LIST OF TABLES

<u>VOLUME</u>	<u>TABLE NUMBER</u>
---------------	-------------------------

POPULATION AND GENERAL INFORMATION

- | | | |
|---|---|---|
| I | 1 | POPULATION AND FAMILY UNITS, 1968-69
By total population and number of family units;
on-reserve, off-reserve and on Crown Land. |
| | 2 | POPULATION DISTRIBUTION, DECEMBER 1968
By age groups and sex; on-reserve, off-reserve,
on Crown Land, and unstated. |
| | 3 | GENERAL CHARACTERISTICS OF INDIAN BANDS, 1969
By number of chiefs and councillors, main languages
spoken, existence of school committees, representation
on non-Indian school boards, and number of joint
agreements with school authorities. |
| | 4 | BAND ADMINISTRATIVE CHARACTERISTICS, 1969
By bands operating under Section 68, number of
continuing band employees, and band funds. |

EDUCATION

- | | | |
|--|---|--|
| | 5 | ENROLMENT OF INDIAN STUDENT, 1969-70
By grade, federal or non-federal school, student
residence, boarding home, and living at home. |
| | 6 | ENROLMENT OF INDIAN STUDENTS IN POST-SECONDARY EDUCATION,
1969-70
By university, other professional courses, vocational
training, adult education, in service training, and
on-the-job training. |

HOUSING

- | | | |
|--|---|--|
| | 7 | HOUSES ON RESERVES OR CROWN LAND, OCCUPIED BY INDIAN
PEOPLE, DECEMBER 1969
By total number, square footage, and period during
which they were built. |
| | 8 | NUMBER OF ROOMS IN HOUSES OCCUPIED BY INDIAN PEOPLE, ON
RESERVES OR CROWN LAND, DECEMBER 1969
By number of rooms. |
| | 9 | PRINCIPAL FACILITIES IN HOUSES OCCUPIED BY INDIAN PEOPLE, ON
RESERVES OR CROWN LAND, DECEMBER 1969
By number with electricity, sewer and septic tanks,
running water, indoor bath and toilet, outdoor toilet,
and telephone. |

VOLUME TABLE
 NUMBER

HOUSING (continued)

- 10 REPAIRS NEEDED ON HOUSES AND NEW HOUSES REQUIRED ON
RESERVES OR CROWN LAND OCCUPIED BY INDIAN PEOPLE
 By number of houses requiring the following
 improvements during the fiscal year 1970-71:
 electrical wiring, water supply, indoor bath,
 indoor toilet; by those requiring major repair;
 by the estimated number of new houses required
 by 1975; and by estimated costs.
- 11 BUILDINGS ON RESERVES, CROWN LAND, OR SETTLEMENT,
DECEMBER 1969
 By number of buildings, type, and whether Indian-
 owned, non-Indian owned, or federally owned.
- 12 ROADS ON RESERVE LAND, 1969
 By mileage and whether asphalt, gravel, or unimproved.
- 13 PRINCIPAL UTILITIES ON RESERVES, 1969
 By source of electricity and water; sewer facilities;
 and presence of fire fighting equipment.
- 14 LEASES ON RESERVE LAND, 1969
 By number and type of lease, acreage, and estimated
 revenue.
- 15 CURRENT USE OF RESERVE LAND, 1969
 By acreage and classification.

AGRICULTURAL, COMMERCIAL, AND RESOURCE ACTIVITIES

- 16 AGRICULTURAL ACTIVITIES ON RESERVES, 1969
 By acreage and type of farming
- 17 LIVESTOCK ON RESERVES, 1969
 By number of rotating herds and type of stock
- 18 FARM MACHINERY ON RESERVES
 By number of trucks, tractors and combines.
- 19 COMMERCIAL ENTERPRISES AND NATURAL RESOURCE ACTIVITIES, 1969
 By type of activity, ownership and number of band
 Indians employed.

INCOME AND EMPLOYMENT

- II 20 INDIAN PEOPLE LIVING ON RESERVES AND RECEIVING ALLOWANCES
AND/OR PENSIONS, 1969
 By amount of payment received and type of allowance.

VOLUME TABLE
 NUMBER

INCOME AND EMPLOYMENT (continued)

- 21 INDIAN PEOPLE LIVING ON RESERVES AND RECEIVING WELFARE
 ASSISTANCE, 1969
 By amount of payment received and totals receiving social
 assistance, child care and maintenance services, adult
 maintenance and rehabilitation services.
- 22 INDIAN PEOPLE LIVING ON RESERVES AND RECEIVING SOCIAL
 ASSISTANCE PAYMENTS, 1969
 By amount of payment received, heads of families and
 number of dependents.
- 23 ESTIMATED MAN-YEARS OF EMPLOYMENT OF INDIAN PEOPLE LIVING
 ON RESERVES, 1969
 By sex.
- 24 ESTIMATES OF INDIAN PEOPLE LIVING ON RESERVES AND HAVING
 FULL TIME EMPLOYMENT, 1969
 By sex and whether working on or off reserve.
- 25 INDIAN PEOPLE WITH EARNED INCOME, LIVING ON RESERVES, 1969
 By income groups

Introduction

The Survey of Indian Bands and Reserves was conducted in Ontario during the summer of 1970. The primary reason for conducting this survey was to gather accurate and up-to-date information from the principal source for each band and reserve in a standardized form in order to serve the demands of Departmental managers for planning and development purposes.

The data presentation from this survey is by: population and general information; education; housing; buildings, roads, and services; land use; agriculture, commerce and resource activities; and income and employment. For each of these categories there are further sub-classifications, with each having a summary for the region and district/agency and supporting tables by band and reserve where appropriate. To provide useful descriptive information, notes and definitions are attached.

Methodology

The Survey of Indian Bands and Reserves was designed in 1969 with the objective of obtaining basic data on the Indians of Canada which would serve to meet the demands of Departmental managers for purposes of planning and development.

The design of the questionnaire was carried out in close co-operation with program managers and field tests were conducted in Ontario and Manitoba in August 1969. Following evaluation, the Maritimes Region was surveyed in a full-scale pilot project in October 1969. As a result of the success of that project, the Departmental Statistics Division was asked to survey the remaining regions by the summer of 1970. Funds and positions were provided by the Indian Consultation and Negotiation Group.

For the survey, a team of six specialist was hired, most of whom have had experience in this Department in such fields as education, administration, community development and economic development. In carrying out the survey, one or more specialists visited each agency and district office within the region to complete the questionnaire. Most of the information was available from office records but much useful data came from discussions with the superintendents and their staff. In some cases, a discussion with band chiefs and administrators was necessary and useful.

The results of the survey have been tabulated in a simple basic format and in a variety of ways to meet needs of the users. In its present form some simple comparisons can be made. However, most tables are designed so that data can be readily extracted and combined with other information for comparisons, compilation and analysis. The format of the tables thus allows flexibility to make available data from such fields as demography, education, community affairs and economic development to all branches in the Department and to other interested persons.

This information will be stored in one location, the Departmental Statistics Division, Ottawa, and be made available to anyone on request. Copies of the printed material will also be provided to users.

Reliability of Data

To provide consistency on a specific time period and approach has not been possible. All statistics relate to a twelve month period 1969 unless otherwise specified on the headings or by footnotes. The exceptions are in data dealing with education, population, and welfare and allowance payments.

The following are special notes on reliability of information by category:

1. Population and General Information

For The total population and number of family units on-reserve, off-reserve and on Crown land are based on records. The population data are taken from the Band Membership Section, Indian-Eskimo Affairs Program. Since 1969 data could not be obtained in time, 1968 figures have been used. Also, since the Indian population has a high degree of mobility to and from a reserve, the place of residence is really an estimate for the year. The number of family units are taken from the Registered Indian Band lists, from the biennial Housing Survey and from estimates from agency/district staff. The general and administrative characteristics are mainly from files.

2. Education

Education statistics originate from files at the education districts and are based on 1969-70 school year.

3. Housing

Housing on reserve or Crown land, occupied by Indian people by square footage and time period in which built are estimates from agency/district staff. The number of rooms in houses and principal facilities in houses are from the housing survey. The improvement and major repair statistics are based on estimates from agency/district staff.

4. Buildings, Roads and Services

The inventory of buildings on reserve, on Crown land or settlement are from records and knowledgeable agency/district staff. The roads and utilities data are from records.

5. Land Use

The inventory of leases is based on well-documented records. Data on current use of reserve lands are taken from files and staff estimates.

6. Agriculture, Commerce and Resource Activity

Most of this information is recorded, but some are from discussions with the agency/district staff.

7. Income and Employment

The number of Indian people receiving social assistance payment, pensions or other assistances are estimates based on discussions with agency/district office staff, and band chiefs or administrators. The time period is the fiscal year April 1st, 1968 to March 31st, 1969, and adjustments are made to comply with the 1969 year. Employment and income data are from knowledgeable agency/district staff or band chiefs or administrators.

Comments and Definitions

1. Comments

In the tables, blanks in columns indicate a nil return. Where it was impossible to obtain data, N/A is used to indicate not available. In cases where all the entries in a column are not available, the column has been left blank and N/A has been put in the total row.

Since information is not available for some reserves and since portions of the questionnaire do not apply to others, only those reserves with relevant information are listed.

In cases where reserves or facilities are shared, the figures are listed with each band but are counted only once for the district and regional summaries. Consequently, the district totals will, in such cases, not be equal to the sum of the rows.

In the case of table 13 (Principal Utilities on Reserves), a regional summary has not been prepared because the type of data which has been collected for presentation in this table cannot be aggregated to provide meaningful statistics for the region.

Applying Only to Ontario

"Indians of Locality" have not been included in the survey because it was impossible to obtain information about them.

The Magnetawan band in the Manitoulin Island agency has not been included because the band consists of only a few persons and to include it would infringe upon their rights to confidentiality.

2. Definitions

Section 68

Section 68 of the Indian Act states that the band may manage in whole or in part its revenue money.

Joint Agreements

Joint Agreements are agreements made between the Department of Indian Affairs and Northern Development and a Provincial Department of Education or School Board for capital contributions towards the construction of a school to be attended by an agreed number of Indian pupils.

Family Unit

- (i) The family, according to the Census of Canada definition, is defined as consisting of a husband and wife (with or without children who have never married) or a parent, with one or more children never married, living together in the same dwelling. Adopted children and step children are counted as own children, as are guardianship children under 21 years of age, but once a child is married he or she ceases to be considered a part of the parent's family, even though living in the same household.
- (ii) Guardianship children are considered as family members: Unmarried grandchild, or nephew, etc., under 21 years of age living not with the parents, but with a grandparent or uncle, etc., are considered as family members, even though their relationship may be "grandchild" "nephew", etc.

Single Person Family

A single person family is a person living alone, living with unrelated individuals (as loggers, employees or partners), or living with relatives but not in a husband-wife or parent-child (including guardianship child) relationship. Non-family persons are regarded as one-person families.

Head of a Family

- (i) Normally the Head of a family represents a family unit. Therefore the total number of the Heads of Family who received social assistance during 1969 are included in the item "No. of Families".
- (ii) Number of Dependents: "Dependents" are in accordance with the "Income Tax Return Guide".

Education

- (i) Vocational and Upgrading Courses: Vocational and upgrading courses are courses operated by agencies such as the Department of Manpower and Immigration. They can last anywhere from a few weeks to a year or more and include such courses as machine operator, hairdresser, waitress, barber, etc.
- (ii) Basic Education Courses: Basic Education Courses are upgrading courses offered to Adult Indians. They are generally operated by the Department rather than Manpower and cover lower levels of instruction as well as the levels operated by Manpower.
- (iii) In-Service Training: In-Service training is job training provided for Indians within the Department of Indian Affairs and Northern Development.
- (iv) Training on-the-Job: Training on-the-job is job training provided for Indians with employers other than the Department.

Housing

Major Repairs: Major repair, rehabilitation and improvement is where the estimated cost of the work exceeds 25 percent of the cost of rehabilitation of an asset or element of an asset to original standards, or any additions to the original assets.

Income and Employment

- (i) Occupational Classification: Occupations are classified under group titles, mainly according to the kind of processes performed and the material worked upon, though certain classes take into consideration training and skill, tools and equipment used and for working environment, etc. All persons are classified according to the nature of their work regardless of the kind of establishment in which it is carried on or their status in that establishment. For example, a motor vehicle repairman is classified to the occupational class "mechanics and repairmen, motor vehicle" whether he works for a motor vehicle repair shop, a trucking firm, a factory or a store, and whether he owns his own repair shop or works for someone else. The group of "Labourers, n.e.s." (not elsewhere specified), includes workers in "unskilled" operations except those engaged in the operations of farming, fishing, logging or mining (except in quarries and petroleum and gas wells). The "Labourers, n.e.s." class also excludes the other specified categories of "longshorement and other freight handlers" and "sectionmen and trackmen". Further details may be obtained from the "Occupational Classification Manual", Census of Canada, 1961, Catalogue No. 12-506.
- (ii) Full-Time or Part-Time Worker: A person who usually worked 50 weeks or more during the year is defined as a full-time worker. A person who worked 49 weeks or less during the year is regarded as a part-time worker.

Transfer Payments

1. Welfare Assistance

- (i) Social Assistance: Any form of aid to or in behalf of persons in need for the purpose of providing basic requirements such as food, shelter, clothing, and household incidentals.
- (ii) Care and Maintenance of Children: The Indian Affairs Branch assumes financial responsibility for both the administrative and maintenance costs of Indian children who are placed in the care of welfare agencies or foster homes.
- (iii) Maintenance and Rehabilitation Services: Federal-provincial agreements provide services to disabled or other vocationally disadvantaged individuals, training of rehabilitation personnel and research and publicity.

2. Categorical Allowances

A. Federal

- (i) Family Allowances: Allowances are payable in respect of every child under 16 years of age. Payment is made by cheque each month, normally to the mother.

Rates: \$6.00 for each child under 10
\$8.00 for each child aged 10 or over but under 16
- (ii) Youth Allowances: Monthly allowances of \$10.00 are payable in respect of all dependents aged 16 and 17 who are receiving full-time educational training or are precluded from doing so by reason of physical or mental disability.
- (iii) (a) Old Age Security: The Federal Government pays a monthly pension to all persons who meet the necessary residence and age qualifications. In 1969, it was payable to all those 66 and over and from 1970 to those 65 and over. In 1969, the pension, \$78.00 a month, was payable to a person of attained age who had resided in Canada for 10 years immediately before the approval of his application for pension.
- (b) Guaranteed Income Supplement: An amendment to Old Age Security Act (December 1966) provides for the payment of a monthly guaranteed income supplement to Old Age Security pensioners who have little or no income other than the pension. In 1969 the maximum amount payable was \$31.20 a month.
- (iv) Unemployment Insurance: The Unemployment Insurance Act makes provision for a compulsory contributory unemployment insurance program at the national level. The amount of the employee contribution is determined by the employee's weekly earnings; an equal contribution is required from the employer.

- (iv) War Veteran's Allowance: The War Veteran's Allowance Act provides an allowance to otherwise qualified war veterans who, because of age or infirmity, are no longer able to derive maintenance from employment. Widows and orphans of qualified veterans are also eligible for benefits.
- (vi) Workmen's Compensation: In all provinces legislation provides for payment of compensation to workmen who are disabled as a result of a specified industrial disease.

A Federal Act provides for compensation for accidents to Federal Government employees according to the scale of benefits provided by the Act of the province in which the employee is usually employed. Seamen who are not under a provincial Workmen's Compensation Act are entitled to compensation under the Federal Merchant Seamen Compensation.

B. Provincial

- (i) Old Age Assistance: The Old Age Assistance of 1951, as amended, provides for federal reimbursement to the provinces for assistance to persons aged 65 or over who are in need and who meet the 10 years' residence and income requirements. A recipient is transferred to Old Age Security on reaching the eligible age point.
- (ii) Allowances for Blind Persons: Blind Persons' Act (1951) provides for the payment of \$75.00 a month to blind persons aged 18 or over who meet the 10 years' residence and income requirements.
- (iii) Allowances for Disabled Persons: The Disabled Persons' Act (1954) provides for the payment of \$75.00 a month of permanently disabled persons aged 18 or over who are in need and who meet the required definitions of "permanent and total disability", the 10 years' residence requirement and specified income limits.

TABLE 1

POPULATION AND FAMILY UNITS
