the Montagnais Indians, of the Upper Saguenay and Tadousac, having also for the most part remained unoccupied, was surrendered for sale, but the disposal thereof was deferred in consequence of the fires. It is proposed to offer them for sale soon after the opening of spring, and thus a demand for land for actual settlement in that quarter will be supplied.

It is gratifying to report that in Nova Scotia, three Indian schools, the teachers of which are paid from Indian funds, have been brought into existence.

In New Brunswick but one school has yet been organized. It is hoped that others may be established in the course of the current year. In some Indian settlements, a desire for education is spreading, and so soon as it is sufficiently manifested, the proper steps will be taken to give effect to that desire. In regard to social and moral improvements in both of the maritime Provinces, it will be necessary to prevail with the small detached bands of Indians to consent to be collected in permanent locations, and to give up their migratory habits. If this were done, a limited number of more influential settlements could be formed where comfortable habitations could be provided, schools established, seed and implements supplied.

The population returns although not perfect, are sufficient te convey the satisfactory assurance that the apprehension, to which expression has often been given by uninformed persons, that the Indians of Canada are dying out is without foundation. On the contrary, they are on the increase. The increase is not very great, but it suffices to prove that sanitary arrangements and medical treatment, a larger degree of home comfort, with better food and clothing, the repression of intemperance, and such supervision as our local agents exercise are producing effects which encourage to further exertion.

With regard to the lands held for sale, the quantity disposed of during the year ending the 30th June, 1870, amounted to 14,374 acres; this quantity comprehended various town lots. The sum total of these sales was \$28,539 51. The amount received on old and new sales of land and timber amounted during the same period to \$61,455 09. The expenditure on the construction of roads and bridges was \$7,250 85; and on surveys, \$3,100. The additional quantity of land surveyed amounted to 89,540 acres. The total quantity of surveyed disposable Indian lands amounts to 697,584 acres. The comparatively small quantity sold within the year which terminated 30th June, 1870, is accounted for by the circumstance that the free grant system, instituted by the Government of the Province of Ontario, has attracted large numbers of settlers, some of whom probably would otherwise have taken up Indian lands.

The construction of roads and bridges in the Saugeen Peninsula, where complaint had been made that access to the lands and to market was difficult, have been pushed forward; and the contracts made have been carried out in a satisfactory manner. On the opening of spring, settlers will have a passable road, extending as far north as the rear boundary of the township of Eastnor, and before the close of the season of 1871, to the northern extremity of the Saugeen Peninsula at the well sheltered and commodious harbor of Tobor - Moray.

On the Manitoulin Island, the road commencing at Little Current has been extended from Manitowaning to Michael's Bay, and an extension laid out to the newly surveyed and fertile Township of Carnarvon.

The fine Township of Sandfield, which faces on the large inland Manitou Lake, is rendered easy of access by the construction of the section completed to Michael's Bay from Manitowaning.

The steamboat landing at the last-mentioned place has been much improved by the new wharf a work which was built during the past season with monies supplied by the Department, and the communication by steamer has been of great advantage to the settlers.

The line of road in rear of the Sault St. Marie extending northerly through the

whole of the Goulais Bay and Batchewana Bay reserve, laid out by Provincial Surveyor Salter, will be proceeded with next spring. The land, in many parts, is well adapted for settlement, and the mills, for which machinery has been provided by Messrs. Harris and Jones, will no doubt form an additional inducement for the settlement of that large Indian tract, in which, besides farming lands and fisheries, valuable metals and minerals are believed to abound.

It will be perceived that the tabular statements exhibit a very much larger amount, as constituting the capital at the credit of Indian funds. This is occasioned (over and above investments derived from land and timber) by the capitalization of the old annuities payable periodically to various Indian bands, in consideration of cessions of land executed by them to the Crown.

The statement of office-work performed, exhibits a considerable increase of general business as compared with the amount of similar duty particularized in the report of the preceding year.

All of which is respectfully submitted.

WILLIAM SPRAGGE, Deputy Superintendent, Indian Affairs.

## RETURN of Officers and Employés of the Indian Branch, Department of the Secretary of State for the Provinces, for the year ending the 30th June, 1870.
