ABOUT COSEWIC

COSEWIC MANDATE

The Committee on the Status of Endangered Wildlife in Canada (COSEWIC) determines the national status of wild species, subspecies, varieties, and nationally significant populations that are considered to be at risk in Canada. Designations are made on all native species for the following taxonomic groups: mammals, birds, reptiles, amphibians, fish, lepidopterans, molluscs, vascular plants, mosses, and lichens.

COSEWIC MEMBERSHIP

COSEWIC comprises members from each provincial and territorial government wildlife agency, four federal agencies (Canadian Wildlife Service, Parks Canada Agency, Department of Fisheries and Oceans, and the Federal Biosystematics Partnership, chaired by the Canadian Museum of Nature), three nonjurisdictional members and the co-chairs of the species specialist and the Aboriginal Traditional Knowledge subcommittees. The Committee meets to consider status reports on candidate species.

DEFINITIONS

Species	Any indigenous species, subspecies, variety, or geographically defined population of wild fauna and flora.
Extinct (X)	A species that no longer exists.
Extirpated (XT)	A species no longer existing in the wild in Canada, but occurring elsewhere.
Endangered (E)	A species facing imminent extirpation or extinction.
Threatened (T)	A species likely to become endangered if limiting factors are not reversed.
Special Concern (SC)*	A species of special concern because of characteristics that make it particularly sensitive to human activities or natural events.
Not at Risk (NAR)**	A species that has been evaluated and found to be not at risk.
Data Deficient (DD)***	A species for which there is insufficient scientific information to support status designation.

* Formerly described as "Vulnerable" from 1990 to 1999, or "Rare" prior to 1990.

** Formerly described as "Not In Any Category", or "No Designation Required."

*** Formerly described as "Indeterminate" from 1994 to 1999 or "ISIBD" (insufficient scientific information on which to base a designation) prior to 1994.

SUMMARY TABLES

COSEWIC Species designated in the five "risk" categories and in the NOT AT RISK and DATA DEFICIENT categories

Table 1. Summary of list 1: COSEWIC list of species at risk. Results include the November 2002 meeting.

CATEGORY / STATUS	EXTINCT	EXTIRPATED	ENDANGERED	THREATENED	SPECIAL CONCERN	TOTALS
Mammals	2	4	19	15	23	63
Birds	3	2	21	8	22	56

* Explanation of terms on following page.

COSEWIC LISTS

The lists that follow are organized by status category and then by taxonomic group. An explanation of the symbols and abbreviations is provided below. For each species, the information provided includes the common name, scientific name, population name, and range of occurrence in Canada (by province/territory/ocean). The most recent date of examination by COSEWIC is shown, and symbols provide information on the outcome of status re-examinations (e.g., uplisting, downlisting) and the basis of re-examination for species evaluated against the new quantitative criteria. For birds, range of occurrence includes the Canadian breeding and wintering distribution.

The first COSEWIC "Endangered Species List" was issued in 1978. In 1990, it was decided that all species considered by COSEWIC should be listed even if the species were "not at risk" or "data deficient." Therefore, this document is divided into three separate lists. List 1 includes species designated as Extinct, Extirpated, Endangered, Threatened or Special Concern. List 2 includes species examined and designated in the Not at Risk category. List 3 includes species examined and designated in the Data Deficient category because of insufficient scientific information. All three lists include the geographical occurrence and most recent date of examination.

EXPLANATION OF SYMBOLS

Re-assessments and new species

- ↑ Species placed in a higher risk category (uplisted) after re-examination on the date shown.
- ↓ Species placed in a lower risk category (downlisted) after re-examination on the date shown.
- <> Species stays in the same risk category (no change) after re-examination on the date shown.
- ✓ Species moved to the Not at Risk category from a risk category (de-listed) on the date shown.
- Species moved to the Data Deficient Category from a risk category, or to a risk category from the Data Deficient Category (changed), on the date shown.
- (no arrow) New species examined on the date shown.

Evaluation with COSEWIC's new quantitative criteria

COSEWIC has recently begun using quantitative criteria to assess species' risk of extinction. These criteria were adapted from the criteria used by the World Conservation Union (IUCN) and have been used by COSEWIC since May 2002.

Δ or Δ⁺ Assessment based on a new status report or an update status report. A plus sign (+) indicates the report has an addendum.

Δ or Δ⁺ Species re-assessed using an existing status report. A plus sign (+) indicates the report has an addendum or that the report has been modified slightly.

Geographical occurrence abbreviations

AB Alberta	NS Nova Scotia	QC Québec
BC British Columbia	NT Northwest Territories	SK Saskatchewan
MB Manitoba	NU Nunavut	YT Yukon Territory
NB New Brunswick	ON Ontario

RECORD OF STATUS RE-EXAMINATIONS

RECORD OF STATUS RE-EXAMINATIONS. A short history is provided for each species that has been re-examined by COSEWIC, including date(s) of examination and the status assigned. In October 1999 COSEWIC began using quantitative criteria to augment the earlier method of using status definitions to assign status. For species assessed since October 1999, the type of status report used as the basis for re-examination is indicated. Update reports focus on changes in the biological and threat information that has become available since the last time a report was prepared. For some species, COSEWIC deemed the existing report suitable for re-examination in the short-term.

Acadian Flycatcher

Designated Endangered in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Allegheny Mountain Dusky Salamander

Designated Special Concern in April 1998. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report with an addendum.

American Badger

Designated Not at Risk in April 1979. Original Canada-wide listing de-activated in May 2000 when the American Badger was split according to subspecies.

American Black Bear

Designated Not at Risk in April 1998. Status re-examined and confirmed in April 1999.

American Ginseng

Designated Threatened in April 1988. Status re-examined and uplisted to Endangered in April 1999. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

American Marten (Newfoundland population)

Designated Not at Risk in April 1979. Status re-examined and uplisted to Threatened in April 1986. Status re-examined and uplisted to Endangered in April 1996. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

American Water-willow

Designated Threatened in April 1984. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

American White Pelican

Designated Threatened in April 1978. Status re-examined and de-listed (Not at Risk) in April 1987.

Anticosti Aster

Designated Threatened in April 1990. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

Athabasca Thrift

Designated Threatened in April 1981. Status re-examined and downlisted to Special Concern in April 1999. Status re-examined and confirmed in May 2002. Last assessment based on an existing status report.

Atlantic Walrus (Northwest Atlantic population)

Extirpated around 1850. Designated Extirpated in April 1987. Status confirmed in May 2000. Last assessment based on an existing status report.

Atlantic Whitefish

Designated Endangered in April 1984. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Aurora Trout

Designated Endangered in April 1987. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

Baird's Sparrow

Designated Threatened in April 1989. Status re-examined and de-listed (Not at Risk) in April 1996.

Banff Longnose Dace

Extinct since 1986. Designated Extinct in April 1987. Status confirmed in May 2000. Last assessment based on an existing status report.

Banff Springs Snail

Designated Threatened in April 1997. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report.

Barn Owl

Canadian range was considered as a whole when the Barn Owl was designated as Special Concern in April 1984. In April 1999, COSEWIC assessed the Western and Eastern populations of this species separately. The original listing for the Canadian range of the Barn Owl was de-activated.

Barn Owl (Eastern population)

Canadian range was considered as a whole when the Barn Owl was designated as Special Concern in April 1984. In April 1999, COSEWIC assessed the Western and Eastern populations of this species separately. The Eastern population was designated Endangered. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Barn Owl (Western population)

Canadian range was considered as a whole when the Barn Owl was designated as Special Concern in April 1984. In April 1999, the Western and Eastern populations of this species were assessed separately. The Western population was designated Special Concern. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

Bashful Bulrush

Designated Special Concern in April 1986. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an update status report.

Bearded Owl-clover

Designated Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Beluga Whale (St. Lawrence River population)

Designated Endangered in April 1983. Status re-examined and confirmed in April 1997.

Benthic Hadley Lake Stickleback

Extinct in 1999. Designated Extinct in April 1999. Status confirmed in May 2000. Last assessment based on an existing status report.

Benthic Paxton Lake Stickleback

Designated Threatened in April 1998. Status re-examined and confirmed in April 1999. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report.

Benthic Vananda Creek Stickleback

Designated Threatened in April 1999. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report.

Bering Wolffish

Designated Special Concern in April 1989. Status re-examined in November 2002 and changed to Data Deficient. Last assessment based on an update status report.

Bird's-foot Violet

Designated Threatened in April 1990. Status re-examined and uplisted to Endangered in May 2002. Last assessment based on an update status report.

Black Ratsnake

Designated Threatened in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Black Tern

Designated Not at Risk in April 1988. Status re-examined and confirmed in April 1996.

Black-footed Ferret

Extirpated by 1974. Designated Extirpated in April 1978. Status confirmed in May 2000. Last assessment based on an existing status report.

Blackstripe Topminnow

Designated Special Concern in April 1985. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

Black-tailed Prairie Dog

Designated Special Concern in April 1978. Status re-examined and confirmed Special Concern in April 1988, April 1999 and in November 2000. Last assessment based on an existing status report.

Blue Ash

Designated Threatened in April 1983. Status re-examined and downlisted to Special Concern in November 2000. Last assessment based on an update status report.

Blue Racer

Designated Endangered in April 1991. Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

Blue Walleye

Extinct since 1965. Designated Extinct in April 1985. Status confirmed in May 2000. Last assessment based on an existing status report.

Blue Whale

Canadian range was designated Special Concern in April 1983. In May 2002, the species was split into two populations: Blue Whale (Atlantic population) and Blue Whale (Pacific population). The Atlantic population and the Pacific populations were both designated Endangered in May 2002. The original listing for Blue Whale was de-activated.

Bluehearts

Designated Threatened in April 1985. Status re-examined and uplisted to Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Blunt-lobed Woodsia

Designated Threatened in April 1994. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report.

Bowhead Whale (Eastern and Western Arctic Populations)

Designated Endangered in April 1980. Split into two populations (Eastern Arctic and Western Arctic) to allow a separate designation for the Western Arctic population in April 1986. Original listing was de-activated.

Bridle Shiner

Designated Special Concern in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report with an addendum.

Brindled Madtom

Designated Special Concern in April 1985. Status re-examined and de-listed (Not at Risk) in May 2001. Last assessment based on an update status report.

Buffalograss

Designated Special Concern in April 1998. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report.

Burrowing Owl

Designated Threatened in April 1979. Status re-examined and confirmed in April 1991. Status re-examined and uplisted to Endangered in April 1995. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

Butler's Gartersnake

Designated Special Concern in April 1999. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report.

Canada Lynx

Designated Not at Risk in April 1989. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

Caribou *dawsoni* subspecies

Extinct by the 1920's. Designated Extinct in April 1984. Status confirmed in May 2000. Last assessment based on an update status report.

Caspian Tern

Designated Special Concern in April 1978. Status re-examined and de-listed (Not at Risk) in April 1999.

Central Stoneroller

Designated Special Concern in 1985. Status re-examined and de-listed (Not at Risk) in 1998.

Channel Darter

Designated Threatened in April 1993. Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

Climbing Prairie Rose

Designated Special Concern in April 1986. Status re-examined and uplisted to Threatened in May 2002. Last assessment based on an update status report.

Coastal Wood Fern

Designated Special Concern in April 1998. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

Coeur d'Alène Salamander

Designated Special Concern in April 1998. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report with an addendum.

Colicroot

Designated Threatened in April 1988. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Common Hoptree

Designated Special Concern in April 1984. Status re-examined and uplisted to Threatened in November 2002. Last assessment based on an update status report.

Cooper's Hawk

Designated Special Concern in April 1983. Status re-examined and de-listed (Not at Risk) in April 1996.

Cougar (Eastern population)

Designated Endangered in April 1978. Status re-examined in April 1998 and designated Data Deficient.

Cowichan Lake Lamprey

Designated Special Concern in April 1986. Status re-examined and confirmed in April 1998. Status re-examined and uplisted to Threatened in November 2000. Last assessment based on an existing status report.

Crooked-stem Aster

Designated Special Concern in April 1999. Status re-examined and uplisted to Threatened in May 2002. Last assessment based on an update status report.

Cucumber Tree

Designated Endangered in April 1984. Status re-examined and confirmed Endangered in April 1999 and in May 2000. Last assessment based on an existing status report.

Cultus Pygmy Sculpin

Designated Special Concern in April 1997. Status re-examined and uplisted to Threatened in November 2000. Last assessment based on an existing status report.

Deepwater Cisco

Extinct since 1952. Designated Extinct in April 1988. Status confirmed in May 2000. Last assessment based on an existing status report.

Deerberry

Designated Threatened in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Deltoid Balsamroot

Designated in April 1996 as Endangered. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

Dense Blazing Star

Designated Special Concern in April 1988. Status re-examined and uplisted to Threatened in May 2001. Last assessment based on an update status report.

Drooping Trillium

Designated Endangered in April 1996. Status re-assessed and confirmed in May 2000. Last assessment based on an existing status report.

Dwarf Wedgemussel

Extirpated by 1968. Designated Extirpated in April 1999. Status confirmed in May 2000. Last assessment based on an existing status report.

Eastern Bluebird

Designated Special Concern in April 1984. Status re-examined and de-listed (Not at Risk) in April 1996.

Eastern Fox Snake

Designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Eastern Hog-nosed Snake

Designated Special Concern in April 1997. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report.

Eastern Loggerhead Shrike

Entire Canadian range designated as Threatened in April 1986. Split according to subspecies in April 1991. The *migrans* subspecies was uplisted to Endangered in April 1991. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Eastern Mole

Designated Special Concern in April 1980. Status re-examined and confirmed Special Concern in April 1998 and in November 2000. Last assessment based on an existing status report.

Eastern Mountain Avens

Designated Endangered in April 1986. Status re-examined and confirmed Endangered in April 1999 and May 2000. Last assessment based on an existing status report.

Eastern Prickly Pear Cactus

Designated Endangered in April 1985. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

Eastern Sand Darter

Designated Threatened in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an existing status report with an addendum.

Eastern Spiny Softshell Turtle

Designated Threatened in April 1991. Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

Eastern Wolf

Designated Data Deficient in April 1999. Status re-examined in May 2001 and designated Special Concern. Last assessment based on an update status report.

Eastern Yellow-breasted Chat

Designated Special Concern in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Eelgrass Limpet

Extinct since 1929. Designated Extinct in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Engelmann's Quillwort

Designated Endangered in April 1992. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

Enos Lake Sticklebacks

Designated Threatened in April 1988. Split into two species when re-examined in November 2002: Benthic Enos Lake Stickleback and Limnetic Enos Lake Stickleback. The original listing was de-activated. Last assessment based on an update status report.

Ermine *haidarum* subspecies

Designated Special Concern in April 1984. Status re-examined and uplisted to Threatened in May 2001. Last assessment based on an update status report.

Eskimo Curlew

Designated Endangered in April 1978. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an update status report.

False Hop Sedge

Designated Threatened in April 1997. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report.

Fernald's Braya

Designated Threatened in April 1997. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

Fernald's Milk-vetch

Designated Special Concern in April 1997. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

Ferruginous Hawk

Designated Threatened in April 1980. Status re-examined and downlisted to Special Concern in April 1995.

Flammulated Owl

Designated Special Concern in April 1988. Status re-examined and confirmed Special Concern in April 1999 and in November 2001. Last assessment based on an existing status report.

Fowler's Toad

Designated Special Concern in April 1986. Status re-examined and uplisted to Threatened in April 1999. Status re-examined and confirmed in November 2000. Last assessment based on an existing status report with an addendum.

Frosted Elfin

Extirpated by 1988. Designated Extirpated in April 1999. Status confirmed in May 2000. Last assessment based on an existing status report.

Furbish's Lousewort

Designated Endangered in April 1980. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

Gattinger's Agalinis

Designated Endangered in April 1988. Status re-examined and confirmed in April 1999 and in May 2001. Last assessment based on an existing status report that was modified.

Giant Helleborine

Designated Threatened in April 1984. Status re-examined and downlisted to Special Concern in April 1998.

Golden Crest

Designated Threatened in April 1987. Status re-examined and confirmed Threatened in April 1999 and in May 2000. Last assessment based on an existing status report.

Golden Eagle

Designated Not at Risk in April 1987. Status re-examined and confirmed in April 1996.

Golden Paintbrush

Designated Threatened in April 1995. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report with an addendum.

Goldenseal

Designated Threatened in April 1991. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

Gravel Chub

Last recorded in Thames River drainage, ON in 1958. Designated Endangered in April 1985. Status re-examined and uplisted to Extirpated in April 1987. Extirpated status confirmed in May 2000. Last assessment based on an existing status report.

Great Auk

Believed to be Extinct since 1844. Designated in April 1985 based on historic records only. Status report prepared and approved by COSEWIC in 1994. Status confirmed in May 2000. Last assessment based on an existing status report.

Great Basin Spadefoot

Designated Special Concern in April 1998. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report.

Great Grey Owl

Designated Special Concern in April 1979. Status re-examined and confirmed in April 1990. Status re-examined and de-listed (Not at Risk) in April 1996.

Great Plains Toad

Designated Special Concern in April 1999. Status re-examined and confirmed. Special Concern in May 2002. Last assessment based on an existing status report.

Greater Prairie-Chicken

Last reported in 1987. Designated Endangered in April 1978. Status re-examined and uplisted to Extirpated in April 1990. Status re-confirmed in May 2000. Last assessment based on an existing status report.

Greater Sage-grouse *phaeos* subspecies

Has not been reported since the 1960's. Designated Extirpated in April 1997. Extirpated status confirmed in May 2000. Last assessment based on an existing status report.

Greater Sage-grouse *urophasianus* subspecies

Given conditional designation of Threatened in April 1997. Status re-examined and uplisted to Endangered in April 1998 based on a revised status report. Status re-examined confirmed Endangered in May 2000. Last assessment based on an existing status report.

Grey Fox

Designated Special Concern in April 1979. Status re-examined and uplisted to Threatened in May 2002. Last assessment based on an update status report.

Grey Whale (Atlantic population)

Extirpated before the end of the 1800's. Designated Extirpated in April 1987. Status confirmed in May 2000. Last assessment based on an existing status report.

Grizzly Bear

Canadian range considered as one population and designated Not at Risk in April 1979. Split into two populations in April 1991 (Prairie population and Northwestern population). Original listing for "Grizzly Bear" across Canada de-activated.

Grizzly Bear (Northwestern population)

Canadian range considered as one population and designated Not at Risk in April 1979. Split into two populations in April 1991 (Prairie population and Northwestern population). Northwestern population designated Special Concern in April 1991. The status was re-examined and confirmed in May 2002. Last assessment based on an update status report.

Grizzly Bear (Prairie population)

Canadian range considered as one population and designated Not at Risk in April 1979. Split into two populations in April 1991 (Prairie population and Northwestern population). Prairie population designated Extirpated in April 1991. Status re-examined and confirmed in May 2000 and in May 2002. Last assessment based on an update status report.

Gyr Falcon

Designated Not at Risk in April 1978. Status re-examined and confirmed in April 1987.

Hairy Prairie-clover

Designated Threatened in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

Harbour Porpoise (Northwest Atlantic population)

Designated Threatened in April 1990. Status re-examined and confirmed in April 1991.

Harlequin Duck (Eastern population)

The Eastern population was designated Endangered in April 1990. Status re-examined and downlisted to Special Concern in May 2001. Last assessment based on an update status report.

Heart-leaved Plantain

Designated Endangered in April 1985. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

Henslow's Sparrow

Designated Threatened in April 1984. Status re-examined and uplisted to Endangered in April 1993. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Hoary Mountain-mint

Designated Endangered in April 1986. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

Hooded Warbler

Designated Threatened in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Hotwater Physa

Designated Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Humpback Whale (Western North Atlantic and North Pacific populations)

The "Western North Atlantic and North Pacific populations" were given a single designation of Threatened in April 1982. Split into two populations in April 1985 (Western North Atlantic population and North Pacific population). Original listing was de-activated.

Illinois Tick-trefoil

No site records since 1888. Designated Extirpated in April 1991. Extirpated status confirmed in May 2000. Last assessment based on an existing status report.

Island Marble

Extirpated by 1910. Designated Extirpated in April 1999. Status confirmed in May 2000. Last assessment based on an existing status report.

Ivory Gull

Designated Special Concern in April 1979. Status re-examined and confirmed in April 1996 and in November 2001. Last assessment based on an existing status report.

Juniper Sedge

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Karner Blue

Has not been observed since 1991. Designated Extirpated in April 1997. Extirpated status confirmed in May 2000. Last assessment based on an existing status report.

Kentucky Coffee-tree

Designated Threatened in April 1983. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Killer Whale (North Pacific "resident" populations)

Designated Threatened in April 1999. The Killer Whale (North Pacific "resident" populations) was de-activated in November 2001 when it was split into two populations: Killer Whale (Northeast Pacific northern resident population) and Killer Whale (Northeast Pacific southern resident population). Last assessment based on an existing status report with an addendum.

Killer Whale (Northeast Pacific transient population)

Designated Special Concern in April 1999. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report with an addendum.

Killer Whale (Northwest Atlantic / Eastern Arctic populations)

Designated Data Deficient in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report with an addendum.

King Rail

Designated Special Concern in April 1985. Status re-examined and uplisted to Endangered in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Kirtland's Warbler

Designated Endangered in April 1979. Status re-examined and confirmed in April 1999 and in May 2000. Last assessment based on an existing status report.

Labrador Duck

Believed to be Extinct since 1875. Designated in April 1985 based on historic records only. Status report prepared and approved by COSEWIC in 1994. Status confirmed in May 2000. Last assessment based on an existing status report.

Lake Chubsucker

Designated Special Concern in April 1994. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report with an addendum.

Lake Utopia Dwarf Smelt

Designated Threatened in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Lake Whitefish (Mira River population)

Designated Data Deficient in April 1999 and in November 2000. Last assessment based on an existing status report.

Large Whorled Pogonia

Designated Endangered in April 1986. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

Least Bittern

Designated Special Concern in April 1988. Status re-examined and confirmed in April 1999. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report.

Leatherback Turtle

Designated Endangered in April 1981. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

Lewis's Woodpecker

Designated Special Concern in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

Limnetic Hadley Lake Stickleback

Extinct in 1999. Designated Extinct in April 1999. Status confirmed in May 2000. Last assessment based on an existing status report.

Limnetic Paxton Lake Stickleback

Designated Threatened in April 1998. Status re-examined and confirmed in April 1999. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report.

Limnetic Vananda Creek Stickleback

Designated Threatened in April 1999. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report.

Loggerhead Shrike

Entire Canadian range was designated as Threatened in April 1986. The *excubitorides* and the *migrans* subspecies were designated separately in April 1991, and the original listing was de-activated.

Long-billed Curlew

Designated Special Concern in April 1992. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

Long's Braya

Designated Endangered in April 1997. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

Longjaw Cisco

Extinct since 1975. Designated Extinct in April 1985. Status confirmed in May 2000. Listing was de-activated in May 2002 because it was concluded that this species is a synonym of the Shortjaw Cisco, *Coregonus zenithicus*, which was designated as Threatened in 1987. Last assessment based on an update status report.

Louisiana Waterthrush

Designated Special Concern in April 1991. Status re-examined and confirmed in April 1996.

Mackenzie Hairgrass

Designated Special Concern in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

Marbled Murrelet

Designated Threatened in April 1990. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Margined Madtom

Designated Threatened in April 1989. Status re-examined in May 2002 and placed in the Data Deficient category. Last assessment based on an update status report.

Maritime Ringlet

Designated Endangered in April 1997. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Massasauga

Designated Threatened in April 1991. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

Mexican Mosquito-fern

Designated Threatened in April 1984. Status re-examined and confirmed in April 1998 and in May 2000. Last assessment based on an existing status report.

Monarch

Designated Special Concern in April 1997. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

Morrison Creek Lamprey

Designated Threatened in April 1999. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report.

Mountain Beaver

Designated Not at Risk in April 1984. Status re-examined and uplisted to Special Concern in April 1999. Status re-examined and confirmed as Special Concern in November 2001. Last assessment based on an existing status report.

Mountain Plover

Designated Endangered in April 1987. Status re-examined and confirmed November 2000. Last assessment based on an update status report.

Narwhal

Designated Not at Risk in April 1986. Status re-examined and confirmed in April 1987.

Nodding Pogonia

Designated Threatened in April 1988. Status re-examined and uplisted to Endangered in April 1999. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

Nooksack Dace

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Northern Abalone

Designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Northern Bottlenose Whale (Scotian Shelf population)

Designated Special Concern in April 1996. Status re-examined and uplisted to Endangered in November 2002. Last assessment based on an existing status report with an addendum.

Northern Cricket Frog

Designated Endangered in April 1990. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

Northern Goshawk *laingi* subspecies

Designated Special Concern in April 1995. Status re-examined and uplisted to Threatened in November 2000. Last assessment based on an update status report.

Northern Leopard Frog (Southern Mountain population)

Designated Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Northern Leopard Frog (Western Boreal/Prairie populations)

Designated Special Concern in April 1998. Status re-examined and confirmed in November 2002. Last assessment based on an existing status report.

Northern Madtom

Examined in April 1993 and placed in the Data Deficient category. Re-examined in April 1998 and designated Special Concern. Status re-examined and uplisted to Endangered in November 2002. Last assessment based on an existing status report with an addendum.

Northern Red-legged Frog

Designated Special Concern in April 1999. Status re-examined and confirmed in May 2002. Last assessment based on an existing status report.

Northern Riffleshell

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

Northern Spotted Owl

Designated Endangered in April 1986. Status re-examined and confirmed in April 1999 and in May 2000. Last assessment based on an existing status report.

Nuttall's Cottontail *pinetis* subspecies

Designated Not at Risk in 1994. Status re-examined and confirmed in April 1994.

Oregon Spotted Frog

Designated Endangered in an emergency listing in November 1999. Status re-examined and confirmed in May 2000. Assessment based on a new status report.

Pacific Giant Salamander

Designated Special Concern in April 1989. Status re-examined and uplisted to Threatened in November 2000. Last assessment based on an update status report.

Pacific Sardine

Designated Special Concern in April 1987. Status re-examined and de-listed (designated Not at Risk) in May 2002. Last assessment based on an update status report.

Pacific Water Shrew

Designated Threatened in April 1994. Status re-examined and confirmed Threatened in May 2000. Last assessment based on an existing status report with an addendum.

Paddlefish

Disappeared from Canada in approximately 1917. Designated Extirpated in April 1987. Status confirmed in May 2000. Last assessment based on an existing status report.

Pallid Bat

Designated Special Concern in April 1988. Status re-examined and uplisted to Threatened in May 2000. Last assessment based on an update status report.

Passenger Pigeon

Believed to be Extinct since 1914. Designated in April 1985 based on historic records only. Status report prepared and approved by COSEWIC in 1994. Status confirmed in May 2000. Last assessment based on an existing status report.

Peary Caribou

The Canadian range of the Peary Caribou was considered as a whole in April 1979 and designated Threatened. In April 1991, the population was split to allow designation of three separate populations (Banks Island, High Arctic and Low Arctic populations). The original listing was de-activated.

Peregrine Falcon *anatum* subspecies

Designated Endangered in April 1978. Status re-examined and downlisted to Threatened in April 1999. Status re-assessed and confirmed Threatened in May 2000. Last assessment based on an existing status report.

Peregrine Falcon *pealei* subspecies

Designated Special Concern in April 1978. Status re-examined and confirmed in April 1999 and in November 2001. Last assessment based on an existing status report.

Peregrine Falcon *tundrius* subspecies

Designated Threatened in April 1978. Status re-examined and downlisted to Special Concern in April 1992.

Phantom Orchid

Designated Special Concern in April 1992. Status re-examined and uplisted to Threatened in May 2000. Last assessment based on an update status report.

Pink Coreopsis

Designated Endangered in April 1984. Status re-examined and confirmed Endangered in April 1999 and in May 2000. Last assessment based on an existing status report.

Pink Milkwort

Designated Endangered in April 1984. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

Piping Plover

Entire Canadian population designated Threatened in April 1978. Status re-examined and uplisted to Endangered in April 1985. In May 2001, the species was re-examined and split into two groups according to subspecies. The *melodus* subspecies and *circumcinctus* subspecies were each designated Endangered in May 2001. The original listing for the entire Canadian population was de-activated.

Pitcher's Thistle

Designated Threatened in April 1988. Status re-examined and uplisted to Endangered in April 1999. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

Pixie Poacher

Designated Data Deficient in April 1991. Status re-examined and de-activated in November 2001. Last assessment based on an update status report.

Plains Pocket Gopher

Designated Special Concern in April 1979. Status re-examined and de-listed (Not at Risk) in April 1998.

Plymouth Gentian

Designated Threatened in April 1984. Status re-examined and confirmed in April 1999 and in May 2000. Last assessment based on an existing status report.

Polar Bear

Designated Not at Risk in April 1986. Status re-examined and uplisted to Special Concern in April 1991. Status re-examined and confirmed as Special Concern in April 1999 and in November 2002. Last assessment based on an existing status report with an addendum.

Prairie Falcon

Designated Not at Risk in April 1978. Status re-examined and confirmed in April 1982 and in April 1996.

Prairie Long-tailed Weasel

Designated Threatened in April 1982. Status re-examined and de-listed (Not at Risk) in April 1993.

Prairie Lupine

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Prairie Warbler

Designated Special Concern in April 1985. Status re-examined and de-listed (Not at Risk) in April 1999.

Prothonotary Warbler

Designated Special Concern in April 1984. Status re-examined and uplisted to Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Pugnose Minnow

Designated Special Concern in April 1985. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

Pugnose Shiner

Designated Special Concern in April 1985. Status re-examined and uplisted to Endangered in November 2002. Last assessment based on an update status report.

Purple Twayblade

Designated Threatened in April 1989. Status re-examined and uplisted to Endangered in April 1999. Status re-examined and confirmed as Endangered in May 2001. Last assessment based on an existing status report that was modified.

Pygmy Short-horned Lizard (British Columbia population)

Last reported in 1898. Designated Extirpated in April 1992. Status confirmed in May 2000. Last assessment based on an existing status report.

Queen Snake

Designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Rayed Bean

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Red Mulberry

Designated Threatened in April 1987. Status re-examined and uplisted to Endangered in April 1999. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

Redroot

Designated Threatened in April 1994. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Red-shouldered Hawk

Designated Special Concern in April 1983. Status re-examined and confirmed in April 1996.

Right Whale

Designated Endangered in 1980. Status re-examined and confirmed Endangered in April 1985 and in April 1990.

Rigid Apple Moss

Designated Threatened in April 1997. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report with an addendum.

River Redhorse

Designated Special Concern in April 1983. Status re-examined and confirmed in April 1987.

Roseate Tern

Designated Threatened in April 1986. Status re-examined and uplisted to Endangered in April 1999. Endangered status re-examined and confirmed in October 1999. Last assessment based on an existing status report.

Ross's Gull

Designated Special Concern in April 1981. Status re-examined and confirmed in April 1996. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report.

Rosyface Shiner (Manitoba population)

Designated Special Concern in April 1994. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report.

Round-leaved Greenbrier (Great Lakes Plains population)

Designated Threatened in April 1994. Status re-examined and confirmed in May 2001. Last assessment based on an existing status report with an addendum.

Sage Thrasher

Designated Endangered in April 1992. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Salish Sucker

Designated Endangered in April 1986. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

Savannah Sparrow *princeps* subspecies

Designated Special Concern in April 1979. Status re-examined and confirmed Special Concern in May 2000. Last assessment based on an update status report.

Scarlet Ammannia

Designated Endangered in April 1999. Status re-examined and confirmed in May 2001. Last assessment based on an existing status report.

Sea Mink

Believed Extinct since 1894. Designated Extinct in April 1986. Status confirmed in May 2000. Last assessment based on an existing status report.

Sea Otter

Designated Endangered in April 1978. Status re-examined and confirmed Endangered in April 1986. Status re-examined and downlisted to Threatened in April 1996. Status re-examined and confirmed Threatened in May 2000. Last assessment based on an existing status report.

Seaside Birds-foot Lotus

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Seaside Centipede

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Sharp-shinned Hawk

Designated Not at Risk in April 1986. Status re-examined and confirmed in April 1997.

Sharp-tailed Snake

Designated Endangered in April 1999. Status re-examined and confirmed in October 1999. Last assessment based on an existing status report.

Shorthead Sculpin

Designated Threatened in April 1984. Status re-examined and confirmed Threatened in May 2001. Last assessment based on an update status report.

Showy Goldenrod

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Shumard Oak

Designated Special Concern in April 1984. Status re-examined and confirmed in April 1999.

Silver Chub

Designated Special Concern in April 1985. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

Silver Shiner

Designated Special Concern in April 1983. Status re-examined and confirmed in April 1987.

Skinner's Agalinis

Designated Endangered in April 1988. Status re-examined and confirmed Endangered in April 1999 and in May 2000. Last assessment based on an existing status report.

Slender Bush-clover

Designated Endangered in April 1986. Status re-examined and confirmed Endangered in April 1999 and in May 2000. Last assessment based on an existing status report.

Slender Mouse-ear-crex

Designated Endangered in April 1992. Status re-examined and downlisted to Threatened in May 2000. Last assessment based on an update status report with an addendum.

Small White Lady's-slipper

Designated Endangered in April 1981. Status re-examined and confirmed in April 1999 and in May 2000. Last assessment based on an existing status report.

Small Whorled Pogonia

Designated Endangered in April 1982. Status re-examined and confirmed in April 1998 and in May 2000. Last assessment based on an existing status report.

Small-flowered Lipocarpha

Designated Threatened in April 1992. Status re-examined and uplisted to Endangered in November 2002. Last assessment based on an update status report.

Small-flowered Sand-verbena

Designated Threatened in April 1992. Re-examined and uplisted to Endangered in November 2002. Last assessment based on an update status report.

Soapweed

Designated Special Concern in April 1985. Status re-examined and uplisted to Threatened in May 2000. Last assessment based on an update status report.

Southern Maidenhair Fern

Designated Endangered in April 1984. Status re-examined and confirmed in April 1998 and in May 2000. Last assessment based on an existing status report.

Speckled Dace

Designated Special Concern in April 1980. Status re-examined and uplisted to Endangered in November 2002. Last assessment based on an update status report.

Spotted Gar

Designated Special Concern in April 1983. Status re-examined and confirmed Special Concern in April 1994. Status re-examined and uplisted to Threatened in November 2000. Last assessment based on an existing status report.

Spotted Sucker

Designated Special Concern in April 1983. Status re-examined and confirmed in April 1994 and in November 2001. Last assessment based on an existing status report with an addendum.

Spotted Wintergreen

Designated Endangered in April 1987. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

Sprague's Pipit

Designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Spring Blue-eyed Mary

No site records since 1954. Designated Extirpated in April 1987. Extirpated status confirmed in May 2000. Last assessment based on an existing status report.

Spring Salamander

Designated Special Concern in April 1999. Status re-examined and confirmed in May 2002. Last assessment based on an existing status report.

Sweet Pepperbush

Designated Threatened in April 1986. Status re-examined and confirmed in April 1998. Status re-examined and downlisted to Special Concern in May 2001. Last assessment based on an existing status report that was modified.

Swift Fox

Last seen in Saskatchewan in 1928. Designated Extirpated in April 1978. Status re-examined and downlisted to Endangered in April 1998 after successful re-introductions. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

Thread-leaved Sundew

Designated Endangered in April 1991. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

Tiny Cryptanthus

Designated Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Toothcup

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Trumpeter Swan

Designated Special Concern in April 1978. Status re-examined and de-listed (Not at Risk) in April 1996.

Tuberous Indian-plantain

Designated Special Concern in April 1988. Status re-examined and confirmed in April 1999 and in May 2002. Last assessment based on an existing status report.

Tyrrell's Willow

Designated Threatened in April 1981. Status re-examined and de-listed (Not at Risk) in April 1999.

Van Brunt's Jacob's-ladder

Designated Threatened in April 1994. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

Vancouver Island Marmot

Designated Endangered in April 1978. Status re-examined and confirmed Endangered in April 1997 and in May 2000. Last assessment based on an existing status report with an addendum.

Virginia Goat's-rue

Designated Threatened in April 1996. Status re-examined and uplisted to Endangered in May 2000. Last assessment based on an existing status report with an addendum.

Warmouth

Designated Special Concern in April 1994. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report with an addendum.

Water-pennywort

Designated Endangered in April 1985. Status re-examined and downlisted to Threatened in April 1999. Status re-examined and confirmed Threatened in May 2000. Last assessment based on an existing status report.

Water-plantain Buttercup

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Wavy-rayed Lampmussel

Designated Endangered in April 1999. Status re-examined and confirmed in October 1999. Last assessment based on an existing status report.

Western Blue-flag

Designated Threatened in April 1990. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

Western Prairie Fringed Orchid

Designated Endangered in April 1993. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

Western Screech-Owl

Entire western range was placed in the Data Deficient category in April 1995. In May 2002, the species was re-examined and split into two groups according to subspecies. The *kennicottii* subspecies was designated Special Concern and the *macfarlanei* subspecies was designated Threatened in May 2002. The original listing was de-activated. Last assessment based on an update status report.

Western Silvery Aster

Designated Special Concern in 1988. Status re-examined and uplisted to Threatened in May 2000. Last assessment based on an update status report.

Western Silvery Minnow

Designated Special Concern in April 1997. Status re-examined and uplisted to Threatened in November 2001. Last assessment based on an existing status report with an addendum.

Western Spiderwort

Designated Threatened in April 1992. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

Western Yellow-breasted Chat (British Columbia population)

The British Columbia population of the *auricollis* subspecies was designated Threatened in April 1994. Status re-examined and uplisted to Endangered in November 2000. Last assessment based on an update status report.

Western Yellow-breasted Chat (Prairie population)

The Prairie population of the *auricollis* subspecies was designated Not at Risk in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

White Prairie Gentian

Designated Endangered in April 1991. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

White Wood Aster

Designated Threatened in April 1995. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

White-headed Woodpecker

Designated Threatened in April 1992. Status re-examined and uplisted to Endangered in November 2000. Last assessment based on an update status report.

White-top Aster

Designated Threatened in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

Whooping Crane

Designated Endangered in April 1978. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

Wild Hyacinth

Designated Special Concern in April 1990. Re-examined and uplisted to Threatened in May 2002. Last assessment based on an update status report.

Wolverine

Canadian range considered as one population in April 1982 and designated Special Concern. Split into two populations in April 1989 (Western and Eastern populations). Original listing was de-activated.

Wood Bison

Designated Endangered in April 1978. Status re-examined and downlisted to Threatened in April 1988. Status re-examined and confirmed Threatened in May 2000. Last assessment based on an update status report.

Woodland Caribou (Atlantic-Gaspésie population)

Atlantic-Gaspésie population designated as Threatened in April 1984. Status re-examined and uplisted to Endangered in May 2000. Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

Woodland Caribou (Boreal population)

Boreal population designated Threatened in May 2000. This newly defined population is comprised of a portion of the de-activated "Western population" and all of the de-activated "Labrador-Ungava population." Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

Woodland Caribou (Labrador-Ungava population)

Labrador-Ungava population designated Not at Risk in April 1984. Labrador-Ungava population de-activated in May 2000. Former Labrador-Ungava population is contained within the Boreal population.

Woodland Caribou (Newfoundland population)

Newfoundland population designated Not at Risk in April 1984. Status re-examined and confirmed in May 2000 and in May 2002. Last assessment based on an update status report.

Woodland Caribou (Northern Mountain population)

Northern Mountain population designated Not at Risk in May 2000. This population was formerly designated as part of the "Western population" (now de-activated). Status re-examined and uplisted to Special Concern in May 2002. Last assessment based on an update status report.

Woodland Caribou (Southern Mountain population)

Southern Mountain population designated Threatened in May 2000. This population was formerly designated as part of the "Western population" (now de-activated). Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

Woodland Caribou (Western population)

Western population designated Special Concern in April 1984. Western population de-activated in May 2000. Former Western population is contained within the following newly designated populations: Northern Mountain, Southern Mountain and Boreal.

Woodland Vole

Designated Special Concern in April 1998. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

Wood-poppy

Designated Endangered in April 1993. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

Yellow Montane Violet

Designated Threatened in April 1995. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

Yellow Rail

Designated Special Concern in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

LIST OF NAME CHANGES

Cross-reference of common and scientific names (including population names, where applicable) for COSEWIC-listed species. Most of the names in the list have been used by COSEWIC in the past but are no longer in use. Some common synonyms are also included.

Previous Name(s) or Synonym	Current Common Name or Scientific Name (Population)
<i>Abronia micrantha</i>	<i>Tripterocalyx micranthus</i>
Acadian Whitefish	Atlantic Whitefish
<i>Acris crepitans blanchardi</i>	<i>Acris crepitans</i>
Anatum Peregrine Falcon	Peregrine Falcon <i>anatum</i> subspecies
Apple Moss	Rigid Apple Moss
<i>Ascaphus truei</i>	<i>Ascaphus montanus</i>
<i>Ascaphus truei</i> (Pacific Coast population); <i>Ascaphus truei</i> (Southern Mountain population)*	<i>Ascaphus truei</i>
<i>Aster anticostensis</i>	<i>Symphyotrichum anticostense</i>
<i>Aster curtus</i>	<i>Sericocarpus rigidus</i>
<i>Aster divaricatus</i>	<i>Eurybia divaricata</i>
<i>Aster laurentianus</i>	<i>Symphyotrichum laurentianum</i>
<i>Aster praealtus</i>	<i>Symphyotrichum praealtum</i>
<i>Aster prenanthoides</i>	<i>Symphyotrichum prenanthoides</i>
<i>Aster shortii</i>	<i>Symphyotrichum shortii</i>
<i>Aster subulatus</i> var. <i>obtusifolius</i>	<i>Symphyotrichum subulatum</i>
<i>Aster yukonensis</i>	<i>Symphyotrichum yukonense</i>
Bathurst Aster (Bathurst population)	Bathurst Aster
Benthic Texada Island Stickleback	Benthic Paxton Lake Stickleback
Blackline Prickleback	Pighead Prickleback
Blanchard's Cricket Frog	Northern Cricket Frog
Blue-eyed Mary	Spring blue-eyed Mary
Bowl Limpet	Eelgrass Limpet
<i>Bufo woodhousii fowleri</i>	<i>Bufo fowleri</i>
<i>Cacalia plantaginea</i>	<i>Arnoglossum plantagineum</i>
Common Hop-tree	Common Hoptree
<i>Coregonus canadensis</i>	<i>Coregonus huntsmani</i>
<i>Coregonus clupeaformis</i>	<i>Coregonus clupeaformis</i> (Mira River population)
<i>Coregonus clupeaformis</i>	<i>Coregonus clupeaformis</i> (Lake Simcoe population)
Eastern Massasauga Rattlesnake	Massasauga
Eastern Massasauga	Massasauga
<i>Emydoidea blandingi</i>	<i>Emydoidea blandingii</i> (Nova Scotia population)
Ermine (Queen Charlotte Islands population)	Ermine <i>haidarum</i> subspecies
Few-flowered Club-rush	Bashful Bulrush
<i>Gasterosteus aculeatus</i>	<i>Gasterosteus</i> sp.
<i>Gentiana victorinii</i>	<i>Gentianopsis victorinii</i>
Goat's-rue	Virginia Goat's-rue
Grey Wolf	Northern Grey Wolf
Grey Wolf	Eastern Wolf
Grey Wolf	Southern Grey Wolf
Grey Wolf	Arctic Grey Wolf
Grizzly Bear [no population name]	Grizzly Bear (Northwestern population)
<i>Gymnocladus dioica</i>	<i>Gymnocladus dioicus</i>
<i>Haplopappus macleanii</i>	<i>Stenotus borealis</i>
Harbour Seal	Harbour Seal Pacific subspecies
Harbour Seal	Harbour Seal Atlantic subspecies
Harbour Seal (Lac des Loups Marins landlocked population)	Harbour Seal Lac des Loups Marins subspecies
<i>Icteria virens virens</i> (Eastern population)	<i>Icteria virens virens</i>

*now known as *Ascaphus montanus*

LIST OF NAME CHANGES *continued*

Previous Name(s) or Synonym	Current Common Name or Scientific Name (Population)
<i>Incisalia irus</i>	<i>Callophrys [Incisalia] irus</i>
"Ipswich" Savannah Sparrow	Savannah Sparrow <i>princeps</i> subspecies
<i>Isopyrum bitermum</i>	<i>Enemion bitermum</i>
Lake Lamprey	Cowichan Lake Lamprey
Lake Simcoe Whitefish	Lake Whitefish (Lake Simcoe population)
<i>Lanius ludovicianus excubitorides</i> (Prairie population)	<i>Lanius ludovicianus excubitorides</i>
<i>Lanius ludovicianus migrans</i> (Eastern population)	<i>Lanius ludovicianus migrans</i>
Lilaeopsis	Eastern Lilaeopsis
Limnetic Texada Island Stickleback	Limnetic Paxton Lake Stickleback
Loggerhead Shrike (Eastern population)	Eastern Loggerhead Shrike
Loggerhead Shrike (Prairie population)	Prairie Loggerhead Shrike
Long-tailed Weasel (Prairie population)	Prairie Long-tailed Weasel
<i>Lottia alveus</i>	<i>Lottia alveus alveus</i>
Lynx	Canada Lynx
MacLean's Goldenweed	Northern Mock Goldenweed
Mexican Mosquito Fern	Mexican Mosquito-fern
Mira River Whitefish	Lake Whitefish (Mira River population)
Mountain Dusky Salamander	Allegheny Mountain Dusky Salamander
<i>Mustela erminea haidarum</i>	<i>Mustela erminea haidarum</i>
(Queen Charlotte Islands population)	
North Sea Beaked Whale	Sowerby's Beaked Whale
Northern Bottlenose Whale	Northern Bottlenose Whale (Davis Strait population)
Northern Bottlenose Whale (Gully population)	Northern Bottlenose Whale (Scotian Shelf population)
Northern Leopard Frog (Prairie population)	Northern Leopard Frog (Western Boreal/Prairie populations)
Nuttall's Cottontail (British Columbia population)	Nuttall's Cottontail <i>nuttallii</i> subspecies
Nuttall's Cottontail (Prairie population)	Nuttall's Cottontail <i>pinetis</i> subspecies
Pacific Great Blue Heron	Great Blue Heron <i>fannini</i> subspecies
<i>Panax quinquefolium</i>	<i>Panax quinquefolius</i>
Peale's Peregrine Falcon	Peregrine Falcon <i>pealei</i> subspecies
<i>Polemonium van-bruntiae</i>	<i>Polemonium vanbruntiae</i>
Queen Charlotte Goshawk	Northern Goshawk <i>laingi</i> subspecies
<i>Rangifer tarandus dawsoni</i>	<i>Rangifer tarandus dawsoni</i>
(Queen Charlotte Islands population)	
Sage Grouse (British Columbia population)	Greater Sage-grouse <i>phaeos</i> subspecies
Sage Grouse (Prairie population)	Greater Sage-grouse <i>urophasianus</i> subspecies
Salamander Mussel	Mudpuppy Mussel
Sand Verbena	Small-flowered Sand-verbena
<i>Scirpus verecundus</i>	<i>Trichophorum planifolium</i>
<i>Simpsonais ambigua</i>	<i>Simpsonais ambigua</i>
<i>Speotyto cunicularia</i>	<i>Athene cunicularia</i>
Spiny Softshell Turtle	Eastern Spiny Softshell Turtle
Spotted Owl	Northern Spotted Owl
<i>Strix occidentalis</i>	<i>Strix occidentalis caurina</i>
Tailed Frog (Pacific Coast population)	Coast Tailed Frog
Tailed Frog (Southern Mountain population)	Rocky Mountain Tailed Frog
Tundra Peregrine Falcon	Peregrine Falcon <i>tundrius</i> subspecies

LIST OF NAME CHANGES *continued*

Previous Name(s) or Synonym	Current Common Name or Scientific Name (Population)
Van Brunt's Jacob's Ladder	Van Brunt's Jacob's-ladder
<i>Virgulus sericeus</i>	<i>Symphyotrichum sericeum</i>
Western Harvest Mouse (British Columbia population)	Western Harvest Mouse <i>megalotis</i> subspecies
Western Harvest Mouse (Prairie population)	Western Harvest Mouse <i>dychei</i> subspecies
Western Silver-leaved Aster	Western Silvery Aster
Woodland Caribou (Queen Charlotte Islands population);	
Woodland Caribou Dawson's subspecies	Caribou <i>dawsoni</i> subspecies
Yellow-breasted Chat (British Columbia population)	Western Yellow-breasted Chat (British Columbia population)
Yellow-breasted Chat (Eastern population)	Eastern Yellow-breasted Chat
Yellow-breasted Chat (Prairie population)	Western Yellow-breasted Chat (Prairie population)

COSEWIC

Committee on the
Status of Endangered
Wildlife in Canada

COSEPA

Comité sur la
situation des espèces
en péril au Canada

The Committee on the Status of Endangered
Wildlife in Canada (COSEWIC)
was created in 1977 as a result of a
recommendation at the Federal-Provincial
Wildlife Conference held in 1976.

It arose from the need for a single, official,
scientifically sound, national listing
of wildlife species at risk.

In 1978, COSEWIC designated its first species
and produced its first list of
Canadian species at risk.

Species designated at meetings of the
full committee are added to the list.

In 2002, COSEWIC is celebrating 25 years of
Science and Knowledge for species
at risk in Canada.
