

A Heritage Gem to be Preserved

The Cap Tourmente National Wildlife Area was created in 1978 to protect the Bulrush marsh ecosystem that is used by migrating Greater Snow Geese.

This 23 km² protected area includes vast stretches of marshes, swamps, agricultural plains and forests. The Cap Tourmente National Wildlife Area is recognized as a wetland of international importance by the Ramsar Convention.

An impressive rocky upland on the shores of the St. Lawrence River, Cap Tourmente is home to more than 180 bird species, 700 plant species and some 30 mammal species.

Several remnants from the past testify to more than 400 years of farming, making it one of Canada's founding sites.

Awaken your five senses and come discover, savour and protect this national treasure!

The Cap Tourmente National Wildlife Area is part of a national network of 146 protected areas managed by Environnement et Climate Change Canada's Canadian Wildlife Service. This network ensures the protection of wild species, namely migratory birds, species at risk and their habitats.

Practical Advice

Environnement et Climate Change Canada offers safe facilities to visitors and provides information on the inherent risks of activities in natural areas. You are responsible for following posted instructions and for properly planning your visit in order to ensure your own safety.

- Wear hiking boots and weather-appropriate clothing, and protect yourself from the sun.
- Bring a snack and water (water in the waterways may be unsuitable for drinking).
- Avoid encounters with black bears: make noise! Read the notices and inform personnel of any bear sightings.
- Bring insect repellent.
- In cases of emergency:
 - National Wildlife Area staff: 418-827-4591
 - Cellphone: 911

A Highly Protected Territory!

This symbol shows the boundaries of the National Wildlife Area. The plants and wildlife found there are protected. Please respect the regulations in effect. Wildlife enforcement officers monitor activities within the National Wildlife Area.

Come Discover the Beauty!

Take advantage of the available services and activities, and discover the beauty of the National Wildlife Area.

MAY TO OCTOBER:

- 20 km of walking trails
- Interpretation centre: information, exhibits and audiovisual presentations
- Discovery tools: Nature Rally with GPS, geocaching, historical trail, binoculars, bird identification guide
- Guided nature activities
- Picnic areas

JANUARY TO MARCH:

- 6 km of winter walking trails
- Bird feeder network
- Heated rest station

By complying with these regulations, you are contributing to the conservation of wild species and their habitats as well as the preservation of species at risk.

Access to the National Wildlife Area is prohibited outside the posted visiting hours.

Respect the Visitor Code of Ethics

- Find out about trail accessibility and seasonal conditions.
- Stay on the trails and respect the access and conservation zones.
- Bring back your garbage and dispose of it in the garbage cans.
- Look at the plants without picking them.
- Respect other visitors and the natural environment.
