FOREWORD

The textbooks listed in this Circular Relative To Textbooks are those which are authorized for use in grades one to six in schools in the Northwest Territories. Included also are a number of miscellaneous teaching aids which are considered an integral part of the instructional program. For authorized lists of library and reference books teachers should refer to Supplementary Reading and Selected References, and A Manual of Library and Reference Books. The scale of issue for authorized textbooks, library, and reference books is outlined in the Annual School Requisition.

Permissive authorization for the use of any textbook not included in this Circular Relative To Textbooks may be granted. Principals requesting permissive authorization should make a formal request through the Regional Superintendent of Schools. Such requests will be considered by the Chief of the Education Division.

Beyond grade six, the prescribed textbooks are those which have been authorized by the respective provincial Departments of Education whose programs of study have been adopted for use in the Northwest Territories. Principals and Superintendents should ensure therefore that they have copies of the appropriate provincial textbook authorizations.

SPECIAL NOTE FOR SCHOOLS OPERATED BY
THE DEPARTMENT OF NORTHERN AFFAIRS
AND NATIONAL RESOURCES IN ARCTIC QUEBEC

The textbooks and related materials listed in this circular, as well as books listed in Supplementary Reading and Selected References and A Manual of Library and Reference Books, are approved for use in Arctic Quebec.

Textbooks for Junior and Senior High Schools (grade seven and above) are those authorized by the Quebec Provincial Department of Education. Principals and Superintendents should ensure that they have copies of the appropriate Quebec textbook authorizations.
