

DOMINION OF CANADA

ANNUAL REPORT

OF THE DEPARTMENT OF INDIAN AFFAIRS

FOR THE

YEAR ENDED MARCH 31

1928

OTTAWA

F.A. ACLAND

PRINTER TO THE KING'S MOST EXCELLENT MAJESTY

1929

*To His Excellency the Right Honourable Viscount Willingdon, G.C.S.I., G.C.M.G., G.C.I.E., G.B.E., etc., etc.,  
Governor General and Commander in Chief of the Dominion of Canada.*

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Annual Report of the Department of Indian Affairs for the fiscal year ended March 31, 1928.

*Respectfully submitted,*  
*CHARLES STEWART,*  
*Superintendent General of Indian Affairs.*

OTTAWA.

PART I  
REPORT  
OF THE  
DEPUTY SUPERINTENDENT GENERAL OF  
INDIAN AFFAIRS  
FOR THE YEAR ENDED MARCH 31, 1928

# **REPORT OF THE DEPUTY SUPERINTENDENT GENERAL**

*OTTAWA, November 1, 1928.*

Hon. CHARLES STEWART

Superintendent General of Indian Affairs,

Ottawa.

SIR, - I have the honour to submit the report of the Department of Indian Affairs for the year ending March 31, 1928.

## **INDIAN HEALTH SUPERVISION**

All matters appertaining to the health of Indians are conducted by the Department of Indian Affairs. The department staff has recently been strengthened by the addition of a medical director, and the creation of a definite Medical Branch, which is expected to prove of great value in supervising and co-ordinating the various health activities.

The outstanding event of the past year was the epidemic of influenza which swept the basin of the MacKenzie river during the month of July. The disease, which was of a very severe type, broke out at Fort Smith, and spread to the Great Slave lake and down to Aklavik with great rapidity. This vast region is inhabited by scattered bands of Indians whose needs are ministered to by Indian agents and doctors at Fort Smith, Fort Resolution and Fort Simpson, and by missionaries and church establishments at these and other points. At Hay River there is a mission school and at Fort Smith, Fort Simpson and Aklavik are small mission hospitals. The doctor at Fort Smith was out of the country on leave of absence, but was at once replaced by a doctor from Edmonton. The doctor at Fort Resolution and the mission personnel at that point and at Hay River looked after the Indians about the Great Slave lake. The doctor at Fort Simpson followed the epidemic down the river to Aklavik. All the workers were handicapped by lack of drugs and supplies, owing to the fact that the year's supplies had been burned in a warehouse fire at Edmonton where they were collected for shipment by the first boat of the season. Emergency supplies were sent in. Accounts of the epidemic which have reached the department tell of whole settlements stricken at once, so that there were not enough well persons to care for the sick or bury the dead, of mission workers carrying on though suffering from the disease themselves, and in one or two cases, of isolated families or small settlements being completely wiped out. The reports of the worriers are modest in the extreme as to the services they rendered, but an officer of the Department who was in the country at the time, pays a glowing tribute to their devotion and self sacrifice. The toll of death was heavy, and many widows and orphans are left.

It is difficult for those who have no intimate acquaintance with the primitive Indians of the remote parts of the north to realize their attitude toward a widespread outbreak of a dangerous disease such as influenza. They become discouraged and hopeless, and their fear and fatalism prevent their co-operation with those whose advice and help would assist their recovery.

## **TUBERCULOSIS**

During the summers of 1926 and 1927 a committee of experts under the auspices of the Canadian Tuberculosis Association, carried out for the department a survey of tuberculosis among the Indians of British Columbia, and presented a very valuable report. Their findings agree with those of investigators in other parts of the country and with the observations of departmental

physicians. Tuberculosis is about five times more common among Indians than among the general population. Several factors contribute to its prevalence. In many tribes tuberculosis has been comparatively recently introduced, and the resistance possessed by the white race has not yet been acquired. The food supply which would produce in the individual the robust health to enable him to resist invasion by the disease and to cast it off after invasion is not available, nor have the Indians learned in many cases to make good use of the supplies to be had. Living conditions are far from ideal, and ignorance prevails as to the method of spread of contagion. With the exception of a few tribes, the Indians have not the background of education and experience which would enable them to take full advantage of the knowledge of public health available at the present day.

The problem is a very serious one, but the outlook is not hopeless. Bands of Ontario Indians, who were expected to disappear from this cause some fifty years ago, are now rapidly increasing. The Blackfoot tribes of Alberta, whose numbers were greatly reduced following their infection in the latter quarter of the last century, are now holding their own. The solution of the problem depends as much on the improvement of economic conditions as on medical attendance and public health instruction. The department is using every recognized method of combating the disease, and the situation has shown a definite improvement in recent years. With somewhat increased funds at its disposal, there is reason to hope for more rapid progress in the future.

## **DISEASES OF THE EYE**

Trachoma is reported from time to time as existing among Indians. The committee which investigated tuberculosis in British Columbia also interested itself in eye conditions, and from this and other sources of information, it may be stated that this eye disease is very rare among Canadian Indians, if indeed, it exists at all. There is however, a condition which is prevalent in the mountains and foothills, and occasionally appears elsewhere, which is of importance. It consists of an acute inflammation of the eye, with a small ulcer on the eyeball, and often leads to impairment of vision. It occurs chiefly among undernourished children, and is probably to a large extent a deficiency disease. The department is devoting special attention to its treatment.

## **HOSPITAL SERVICES**

In the more remote districts and at certain large reserves the department maintains hospitals for the use of Indians alone. During the past year new units have been opened at the Six Nations Reserve in Ontario, at the Peigan Reserve in southern Alberta, and at Ile-a-la-Crosse in northern Saskatchewan, where the hospital is a joint enterprise between the department and the Government of Saskatchewan.

The new hospital on the Six Nations Reserve at Ohsweken was opened on October 16, 1927, by Their Excellencies, the Governor General and the Viscountess Willingdon, who graciously gave permission that the institution should be known as the Lady Willingdon Hospital. This hospital has already proven its worth, and is used by the Indians to its fullest capacity. A new unit is under construction at the Blood Reserve in southern Alberta where a very successful work has been carried on for many years under great difficulties. The department requires a high standard of service from its hospitals and they are considered to be equal in quality to any other institutions of similar size.

In many places hospitals are maintained by church organizations, and the department co-operates by furnishing some equipment and supplies, and in some cases by providing grants of money for building and upkeep. In all parts of the country the services of local hospitals and sanatoria are available for Indians, and a very large use is made of these institutions. Indians are rapidly overcoming their old distrust of hospital treatment, and hospitals are more and

more welcoming them as patients. It is becoming increasingly apparent that Indians are as hopeful subjects for modern treatment as white people. Rates paid for hospital care vary in accordance with local conditions and with any other assistance which the department gives to institutions.

## **DOCTORS' SERVICES**

In some remote places the department employs full time physicians, and in several instances these doctors furnish the only medical service available for the white population as well as Indians. Seven such positions are maintained, and in four other cases the position of Indian Agent is filled by a doctor. For the most part, however, the needs of the Indians are served by the employment of a physician, on part time or on call, who resides near the reserve. There are over two hundred and fifty doctors so employed. The services of specialists in surgery and eye, ear, nose and throat diseases are retained in large centres for the benefit of Indians in the surrounding country.

There are certain districts, where the Indians are of such primitive and nomadic habits and live over such an extended area that it is impossible to do more than send a doctor once a year to visit them when they are collected to meet the department official who pays the annuity money. The doctor accompanies the paying officer, treats cases of disease, vaccinates the Indians, and gives them simple talks on health and sanitation. In northern Quebec a doctor has been employed for several summer seasons to patrol the Transcontinental railway, and his work has resulted in a considerable improvement in habits of living among the Indians of the region. Some of the journeys made by these doctors involve great hardship.

## **FIELD NURSES AND MATRONS**

The department has maintained for some years a staff of four travelling nurses in the Prairie Provinces and of one in Nova Scotia. These nurses make periodical visits to reserves and schools. Their duty is to instruct the Indian women in the care of children and home-making in general, to examine school children for defects, and to report cases of defect or illness to the Indian Agent and physician. In some instances these nurses have been able to hold very successful clinics to which the Indian mothers bring their babies for inspection and advice. In British Columbia two resident nurses are maintained, and in Alberta one. The work of these nurses is very satisfactory, and it is hoped that it will be possible to extend the service. On one reserve where infant mortality was unusually high, an enormous improvement followed the installation of a resident nurse.

In places where the number of Indians is not large enough to justify the employment of a more highly skilled worker, the services of a neighbour white woman are retained as a field matron. These women have usually the advantage of the advice of a physician, and in some cases of visits from the travelling nurses. Some of them possess considerable nursing experience, but their main function is to give instruction and advice in housekeeping and the care of children.

The department is also making a beginning in the way of co-operation with the various provincial and voluntary organizations which maintain District Public Health nurses. In some cases the assistance of the department makes it possible for a district nurse to be employed in a municipality to the mutual advantage of both the Indians and the white people there.

## **MEDICAL CARE OF SCHOOL PUPILS**

Every residential school, except a very few where such service is not available, has the advantage of the regular oversight of a physician, and in many cases the pupils' health is cared for by a resident nurse. Pupils in day schools are examined by agency physicians and travelling nurses. This service is capable of further development, and it is hoped that it may soon be possible to

have a system of regular inspection of every Indian school pupil. All candidates for entrance to residential schools are examined before admission, particularly for the presence of active tubercular disease. Drugs and surgical supplies are furnished to principals of residential schools, and a considerable expenditure is made for the remedy of physical defects such as eye conditions and diseased tonsils and teeth which would tend to retard the studies of the pupils or make them subject to the invasion of tuberculosis.

## **COMMUNICABLE DISEASES**

Epidemics of communicable disease arise from time to time on Indian reserves. The department has, during the past year, devised a set of regulations for the control of these diseases which promises to be of great advantage. Constant effort is put forth to keep vaccination against smallpox up to date, and a beginning is being made toward immunization against diphtheria.

Although the department is sometimes handicapped in the beginning of an epidemic by the reticence of the Indian in such matters, it has an advantage over white communities in the matter of the possibility of enforcing regulations once the outbreak is discovered. In a recent outbreak of smallpox practically every Indian was vaccinated within one week after the diagnosis was established, a procedure which would be difficult to carry out in any white Canadian community. The services of travelling nurses are of value in epidemics, as they are at once available for duty in such emergencies anywhere in the district which they cover.

The Department of Indian Affairs has no reason to feel ashamed of its medical service from a remedial standpoint. No appeal for medical treatment from a Canadian Indian goes unheeded, and no expense is spared to give the sick Indian the benefit of the best medical and hospital care available. There is, however, a vast field of preventive medicine which would yield a rich harvest in improved health and economic efficiency of Indians. It is the aim of the department to greatly extend the preventive side of its effort, but such action must await the provision of increased funds, and, to some extent, the awakening of interest in Indian health, on the part of both the Indians themselves and the general public, in the one case toward the support of the Government in making increased expenditure, and in the other toward the realization of the need for improvement.

## **FARMING AND STOCK-RAISING AMONG THE PRAIRIE INDIANS FARMING**

The spring was somewhat late, and the seeding of wheat at many points was not completed until after the 15th of May. The area under crop has shown an increase of 1,867 acres over the previous year. The seed went into the ground in good shape, and up to the middle of August the indications were for the heaviest crop in our farming history. However, about that time we had a succession of frosts, which injured the crops throughout the whole farming area in Saskatchewan and northern Alberta. The grade of the grain has, of course, been reduced considerably by this, but at the time of writing it is not known just what the extent of the damage has been. There have been between seventy-five and eighty-five threshing outfits at work at the present time, and notwithstanding the loss sustained by frost it is estimated that the Indians will harvest considerably over a million and a quarter bushels of grain. The oat and barley crops are fair. The former, however, is not as heavy as was expected, but the Indians will have a good supply of feed for their animals during the coming winter. During the summer the Indians prepared a large amount of summer-fallow; this work has been well done, and is quite equal to that of the white farmers. As years go by there is a decided improvement in the manner in which the Indians are attending to this branch of the work. The amount summer-fallowed in the three provinces this year was 33,815 acres, an increase

of 6,310 acres over last year. In addition to this they broke 5,848 acres, which was well done, and this has brought their total area under cultivation up to 105,312 acres. The Indians, during the past year, have purchased a large number of horses and increased their farming equipment considerably, and on many of the reserves they now have good working outfits. The horses are of a better type and are receiving better care at the hands of the Indians than ever before.

## CATTLE

The cattle herds have increased considerably during the past year - between two and three thousand head. On some reserves the increase has been greater than on others, and this is due to the fact that the Indians at these points are giving closer supervision to their cattle. The herds of the Indians are now among the finest in Western Canada, and their cattle bring the highest prices on the Winnipeg and other markets. In one carload of cattle from an Indian reserve, the steers netted \$205 each. This, of course, is an enormous price, and shows that the cattle must have been exceptionally fine. The increase in calves this year will amount to between five and six thousand head. It is, of course, impossible to give the exact number, as an actual count cannot be made at this time, but it is known that the calf crop is most satisfactory. During the past season the department purchased between fifty and sixty thoroughbred bulls at the various sales conducted under the auspices of the provincial Department of Agriculture, and they are the finest that can be procured. Ninety per cent of the Indians' cattle are of the Shorthorn breed, which seems best adapted to their requirements. The Indians have sold in the neighbourhood of 1,500 head of steers and cows during the summer and fall, and in addition to this they have provided beef for their own needs on all reserves throughout Western Canada, and still their herds are increasing. There was a time not very long ago, when it was necessary to let contracts for large quantities of beef, to outsiders, but this is now a thing of the past, as in future the Indians will be able to provide their own beef.

## EDUCATION

During the past few years, there has been an encouraging increase in the attendance of Indian children at the schools maintained by the department. For the fiscal year 1927 - 28, there was an enrolment of over 15,000 and the percentage of attendance was a record one. The following table shows the increasing nature of Indian educational work. More pupils are attending and they are attending more regularly: -

Fiscal year	Enrolment	Average attendance	Percentage of attendance
1915 - 16	12,799	8,080	63.13
1916 - 17	12,178	8,285	68.03
1917 - 18	12,413	7,878	63.46
1918 - 19	11,952	7,601	63.59
1919 - 20	12,196	7,649	62.71
1920 - 21	12,558	8,074	64.29
1921 - 22	13,021	8,668	66.56
1922 - 23	13,723	9,100	66.35
1923 - 24	13,872	9,188	66.23
1924 - 25	14,222	9,879	69.46
1925 - 26	14,782	10,598	71.69
1926 - 27	14,710	10,541	71.66
1927 - 28	15,018	10,866	72.35

A total of 340 Indian schools were in operation during the year - 77 residential, 251 day and 12 combined white and Indian day schools. In Part II of this report will be found a list of these schools, showing the names of principals or teachers locality, enrolment and attendance. Compared with the previous year, there was an increase of one day school.

Further efforts were made during the year to increase the efficiency at both residential and day schools. Closer supervision, better qualified instructors, more intensive vocational training and better buildings were the aims of the department. Parliament provided a record appropriation of over two million dollars, and it was possible to make many improvements in connection with both personal services and physical equipment. At Caughnawaga, a large brick building was erected for the important day school activity there. This school is now on a par with a good city public school. A staff of 14 Sisters and 4 lay teachers are engaged in Caughnawaga village. In addition, there is a separate school for Protestant children. The old main building at the Onion Lake Roman Catholic and St. George's Indian residential schools, in Saskatchewan and at Lytton, British Columbia, respectively, were replaced by modern schools, fully equipped for the maintenance and training of Indian children. At St. Philips, Sask., a small residential school was erected near the site of the old Roman Catholic boarding school, which was closed in 1913. Arrangements were made for the establishment of a much needed Indian residential school at Shubenacadie, N.S. A site with the necessary farm was secured and a suitable staff engaged.

Whenever opportunity offered, better qualified teachers were secured and the department insisted that suitable vocational instructors were employed by those managing the residential schools. At these latter institutions, special attention to the training in farming and in the manual and domestic arts was given by the department's inspectors and agents.

More regular attendance and better teachers and equipment have had an interesting effect on the academic standing of the pupils. The following table shows the percentage of the total enrolment that was reported as in Grade 5 and higher: -

Fiscal year	Total enrolment	Enrolment in Grade 5 and up	Percentage
1910 - 11	11,190	780	6.97
1911 - 12	11,303	828	7.32
1912 - 13	11,144	734	6.58
1913 - 14	11,714	766	6.54
1914 - 15	12,468	834	6.69
1915 - 16	12,799	897	7.01
1916 - 17	12,178	955	7.84
1917 - 18	12,413	903	7.27
1918 - 19	11,952	878	7.34
1919 - 20	12,196	889	7.29
1920 - 21	12,558	929	7.39
1921 - 22	13,021	1,046	8.03
1922 - 23	13,723	1,187	8.65
1923 - 24	13,872	1,187	8.56
1924 - 25	14,222	1,322	9.29
1925 - 26	14,782	1,468	9.93
1926 - 27	14,710	1,664	11.31
1927 - 28	15,018	1,957	13.03

Of the 1,957 pupils who were in the higher grades during the year, 65 were studying high school work. These students were enrolled in Indian schools. In addition, there are approximately 140 Indian young men and women attending collegiates, business schools, colleges and universities. Of these 110 are receiving some assistance from Parliamentary Appropriation for Indian Education.

The co-operation of the churches in the management of Indian residential schools was as follows for the year 1927 - 28: -

Roman Catholic	42 residential schools: enrolment	3,822
Church of England	20 residential schools: enrolment	1,508
United Church	13 residential schools: enrolment	1,300
Presbyterian	2 residential schools: enrolment	165
Total	77 residential schools: enrolment	6,795

The expenditure for Indian education from parliamentary appropriation for the fiscal year ended March 31, 1928, amounted to \$2,033,375.10, as follows: -

## EXPENDITURE FOR YEAR 1927 - 28 - INDIAN EDUCATION VOTE

[illegible]

The expenditure shown above was augmented by the contributions made by certain Indians whose tribal funds have for many years been used to meet the cost of schools upon their reserves. During the past year the total expenditure from this source has been \$62,215.18. The table following gives the details of the charges.

The contributions from the Interest Account of the Trust Funds were for current expenses, salaries of teachers, minor repairs and tuition grants. The expenditure from Capital was for repairs to day school buildings on the Six Nations reserve, and for a new classroom and teacher's residence at the Dokis Indian day school.

It is of interest to note that this statement will not be found in any future report. Parliament has provided appropriation for the fiscal year 1928 - 29 to meet the charges heretofore borne by Indians. Free education for the Indians was definitely imposed by treaty in some provinces and by usage in others and as the only exceptions to the general rule were made in the case of Indians of the provinces of Ontario and Quebec who were fortunately in possession of tribal funds, it seemed discrimination to refuse to extend to them the bounty of the Government in this regard. It has therefore been decided that in future the education of these Indians shall be carried on without cost to them, thus completing a system of free education to all the Indian wards of the Crown in Canada.

## LANDS AND TIMBER

### LANDS

Sales of Indian lands and collections of payments on account of previous sales showed decided improvement during the year. For this continued satisfactory crop conditions in Western Canada were mainly responsible as a large proportion of surrendered lands sold for agricultural purposes are located in the three Prairie Provinces.

In the fiscal year 1927 - 28 new lands sales in area amounted to 11,480.35 acres, realizing \$113,956.70. Details concerning this phase of Indian land administration appear elsewhere in this report. It may be noted that the total quantity of surrendered Indian lands at present available for sale is 242,958.64 acres, and the principal outstanding on account of sales, \$1,634,306.78. As Indian lands are invariably sold on terms extending over a period of years the most of this large amount represents payments or instalments which have not to date fallen due. From the three Prairie Provinces during the year the sum of \$325,631.81 was collected on account of sales, a most satisfactory proportion of the amount outstanding. From the surrendered Blackfoot reserve lands alone was received the sum of \$219,530.73. Most of the collections on this reserve were made under what is known as "crop share agreements," a system recently inaugurated by the department whereby a percentage of each year's crop is set aside and sold and the entire proceeds credited to land purchases. This system has proven even more successful than anticipated and wider application to Indian land sales will undoubtedly be made.

## LEASES

Under the provisions of section II of the Regulations for the Disposal of Indian lands, leases were issued to white men at the request of Indian locatees to the number of 86, and on March 31 last there were 1,253 leases current.

## LOCATION TICKETS

Location tickets, granting title under the provisions of the Indian Act, to individual owners for lands on the reserves were issued during the past year to the number of 69, and on March 31 last there were current 2,604 location tickets.

## ENFRANCHISEMENT

Under the provisions of section 114 of the Indian Act (formerly section 122A) there were enfranchised during the past fiscal year 36 Indians, heads of families, comprising a total number of men, women and children of 94. Under section 110 of the Indian Act (formerly section 107) there were 10 Indians enfranchised, comprising 42 men, women and children.

## LAND PATENTS

During the fiscal year 1927 - 28 there were issued 234 patents to Indian lands purchased and paid for in full.

## TIMBER

The quantity of timber cut for sale from Indian Reserves in the Dominion during the 1927 - 28 season was somewhat less than in the previous year.

The kinds and quantities cut, were as follows :-

Pine (white)	1,122,186 f.b.m.
Ash	15,553 f.b.m.
Pine (red or Norway)	222,643 f.b.m.
Elm	105,607 f.b.m.
Pine (yellow or bull)	3,532,720 f.b.m.
Oak	33,508 f.b.m.
Pine (jack or banksian)	506,620 f.b.m.
Basswood	161,006 f.b.m.
Spruce (various)	3,039,432 f.b.m.
Walnut	400 f.b.m.
Hemlock (western)	3,242,116 f.b.m.

Poplar	135,819 f.b.m.
Hemlock (eastern)	1,333,986 f.b.m.
Cottonwood	216,014 f.b.m.
Cedar (red)	2,146,308 f.b.m.
Cordwood (mixed)	8,317 3/4 cords
Cedar (white)	884,954 f.b.m.
Pulpwood	36,406 3/4 cords
Fir	7,147,536 f.b.m.
Shingle bolts	92 1/2 cords
Balsam	203,871 f.b.m.
Ties	24,310
Maple	1,250,365 f.b.m.
Poles	1,819
Birch	615,996 f.b.m.
Posts	4,555
Beech	186,823 f.b.m.
Piling	4.374 lin. ft.

The total quantity of timber cut for sale, in terms of board measure feet was approximately forty-nine and one-half million, and in addition to this the Indians cut approximately eight million f.b.m. for their own use, for building, fencing and fuel.

Sales of timber during the year were: -	...	...
Matsayno Reserve, B.C.	Deposit	\$ 332 50
Nanoose Reserve, B.C.	Deposit	150 00
Nooaitch Grass Reserve, B.C.	Deposit	600 00
Langley Reserve, No. 5, B.C.	Deposit	375 00
Saughanaught Reserve, B.C.	Deposit	50 00
Gros Cap Reserve, Ont.	Deposit	2,000 00
Cash receipts were as follows: -	...	...
License dues and royalties	...	\$ 60,002 87
Permit dues	...	18,889 28
Rentals and fees	...	2,325 50
Deposits	...	3,507 00
Payments on o/s and a/cs	...	459 08
Trespass dues	...	556 68
Fines	...	64 00
Interest	...	20 52
Sand and gravel royalties	...	4,133 83
Total	...	\$ 89,958 76

There were 26 timber licenses current on April 30, 1928, being 5 less than the previous year, 4 having terminated, 4 relinquished, 1 cancelled and 4 new ones having been issued.

The expenditure for forest protection on Indian reserves during the year amounted to \$8,312.78, of which \$1,722.33 was used for extinguishing 15 forest fires, which, however, caused no appreciable damage.

Estimates of timber and reports on land were made of four reserves during the usual administrative work and this data has been added to the record of the timber resources of the Indians.

## **BUILDINGS**

The following is a summary of the buildings erected in 1927 - 28.

## **INDIAN RESIDENTIAL SCHOOLS**

Indian residential schools were erected at Lytton, B.C., Onion Lake, Sask., Kamsack, Sask., and a site was purchased for the new Indian residential school at Shubenacadie, N.S.

## **DAY SCHOOLS**

A large day school was erected at Caughnawaga, P.Q.

## **WATER SUPPLY SYSTEMS, ETC.**

A water supply system was installed at the Guy Indian residential school, at Sturgeon Landing, Sask.

Minor alterations were carried out to buildings and mechanical plants at several Indian Residential Schools.

## **HOSPITALS**

A new hospital was erected for the Indians at the Six Nations reserve.

## **AGENTS' RESIDENCES, BARNs, OUTBUILDINGS**

An agent's residence was erected at The Pas, and teachers' residence at St. Regis.

Outbuildings were built at Duck Lake, Sask., Fraser Lake, B.C., at the Coqualeetza Institute, Sardis, B.C. and a barn was erected at the Mohawk Institute, Brantford, Ont.

Additional houses were built for the Indians on the new reserve at Sydney, N.S.

## **SURVEYS**

### **BRITISH COLUMBIA**

Babine Agency. - New reserves were surveyed as follows: - Kitwancool band, Nos. 1, 2 and 3. Andimaul Band, No. 1. Kispaiix band, Nos. 4, 5, 6, 7, 8, 9 and 10. Hagwilget band, Nos. 17, 18, 19, 20, 21, 21A, 21B, 22, 22A, 23, 24, 25, 26, 27 & 28. Kitselas band, Nos. 4A. Resurveys were made of the following old reserves: - Kitwanger band, Nos. 4, 5, 6, 7 and 8. Kitsegukla band, No. 3.

Bella Coola Agency. - New reserves were surveyed as follows: - Kitimat band, Nos. 7, 9, 10, 11, 12, 13 and 14. Kitlope band, No. 4. Resurveys were made of the following old reserves: - Kitimat band, Nos. 6 and 8.

Lytton Agency. - (Railway belt). - New reserves were surveyed as follows: - Lytton band, Nos. 16A, 32 and 33. Pavilion band, Nos. 3A. Boothroyd band, Nos. 11, 12 and 13. Siska Flat band, Nos. 6 and addition to Nos. 5. Skuppah band, Nos. 3A and 4A. Spuzzum band, Nos. 1A, 2A, 3A, 4A, 5A, 7, 8, and 9. Boston Bar band, Nos. 1A, 8, 9, 10 and 11. Resurveys were made of Nanahout I.R. Nos. 1 for Lytton Bd. and 5A, Boothroyd Bd.

Skeena River Agency. - New reserves were surveyed as follows: - Tsimpsean Tribe. Port Simpson band, Nos. 32, 32A, 32B, 32C, 32D, 32E, 33, 33A, 34, 63, 64, 65, 66, 67, 68 and 69. Tsimpsean Tribe. Metlakatla band, Nos. 90, 91, 92 and 93. Kitkahta band, Nos. 19 and 19A. Kitkahta band, Nos. 3A, 7, 10, 12, 13.

Stuart Lake Agency. - New reserve was surveyed for the Cheslatta band, Nos. 1A.

Williams Lake Agency. - New reserves were surveyed as follows: - Nemaiah Valley band, Nos. 1A, 2A, 3 and 5. Canim Lake band, Nos. 3 and 5. Alkali Lake band, Nos. 9A, 11A, 16 and 18. Toosey band, Nos. 1A. Anaham band, Nos. 2A. Stone band, Nos. 1A, 3, and 4. Alexis Creek band, Nos. 1A, 2, 3 and 4.

### **NOVA SCOTIA**

Surveys were made of property purchased for Shubenacadie and Boat Harbour reserves.

### **NEW BRUNSWICK**

A survey was made of boundaries of Eel River Indian reserve.

### **QUEBEC**

A number of additional lots were surveyed in the village of Caughnawaga.

Resurveys were made of a number of lots in the reserve survey and valuations were made in connection with the widening of the Châteauguay road and also surveys of the properties of the Roman Catholic church and the new school in the village of Caughnawaga.

### **ONTARIO**

Surveys were made in connection with the following: - Subdivisions of a number of lots on Walpole Island; subdivision survey in connection with Indian holdings at Whitefish River Indian reserve.

Indian locations in the Rama Indian reserve. Island in the St. Lawrence River near Brockville. The West boundary of the Golden Lake Indian reserve.

## **SASKATCHEWAN**

Investigatory survey and selection of lands in connection with the Little Red River reserve.

## **MANITOBA**

Preliminary survey in connection with possible reclamation of lands in Peguis Indian reserve.

Investigations were made in connection with the hay supply of the reserves in the vicinity of Fairford.

## **BRIDGES - DRAINAGE - WATERWORKS AND IRRIGATION SYSTEMS, ALSO ROADS - DYKING AND WHARVES**

The engineering works mentioned hereunder were carried out on different Indian reserves by the department during the current fiscal year.

### **BRIDGES**

Repairs were made for the maintenance of bridges on the following reserves: - Lillooet, B.C.; Timiskaming, Que.; Manitoulin Island, Sarnia, and Walpole Island, Ont.; Pauls Reserve, Alta.; Salmon River, N.S.

### **DRAINAGE SYSTEMS**

Drainage systems were surveyed and constructed to improve cultivated land on the following reserve: - Cowichan, B.C.

### **DYKING**

Dyking works were carried out for the protection of farming land and the maintenance of highways on the following reserves: -Saenich and Deadmans Creek, B.C.; Nyenza and Eskasoni, N.S.

### **IRRIGATION SYSTEMS**

Irrigation systems have been constructed or improved on the following reserves in British Columbia to assist Indians in their farming operations, etc.: - Lytton, No. 9; Anaham, No. 1; Canim, No. 1; Boston Bar; Dog Creek; Lillooet, No. 4; Fountain, No. 3; William's Lake; Botanie Lake; Clinton; Pemberton; Neskainlith; Bridge River; Soda Creek.

### **ROADS**

Highways are gradually being constructed in co-operation with Provincial Department of Highways in Ontario and Quebec, and main roads improved on the following reserves: -

Province of Ontario. - Six Nations, Tyendinaga, Rama, Alnwick, Walpole Island, Muncey, Moravian, Oneida, Kettle Point and Stony Point, Golden Lake, Gibson, Sarnia, Cape Croker, New Credit, Fort William, Garden River, Sheshegwaning.

Province of Quebec. - Caughnawaga, Abenakis, Restigouche, Oka, Lorette, Maniwaki, St. Regis, Ouatichouan, Doncaster, Maria.

Province of New Brunswick. - Burnt Church.

Province of Nova Scotia. - Nyenza, Eskasoni, Salmon River, Whycocomagh, Malagawatch.

Province of Prince Edward Island. - Lennox Island.

Province of Saskatchewan. - Ochapowace and Stony Reserves.

Province of Alberta. - Paul's Reserve.

Province of British Columbia. - Lillooet, Lytton, Nanaimo, Squamish.

## **SEWERAGE SYSTEMS**

Sewage disposal systems were installed in connection with the following Indian village: - Holmoca, B.C.

Another section of the sewerage system, started last year on Abenakis reserve at Odonak, was continued this year.

## **WATER WORKS SYSTEMS**

Water supply systems were installed to provide the following Indian villages and Indian residential schools with pure water for domestic purposes and fire protection: - Bella Bella, Holmoca, Chekwelp, St. Mary Res. School, B.C., Duck Lake Residential School, Sask.

## **WHARVES**

Wharves were reconstructed and repaired at Bella Bella, Klemtu, Kincolith, B.C. and at Norway House, Man.

## **SUMMARY OF INDIAN AFFAIRS IN THE VARIOUS PROVINCES BASED ON THE REPORT OF THE DEPARTMENTS' AGENTS AND THE INSPECTORS FOR THE FISCAL YEAR ENDED MARCH 31, 1927.**

The local administration of the Indian lands, on the reserves scattered throughout the Dominion, is conducted through the department's agencies of which there are in all 111. The number of bands included in an agency varies from one to more than thirty. The staff of an agency usually includes various officers in addition to the agent, such as the medical officer, clerk, farm instructor, field matron, nurse, constable, stockman, etc., according to the special requirements of the agency in question. At many of the smaller agencies in the older provinces, where the Indians are more advanced, the work is comparatively light, requiring only the services of an agent. The work of the agencies is supervised by the department's inspectors, each inspector having charge of a certain number of agencies.

## **ONTARIO**

Agencies. - The following agencies are included in the province of Ontario: Alnwick, Bay of Quinte, Cape Croker, Chapleau, Chippewas, Munsees, and Oneidas of the Thames, Christian Island, Fort Frances, Georgian and Snake Islands, Golden Lake, Gore Bay, Kenora, Lake Superior (Eastern and Western Divisions), Manitowaning, Missisaguas of the Credit, Moravians of the Thames, Parry Sound, Rama, Rice and Mud Lakes, Sarnia, Saugeen, Scugog, Six Nations, Sturgeon Falls, Thessalon and Walpole Island.

Tribal Origin. - The great majority of the Indians of Ontario are Ojibwas, and are of Algonkin stock. The Oneidas of the Thames, the Mohawks of the Bay of Quinte, the Mohawks of the Parry Sound district, and the Six Nations of Brantford are of Iroquoian stock. There is a band of Pottawattamies at Walpole island, and Delawares at the Caradoc agency; these are of Algonkin stock.

Occupations. - The Indians in the western and central parts of Ontario engage largely in farming. The reserves generally are well suited to this purpose and the activity of the department's field agents has resulted in a steady improvement both in the methods of operation and the results achieved. The success achieved by the returned soldiers of this province has been especially creditable and they are rapidly developing prosperous communities.

During the summer months Indians find a profitable source of income as guides and canoe-men. Many are employed at various industries and trades, while railway and navigation companies employ a large number. As a rule they are excellent bushmen and many find employment in the various lumber camps. There is still an excellent market for snowshoes, canoes and moccasins, and these are usually manufactured by the other members of the community.

The women also have many sources of income; some are employed as domestics; others support themselves by making baskets and fancy work. In certain districts berry-picking is an important item and furnishes considerable income.

Dwellings. - A great majority of the Ontario Indians have comfortable farmhouses which compare very favourably with those of their white neighbours. Many own houses of brick and stone, but in the outlying and more remote districts the old log houses are in the majority. In the more settled districts the Indians have followed the examples of the whites and both houses and farm buildings are comfortable and of excellent construction.

New Ontario. - In the remote parts of Ontario hunting and fishing are still the chief sources of livelihood. While fur has been very scarce the price has been correspondingly high. Fishing, however, has not been as successful this year owing to the scarcity of the market and the low prices. Acting as guides and canoe-men during the summer months adds considerably to their income. While agriculture is not carried on to any extent, most of the bands grow considerable crops of potatoes and vegetables. They are, of necessity, more or less nomadic and consequently live in tents most of the year. This condition will greatly change as civilization progresses.

## **QUEBEC**

Agencies. - The following agencies are included in the province of Quebec : Becancour, Bersimis, Caughnawaga, Lake St. John, Lorette, Maria, Mingan, Oka, River Desert, Restigouche, Seven Islands, St. Regis, Temiskaming and Viger and Abenakis of St. Francis, Gaspé.

Tribal Origin. - The principal tribes found in Quebec are : Iroquois at Caughnawaga, Lake of the Two Mountains, and St. Regis; the Hurons of Lorette are also of Iroquoian stock; the Montagnais, who are also of Algonkin stock, at Bersimis, Mingan, Lake St. John, Seven Islands; the Abenakis, also of Algonkin stock, at Becancour and St. Francis; the Micmacs, also of Algonkin stock, at Maria and Restigouche; and the Malecites, also of Algonkin stock, at Viger.

In the agricultural districts of the province the Indians are developing a keener interest in farming operations and are making a decided success. In the Gaspé peninsula the Indians find employment in the lumber camps and mills, but on the north shore of the gulf, fishing, hunting and trapping are still the principal sources of income. In the northern part of the province lumbering is the chief pursuit. One of the principal industries of the Indians of Quebec is making baskets, and many of the Indians spend the summer months at the resorts in order to dispose of the baskets, lacrosse sticks, racquets, moccasins, etc., to the tourists. Some of them, particularly in the Saguenay district, act as guides and canoe-men.

Dwellings. - In the older settled districts of the province the Indians own many excellent stone and brick houses. Generally speaking, the buildings are almost all of good construction, comfortable and sanitary. In the more remote districts, where hunting and trapping are still the principal occupations, the Indians necessarily live in tents during the greater part of the year.

The North Shore. - Along the north shore of the gulf of St. Lawrence, the Indians have been taking a marked interest in the fishing industry. At Mingan, Natashkwan, Romaine, St. Augustine, and Moisie, the fishing is under departmental supervision. Salmon and cod are the principal marketable fish, and are a source of considerable income to the Indians. The land is not suitable for extensive cultivation, but many of the Indians have very creditable gardens.

## **NEW BRUNSWICK**

Agencies. - There are three agencies in the province of New Brunswick, the Northeastern located at Buctouche, the Northern located at Perth, and the Southwestern located at Fredericton.

Tribal Origin. - The majority of the Indians of New Brunswick belong to the Micmac race, which is of Algonkin stock. In addition to these there are some bands of Malecites, also of Algonkin stock.

Occupations. - In the Northeast division the Indians are mostly engaged in fishing, hunting and trapping. Some farming is carried on, and the Indians have rather tended to increase their interest in this regard.

The lumbering industry employs quite a large number and the Indians all through the eastern provinces have become very proficient in the lumber camps, on the river drives and in the mills. In the Northern division there is less farming carried on, and the Indians during the summer months find employment generally as day labourers. In the Southern division they support themselves chiefly by the manufacture and sale of Indian wares.

## **NOVA SCOTIA**

Agencies. - There are nineteen Indian agencies in the province of Nova Scotia, namely: Yarmouth, Digby, Shelburne, Queens, Lunenburg, Annapolis, Kings, Windsor, Shubenacadie, Halifax, Cumberland, Colchester, Pictou, Antigonish-Guysboro, Richmond, Inverness, Victoria, Sydney, and Eskasoni.

Tribal Origin. - The Indians of Nova Scotia are of Algonkin stock, and bear the distinctive name of Micmac.

Occupations. - They follow various occupations, but, as a rule, do not confine themselves to any particular one. Many of them cultivate the land with indifferent success, but as there are exceptions in almost every case, so it is with our Indians; a few of them are succeeding very well as farmers. The majority of those living near industrial centres usually work as day labourers. Hunting, trapping, and acting as guides for sportsmen are favourite occupations, more especially with Indians of middle age. Basket-making and the manufacture of fancy moccasins, etc., are confined mostly to women. A profitable employment among Indians in a few sections of Nova Scotia is the manufacture of hockey sticks, and they appear to be experts at the business.

Dwellings. - With very few exceptions, Indians in Nova Scotia occupy houses of frame construction, well finished on the outside, but unfinished inside. Every settlement, however, has a few comfortable dwellings well finished throughout. Other buildings owned by Indians - barns and storehouses - are mostly of frame construction also.

## **PRINCE EDWARD ISLAND**

Agency. - One agency is sufficient for the purposes of the department in this province, as the total Indian population is only 292.

Tribal Origin. - The Indians of this province all belong to the Micmac tribe, which is of Algonkin stock.

Occupations. - But few of the Indians of Prince Edward Island are farmers. The principal industries are basket-making and fishing. The oyster fisheries, which had been a complete failure for some years, are again profitable and have added somewhat to the income of the Indians.

## **MANITOBA**

Agencies. - The following agencies are included in the province of Manitoba: Fisher River, Clandeboye, Norway House, Griswold, Portage la Prairie and Manitowapah, Pas and Birtle.

Tribal Origin. - The majority of the Indians of Manitoba belong to the Ojibewa race, which is of Algonkin stock. Bands of Swampy Crees are found at the Norway House and Fisher River agencies and in the York factory district; these are also of Algonkin stock. The Indians located at the Griswold agency are Sioux; there are also Sioux at the Birtle and Portage la Prairie agencies. There is a band of Chipewyans at Fort Churchill; this tribe is of Athapascan stock.

Occupations. - The reserves in Manitoba suitable for extensive agriculture are mainly within the Birtle, Griswold, and Portage la Prairie agencies. On some reserves during the last two years the crops have not been up to the standard and the Indians have somewhat lost heart in their farming operations, but generally speaking progress has been satisfactory.

In the northern agencies the occupations are mostly hunting and trapping, but fishing has been becoming a more and more important factor during the past four or five years, and considerable income has been derived therefrom. While fur has been scarce the price has been high and the market for fish has increased. All of the northern Indians are expert guides and canoe-men, and many find employment in this way or with the transport or fur companies.

In the southern and more settled districts many of the younger people seek employment as day labourers, and owing to the high wages have been fairly prosperous. The Indian women make needle work, baskets, etc., for which there is a ready market.

Dwellings. - In recent years the Indians have adopted more sanitary methods of living. Their houses are more comfortably furnished and of better construction than formerly. In the north the nomadic life of the Indians does not permit of other than the old-fashioned log house, but even these are being greatly improved and in some cases are being replaced by suitable frame dwellings.

## **SASKATCHEWAN**

Agencies. - The following agencies are included in the province of Saskatchewan: Assiniboine, Battleford, Carlton, Crooked Lake, Duck Lake, Moose Mountain, Onion Lake, Pelly, Qu'Appelle and Touchwood Hills, File Hills and Isle à la Crosse.

Tribal Origin. - The most numerous tribes among the Saskatchewan Indians are the Ojibewas, Swampy Crees and Plain Crees, which all belong to the great Algonkin stock. In addition to these, Sioux Indians are found at the Assiniboine, Moose Mountain, Qu'Appelle and Carlton agencies, and on the Moose Woods reserve. In the Onion Lake agency there is a band of Chipewyans, who are of Athapascan stock. There are also a few Chipewyan Indians in the Isle à la Crosse district.

The principal occupation of the Indians of Saskatchewan is mixed farming and stock-raising. The close supervision which the department has had over these Indians has tended to greatly improve their method of farming and consequently their crops and income derived from them have greatly increased. Most of the Indians are well provided with good quality of machinery. As a

rule they have good stock and suitable houses. In the outlying districts, however, hunting and trapping are still the main sources of income and will so remain until civilization encroaches upon the hunting grounds.

Dwellings. - The dwellings of the Indians on the reserves where farming is carried on are now mostly of frame construction. The outbuildings, however, are generally of logs, but even there there has been some improvement.

## **ALBERTA**

Agencies. - The following agencies are included in the Province of Alberta: Blackfoot, Blood, Edmonton, Hobbema, Peigan, Saddle Lake, Sarcee, Stony and Lesser Slave Lake.

Tribal Origin. - The Alberta Indians are of Algonkin stock, with the exception of the Sarcees near Calgary and the Beavers and Slaves in the Lesser Slave Lake agency, who are Athapaskan, and the Paul's band in the Edmonton agency, who are Iroquoian, and the Stonies, who are of Siouan stock. The Algonkin Indians of Alberta are subdivided into Blackfoot nation, comprising the Indians of the Blackfoot, Blood and Peigan agencies, Plain Crees found in the Lesser Slave Lake, Saddle Lake, and Hobbema agencies, and a band of Ojibewas at Moberly Lake, in the Lesser Slave Lake agency.

The principal occupations of the Indians of Alberta are farming and stock-raising. Almost all the reserves in the settled districts of the province have large herds of horses and cattle.

In the northern parts of the province hunting and trapping are still almost the sole sources of income; there is practically no farming carried on and the construction of steamers on the Peace and Athabasca rivers, and of the railways to Peace River Crossing and Fort McMurray, have greatly lessened the wages of the Indians with the trading companies and transports. However, the price of fur has been even higher than in past years.

Dwellings. - In the southern part of the province the dwellings and farm buildings are of excellent construction and quality. Almost all the reserve where extensive farming is carried on boast of up-to-date modern dwellings, comfortable and well constructed. In the northern parts of the province the majority of the Indians continue to follow their primitive nomadic mode of life, and many of them still live in tents and tepees during the greater part of the year.

## **BRITISH COLUMBIA**

Agencies. - The following agencies are included in the Province of British Columbia : Babine and Upper Skeena, Bella Coola, Cowichan, Kamloops, Kootenay, Kwawkewlth, Lytton, New Westminster, Okanagan, Queen Charlotte, Stikine, Stuart Lake, Vancouver, West Coast, Williams Lake and Skeena River.

Tribal Origin. - The Indians of the Bella Coola, Cowichan, Kamloops, Lytton, New Westminster, Vancouver, and Okanagan agencies belong to the Salish tribe. The Kootenay tribe is located in the agency of the same name. The Kwakiutl-Nootka tribe is located at the Kwawkewlth and West Coast agencies; the Haidas, in the Queen Charlotte islands; the Tlingits, in the Stikine; and the Tsimshians, in the Skeena River agency. The Indians of the Babine, Stuart Lake and Williams Lake agencies belong to the Athapaskan race.

In addition to these there are about 3,000 nomadic Indians in the province who cannot be correctly classified according to linguistic stock or tribal origin.

Occupations. - The occupations of the Indians of British Columbia vary with their habitat. The Indians situated along the coast earn their livelihood principally by fishing. In many instances they own their own motor-launches,

nets and gear, while others are supplied by the various canneries. Many of the women are also employed in the canneries or in the hop fields, and make a very steady income.

The Indians of the Queen Charlotte islands own and operate their own small plant for rendering the oolachan or candle fish. In the inland parts of the province some farming operations are carried on and particularly in the irrigated districts grain, fruits of all kinds, and vegetables have been raised with success.

These Indians have been making marked progress in this regard and are now well equipped with modern machinery.

The Kootenay, Kamloops, Okanagan and New Westminster Indians own large herds of horses and cattle. While the Indians in the northern and remote parts of the province still depend upon hunting and trapping for their livelihood, the agents report a marked improvement in their manner of living.

Dwellings. - Except for the more remote districts the Indians have built comfortable and modern dwellings and outbuildings. Their progress in this respect has been perhaps more rapid than that of any other Indians of the Dominion.

## **NORTHWEST TERRITORIES**

Agencies. - The department has now three agencies in the Northwest Territories, namely, Fort Simpson, Fort Smith, and Fort Resolution.

Tribal Origin. - The principal tribes found in the Far North are the Slave, Hares, Loucheux, Sicannies, Dogribs, Yellow-knives, Chipewyans and Caribou Eaters. All these tribes are of Athapaskan stock. There are a few Crees in the neighbourhood of Chipewyan. These are of Algonkin stock. The most northerly tribes are the Takudah, who extend to the Mackenzie Delta; and the Copper Mines, who are located along the Coppermine river. The territory occupied by these two last-mentioned tribes is contiguous to that inhabited by the Eskimos.

These Indians depend entirely upon hunting and trapping for a livelihood. The department in 1921 made a treaty with the Indians along the Mackenzie river thus bringing under the supervision of the Dominion Government practically the only Indians in Canada with whom treat had not been made.

Occupations. - A few have been induced to raise small plots of potatoes. They own no horses or cattle, transportation being almost entirely by canoe along the great waterways, or by dogs in winter. They catch and preserve large quantities of whitefish for their own use and for consumption by their dog-trains in winter.

## **YUKON**

Tribal Origin. - The Forty Mile, Blackstone, and Moosehide bands belong to the Takudah tribe. There is a band of Slavies at Lancing Creek who migrated from Fort Good Hope, on the Mackenzie river; another band of Slavies, called Nahanies, is located at the headwaters of the Pelly river. All these Indians are of Athapaskan stock. At Mayo, Selkirk, Little Salmon and Carmacks there are bands belonging to the tribe known as Stick Indians. Bands belonging to the Tlingit tribe are found at Whitehorse, Teslin Lake, Champagne Landing, and Carcross.

Occupations. - Hunting, trapping and fishing are the chief occupations of the Yukon Indians, and they have been fairly successful during the past year. The women also derive some revenue from the sale of mocassins and curios of various kinds, while the men are expert at making tobogans and snowshoes. Practically no farming is carried on owing to climatic conditions, but some of the Indians cultivate patches of potatoes and other vegetables.

## **FINANCIAL**

At the close of the twelve months ended March 31, 1928, capital of the Indian Trust Fund, which at the end of the preceding year amounted to \$12,860,953.69, had increased to \$13,203,366.84.

The amounts expended from the Consolidated Revenue Fund were as follows: Voted by Parliament for the purposes of the department, \$3,977,791.58, and annuities by statute, \$220,209.00.

On March 31, 1928, the balance to the credit of the Indian Savings Account for the funding of the annuities and earnings of pupils at industrial schools was \$206,977.98. Deposits and interest during the twelve months aggregated \$37,456.53, and withdrawals, \$37,042.14.

## **GENERAL**

In 1924 a complete census was made by the department of the Indians and Eskimos of Canada, which was published in the annual report. This was the first census that had been made since 1916 and it shows slight increase in the Indian population as compared with previous records. A recapitulation of this census will be found in Part II of this report, which follows herewith and therein also will be found statistics with regard to Grain, Vegetable and Root Production; Land, Private and Public Buildings and Property; Live Stock and Poultry; General Effects; Value of Real and Personal Property and Progress during year; Sources and Value of Income; Schools; Indian Land; Civil Government; Appropriation Accounts and Indian Trust Fund.

*I have the honour to be, sir,*

*Your obedient servant,*

*DUNCAN C. SCOTT,*

*Deputy Superintendent General of Indian Affairs.*

PART II

TABULAR STATEMENTS

TABLE No. 1. - RECAPITULATION : CENSUS OF INDIANS AND ESKIMOS ARRANGED UNDER DEPARTMENT INSPECTORATES AND DISTRICTS

Inspectorates and Districts	Number in Band	Religions							Under 6 years		From 6 to 15 inclusive		From 16 to 20 inclusive		From 21 to 65 inclusive		From 65 years upwards

## INDIAN LAND STATEMENT

SHOWING the Number of Acres of Indian Lands Sold during the year ended the 31st March, 1928, the total amount of purchase money realized and the quantity of land unsold at that date.

ONTARIO					
Town or Township	County or District	Number of Acres Sold	Amount of Sale	Number of Acres Unsold	Remarks
...	...	...	\$ cts.	...	...
Albermarle	Bruce	...	...	88 00	...
Eastnor	Bruce	...	...	358 00	...
Lindsay	Bruce	...	...	489 00	...
St. Edmunds	Bruce	...	...	206 00	Some of these lands were resumed by the Department, the conditions of sale not having been complied with, so that in certain cases there appears to have been more land remaining unsold at the close of the past fiscal year than remained unsold according to the previous year's report.
