Indian-Eskimo Program
Information Center
Room 792,
400 Laurier Ave. W.,
Ottawa 4, Ontario.
Canada.

Dear Reader:

February, 1971.

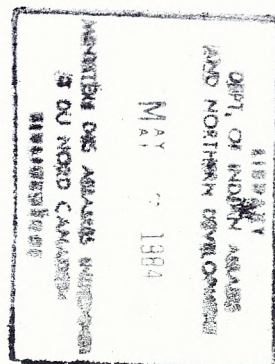

The need for a comprehensive inventory of programs and services available to Canada's Indian people has been recognized and efforts are underway to satisfy this need.

This is a large task and the initial phase has been to determine and pursue information needs about the programs and services available to Indian people through the Department of Indian Affairs and Northern Development. The second and third phases will be to expand and refine the material obtained in the initial phase and to secure information on programs and services provided by other agencies both public and private, federal and provincial.

The information obtained so far has been produced in a series of three basic reports - one for each of the Department's activities in Community Affairs, Economic Development and Education. There are seven sets of three - one for each Region. Each report, in its final form, will form a source of information on all relevant programs and services available to native people. Inside the Department it could form a link to communicate policy, procedures and operational variations. It would also provide a useful body of information required in briefing and training of staff. The information will also be used as basic data for public presentations.

This report presents the results of initial efforts to satisfy the above-mentioned information needs derived from discussions with activity specialists. The information is not final, complete, or up-to-date. Before using any of the information for public purposes, it is being distributed to our staff to obtain their suggestions for changes. Any resulting amendments will be forwarded as revisions, which can be inserted with ease because of the loose-leaf format.

Your comments are invited at any time; however, any information received by July 1, 1971, could be included in the material made available for public purposes.

Charles F. Kerr,
Chief,
Indian-Eskimo Program,
Information Centre.

B.1.	<u>Background - National</u>				
B.1.a.	<u>History</u>				
	<p>Prior to Confederation a small but significant body of legislation had been passed which indicated acceptance of responsibility for Indian education by the provincial or local governments. Several legislatures had made provision for the attendance of Indians at schools serving non-Indian children, including the payment to local authorities for tuition and board. There was authority in both Upper and Lower Canada for the incorporation of Indian reserves into established school districts or school sections and some provision had been made in the statutes for the financing of Indian education.</p> <p>The B.N.A. Act vested in the Parliament of Canada jurisdiction to legislate with respect to Indians and the lands reserved aside for their use. The existing legislation, which provided a basis for the extension of provincial services to the Indian people, was superseded by the Indian Act of 1876 which provided the legal basis for federal administration of Indian Affairs.</p> <p>After 1871, most Indian treaties contained a commitment "to maintain schools for instruction on the reserve whenever the Indians of the reserve shall desire it" or "to make such provision as may from time to time be deemed advisable for the education of the Indian children." As a result of such provisions and their interpretation, until the end of the second World War education for the Indian was, in effect, education in isolation.</p> <p>During this period, schools and hostels for Indian children were established, but scant attention was paid to developing a curriculum geared to either their language difficulties or their sociological needs. A few Indian bands established schools for their children on the reserves, but the majority of them had neither the financial nor leadership resources to establish and operate their own schools. Provincial governments were too preoccupied with their own priorities to become involved in Indian education. Missionaries provided a modicum of services, but their 'noble savage' philosophy effectively</p>		Senate Brief on Poverty 1970	Dept. Dir. Educ. Div.

B.1.a.	<u>History (Cont'd)</u>				
	insulated the Indians from the mainstream of society.				
	After the Second World War, Canadians became concerned about the immense educational gap between Indian and non-Indian youth.				
	In line with the recommendation made by the Special Joint Committee of the Senate and House of Commons in 1948 the policy of having Indian children educated in association with non-Indian children has been given prominence in educational planning. Wherever possible after consultation with, and agreement of, the Indian parents, arrangements are made to have children attend non-Indian schools. By 1958, 22% of the total Indian school population were in non-Indian schools. By the end of the period the figure was 55%. This has been accomplished by having Indian children enrolled in local and private schools and by agreement with provincial school boards for the establishment of joint schools for Indian and non-Indian pupils with the Federal Government contributing to the cost of construction on a pro rata basis. These joint schools have increased from 52 in 1958 to 379 in 1968 and have been a significant development in broadening the outlook of Indian children and in fitting them to participate actively in the life of the greater community of which their reserves form a part. It should be noted that in line with this policy the administration of Indian education in the Northwest Territories was transferred in 1955 to the Northern Administration Branch of the Department of Indian Affairs and Northern Development (in 1966) which provides an integrated school system for all children in the Territories.			1948-68 Review	Dept. Dir. Educ. Div.
	An increasing population of school age, with more sophisticated methods of teaching and a steady advancement in the program, has resulted in a proportionate rise in educational costs. The cost has risen from \$5,403,012 in 1948 to \$17,456,353 in 1958 to \$58,654,000 in 1968, and the cost estimate for 1969 is \$67,574,000.

	EDUCATION				
B.1.	<u>Background - National (Cont'd)</u>				
B.1.b.	<u>Present Situation</u>				
	The present situation is more fluid as Indian organizations consult their people and formulate positions on matters affecting education. New positions taken by some Indian leaders have caused changes in the process whereby the extension of provincial educational services are negotiated.				Dept. Dir. Educ. Div.
B.2.	<u>Background - Regional</u>				
B.2.a.	<u>History</u>				
	Prior to 1879, when Manitoba was incorporated as a Province, the education of the Indians of the prairie provinces was entirely in the hands of the missionaries - Roman Catholic, Church of England, Methodist, and Presbyterian.			<u>Indians of the Prairie Provinces.</u>	Reg. Supt. Educ.
	Each treaty contains a clause promising the establishment and maintenance of schools on reserves as soon as the Indian settled thereon and expressed the desire to have schools.			published by the Dept. (March 1967)	
	Before the conclusion of Treaty 1 in 1871, two schools were in operation in that district on the St. Peters and Fort Alexander Reserves. Within the limits of Treaty 2, the only school was at Fairford. These schools were conducted by the Church Missionary, Society of England, but the school at St. Peters received the sum of \$200 per year from Indian funds, by arrangement with the Superintendent General.				
	Beginning with the fall term of 1873, the Government paid salaries of \$300 per annum to the teachers of each of the three existing schools, and grants were authorized to schools at Rossville Mission, Nelson River, and Norway House.

B.2.a.	<u>Background - Regional - History (Cont'd)</u>				Reg. Supt. Educ.
	<p>Government policy was to provide and pay for a teacher as soon as Indians on any reserve erected a suitable building for a school-house. Grants were \$300.00 per annum when the average daily attendance was 25 pupils or more, and the rate was \$1.00 per month per pupil for schools with smaller attendance.</p> <p>The church Missionary Society operated schools on The Pas and Cumberland Reserves for some years prior to the conclusion of Treaty 5. In 1876-77, School Grants were authorized to Little Saskatchewan, White Fish Lake, Roseau River, Balck River, Lake Manitoba, and St. Albert Reserves.</p> <p>An Order-in-Council passed in 1892 outlined the arrangements to be made between residential schools (including industrial and boarding schools) and the Government. This Order-in-Council governed the manner of financing Indian residential schools until 1957, the amount of the per capita grant varying with local circumstances and economic conditions.</p> <p>During the Second World War difficulties were experienced in obtaining qualified teachers and in sustaining attendance of Indian pupils, due to so many lucrative employment opportunities.</p> <p>In 1947, the Federal Government began to assume full responsibility for the operation and administration of day schools, and purchased from the churches the residential schools which had been constructed by them through arrangements with Indian bands on reserves.</p>

B.1	<u>Background - National</u>				
B.1.a.	<u>History</u>				
	<p>Prior to 1951 there was only one Inspector of Schools who was located in British Columbia performing supervisory functions. In the other provinces, supervision of the educational program was carried out largely by the Agency Superintendents and directed from Headquarters. With the increasing amount of administrative detail involved in school administration, it was virtually impossible for Agency or Headquarters staff to provide the effective supervision that was required. With the establishment of regional offices, the problem was met by appointing Superintendents of Schools to each region. Approximately forty Districts have been established in the seven regions each under the supervision of a District Superintendent of Schools. In addition to general administrative and supervisory duties, their work involved negotiations with local school authorities for the admission of Indian children to non-federal schools, which had increased from 1,426 in 1948 to 36,804 in 1968. They were also required to advise students and their parents with respect to the selection of courses, and the assistance which was made available by the government to enable students to take post elementary school education. Superintendents of Schools were assisted in their work at regional and district level by Counsellors, Adult Education Specialists, Language Art Specialists and support staff.</p> <p>In 1948, there were 383 teachers employed by the Department. In the 1967-68 school year there were 1,600, including counsellors, language arts supervisors and adult educators. Prior to 1954, teachers at residential schools were employed by Church authorities who operated these schools on behalf of the Department, but in that year arrangements were made to have these teachers employed by the Department. Since that time the number of untrained teachers in residential schools has decreased from 40.2% in 1952/53 to approximately 7% in 1967/68. The reduction in untrained teachers has been brought about, in part, by making salaries comparative with those prevailing in the particular region or province, improving living accommodation and by bringing the teachers under the Public Service Superannuation plan. It is of interest to note that there were 131 teachers of Indian status employed in Federal schools in 1968 as compared to 45 in 1953.</p>			Review 1948-68	Dept. Head, Educ. Svcs.

B.1.a.	<u>History (Cont'd)</u>				
	<p>Incorporated in the program is a staff-training process to improve the instructional capabilities, in relation to the needs and desires of the Indian people served.</p> <p>As an incentive to students, a system of scholarships was established on a regional basis in 1957. The scholarships, ranging in value from \$400 to \$1,000, according to the type of course chosen, were awarded to outstanding students in nursing, teacher training, technical, agricultural and university courses. In 1959 the program was broadened to include cultural as well as academic training, and scholarships were made available to students with demonstrated ability in art, music and drama.</p> <p>Originally, students who were the recipients of scholarships received no further educational assistance. In 1964, it was decided that the scholarship funds would be in addition to those provided through educational assistance; consequently, scholarships were reduced to amounts varying from \$100 to \$300.</p> <p>In 1957, fourteen scholarships were awarded. By 1967, funds for 210 students in academic or occupational courses had been provided as well as special funds for 32 students interested in developing their particular cultural talents.</p>				
B.1.b.	<u>Present Situation</u>				
	<p>There are now 151 teacher-aides all of whom are of Indian status. It is expected that 70 scholarships will be given each year from 1970-71 fiscal year onwards.</p> <p>Staff training is being accelerated to raise the qualifications of employees.</p> <p>The funds for Educational Research are being increased at about 10% per year from the level of approximately \$100,000 in 1969-70.</p>

	The funds for educational research are being increased at about 10% per year from the level of approximately \$100,000. in 1969-70.				
B;2.	<u>Background - Regional</u>				
B.2.a.	<u>History</u>				
	In 1947 the administration at the regional level was carried out by regional and agency superintendents. However, responsibility for programs and budgeting was retained by Headquarters.				Reg. Supt. Educ.
	The first school inspector in Manitoba was appointed around 1954; a second was appointed in 1957. Even with their appointments, administration remained in the hands of the regional and agency superintendents and Headquarters.				
	School superintendents became involved by supplying statistics to justify the number of teacher establishments, classrooms and staff accommodations. They were also involved in recommending admissions of students to the residences and in arranging transportation for them to and from their homes.				
	In 1957 a new system of financing Government-owned residential schools was approved.				
	A system of scholarships was introduced in 1957.

B.2.a.	<p><u>Background - Regional - History (Cont'd)</u></p> <p>By 1964, the administrative role of the school superintendents had broadened. Their areas of responsibility over widely dispersed units of operation increased such as to cause the appointment of district school superintendents. Of these there were six who were each in charge of approximately 50 teachers.</p> <p>The district school superintendent's role was to program activities and to provide statistics which formed the basis of budget preparation.</p> <p>Budgets were related to specific targets and were prepared under the direction and control of the Regional School Superintendent.</p> <p>Thus, by 1965, responsibility for the preparation of the education budgets had become decentralized so that the Regional Superintendent carried far greater responsibility than ever before.</p> <p>The division of programs at the Regional Office was organized into the administration of the in-school and post-school programs.</p> <p>Each district school superintendent eventually obtained support staff in the form of stenographic and clerical assistance.</p> <p>Originally, it was planned that 60% of the superintendent's time was to be spent in classroom supervision but, as his administrative load increased, the tendency was to devote the major portion of his time to administrative matters.</p> <p>It became evident that the administrative function could be consolidated and two large districts (Eastern and Western) were formed in Manitoba with district superintendents whose primary function was to carry out all administrative duties</p>				Reg. Supt. Educ.

C.1.	<u>Method of Operation - Departmental</u>				
C.1.a.	<u>Purpose</u>				
	The purpose is to provide Staff Training, Education Studies & Research, Travel Leases, Property Acquisition and Transfer, Audio-Visual Aids, and Office facilities. To these can be added the administration of Pupil Transportation for all regions, including obtaining authority for contracts and processing applications for Band Grants, as well as the Student Scholarships Program.				
C.1.b.	<u>Procedure</u>				
	The Program is carried out in accordance with an annual Program Forecast and Annual Financial Estimates with a maximum degree of decentralization to Regional and District Education Offices. The basic structure is threefold - Administration, In-School and Post-School Program components, all co-ordinated through the General Administration activity.				
	Administration of programs is the responsibility of each District. Total Education programs are under the administration and supervision of the District Superintendent of Education. Education field staff are directly responsible to the District Superintendent of Education. Regional Education staff provide guidelines and interpretation of policy where necessary.

C.1.b.	<u>Procedure - Regional</u>				Reg. Supt. Educ.
	<p>At the district level, procedures consist of estimating classroom and staff accommodation, teaching and maintenance staff requirements, administering the cost factors for education of Indian pupils in Provincial schools, making arrangements by tendering transportation contracts, and administering the cost factor of private home placement of pupils, and administration of the cost factor of operations with student residences.</p> <p>Staff training varies in accordance with the type of training that is given. Many courses are carried out as seminars by Headquarter's specialists for administrative and support staff. Training of principals, teachers, guidance counsellors, child care workers and residence administrators, is carried out at district level through seminars conducted by the district superintendent and resource personnel or by arrangements with Provincial in-service training programs. The budget for training is controlled by Regional Office and is allocated in accordance with the needs of district superintendents.</p> <p>Each district superintendent makes an annual submission to Headquarters listing the candidates considered eligible for scholarships in the various categories. Final selections are made by a committee at Headquarters. Cheques in appropriate amounts are issued for presentation at the local level to include adequate publicity for this activity.</p> <p>Educational studies and research arise from a determined need from observation by superintendents and teachers in the operation of the educational programs. If the project is assigned to a certain region, the regional superintendent will approach the Provincial Education Department Research Directorate or the Education Faculty of the University to conduct the required research with the Branch supplying the financial resources, or sharing with the Provincial Agency generally under an agreement.</p>

B.1.	<u>Background - National</u>				
B.1.a.	<u>History</u>				
	<p>Prior to the Second World War education for the Indian was, in effect, education in isolation. Schools and hostels for Indian children were established, but the curriculum was not geared to their language difficulties nor to their sociological needs. A few bands had established schools on reserves, Provincial Governments were not really involved, and services were provided by missionaries. There was little or no Indian involvement in educational decision making.</p> <p>Since the War, there has been a concerted effort regarding the education of Indians with a gradual shift from Federally operated schools to the use of Provincial facilities. In 1948/49, 94% of Indian school students were in Federal schools; in 1967/68, only 46%. Originally Federal schools provided education for the primary and secondary levels, but gradually the secondary level has been left to provincial schools. The curriculum changed to follow the appropriate provincial one and Regional Language Supervisors were appointed to attempt to overcome the language difficulties of Indian children. In 1968, a survey was made to help identify textbooks that were offensive to Indian people, and steps were taken to remove them from the schools.</p> <p>In 1948 there were 285 day schools with supervision carried out largely by Agency Superintendents and directed from Headquarters. In 1953, 45 of the teachers were Indian.</p> <p>School Committees were organized on a few selected Indian reserves in 1956 to stimulate parental and community interest, and to provide experience for further involvement of Indians in educational administration and management. By 1968, there were 76 such committees and two Provinces - Ontario and New Brunswick - had amended their legislation to recognize the rights of Indians to sit on school boards.</p>		Senate Brief on Poverty 1970 Review 1948-68	Dept. B.1.a.	<u>History (Cont'd.)</u>				
	<p>In 1959/60 there was only one kindergarten teacher. This program has been extended as a major step to eliminate dropouts and age-grade difficulties of former years and, on the basis of standardized reading tests, considerable improvement has been noted. By 1968 there were 151 teachers teaching over 4,000 children in Federal schools. Another 1,000 children were in the Provincial program.</p>				
B.1.b.	<u>Present Situation</u>				
	<p>There are 300 Federal schools employing 1,282 teachers. Approximately 40% of the Indian pupils are in these schools which provide for education to the grade 8 level (maximum), after which pupils proceed to provincial schools. The schools are located chiefly in isolated areas where integrated education is difficult to achieve. This situation is especially so in Manitoba and Quebec. About 12% of the teachers do not have recognized teacher qualifications, while another 20% have at least one university degree. By 1969 there were 158 teachers of Indian status.</p> <p>By 1969 there were 5,752 children in the two-year kindergarten program.</p> <p>There are 165 school committees which assist in the operation of Federal schools serving Indian children. On reserves where the children attend the local provincial school, the committee has a liaison function. Band Councils appoint the members of the committee who, in turn, have authority in</p> <ul style="list-style-type: none"> (i) - school lunch program, (ii) - daily school transportation, (iii) - repairs and maintenance of school buildings, (iv) - appointment of caretakers, and (v) - janitor's supplies.

B.2.a.	<u>History</u>				
	Prior to Confederation a small but significant body of legislation had been passed which indicated acceptance of responsibility for Indian education by the provincial or local governments.			501/25-1	Reg. Supt. Educ.
	The B.N.A. Act vested in the Parliament of Canada jurisdiction to legislate with respect to Indians and the lands reserved for their use. The existing legislation, which provided a basis for the extension of provincial services to the Indian people, was superseded by the Indian Act of 1871 which provided the legal basis for federal administration of Indian affairs.			Indian and Eskimo Affairs Program Information, Manitoba.	
	From 1871 on, most Indian treaties contained a clause regarding Indian schools. In the treaties applying to what is now Manitoba there were some differences in wording which may be worthy of note:				
	Treaties 1 and 2 read as follows:				
	"And further, Her Majesty agrees to maintain a school on each reserve hereby made whenever the Indians of the reserve should desire it."				
	The wording of Treaties 3 and 5 is as follows:				
	"And further, Her Majesty agrees to maintain schools for instruction in such reserves hereby made as to Her Government of Her Dominion of Canada may seem advisable whenever the Indians of the reserve shall desire it."

B.2.a.	<u>History (Cont'd.)</u>				
	<p>Treaty 4 reads: "And further, Her Majesty agrees to maintain a school in the reserve allotted to each band as soon as they settle on said reserve and are prepared for a teacher."</p> <p>In line with the provisions of the treaties and their interpretation, education for Indians was, in effect, education in isolation, until the end of the Second World War. During that period schools and hostels for Indian children were established, but scant attention was paid to developing a curriculum geared to either their language difficulties or the sociological needs.</p> <p>After the Second World War the wide educational gap between Indian and non-Indian youth became a matter of public concern. With the 1948 report of the Joint Parliamentary Committee of the Senate and House of Commons on the administration of Indian affairs, new policies were developed; and the first comprehensive revision of the Indian Act in 75 years took place in 1951.</p> <p>This was followed by an acceleration in construction of classroom facilities on reserves, mainly in isolated areas; a takeover of church-operated schools and an increase in residential school operations. By 1960 there were 73 day schools, 2 hospital schools and 11 residential schools (a total of 86) operating under the auspices of the federal government in Manitoba.</p>				
B.2.b.	<u>Present Situation</u>				
	<p>It is the policy to maintain close collaboration with the Province to provide education for Indian children in provincial schools and to transfer federal schools in reserve communities to the Province <u>where the Indian community agrees</u> to this transfer.</p>

B.2.	<u>Background - Regional (Cont'd.)</u>				
B.2.b.	<u>Present Situation (Cont'd.)</u> As of November 1969, there were 36 Federal schools in Manitoba, with a total of 223 classrooms and a student enrolment of 5,222. 1969-70 figures used by the Regional Office are 5,693 Indians in Federal schools. The kindergarten program in Federal schools stresses activities to prepare the children for successful learning in the basic academic skills and the teaching of English or French as a second language.			Appendix "A" Indian and Eskimo Affairs Program, Information	
B.2.c.	<u>Special Situations</u> There are 339 non-Indians in Federal schools.				Reg. Supt. Educ.

C.1.	<u>Method of Operation - Departmental</u>				
C.1.a.	<u>Purpose</u> To operate Federal schools only in those areas where acceptable provincial schools are not available, or where Indian people do not choose to use provincial educational services. This includes all aspects of the program including instruction, inspection, school facilities and school committees. The objective is to ensure that the level of pupil achievement in Federal schools is on a par with that in provincial schools so that, should the parents wish to place their children in provincial schools, the changeover can be made with a minimum of difficulty for the pupils.				P. McGillivray, Head, Federal Schoc Operations, Ottawa.
C.1.b.	<u>Procedure</u> In general, this program is carried out along the lines followed by provincial school authorities. The physical facilities, where possible, are in line with provincial standards. The curriculum followed is that of the province in which the school is located with <u>special provision</u> for Indian culture content and for other special needs. Teachers recruited must meet provincial qualifications. Kindergarten instruction is supplied for all Reserves where pre-school population warrants. The Department employs a staff of Regional and District School Superintendents who are responsible for the supervision of the program offered in the Federal schools. The Superintendents make use of provincial supervision service. Although there are no school boards for these schools, there are, in many cases, education committees made up of Band members, chosen either by appointment by Chief and Council or by Band election. Within limited areas, these committees perform functions similar to those of a provincial school board. Their requests are passed to the District Superintendent of Education for approval. The operating budget is presented annually by the School Committee to the District Superintendent of Education.				Dept. Head, Fed. Schools.

C.1.	<u>Method of Operation - Departmental (Cont'd.)</u>				
C.1.b.	<u>Procedure (Cont'd.)</u>				
<p>A special requirement in Indian schools is time-tabled instruction in oral English. The Colliou Oral English Program is obligatory for use in Indian schools in Grades K to 6, as a teacher guide, and is supervised by language arts specialists who make regular visits to assist teachers in the implmentation of this I.A.B. language program into the Provincial Program of Studies.</p> <p>The Regional Office, or the District Superintendent of Education, assign specified schools to Provincial inspectors, who generally operate as a team of subject specialists when inspecting a classroom.</p> <p>The team report is made available to the District School Superintendent.</p> <p>Indian students enrolled in Provincial schools are under the control and supervision of the Division School Superintendent and no special inspection is carried out by the Federal superintendents.</p> <p>In the central and northern sections of the Province, school facilities are provided under the Federal Capital Construction Program on all reserves where integrated schooling is not possible. A number of school buildings are sub-standard and should be replaced as rapidly as capital funds are available. Replacement of such schools generally results in the development of large, multi-class school buildings. In this region, less than half a dozen schools are multi-graded. Graded schools range from 4 to 24 classrooms in size, with facilities appropriate to education programs offered in the larger schools.</p> <p>Off-Reserve facilities are provided in Provincial schools, through capital sharing joint agreements.</p> <p>Caretakers are employed in accordance with the Public Service regulations for full-time positions, as classified employees.</p>					Reg. Supt. Educ.

C.1.	<u>Method of Operation - Departmental (Cont'd.)</u>				
C.1.b.	<u>Procedure (Cont'd.)</u>				
	<p>Casuals are employed in smaller schools, at established wage rates.</p> <p>Regular repair programs are performed during the summer vacation under the supervision of construction supervisors. Funds for minor repairs programs are provided for in each district superintendent's O & M budget.</p> <p>Major repairs are carried out under the supervision of the Regional Engineer with funds and program authorized by Headquarters from Headquarter's capital allotment.</p> <p>School committees act as advisory bodies to district and Regional education officers on matters such as provision and maintenance of school facilities, daily school transportation, admissions to day school and student residences and placement of pupils on educational assistance.</p> <p>While not having the power of school boards, they are experiencing activities related to school operation and are training to eventually assume responsibility as members of school boards. In Manitoba, legislation permits reserves to be included in Provincial school divisions for the purpose of election of members to Provincial school boards.</p> <p>School committees are elected locally and have band council representation. They meet regularly to discuss and implement the objectives for which school committees are organized. They function with financial support by grants from the Department and by raising funds locally for various activities.</p>

	Departmental - Statistical Report - enrollments - Annual School Committee Conference Report of Proceedings and Resolutions				Dept. Chief, Educ. Dev. Div.
	Other - Cassi Handbook 1965				
C.1.d.	<u>Future Plans</u>				
	The plans for future years are Departmental plans and will only be implemented as agreement on the individual components of them is reached through consultation with the appropriate Indian Bands and Associations as well as with Church and other organizations and provincial school authorities. This consultation would include discussion of the possible establishment of locally operated school units on Indian reserves under the authority of provincial school legislation or any other variation on this theme. The operation of Federal schools will continue as long as requested by Indian parents and provided the enrollment warrants the facilities. The quality of the teaching staff will be improved through recruitment and professional development programs. The Nursery and Kindergarten programs will be continued as part of an effort to reduce age-grade difficulties and will employ Indian teacher aides. It is also anticipated that the physical facilities will improve, as will the use of modern instructional techniques and the best possible educational methods. There will be greater Indian participation in school affairs and on school boards.				Dept. Chief, Educ. Dev. Div.
	The system of Provincial inspection will be continued as long as the service is required and available from the Province. Inspection by Federal superintendents and supervisors will continue as long as Federal schools are in operation with special attention being given to newly appointed teachers, during their early adjustment years in teaching in Indian schools. D.	<u>Relative Relationships</u>				
D.1.	<u>With Other Departmental Activities</u>				
	To be completed by December 31, 1972.				
D.2.	<u>With Indian and Other Agencies</u>				
	Ontario and New Brunswick have passed legislation permitting Indians to sit on School Boards. As Indian Committees grow and Indian participation in educational affairs increases other provincial governments will also effect permissive legislation.				
E.	<u>Existing Agreements</u>				
	Inspection Agreements between local District Superintendents and local provincial authorities.				
F.	<u>Problem Areas</u>				
F.1.	<u>Operational</u>				
	There is need to improve qualifications of teaching staff. School facilities are inadequate in certain areas due to budgeting limitations. There is a problem with irregular attendance, absenteeism and drop-outs, particularly in the age group 12-16. Welfare problems are reflected in the overall educational progress of the child. The inactivity of many school committees must be overcome and there is a need for more parental involvement in the child's educational program.				
	Inadequate capital funds for construction of Federal school facilities which in some instances are not equivalent with Provincial standards.

F.	<u>Problem Areas (Cont'd.)</u>				
F.1.	<u>Operational (Cont'd.)</u>				
	Insufficient number of guidance counsellors to deal with students on a case study basis. Case loads at present provide only for group counselling and some counselling of parents at reserve level.				
	Delays occasioned by prolonged negotiations for teacher salary scales by public service employment procedures applied to teacher recruitment and promotion.				
	Remoteness and isolation of Indian schools hamper adequate supervision of school programs.				
	Difficulties in recruitment are aggravated by the lack of portable pensions between the Federal and Provincial governments.				
	Regulations governing employees present difficulties in releasing incompetent staff, when documentation practically becomes a case study requiring considerable time of supervision to cover schools in remote areas for such purposes.

B.1.	<u>Background - National</u>				
B.1.a.	<u>History</u>				
	<p>In line with the recommendation made by the Special Joint Committee of the Senate and House of Commons in 1948, the policy of having Indian children educated in association with non-Indian children has been given prominence in educational planning. Wherever possible after consultation with, and agreement of, the Indian parents, arrangements have been made to have children attend non-Indian schools. In 1948, 6% of the total Indian school population was in non-Indian schools. By 1967/68 the figure was 55%. This has been accomplished by having Indian children enrolled in local and private schools and by agreement with provincial school boards for the establishment of joint schools for Indian and non-Indian pupils with the Federal Government contributing to the cost of construction on a pro-rata basis. These joint schools have increased from 52 in 1958 to 379 in 1968, and have been a significant factor in broadening the outlook of Indian children. In line with this policy, the administration of Indian education in the Northwest Territories was transferred to the Northern Administration Branch of the Department of Northern Affairs and National Resources in 1955, (this became the Department of Indian Affairs and Northern Development in 1966) and provides an integrated school system for all children in the Territories.</p> <p>As the number of Indian students entering provincial and other schools began boarding in urban centres while following academic or occupational courses, it was recognized that these pupils required special guidance and counselling. Consequently, in 1956 guidance services were introduced for the first time by means of a guidance manual for the use of all teachers instructing Indian students. In addition, a systematic and coordinated testing program was begun. The guidance manual was revised, enlarged, and up-dated in 1967.</p>			1948-1968 Review	Dept. Chief, Educ. Dev. Div.

	Education in Non-Federal Schools				
B.1	<u>Background - National (Cont'd)</u>				
B.1.a	<u>History (Cont'd)</u>				
	Teacher-Counsellors were appointed to the staffs of residential schools in 1960 and a special "Guide" prepared for them. To help the increasing number of counsellors to carry out their duties effectively, a new "Guide for Counsellors" was prepared in 1966 outlining their basic terms of reference. In addition, a training program was developed.				
	By 1968 there were 100 Guidance Counsellors and 50 Vocational Counsellors with responsibilities basically:				
	(i) To help guide students into suitable courses,				
	(ii) To help students adjust to new courses and educational institutions; and				
	(iii) To help students adapt to urban life and to gain the most benefit from their experiences in it.				
B.1.b	<u>Present Situation</u>				
	All high school students attend provincial schools. In 1968/69, 53% of the total Indian population in the provinces was enrolled in provincial schools; Joint schools had increased to 380; and 176 counsellors were counselling Indian students and communities.				
	General agreements have been negotiated with the provinces of British Columbia, New Brunswick and Manitoba.

	Education in Non-Federal Schools		2410-20		
B.2.	<u>Background - Regional</u>				
B.2.a.	<u>History</u>				
	<p>The early beginnings of education of Indians in non-Federal schools saw the enrollment of Indian pupils in Provincial schools in those centres where residential schools were in operation.</p> <p>Up to 1957, the significant enrollment was in the village of Birtle, City of Portage la Prairie and town of Dauphin. The number of pupils was less than one hundred at one time.</p> <p>By 1965, the program had been expanded to the point where aproximately 1700 pupils were enrolled in Provincial schools. The impetus to this expansion was the formation of Provincial school facilities. Large centres, under this plan, were able to construct high schools, with substantial Government capital assistance. This resulted in the closing out of many small high schools of one, two, and three rooms in the former school districts. Thus a surplus of classroom accommodation was available in the school districts and prompted school boards to invite Indian Affairs to participate in joint schooling of pupils at the elementary level.</p> <p>By 1965, education in Federal schools had improved considerably, so that larger number of students were prepared for admission to high schools. These high school students also contributed to the rapid growth of the expansion of education in non-Federal schools.</p> <p>Prior to 1965, tuition payments for pupils in non-Federal schools were made directly to the school boards concerned. These payments amounted only to the tax payers' portion of the operating per pupil costs. They did not provide for the Provincial Government's portion of education costs supported by the grant system.</p>				Reg. Supt. Educ.

CODE	SUBJECT			FILE REF.	SOURCE ADDRESS
	Education in Non-Federal Schools		2410-20		
B.2.	<u>Background - Regional (Cont'd)</u>				
B.2.a.	<u>History (Cont'd)</u>				
	<p>In 1963, the Provincial Minister of Education brought to the attention of the Department the fact that the Province was not being compensated for the education of Indian pupils in non-Federal schools. Therefore, he put a stop to any further agreements between Indian Affairs and school boards, for the enrollment of Indian pupils, until the Department had entered into an agreement with the Province to pay gross per pupil education costs to the Province.</p> <p>By 1965, effective January 1, an agreement was entered into between the Province and Indian Affairs to provide for gross education costs on behalf of Indian pupils enrolled in Provincial schools. These gross costs did not include capital costs for school accommodation or for pupil transportation. Separate agreements were made to cover transportation and capital costs. Agreements on capital costs are known as joint agreements.</p> <p>The expansion of schooling in non-Federal schools reduced the number of Federal school operation in those areas where integrated schooling was possible. The enrollment of Indian pupils in Provincial schools required the expansion of the guidance service.</p> <p>The development of the guidance program had its beginnings around 1960 when residential schools began to provide hostel facilities for Indian students attending Provincial schools. These pupils had to have the services of teachers or trained guidance personnel to assist them in making satisfactory adjustments to the Provincial school system.</p> <p>The first guidance counsellors were appointed to the staff of the student residences. They were to assist with adjustment problems.</p>

	Education in Non-Federal Schools				
B.2.	<u>Background - Regional (Cont'd)</u>				
B.2.a	<u>History (Cont'd)</u>				
	Gradually as the program expanded to private home placements, guidance counsellors were appointed to meet expanding requirements and they were removed from the staff of the student residences. They became accountable to the district school superintendent.				
B.2.b.	<u>Present Situation</u>				
	The first joint agreement in Canada was Number One on the South Indian Lake Joint Schools.				Reg. Supt. Educ.
	To date, there are 55 separate agreements in the Manitoba Region. They have provided accommodation for approximately 4,000 pupil spaces at a cost to March 31, 1969, of \$3,561,747.69. Projects are underway amounting to an additional \$3,066,588.00.				
	The original agreement on tuition provided for payment of \$275.00 per elementary pupil and \$400.00 per high school student.			General Tuition Agreement 1968	
	The agreement revised in 1968 called for a flat rate tuition cost of \$430.00 per pupil.				
	The revision of 1970 provides for flat tuition of \$510.00 per pupil. Terms have been agreed to but the actual agreement has not as yet been signed.				
	Counsellors are located in strategic centres and travel to reserves and Provincial schools where Indian pupils are enrolled. Reserve guidance is largely with parents of students attending school away from home.

B.2.b	<u>Present Situation (Cont'd)</u>				
	Guidance Counsellors are vitally involved with reserve school committees and reserve parents in the process of selecting students for Provincial schools and for admission to student residences.				
	The pure guidance function consists of preparing students for adjustment to Provincial schools. "Adjustment" includes preparation for private home and student residence living, for selection of courses to be pursued in high school and the provision of the achievement of student records to Provincial school systems.				
	The Guidance Counsellor's role also consists in providing statistical information in support of tuition claims by Provincial school boards.				
	Another function they perform is assisting Indian people in entering into agreements for daily transportation of reserve pupils to Provincial schools.

C.1.b.	<p data-bbox="234 519 383 552"><u>Procedure</u></p> <p data-bbox="234 584 1532 925">This program is carried out through negotiations between the Department and individual school boards or districts in most cases - in others, provincial departments of education. When an Indian Band has agreed that the school aged pupils of the Band should attend a provincial school, the District and Regional School Superintendents open negotiations with the appropriate provincial school authority. Through these negotiations, provision is made for the school facilities and program which would meet the needs of the Indian pupils; an estimated cost of such a program is calculated, and a cost sharing arrangement is worked out based on the ratio of the Indian enrollment to the total enrollment. In these negotiations, attention is given to special program needs which the socially disadvantaged Indian pupils may require.</p> <p data-bbox="234 958 1510 1242">School boards in general accept the fees negotiated under agreement with the Provincial Department of Education for gross education costs. Payment of tuition fees is made directly to the Provincial Department of Education three times each year on the submission of claim statements by a school board to a district superintendent for verification and consolidation for transmission to the Department of Education, with copy to the Regional Superintendent of Education. The Provincial Finance Department makes a consolidated claim which is vouchered for payment by Regional Treasury where adequate funds are provided for this purpose in the budget.</p> <p data-bbox="234 1274 1521 1404">Counsellors are appointed in areas of concentrated integrated schooling; the number of counsellors is based on a caseload averaging 70 pupils per counsellor. Areas of concentration are Winnipeg, Portage la Prairie, Brandon, Birtle, Dauphin, The Pas, and Thompson.</p>				<p data-bbox="1766 568 2000 633">Dept. Chief, Educ. Dev. C.1.	<u>Method of Operation - Departmental (Cont'd)</u>				
C.1.b.	<u>Procedure (Cont'd)</u> Guidance services are provided at these locations and at more remote areas, extending into reserves where the service is available to students and parents, who must be informed and give their permission for sending their children away from home for educational purposes. Among the duties counsellors perform is obtaining admission applications for student residences, for private home placement, and liaison with reserve private home placement, and liaison with reserve parents for students who attend from their reserve by daily transportation systems. When students are placed in the various centres for education purposes, constant counselling is made available to the students, and liaison is maintained between the schools and private home parents. Counsellors are also engaged in arranging for pupil transportation in the seasonal movement to and from reserves. The counsellor is responsible to supply and check statistical information on pupils.

	<p>Departmental plans will only be implemented as agreement on the individual components of them is reached through consultation with the appropriate Indian Bands and associations, as well as with Church and other organizations and provincial school authorities. With the appropriate agreement, all Indian children could be enrolled in the provincial system. It is also planned to increase academic achievement and lower the drop-out rate by ensuring counselling service is available to all Indian students. Special orientation, extra-curricular and tutorial services will be purchased as required from Provincial agencies to assist high school students.</p> <p>Guidance counselling will continue to be essential as long as Indian students shall be required to attend schools away from home and feel the need of adjustment to non-Indian communities. The numbers of counsellors will tend to increase with the increase in the numbers of pupils enrolling in Provincial schools.</p>				<p>Dept. Chief, Educ. Dev. Div.</p> <p>Reg. Supt. Educ.</p>

<u>CODE</u>	<u>SUBJECT</u>			<u>FILE</u> <u>REF.</u>	<u>SOURCE</u> <u>ADDRESS</u>
	TRANSPORTATION AND MAINTENANCE OF PUPILS		2520-70		
B:1.	<u>Background - National</u>				
B.1.a.	<u>History</u>				
	In 1948 federal legislation first gave recognition of the need to provide annuity or interest moneys for the maintenance of Indian school children (ages 6-17 years). Not much was done in this regard until after the 1951 Indian Act was passed.				Dept. Chief, Guid. & Spec. Svcs.
	Educational Assistance provides funds to enable Indian students to continue their education when they may have to leave their own homes to do so. Historically, the time came when the increase in both the numbers and the educational advancement of the students meant that the reserve schools were unable to meet the total school requirements for Indian students. Thus, in November 1958, authority was granted for the provision of educational services and facilities to Indian children by the government of a province, the council of the Northwest Territories, the council of the Yukon Territory, a public or separate school board or a religious or charitable organization. At this time authority was also granted to pay on behalf of Indians in training:				
	the cost of tuition, books and supplies;				Dept. Chief, Guid. & Spec. Svcs.
	the cost of transportation for the student from his place of residence to the school and return;				
	the cost of partial or total board and room while attending an institution of learning;				
	the cost of providing the student with a monthly personal allowance to cover carfare, laundry, and other incidental expenditures in connection with his educational training. Subsequently, the cost of providing necessary clothing was also added to this list.

CODE	SUBJECT		2520-70	FILE REF.	SOURCE ADDRESS
	TRANSPORTATION AND MAINTENANCE OF PUPILS				
3.1.	<u>Background - National (Cont'd)</u>				
3.1.b.	<u>Present Situation</u>				
	Currently about 5500 Indian students attending provincial schools are maintained in private homes. Seasonal transportation is provided to about 12,000 pupils and daily transportation to about 37,000. There were 4,502 students receiving allowances in 1969-70 for items such as locker fees, personal hygiene, recreation, etc.				Dept. Chief, Guid. & Spec. Svcs.
3.2.	<u>Background - Regional</u>				
3.2.a.	<u>History</u>				
	Transportation and maintenance of pupils had originally been connected with the movement of pupils (those who were unable to obtain educational service on the reserve due to a number of factors) from reserve to residential schools and student residences.				Reg. Supt. Educ.
	Transportation and maintenance services had also to do with students coming into the city for vocational training.				
	In earlier years of educational operations, maintenance of pupils in private homes was provided to those students proceeding in vocational training. It was not until the major expansion of joint schooling for high school students that it became necessary to resort to the use of private home accommodation for these students.				
	Approximately 525 pupils (in school program) are placed in private homes.				
	Transportation systems developed to keep pace with the expansion of the education program into non-Federal schools from reserve situations. They also kept pace with the consolidation of small reserve schools into large graded school blocks.

B.2.	<u>Background - Regional (Cont'd)</u>				
B.2.a.	<u>History (Cont'd)</u> Mid-day lunches were introduced by the Department as an attempt to supplement the diet of the children attending school. This supplement consisted of enriched biscuits and milk powder. Later students attending residential school classrooms, as day pupils from the reserves, were given mid-day lunches at the residences. The charge was included in the operating costs of the residential schools. Student allowances originated with financial support to students placed in private homes for vocational training. Later they were given to high school students attending Provincial schools from private home placements or from their own homes.				
B.2.b.	<u>Present Situation</u> Under the present system, transportation is contracted to private operators, many of whom are Indians living on reserves. With development of band management and the Grants to Bands program, transportation services have been turned over to the bands for operation, management and administration. A program now provides for allowances for all high school students whether they are lodged in student residences or private homes, or attending high school from the reserve. Allowances are at set rates, but are granted only subject to need.				Reg. Supt. Educ.

	TRANSPORTATION & MAINTENANCE OF PUPILS				
C.1.	<u>Method of Operation - Departmental</u>				
C.1.a.	<u>Purpose</u> To ensure comparable services to Indian students attending non-Federal Schools through the provision of: <ul style="list-style-type: none"> (i) Maintenance of pupils in private homes (ii) Mid-day lunches (iii) Student Allowances (iv) Seasonal transportation (v) Daily transportation 				Dept. Chief, Guid. & Spec. Svcs.
C.1.b.	<u>Procedure</u> While a limited number can be accommodated in Government hostels, accommodation at much lower costs can be provided through the use of private home placement. Senior students prefer private home placements to institutional living. Rates for board and room, clothing and allowances, etc., are paid by the Department from the budgets of the district superintendents. Rates vary with the economy in different sections of the Region. Where necessary, arrangements are made for local transportation between the home and the school. Periodic meetings are held between counsellors and parents, to discuss the solution of any problems that might arise in the adjustment of the pupil to his new home. Students must complete applications for admission to private home placement. Approval rests with the authority of the district school superintendent. Guidance counsellors locate and select suitable homes for these students and arrange for payment. Orientation of the pupil to the private home parents is carried out where time permits. Likewise, orientation of the pupil to his new environment (including the school which he will attend).				Reg. Supt. Educ.

B.1.a	<u>History</u>				
	<p>The Indian Act in 1951 provided for the extension of educational facilities to include secondary and university education. As the expanded education program developed, the adult education programs evolved around the emerging needs of adult Indians across Canada.</p>			1948-68 Review	Dept. Chief, Adult Educ.
	<p>A preliminary survey in 1956 indicated that on approximately one half of all Indian reserves, over 25 per cent of the adult population was either illiterate or semi-literate. As a result, a four point program was initiated in 1957, which included:</p>				
	<p>(i) literacy courses in basic language and computational skills;</p> <p>(ii) continuation classes for those who had had some schooling but wished to raise their educational standing;</p> <p>(iii) trade and vocational short courses to increase the earning power of men and improve homemaking standards of women; and</p> <p>(iv) community improvement, through organized recreation, home beautification, improved sanitation facilities, etc.</p>				
	<p>Classes conducted by local teachers or instructors employed on a part-time basis were held two or three evenings a week, or at times convenient to the participants. The duration of such courses was often contingent upon the availability of staff. In 1957, 146 adult Indians enrolled in literacy programs.</p>

B.1.	<u>Background - National (Cont'd)</u>				
B.1.a.	<u>History (Cont'd)</u>				
	<p>The period of 1958-1964 saw many new developments in adult education. As adult Indians became aware of the opportunities available, enrolment increased from 798 in 1958 to 3,482 in 1964. The Department assisted adult Indians financially to participate in federal and provincial programs. Services of provincial governments and other agencies were purchased, where feasible, to meet emerging needs and increased demand for programs.</p> <p>In 1958, policy was expanded to include upgrading programs aimed at helping out-of-school adolescents and unmarried adults between the ages of 16 and 25 years to prepare for permanent employment off the reserves. Classes were conducted on a full-time basis for a period of six-to-eight months, and included social and vocational orientation training and individual guidance.</p> <p>In May 1962, the Department hired an Adult Education Specialist to assist in the development of a more comprehensive program and to co-ordinate regional efforts.</p> <p>In 1963-64, 71 different courses were organized and operated in 50 Indian communities across Canada, involving 1,070 participants. Courses ranged in content from practical home economics to guiding, fish camp operation, arts and crafts, carpentry, welding and auto mechanics, with a small minority in literacy and continuation classes.</p> <p>The value of the training is reflected in the growth and development of health, welfare and education committees. The number of active school committees had gradually increased from 11 in 1957 to 51 in 1964. In many areas these organizations are a dynamic force for good in the community.</p> <p>The Indian Affairs Branch, through its Social Programs Division, encouraged the establishment of Homemaker Clubs which provide Indian women with the opportunity to meet socially, to increase their homemaking skills, and to take an active part in the solution of community problems. During 1963-64, there were 136 homemaker clubs.</p>

B.1.	<u>Background - National (Cont'd)</u>				
B.1.a	<u>History (Cont'd)</u>				
	<p>In 1965 the Adult Literacy or Basic Education Program was announced. The objective of this program was to provide all adult Indians with a minimum level of education equivalent to Grade 8 in elementary schools.</p> <p>The period from 1965-69 saw further developments in adult education services. As the need arose adult educators and eventually district and regional supervisors of adult education were appointed to assist with the planning, programming and evaluation of programs.</p> <p>The amalgamation of the Indian Affairs Branch with the Northern Administration Branch in December 1968 resulted in an expansion of the adult education staff at Headquarters.</p> <p><u>Libraries</u></p> <p>During the last twenty years, funds, in increasing amounts, were provided for the purchase of library books, for Indian children in federal schools, reaching the sum of \$6.00 per student in 1967/68. In 1967/68, the selection list of books was completely revised and expanded to include a broad choice of materials related to the curricula used in our schools, with special emphasis on books about the native peoples of the Americas. The list was printed by the Queen's Printer on the computer, so that catalogue cards could be run off from the same entries and supplied to the schools. This process enabled the teachers and librarians to organize, circulate and make better use of the books purchased.</p> <p>Opportunities are now being opened for training for school librarians and it was expected that in the fall of 1968 schools of 15 rooms and over will have full-time school librarians and those of 10-15 rooms part-time librarians.</p>

B.1.a.	<u>History (Cont'd)</u>				
	<p>A librarian was hired from 1960-1964, to take books to various Indian communities. In 1967/68 an expanded program of library development was launched. With the co-operation of provincial library agencies and officials, arrangements were made for Indian bands to be included in regional public library systems in the Maritimes, Quebec, Ontario and Saskatchewan. In each case, the band was required to take the initiative in requesting library service, and to contribute a minimum of 10 cents per capita per annum towards this service. The Department, on application, provided a grant of \$1.00 per capita to the band from the Grants to Band Fund (Development Directorate) and these combined funds enabled the Indian band to join the regional or county library in its area, similar to other communities.</p> <p>In the summer of 1967, a pilot project was launched in which five Indian, university students were employed in on-the-job training programs at regional and provincial libraries to give them an opportunity to explore careers in library services and to carry out field work with Indian bands. The program was expanded the following year, and 20-30 Indian, university students were employed in public libraries where their Indian backgrounds were an asset in the development of services to their own people.</p> <p>One band in Ontario and five bands in Saskatchewan had contracted for library services from regional libraries by 1968, and several other contracts were under negotiation. Changes were also being considered in provincial legislation in Manitoba, Alberta and British Columbia so that library services might be made available to Indian Bands.</p>

B.1.	<u>Background - National (Cont'd.)</u>				
B.1.b.	<u>Present Situation (Cont'd.)</u>				
	<p>Trends in literacy programs indicate a significant increase in the number of adult Indians enrolled in basic literacy programs over the past years, indicating an increasing awareness of the value of academic education and how best to apply the benefits to particular needs and aspirations.</p> <p><u>Social Education and Other Services</u> is informal education for men and women as individuals and members of their communities with the object of ensuring for them a more useful and productive life. Programs cover six main categories:</p> <ul style="list-style-type: none"> - skill development - e.g., homemaking, sewing, cooking, carpentry, typing, welding, etc.; - citizenship and leadership training - for leaders involved in local government co-operative management, small business management, sewing, public affairs, Canadian law, etc.; - relocation - e.g., preparation or assistance of families in relocating; - support programs - e.g., housing education for Indian families; and - cultural education - e.g., native handicrafts, history, language, etc. <p>Social Education and Other Services programs are held in co-operation with federal, provincial and university extension Departments, and play an increasingly important role in the development of responsible adult Indians with the ability to participate actively in group or community affairs.</p>

GUIDE CODE	PROGRAM Education	REGION Manitoba	FIN. CODE 2600- 2610-40	DATE Feb. 1971.	UPDATE Annually, April 1
	SUBJECT Adult Education			FILE REF.	SOURCE ADDRESS
B.2.	<u>Background - Regional</u>				
B.2.a.	<u>History</u>				
	Adult Education in Manitoba, up to June 1967, was the responsibility of the District School Superintendents. They were responsible for both the In-school and Post-school programs.			501/23-25 501/25-8-12 501/25-8-11	Reg. Supt. Voc. Educ.
	A re-organization of educational responsibilities took place in July 1967. The Post-school Program became the responsibility of the newly appointed Regional Superintendent of Vocational Training and Special Services.			The Indian Adult Education Program in Manitoba 1968-69	
	Regarding Adult Education, Manitoba was divided into five areas, namely: Brandon-Dauphin District Fisher River-Island Lake District Pas-Nelson-Norway District Clandeboye District Island Lake District				
	A District Supervisor of Adult Education was appointed to each adult education district. Financial decentralization having taken place in the previous year, each District Adult Supervisor became responsible for his own budget and expenditure of funds thereof. It became his responsibility to organize adult courses, employ instructors and provide the necessary supplies to ensure that the courses were conducted to the mutual benefit of all adults participating in these courses.				
	<u>Adult Basic Education Program</u>				
	Adult Basic Education Programs were set up on various reserves. Our statistics indicate that many courses failed after being in operation for several weeks. We attribute the failures to lack of allowances and proper motivation.

B.2.a.	<u>History (Cont'd.)</u>				
	<p>Short term courses as shown on the attached "Statistical Report" were held on the majority of our reserves. Our main objective was to provide the people with the necessary skills so that they would become totally independent in all their ventures. Using our sewing and homemaking courses as an example, Indian women in our area taught these courses to other women in their own particular area. During the 1967-68 fiscal year, thirty Indian women were so employed. Thereafter, these women attended advanced courses in Winnipeg. The purpose here was to increase their knowledge and skill which they would impart to their classes.</p> <p>These are some of the programs which we felt offered the most in training, and differed from Adult Programs that were initiated in earlier years.</p> <p>Up-grading at Fort Osborne Barracks Social Orientation, Basic Literacy and Recreational Courses Adult Education Centre - Winnipeg - 37 Cornish Avenue Substitute teachers course - Heritage School - Kirkfield Park Farm Machinery Operation, servicing and maintenance course - Winnipeg, Fort Osborne Barracks. Native Handicraft Course (Bookkeeping, Business Practice, Formation of Guilds)</p>				Reg. Supt. Voc. Educ.

GUIDE	PROGRAM	REGION	FIN. CODE	DATE	UPDATE
	Education	Manitoba	2600	Feb. 1971	Annually, April 1
CODE	SUBJECT		2610-40	FILE REF.	SOURCE ADDRESS
	Adult Education				
B.2.	<u>Background - Regional (Cont'd.)</u>				
B.2.b.	<u>Present Situation</u>				
	We are fully aware of the importance in the selection of qualified adult supervisors. Pre-requisites are a teaching certificate, five or more years teaching experience in Indian schools, university degree, personal suitability and the ability to relate to Indian people.			501/25-16	Reg. Supt. Voc. Educ.
	<u>In-Service Training</u>				
	In-Service Training to date consists of a four day session at Ninette and a two week course at Elliot Lake, Ontario. A Manitoba Regional Training Committee has been set up and our recommendations include proposed courses relating to all aspects of adult education.				
	Our past and present policy has stressed the full use of workshops. Periodically, the field adult educators are called into Winnipeg and a workshop type of in-service training takes place. At these sessions, all policies and problems are discussed and satisfactory solutions are sought. By doing this, everyone is conscious of departmental policy and future procedures.				
	Conferences that relate to adult education and vocational training are attended by all Adult Supervisors. By doing this, we are able to co-ordinate our programs and propagate new techniques and methods. Increased efficiency in regard to relationship and program co-ordination with our provincial and federal agencies are maintained by attending conferences that directly affect the activities in related fields.				
	<u>Program Planning</u>				
	After consultations with field staff, a revised program planning agenda has been instituted. This new look is very closely inter-related with existing programs and staff evaluation. Periodic workshop type conferences are held to assess the overall results of our program with special emphasis on modifications and improvements in all areas of our adult educational courses.			501/25-16

	Adult Education				
B.2.	<u>Background - Regional (Cont'd.)</u>				
B.2.b.	<u>Present Situation (Cont'd.)</u>				
	We have noted that 80% of our adult courses require the following changes:				
	(i) Time element increased,				
	(ii) Facilities improved,				
	(iii) Trained Indian Instructors,				
	(iv) Basic Literacy extended in all areas,				
	(v) Adult Counselling services be intensified.				
	We may state that we are very optimistic regarding the value of our Adult Education Programs in Manitoba. We feel that much has been accomplished during the past year, and the experience and knowledge gained by all of us on last year's operation will be invaluable in the planning and operation of future adult educational courses stressing community involvement and the training and use of Indian people in the initiation and successful completion of social and basic literacy programs.				
	<u>Vocational Training</u>				
	At the end of last year there were 212 adult education courses given by the Department in Manitoba. This figure is down to 118 at present, as a good portion of funds, at the Regional Director's request, was diverted to the Social Animation Program.			501/25-16	Reg. Supt. Voc. Educ.

F.	<u>Problem Areas</u>				
F.1.	<u>Operational</u>				
	The shortage of supervisory and instructional staff trained in the methods and techniques of adult education limits the effectiveness of programs for adult Indians.				Dept. Chief, Adult Educ.
	Commercially - prepared adult basic education teaching and learning materials have limitations as to their use with adult Indians because of foreign or urban content. Teachers should have the ability to adapt existing materials, or produce materials better suited to the needs and interests of adult Indians.				
	No suitable system for placement or achievement testing of adult Indians has been developed. This is of vital importance as the adult Indian will drop out of programs if not properly placed and kept aware of his progress.				
	Incentives in the form of allowances or promise of employment in the foreseeable future are strong motivational factors in recruiting and holding adult Indians in Adult Basic Education courses, although both will add considerably to the cost of the program.				
	Budget limitations have effected the elimination of some valuable courses and restrained the expansion of others. For examples, the basic Literacy Course was discontinued and the Fort Osborne Program will be shortly discontinued as well for the same reason. The Home Economics Program has been reduced to a part-time operation.				Reg. Supt. Voc. Educ.

B.1.	<u>Background - National</u>				
B.1.a	<u>History</u>				
	<p>Vocational training programs in the period following 1948 show a steady student increase from 41 to just over 2,081 in 1968, exclusive of 225 who were enrolled in universities, colleges of technology, teacher training and nursing training.</p> <p>In 1956, the Department began organizing special courses in cooperation with various Provincial Departments of Education, using provincial vocational facilities.</p> <p>In 1966, the Department of Indian Affairs determined that the training and employment of adult Indian people warranted additional emphasis, and the new Division of Vocational Training and Special Services was created. Previously, the vocational training function was performed on an ad-hoc basis by a variety of people, primarily employed in the field of education. The Placement officers were transferred from the Economic Development Division to the Vocational Training Division. Additional staff were recruited from the teaching ranks and given the title of Vocational Counsellors. In the new Division, the Vocational Counsellors were given responsibility for motivational counselling on reserves, enrolment of adult people in training programs and, to the extent time permitted, involvement in job placement work on a local basis, particularly in summer when training activities ceased.</p> <p>The Placement Officers who are now referred to as Employment Relocation Counsellors have generally been confined to employment activities, however, they have, in some specific instances, become involved in training as well.</p> <p>The Vocational Training and Special Services Division was charged with the prime responsibility for Adult Education, Vocational Training and Employment, which has led to the development of present Post-School Programs.</p>				Dept. Chief, Voc. Educ.

3.2.	<u>Background - Regional</u>				
3.2.a.	<u>History</u>				
	Prior to April, 1967, vocational and special training services were available to Indian people but on a limited scale. Training was funded and administered by the Department.			501/25-8 501/21-2	Reg. Supt. Voc. Educ.
	By April, 1967, both the Department and the Province recognized that the needs of Indian people in respect to vocational and special training services would have to be budgetted for and carried out on a much greater scale.				
	The Province agreed to extend certain services (respecting vocational and special training, and employment and relocation) to Indian people who had been out of the in-school program for at least a year and who wished to enroll in upgrading and various vocational training courses. The Department agreed to be billed by the Province for the extension of these services.				
	The Department retained responsibility for provision of services to those people proceeding directly from the in-school program into vocational training.				
3.2.b.	<u>Present Situation</u>				
	Follows National pattern.				Reg. Supt., Voc. Educ.

C.1.	<u>Method of Operation - Departmental</u>				
C.1.a.	<u>Purpose</u>				
	To assist individuals who are enrolled in any training, including university, which will improve their employability. The program enables the Department to assist those candidates who are not eligible for the Occupational Training Assistance program. These include:				Dept. Chief, Voc. Educ.
	(i) Candidates who do not meet the one year gap for training eligibility or the after-school gap for allowance eligibility;				
	(ii) Candidates who do not have a clearly defined vocational goal;				
	(iii) Candidates whose training program extends over 52 weeks; and				
	(iv) Students who are involved in a continuing education program such as university or professional training.				
C.1.b.	<u>Procedure</u>				
	For those persons not eligible for Occupational Training Assistance, the Department purchases available training from the province or from private institutions. Assistance consists of payment of tuition fees, books and supplies transportation to and from the course, and a training allowance equivalent to that paid by OTA while the trainee is on course. Where the course is in excess of four months, assistance is provided for the family to accompany the trainee supplemented by a clothing allowance based on need.				Dept. Chief, Voc. Educ.

E.	<u>Existing Agreements</u> Since April 1967 an agreement has existed between the Federal Government and the Government of the Province of Manitoba whereby Vocational Opportunity Services (counselling and financial assistance to persons in upgrading, formal vocational training, special vocational training, employment and relocations) are provided to Indian people of Manitoba. These services are rendered by the Province which in turn bills the Federal Government. While the agreement was drawn up, it was never signed, but the terms therein have been honoured nevertheless.			501/42-1-1 501/21-2 (Memo of Agreement Respecting Employment Placement Services for Indians)	Reg. Supt. Educ.
F.	<u>Problem Areas</u>				
F.1.	<u>Operational</u> A need exists at present, and is likely to continue for some time, for special and enriched post-school programs for adult Indian people. Provision has to be made for the continuance and expansion of such programs. This is particularly imperative if the Indian people are to be prepared to make important decisions and assume the increased responsibilities which are anticipated. The Department of Indian Affairs and Northern Development offers a very comprehensive service to Indian people through the post-school division. Continuation of such a program at a level comparable to the present service will require that any agency assuming the responsibility either: (i) Assume it as a continuing special service to Indian people, or, (ii) broaden its present programs to provide the same level of service to its total clientele as is presently being provided to Indian people through the post-school division of this Department.

F.	<u>Problem Areas (Cont'd)</u>				
F.1.	<u>Operational (Cont'd)</u> Budget limitations have effected the elimination of some valuable courses and restrained the expansion of others. For examples, the basic Literacy Course was discontinued and the Fort Osborne Program will be shortly discontinued as well for the same reason. The Home Economics Program has been similarly reduced to a part-time operation. Relations with other Federal and with Provincial departments have been carefully cultivated to facilitate the overall effectiveness of our post-school program. These good relations must be maintained to ensure continued success.				Reg. Supt. Voc. Educ.

B.1.	<u>Background - National</u>				
B.1.a.	<u>History</u>				
	<p>This program was initiated in 1957 under the jurisdiction of the Welfare Division, with the appointment of a Placement Officer in each of the four cities of Vancouver, Edmonton, Winnipeg and Toronto. In 1959 a Senior Placement Officer position was established at Headquarters and Placement Officers were employed in each region.</p> <p>The initial focus of the program was the selection and establishment of suitably qualified young Indians in the centres where the regional placement specialists were located.</p> <p>In early 1960, the placement function was transferred to the newly formed Economic Development Division. The job title was changed from Placement Officer to Development Officer with added responsibilities in the development areas. The original idea of restricting activity to carefully selected qualitative placements was considerably diluted, and Placement Officers became increasingly engaged in a wider variety of programs, including seasonal group movements, winter works programs and other activities not related to selective employment.</p> <p>On April 1, 1967, the placement program was consolidated with Vocational Training under the Education Directorate to form the Vocational Training and Special Services Division. Development Officer titles were changed to Employment Relocation Counsellors.</p> <p>The number of placements in jobs other than those of a seasonal nature, has increased from about 100 in 1957/58 to over 2,760 in 1967/68. In connection with seasonal employment, which is chiefly agricultural, the number reached over 9,300 in the same year. By September 1967, 107 families with 417 dependents had been relocated.</p>				Dept. Head, Employ. & Reloc.

B.1.	<u>Background - National (Cont'd)</u>				
B.1.b.	<u>Present Situation</u>				
	At the present time, there is a Supervisor of Employment for each region, except Ontario, and 46 Employment Relocation Counsellors in the field. At Headquarters, there is one person who heads up this program.				Dept. Head, Employ. & Reloc.
	In 1969-70, the employment relocation service placed 5,697 in regular employment and 6,292 in short-term employment. Business school graduates requiring office experience prior to placement in permanent positions are employed in government offices and paid an allowance of \$43.00 per week as in-service trainees. There were 218 trainees under this program in 1969-70. A total of 269 persons received training under a similar program in which the Department contributes up to 50 per cent of the wages for a period of up to 52 weeks. Relocation assistance enabled 502 families living in areas of marginal opportunity to move and find permanent employment. Included in the assistance provided, is a \$1,000 furniture grant for those moving to urban areas under the Off-Reserve Housing program.			Senate Brief on Poverty 1970	
B.2.	<u>Background - Regional</u>				
B.2.a.	<u>History</u>				
	The extent of relocation responsibility attached to the education division in this Region, with minor exceptions, has been to provide furnishing grants to successful applicants under the Off-Reserve Housing Program.			501/29-2-3	Reg. Supt. Educ.
	Regarding placement, the Department has secured summer employment for high school and university students. Also, in regard to placement, the Department has secured employment for those persons who took their training under the Department's auspices.			501/23-35

C.1.	<u>Method of Operation - Departmental</u>				
C.1.a.	<u>Purpose</u>				
	The purpose of the Employment and Relocation Operation is:				Dept. Head, Employ. & Reloc.
	(i) <u>Placement</u> To assist Indians to move into regular or seasonal employment through referrals to Canada Manpower Centres or through direct placement, and by providing them with financial assistance and supportive counselling.				
	(ii) <u>Relocation</u> To resettle Indian families from reserves to centres of training or employment and to assist them in becoming permanently established in the new community.				
	(iii) <u>In-Service Training</u> To provide students who have graduated from business or commercial schools with work experience in order to enable them to compete for employment.				
	(iv) <u>On-the-Job Training</u> To assist Indian graduates from vocational schools who require some work experience to enable them to obtain permanent employment. It is also intended to assist Indians who do not have higher academic qualifications to obtain employment in semi-skilled areas of industry.				
C.1.b.	<u>Procedure</u>				
	When employment is not available through the Manpower Centre, the Employment Relocation Counsellor conducts an intensive job search by contacting employers, unions, and other community resources and interpreting to them the special needs of the Indian workers.				Dept. Head, Employ. & Reloc.

C.1.	<u>Method of Operation - Departmental (Cont'd)</u>				
C.1.b.	<u>Procedure (Cont'd)</u>				
	<p>In the case of relocation for training, families may be assisted to resettle if the training course is in excess of four months duration.</p> <p>When a family is moved into employment, the costs are met by Canada Manpower through their Mobility Grants Program, if the applicant qualifies. If not, the Department may match such grants of Canada Manpower and, in addition, provide further assistance by way of a Special Contingency Grant up to a maximum of \$3,500.</p> <p>Rather than a program, relocation is the total process of activities, starting with a person or a family on the reserve, following through to employment in a new community. This process in which the Employment Relocation Counsellor is involved, can be classified into a number of distinct components as follows:</p> <ul style="list-style-type: none"> - motivation and selection; - orientation and preparation on reserve; - physical move from reserve to training or employment centre; - preparation of receiving community; - housing accommodation in receiving community; - arrangements for training; - placement in employment; - liaison with community services; - education arrangements for children; - family counselling; - follow-up counselling; and - research and analysis.

	To be completed by Dec. 31, 1972.				
D.2.	<u>With Indian and Other Organizations</u>				
	To be completed by Dec. 31, 1972.				
E.	<u>Existing Agreements</u>				
	An agreement exists between the Federal Government and the Government of the Province of Manitoba whereby Vocational Opportunity Services (counselling and financial assistance to persons in upgrading, formal vocational training, special vocational training, employment and relocations) are provided to Indian people of Manitoba. These services are rendered by the Province which in turn bills the Federal Government. While the agreement was drawn up, it was never signed; the terms therein have been honoured. The agreement has been in effect since April 1967.				Reg. Supt. Voc. Educ.
F.	<u>Problem Areas</u>				
F.1.	<u>Operational</u>				
	A scarcity of adequate housing and supportive services across the country hinders increased mobility of Indians to areas of higher employment opportunity.				Dept. Head, Employ. & Reloc.
	Limited labour market.				
	Movement to off-reserve living without adequate pre-move counselling.				
	Lack of marketable skills among Indian workers.				
	Frequent returns to the Reserve.				
	Inadequate family income from usual type of employment taken up by Indian people, to cope with urban living costs.

B.1.	<u>Background - National</u>				
B.1.a.	<u>History</u>				
	<p>Early education of Indians was given in Residential Schools administered largely by the various churches. From 1892 to April 1, 1969, the churches operated the residence program on the basis of a per-pupil grant. In 1968, the Department of Justice ruled that residence employees, though recruited and nominally employed by the Church organizations were, in effect, Crown employees. For this reason, the management and administration of all except four residences were transferred to the Department on April 1, 1969.</p> <p>During the initial two year period of the Department's management of student residences, administrators and child care workers, though public employees were exempt from the provisions of the Public Service Employment Act. In this first two year period, the Department contracted with the Churches to continue their responsibility for the recruitment and nomination of administrators and child care workers.</p> <p>In 1948, 45 percent of the 20,161 Indians attending school, resided in 73 student residences, whereas in 1968, only 9,071 or 14% of the 66,217 Indian students lived in 62 student residences.</p> <p>The need for the residential schools has diminished as a result of additional day school facilities, improved roads and housing, increased provincial welfare services for orphan and neglected children and boarding home services for high school students.</p> <p>Increasingly, the residential schools are becoming hostels which will provide boarding facilities only for pupils enrolled in either provincial or federal day schools. At those residential schools which continue to operate classroom facilities, the classrooms are being separated from the dormitory accommodation and will be administered in the same manner as Federal Day Schools.</p>	Review 1948-68. B.1.	<u>Background - National (Cont'd)</u>																												
B.1.b.	<u>Present Situation</u>																												
<p>There are 50 student residences in use, 47 operated by the Department, and three continuing to be operated by the Roman Catholic Church by means of per-pupil grants from the Department. Regional breakdown of residence enrollment is as follows:</p> <table border="1"> <thead> <tr> <th>Region</th> <th>No. of Residences</th> <th>Total Enrollment</th> </tr> </thead> <tbody> <tr> <td>British Columbia</td> <td>14</td> <td>2,023</td> </tr> <tr> <td>Alberta</td> <td>8</td> <td>827</td> </tr> <tr> <td>Saskatchewan</td> <td>8</td> <td>1,330</td> </tr> <tr> <td>Manitoba</td> <td>8</td> <td>860</td> </tr> <tr> <td>Ontario</td> <td>6</td> <td>851</td> </tr> <tr> <td>Quebec</td> <td>6</td> <td>1,035</td> </tr> <tr> <td>Total</td> <td>50</td> <td>6,926</td> </tr> </tbody> </table> <p>Approximately one-third of all admissions to school residences are for reasons of problems in the home. As a result of careful screening, larger numbers of children are now attending nearby schools. The ratio of admissions of children from problem homes is, however, on the increase, and one immediate effect is the pressure on the residence program for greater child care expertise in terms of trained child care workers and program supervisors.</p> <p>There is concern therefore, that the residence services be appropriately staffed and directed. There are approximately 450 child care workers, most of whom require further training in this line of work. Since the transfer to the Department in April 1969, a recruitment policy was developed which emphasizes hiring of child care workers with proper qualifications.</p> <p>The per-pupil grants for church operated residences are determined in agreement with the churches and are approved by the Assistant Deputy Minister.</p>					Region	No. of Residences	Total Enrollment	British Columbia	14	2,023	Alberta	8	827	Saskatchewan	8	1,330	Manitoba	8	860	Ontario	6	851	Quebec	6	1,035	Total	50	6,926	Dept. 3.2.a.	<u>History (Cont'd)</u> In addition to these 11 schools, there was one church-operated residence at Jack River in the Norway House Agency. Commencing with 1967, when Norway Residential School was closed, there has been a continuing trend to close out the operation of the residential schools. The closing of Norway House was followed by the closing the Jack River, In 1969 Cross Lake and Pine Creek were closed. In 1970, June 30th, Sandy Bay and Fort Alexander closed. The remaining residences will become student residences rather than schools. In June, 1970, Birtle was closed.				
3.2.b.	<u>Present Situation</u> Since April 1, 1969, the budgeting and financial management of these residences has become a Regional responsibility, with decentralization to the education district management centres.

	<u>Category V</u> -Students who require a period of adjustment to urban living before he can manage in a private boarding home in the community; and				
	<u>Category VI</u> -No suitable private boarding home is available in the area in which the appropriate school is located.				
	For students up to 14 years of age, categories 1, 2, 3 and 4 apply. For students 15 years and over, categories 3, 4, 5 and 6 apply.				
	The operation of student residences is carried out by the residence administrator and his staff of child care workers, domestic and maintenance staff.				
	Students are in the residence from September to June, and some may return home weekends, Christmas, or Easter. Some residences have classrooms attached which are used by resident students and others living in the locality, and the administration of the school is independent of the residence operation. Where there are no classrooms attached to the residence, students will travel to the local Federal or Provincial school. Greater responsibility for the requisitioning of supplies is being assumed by District Offices. Residence Administrators are responsible to the District Supervisor, the District School Superintendent or to the Regional Superintendent of Education.

C.1.b.	<u>Procedure (Cont'd)</u>				
	<p>The engagement of domestic staff is made on the recommendation of the student administrator but the actual appointment is carried out through the processing by the Regional Personnel Advisor. Purchasing of food and clothing is carried out by a clerk on the staff of the residence. Major purchases of equipment and furnishings are processed through the district school superintendents, utilizing the services of the Department of Supply and Services. Responsibility for minor repairs is delegated by the district school superintendent to the student residence administrator who utilizes the services of his maintenance employee to carry out the repairs. Major repairs are carried out in a manner similar to that of day schools.</p> <p>If Government vehicles are in operation, the student administrator is authorized to have a credit card for operation and servicing of the Government vehicle. He is not permitted to use a Government credit card if he operates his private vehicle on a mileage charge basis. Travel is restricted to the Headquarters area of the school. Permission is required to travel outside the area.</p> <p>All residences are Government-owned and their maintenance to required standards of health and safety are a responsibility of the Government.</p> <p>Purchases are made by the student residence administrator. In most cases on standing offer agreements, negotiated by the Department of Supply and Services, a certain amount of leeway is permitted for local purchases.</p> <p>Food preparation services are a part of the establishment of a student residence.</p>

F.1.	<u>Operational</u>				
	The main areas of difficulty are lack of trained staff in financial management, and personnel administration. This problem is being tackled by good selection standards, many on the job, workshops and formal training courses for adminis- trators and support staff. Also the per capita grants for food, clothing, extra-curricular activities do not meet present needs or standards and should be abandoned for a straight budgetary control system of functioning. F.	<u>Problem Areas (Cont'd)</u>				
F.3.	<u>Attitudinal</u>				
	<p>The residential schools have a significant place in the history of Indian people and none of these institutions is going to disappear without some serious questioning. It can be expected that proposals to close residences will be attended by some anxiety on the part of the Indian communities served by the residences. Thus, in proposing the closing of any residence, a period of time will have to be planned for consultation and to allow parents and Indian communities to consider and make recommendations on alternative proposals which may be more suited to the needs of today's children.</p> <p>Indian communities can also have an interest in the residence as an institution which reinforces cultural identity; where Indian children may continue in school with little or no conflict about their identity, and less concern about the way they see and do things than they might have in a non-Indian setting. Contemplated closure of a residence must recognize that Indian people are deeply concerned that their young people are enabled to share in and preserve their heritage.</p>				<p>Dept. Head, Stud.
