## COSEWIC MANDATE

The Committee on the Status of Endangered Wildlife in Canada (COSEWIC) assesses the national status of wild species, subspecies, varieties, or other designatable units that are considered to be at risk in Canada. Designations are made on native species including the following taxonomic groups: mammals, birds, reptiles, amphibians, fishes, arthropods, molluscs, vascular plants, mosses, and lichens.

## COSEWIC MEMBERSHIP

COSEWIC comprises members from each provincial and territorial government wildlife agency, four federal agencies (Canadian Wildlife Service, Parks Canada Agency, Department of Fisheries and Oceans, and the Federal Biodiversity Information Partnership, chaired by the Canadian Museum of Nature), three non-government members and the co-chairs of the species specialist and the Aboriginal Traditional Knowledge subcommittees. The Committee meets to consider status reports on candidate species.

## DEFINITIONS

The following definitions were reviewed by COSEWIC in May 2004:

Wildlife species	a species, subspecies, variety, or geographically or genetically distinct population of animal, plant or other organism, other than a bacterium or virus, that is wild by nature and it is either native to Canada or has extended its range into Canada without human intervention and has been present in Canada for at least 50 years.
Extinct (X)	A wildlife species that no longer exists.
Extirpated (XT)	A wildlife species no longer existing in the wild in Canada, but occurring elsewhere.
Endangered (E)	A wildlife species facing imminent extirpation or extinction.
Threatened (T)	A wildlife species likely to become endangered if limiting factors are not reversed.
Special Concern (SC)*	A wildlife species that may become a threatened or an endangered species because of a combination of biological characteristics and identified threats.
Not at Risk (NAR)**	A species that has been evaluated and found to be not at risk of extinction given the current circumstances.
Data Deficient (DD)***	A wildlife species for which there is inadequate information to make a direct, or indirect, assessment of its risk of extinction.

\* Formerly described as "Vulnerable" from 1990 to 1999, or "Rare" prior to 1990.

\*\* Formerly described as "Not In Any Category", or "No Designation Required."

\*\*\* Formerly described as "Indeterminate" from 1994 to 1999 or "ISIBD" (insufficient scientific information on which to base a designation) prior to 1994.

## SUMMARY TABLES

### Species designated in the "risk" and the Extinct categories, and the Not at Risk and Data Deficient categories

**Table 1.** Summary of COSEWIC's assessment results for the "risk" categories (Extirpated, Endangered, Threatened and Special Concern) (444 species) and for the Extinct category (12 species). The results include the May 2004 meeting.

TAXON	EXTINCT	EXTIRPATED	ENDANGERED	THREATENED	SPECIAL CONCERN	TOTALS
Mammals	2	4	20	14	26	66
Birds	3	2	23	10	22	60
Reptiles	0	4	7	12	9	32
Amphibians	0	1	6	5	7	19
Fishes	5	2	21	22	29	79
Arthropods	0	3	6	5	2	16
Molluscs	1	2	12	2	4	21
Vascular Plants	0	2	67	41	35	145
Mosses	1	1	5	2	2	11
Lichens	0	0	2	1	4	7
Totals	12	21	169	114	140	456

**Table 2.** Summary of COSEWIC's assessment results for the Not at Risk category. The results include the May 2004 meeting.

TAXON	NOT AT RISK
Mammals	44
Birds	35
Reptiles	5
Amphibians	14
Fishes	35
Arthropods	0
Molluscs	2
Vascular Plants	16
Mosses	0
Lichens	0
Totals	151

**Table 3.** Summary of COSEWIC's assessment results for the Data Deficient category. The results include the May 2004 meeting.

TAXON	DATA DEFICIENT
Mammals	10
Birds	2
Reptiles	2
Amphibians	0
Fishes	9
Arthropods	0
Molluscs	4
Vascular Plants	4
Mosses	0
Lichens	2
Totals	33

## Results from the May 2004 COSEWIC meeting

**Table 4.** May 2004 results by category and taxon.

TAXON	EXTINCT	EXTIRPATED	ENDANGERED	THREATENED	SPECIAL CONCERN	NOT AT RISK	DATA DEFICIENT	TOTALS

Mosses					2			2
Lichens				1				1
Totals	0	0	14	9	11	1	1	36

**Table 5.** May 2004 results by category and type of change.

TYPE OF CHANGE	EXTINCT	EXTIRPATED	ENDANGERED	THREATENED	SPECIAL CONCERN	NOT AT RISK	DATA DEFICIENT	TOTALS
New			8	4	3			15
In a higher risk category ↑			4	2	1			7
In a lower risk category ↓				1				1
No Change ↔			1	1	5	1		8
Changed ⦿							1	1
Reassigned ∪			1	1	2			4
No longer at risk ✓								0
Totals	0	0	14	9	11	1	1	36

### Explanation of status change symbols for reassessed species

- ↑ Species placed in a higher risk category after reassessment on the date shown.
- ↓ Species placed in a lower risk category after reassessment on the date shown.
- ↔ Species stays in the same category after reassessment on the date shown.
- ⦿ Species moved to the Data Deficient category from a risk category, or to a risk category from the Data Deficient category on the date shown.
- ∪ Species that has been assigned to a different designatable unit than previously on the date shown.
- ✓ Species moved to the Not at Risk category from a risk category on the date shown.
- (no symbol) New species examined on the date shown.

## COSEWIC ASSESSMENT RESULTS

The tables that follow (Tables 6-9) are organized by status category and then by taxonomic group. For each species, the information provided includes the common name, scientific name, population name, and range of occurrence in Canada (by province, territory or ocean). For birds, range of occurrence includes the Canadian breeding and wintering distribution. The most recent date of assessment by COSEWIC is shown. The symbols on the left provide information on the type of status report used as the basis for reassessment for species evaluated against quantitative criteria (see below), and the symbols on the right provide information on the outcome of status reassessments (see explanation of symbols on page three).

The first COSEWIC "Endangered Species List" was issued in 1978. In 1990, it was decided that all species considered by COSEWIC should be included in this document even if the species were in the Not at Risk or Data Deficient categories. Therefore, this document is divided into four sections. The first section (Table 6) includes species assessed and designated as Extinct. The second section (Table 7) includes species assessed and designated as Extirpated, Endangered, Threatened or Special Concern. The third section (Table 8) includes species assessed and found to be in the Not at Risk category. The fourth section (Table 9) includes species considered by COSEWIC and placed in the Data Deficient category because of insufficient scientific information.

### Evaluation with COSEWIC's quantitative criteria

COSEWIC has been using quantitative criteria to assess species' risk of extinction since October 1999. These criteria were adapted from the criteria used by the World Conservation Union (IUCN).

### Explanation of type of status report symbols for species evaluated using quantitative criteria

$\Delta$  or  $\Delta^+$  Assessment based on a new status report or an update status report. A plus sign (+) indicates the report has an addendum or that the report has been modified.

$\triangle$  or  $\triangle^+$  Species re-assessed using an existing status report. A plus sign (+) indicates the report has an addendum or that the report has been modified.

### Geographical occurrence abbreviations

AB Alberta	NS Nova Scotia	QC Québec

## RECORD OF STATUS REASSESSMENTS

A short history is provided for each species that has been reassessed by COSEWIC, including date(s) of assessment and the status assigned. In October 1999 COSEWIC began using quantitative criteria to augment the earlier method of using status definitions to assign status. For species assessed since October 1999, the type of status report used as the basis for reassessment is indicated. Update reports focus on changes in the biological and threat information that has become available since the last time a report was prepared. For some species, COSEWIC deemed the existing report suitable for reassessment.

### **Acadian Flycatcher**

Designated Endangered in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

### **Allegheny Mountain Dusky Salamander**

Designated Special Concern in April 1998. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report with an addendum.

### **American Badger**

Designated Not at Risk in April 1979. The original Canada-wide designation was de-activated in May 2000 when the American Badger was split according to subspecies.

### **American Badger *jacksoni* subspecies**

The species was considered a single unit and designated Not at Risk in 1979. Each subspecies was given a separate designation in May 2000. The *jacksoni* subspecies was designated Endangered. Last assessment based on an update status report.

### **American Badger *jeffersonii* subspecies**

The species was considered a single unit and designated Not at Risk in 1979. Each subspecies was given a separate designation in May 2000. The *jeffersonii* subspecies was designated Endangered. Last assessment based on an update status report.

### **American Badger *taxus* subspecies**

Entire Canadian range was designated as Not at Risk in 1979. Each subspecies was given a separate designation in May 2000. The *taxus* subspecies was designated Not at Risk. Last assessment based on an update status report.

### **American Black Bear**

Designated Not at Risk in April 1998 and in April 1999.

### **American Ginseng**

Designated Threatened in April 1988. Status re-examined and designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

### **American Water-willow**

Designated Threatened in April 1984. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

### **American White Pelican**

Designated Threatened in April 1978. Status re-examined and designated Not at Risk in April 1987.

### **Anticosti Aster**

Designated Threatened in April 1990. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

### **Athabasca Thrift**

Designated Threatened in April 1981. Status re-examined and designated Special Concern in April 1999. Status re-examined and confirmed in May 2002. Last assessment based on an existing status report.

### **Atlantic Cod**

Designated Special Concern in April 1998. Split into four populations in May 2003. The original designation was de-activated. Last assessment based on an update status report.

### **Atlantic Cod (Arctic population)**

The species was considered a single unit and designated Special Concern in April 1998. When the species was split into separate populations in May 2003, the Arctic population was designated Special Concern. Last assessment based on an update status report.

### **Atlantic Cod (Laurentian North population)**

The species was considered a single unit and designated Special Concern in April 1998. When the species was split into separate populations in May 2003, the Laurentian North population was designated Threatened. Last assessment based on an update status report.

**Atlantic Cod (Maritimes population)**

The species was considered a single unit and designated Special Concern in April 1998. When the species was split into separate populations in May 2003, the Maritimes population was designated Special Concern. Last assessment based on an update status report.

**Atlantic Cod (Newfoundland and Labrador population)**

The species was considered a single unit and designated Special Concern in April 1998. When the species was split into separate populations in May 2003, the Newfoundland and Labrador population was designated Endangered. Last assessment based on an update status report.

**Atlantic Walrus (Northwest Atlantic population)**

Extirpated around 1850. Designated Extirpated in April 1987. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Atlantic Whitefish**

Designated Endangered in April 1984. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Aurora Trout**

Designated Endangered in April 1987. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

**Baird's Sparrow**

Designated Threatened in April 1989. Status re-examined and designated Not at Risk in April 1996.

**Banded Killifish (Newfoundland population)**

Designated Special Concern in April 1989. Status re-examined and confirmed in May 2003. Last assessment based on an update status report.

**Banff Longnose Dace**

Extinct since 1986. Designated Extinct in April 1987. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Banff Springs Snail**

Designated Threatened in April 1997. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report.

**Barn Owl**

The species was considered a single unit and designated Special Concern in April 1984. In April 1999, the Western and Eastern populations were assessed separately. The original designation for the Canadian range of the Barn Owl was de-activated.

**Barn Owl (Eastern population)**

The species was considered a single unit and designated Special Concern in April 1984. In April 1999, the Western and Eastern populations were assessed separately. The Eastern population was designated Endangered. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Barn Owl (Western population)**

The species was considered a single unit and designated Special Concern in April 1984. In April 1999, the Western and Eastern populations were assessed separately. The Western population was designated Special Concern. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

**Barren-ground Caribou (Dolphin and Union population)**

The original designation considered a single unit that included Peary Caribou, *Rangifer tarandus pearyi*, and what is now known as the Dolphin and Union population of the Barren-ground Caribou, *Rangifer tarandus groenlandicus*. It was assigned a status of Threatened in April 1979. Split to allow designation of three separate populations in 1991: Banks Island (Endangered), High Arctic (Endangered) and Low Arctic (Threatened) populations. In May 2004, all three population designations were de-activated, and the Peary Caribou, *Rangifer tarandus pearyi*, was assessed separately from the Barren-ground Caribou (Dolphin and Union population), *Rangifer tarandus groenlandicus*. The Dolphin and Union population is comprised of a portion of the former "Low Arctic population", and it was designated Special Concern in May 2004. Last assessment based on an update status report.

**Bashful Bulrush**

Designated Special Concern in April 1986. Status re-examined and designated Endangered in May 2000. Last assessment based on an update status report.

**Bearded Owl-clover**

Designated Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Beluga Whale (Cumberland Sound population)**

The Southeast Baffin Island-Cumberland Sound population was designated Endangered in April 1990. In May 2004, the structure of the population was redefined and named "Cumberland Sound population", and the Southeast Baffin Island animals were included as part of the Western Hudson Bay population. Status re-examined and designated Threatened in May 2004. Last assessment based on an update status report.

**Beluga Whale (Eastern Beaufort Sea population)**

Designated Not at Risk in April 1985 and in May 2004. Last assessment based on an update status report.

**Beluga Whale (Eastern High Arctic - Baffin Bay population)**

Designated Special Concern in April 1992. Status re-examined and confirmed in May 2004. Last assessment based on an update status report.

**Beluga Whale (Eastern Hudson Bay population)**

Designated Threatened in April 1988. Status re-examined and designated Endangered in May 2004. Last assessment based on an update status report.

**Beluga Whale (St. Lawrence Estuary population)**

Designated Endangered in April 1983. Status re-examined and confirmed in April 1997. Status re-examined and designated Threatened in May 2004. Last assessment based on an update status report.

**Beluga Whale (Ungava Bay population)**

Designated Endangered in April 1988. Status re-examined and confirmed in May 2004. Last assessment based on an update status report.

**Beluga Whale (Western Hudson Bay population)**

Designated Not at Risk in April 1993. The population was redefined in May 2004 to include those Southeast Baffin Island animals outside Cumberland Sound, previously considered part of the "Southeast Baffin Island-Cumberland Sound population" which is now called "Cumberland Sound population". Status re-examined and designated Special Concern in May 2004. Last assessment based on an update status report.

**Benthic Enos Lake Stickleback**

Original designation (including both Benthic and Limnetic species) was Threatened in April 1988. Split into two species when re-examined in November 2002 and the Benthic Enos Lake Stickleback was designated Endangered. Last assessment based on an update status report.

**Benthic Hadley Lake Stickleback**

Extinct in 1999. Designated Extinct in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Benthic Paxton Lake Stickleback**

Designated Threatened in April 1998. Status re-examined and confirmed in April 1999. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report.

**Benthic Vananda Creek Stickleback**

Designated Threatened in April 1999. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report.

**Bering Wolffish**

Designated Special Concern in April 1989. Species considered in November 2002 and placed in the Data Deficient category. Last assessment based on an update status report.

**Bigmouth Shiner**

Designated Special Concern in April 1985. Status re-examined and designated Not at Risk in November 2003. Last assessment based on an update status report.

**Bird's-foot Violet**

Designated Threatened in April 1990. Status re-examined and designated Endangered in May 2002. Last assessment based on an update status report.

**Black Tern**

Designated Not at Risk in April 1988 and in April 1996.

**Black-footed Ferret**

Extirpated by 1974. Designated Extirpated in April 1978. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Blackstripe Topminnow**

Designated Special Concern in April 1985. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

**Black-tailed Prairie Dog**

Designated Special Concern in April 1978. Status re-examined and confirmed in April 1988, April 1999 and November 2000. Last assessment based on an existing status report.

**Blue Ash**

Designated Threatened in April 1983. Status re-examined and designated Special Concern in November 2000. Last assessment based on an update status report.

**Blue Racer**

Designated Endangered in April 1991. Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

**Blue Walleye**

Extinct since 1965. Designated Extinct in April 1985. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Blue Whale**

The species was considered a single unit and designated Special Concern in April 1983. In May 2002, the species was split into two populations: Blue Whale (Atlantic population) and Blue Whale (Pacific population). The Atlantic population and the Pacific populations were both designated Endangered in May 2002. The original designation for Blue Whale was de-activated.

**Blue Whale (Atlantic population)**

The species was considered a single unit and designated Special Concern in April 1983. Split into two populations in May 2002. The Atlantic population was designated Endangered in May 2002. Last assessment based on an update status report.

**Blue Whale (Pacific population)**

The species was considered a single unit and designated Special Concern in April 1983. Split into two populations in May 2002. The Pacific population was designated Endangered in May 2002. Last assessment based on an update status report.

**Bluehearts**

Designated Threatened in April 1985. Status re-examined and designated Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Blunt-lobed Woodsia**

Designated Threatened in April 1994. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report.

**Bowhead Whale (Eastern and Western Arctic Populations)**

Designated Endangered in April 1980. Split into two populations (Eastern Arctic and Western Arctic) to allow a separate designation for the Western Arctic population in April 1986. The original designation was de-activated.

**Branched Bartonia**

Designated Special Concern in April 1992. Status re-examined and designated Threatened in November 2003. Last assessment based on an update status report.

**Bridle Shiner**

Designated Special Concern in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report with an addendum.

**Brindled Madtom**

Designated Special Concern in April 1985. Status re-examined and designated Not at Risk in May 2001. Last assessment based on an update status report.

**Buffalograss**

Designated Special Concern in April 1998. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report.

**Burrowing Owl**

Designated Threatened in April 1979. Status re-examined and confirmed in April 1991. Status re-examined and designated Endangered in April 1995. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Butler's Gartersnake**

Designated Special Concern in April 1999. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report.

**Canada Lynx**

Designated Not at Risk in April 1989 and in May 2001. Last assessment based on an update status report.

**Caribou *dawsoni* subspecies**

Extinct by the 1920's. Designated Extinct in April 1984. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

**Carmine Shiner**

Designated Special Concern in April 1994. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report.

**Caspian Tern**

Designated Special Concern in April 1978. Status re-examined and designated Not at Risk in April 1999.

**Central Stoneroller**

Designated Special Concern in 1985. Status re-examined and designated Not at Risk in 1998.

**Cerulean Warbler**

Designated Special Concern in April 1993. Status re-examined and confirmed in May 2003. Last assessment based on an update status report.

**Channel Darter**

Designated Threatened in April 1993. Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

**Chiselmouth**

Species considered in April 1997 and placed in the Data Deficient category. Re-examined in May 2003 and designated Not at Risk. Last assessment based on an update status report.

**Climbing Prairie Rose**

Designated Special Concern in April 1986. Status re-examined and designated Threatened in May 2002. Status re-examined and designated Special Concern in May 2003. Last assessment based on an existing status report with an addendum.

**Coastal Giant Salamander**

Designated Special Concern in April 1989. Status re-examined and designated Threatened in November 2000. Last assessment based on an update status report.

**Coastal Wood Fern**

Designated Special Concern in April 1998. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

**Coeur d'Alene Salamander**

Designated Special Concern in April 1998. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report with an addendum.

**Colicroot**

Designated Threatened in April 1988. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Common Hoptree**

Designated Special Concern in April 1984. Status re-examined and designated Threatened in November 2002. Last assessment based on an update status report.

**Cooper's Hawk**

Designated Special Concern in April 1983. Status re-examined and designated Not at Risk in April 1996.

**Cougar (Eastern population)**

Designated Endangered in April 1978. Species considered in April 1998 and placed in the Data Deficient category.

**Cowichan Lake Lamprey**

Designated Special Concern in April 1986. Status re-examined and confirmed in April 1998. Status re-examined and designated Threatened in November 2000. Last assessment based on an existing status report.

**Crooked-stem Aster**

Designated Special Concern in April 1999. Status re-examined and designated Threatened in May 2002. Last assessment based on an existing status report.

**Cucumber Tree**

Designated Endangered in April 1984. Status re-examined and confirmed Endangered in April 1999 and in May 2000. Last assessment based on an existing status report.

**Cultus Pygmy Sculpin**

Designated Special Concern in April 1997. Status re-examined and designated Threatened in November 2000. Last assessment based on an existing status report.

**Deepwater Cisco**

Extinct since 1952. Designated Extinct in April 1988. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Deerberry**

Designated Threatened in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Deltoid Balsamroot**

Designated in April 1996 as Endangered. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

**Dense Blazing Star**

Designated Special Concern in April 1988. Status re-examined and designated Threatened in May 2001. Last assessment based on an update status report.

**Drooping Trillium**

Designated Endangered in April 1996. Status re-assessed and confirmed in May 2000. Last assessment based on an existing status report.

**Dwarf Hackberry**

Designated Special Concern in April 1985. Status re-examined and designated Threatened in November 2003. Last assessment based on an update status report.

**Dwarf Wedgemussel**

Extirpated by 1968. Designated Extirpated in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Eastern Bluebird**

Designated Special Concern in April 1984. Status re-examined and designated Not at Risk in April 1996.

**Eastern Foxsnake**

Designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Eastern Hog-nosed Snake**

Designated Special Concern in April 1997. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report.

**Eastern Lilaeopsis**

Designated Special Concern in April 1987 and in May 2004. Last assessment based on an update status report.

**Eastern Mole**

Designated Special Concern in April 1980. Status re-examined and confirmed in April 1998 and in November 2000. Last assessment based on an existing status report.

**Eastern Mountain Avens**

Designated Endangered in April 1986. Status re-examined and confirmed Endangered in April 1999 and May 2000. Last assessment based on an existing status report.

**Eastern Prairie Fringed-orchid**

Designated Special Concern in April 1986. Status re-examined and designated Endangered in May 2003. Last assessment based on an update status report.

**Eastern Prickly Pear Cactus**

Designated Endangered in April 1985. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

**Eastern Ratsnake**

Designated Threatened in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Eastern Sand Darter**

Designated Threatened in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an existing status report with an addendum.

**Eastern Wolf**

Species considered in April 1999 and placed in the Data Deficient category. Re-examined in May 2001 and designated Special Concern. Last assessment based on an update status report.

**Eelgrass Limpet**

Extinct since 1929. Designated Extinct in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Engelmann's Quillwort**

Designated Endangered in April 1992. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

**Enos Lake Sticklebacks**

Designated Threatened in April 1988. Split into two species when re-examined in November 2002: Benthic Enos Lake Stickleback and Limnetic Enos Lake Stickleback. The original designation was de-activated. Last assessment based on an update status report.

**Ermine *haidarum* subspecies**

Designated Special Concern in April 1984. Status re-examined and designated Threatened in May 2001. Last assessment based on an update status report.

**Eskimo Curlew**

Designated Endangered in April 1978. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an update status report.

**False Hop Sedge**

Designated Threatened in April 1997. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report.

**Fernald's Braya**

Designated Threatened in April 1997. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Fernald's Milk-vetch**

Designated Special Concern in April 1997. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

**Ferruginous Hawk**

Designated Threatened in April 1980. Status re-examined and designated Special Concern in April 1995.

**Flammulated Owl**

Designated Special Concern in April 1988. Status re-examined and confirmed Special Concern in April 1999 and in November 2001. Last assessment based on an existing status report.

**Fourhorn Sculpin (Freshwater form)**

Designated Special Concern in April 1989. Species considered in November 2003 and placed in the Data Deficient category. Last assessment based on an update status report.

**Fowler's Toad**

Designated Special Concern in April 1986. Status re-examined and designated Threatened in April 1999. Status re-examined and confirmed in November 2000. Last assessment based on an existing status report with an addendum.

**Fringed Bat**

Designated Special Concern in April 1988. Species considered in May 2004 and placed in the Data Deficient category. Last assessment based on an update status report.

**Frosted Elfin**

Extirpated by 1988. Designated Extirpated in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Furbish's Lousewort**

Designated Endangered in April 1980. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

**Gattinger's Agalinis**

Designated Endangered in April 1988. Status re-examined and confirmed in April 1999 and in May 2001. Last assessment based on an existing status report that was modified.

**Giant Helleborine**

Designated Threatened in April 1984. Status re-examined and designated Special Concern in April 1998.

**Golden Crest**

Designated Threatened in April 1987. Status re-examined and confirmed in April 1999 and in May 2000. Last assessment based on an existing status report.

**Golden Eagle**

Designated Not at Risk in April 1987 and in April 1996.

**Golden Paintbrush**

Designated Threatened in April 1995. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report with an addendum.

**Goldenseal**

Designated Threatened in April 1991. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

**Gravel Chub**

Last recorded in Thames River drainage, Ontario in 1958. Designated Endangered in April 1985. Status re-examined and designated Extirpated in April 1987. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Great Auk**

Believed to be Extinct since 1844. Designated in April 1985 based on historic records only. Status report prepared and approved by COSEWIC in 1994. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Great Basin Spadefoot**

Designated Special Concern in April 1998. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report.

**Great Grey Owl**

Designated Special Concern in April 1979. Status re-examined and confirmed in April 1990. Status re-examined and designated Not at Risk in April 1996.

**Great Plains Toad**

Designated Special Concern in April 1999. Status re-examined and confirmed in May 2002. Last assessment based on an existing status report.

**Greater Prairie-Chicken**

Last reported in 1987. Designated Endangered in April 1978. Status re-examined and designated Extirpated in April 1990. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Greater Sage-Grouse *phaios* subspecies**

Has not been reported since the 1960s. Designated Extirpated in April 1997. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Greater Sage-Grouse *urophasianus* subspecies**

Given conditional designation of Threatened in April 1997. Status re-examined and designated Endangered in April 1998 based on a revised status report. Status re-examined confirmed in May 2000. Last assessment based on an existing status report.

**Grey Fox**

Designated Special Concern in April 1979. Status re-examined and designated Threatened in May 2002. Last assessment based on an update status report.

**Grey Whale (Atlantic population)**

Extirpated before the end of the 1800s. Designated Extirpated in April 1987. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Grey Whale (Eastern North Pacific population)**

Designated Not at Risk in April 1987. Status re-examined and designated Special Concern in May 2004. Last assessment based on an update status report.

**Grizzly Bear**

The species was considered a single unit and designated Not at Risk in April 1979. Split into two populations in April 1991 (Prairie population and Northwestern population). The original designation for "Grizzly Bear" across was Canada de-activated.

**Grizzly Bear (Northwestern population)**

The species was considered a single unit and designated Not at Risk in April 1979. Split into two populations in April 1991 (Prairie population and Northwestern population). The Northwestern population was designated Special Concern in April 1991. Status was re-examined and confirmed in May 2002. Last assessment based on an update status report.

**Grizzly Bear (Prairie population)**

The species was considered a single unit and designated Not at Risk in April 1979. Split into two populations in April 1991 (Prairie population and Northwestern population). The Prairie population was designated Extirpated in April 1991. Status re-examined and confirmed in May 2000 and in May 2002. Last assessment based on an update status report.

**Gulf of St. Lawrence Aster**

Designated Special Concern in April 1989. Status re-examined and designated Threatened in May 2004. Last assessment based on an update status report.

**Gyr Falcon**

Designated Not at Risk in April 1978 and in April 1987.

**Hairy Prairie-clover**

Designated Threatened in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

**Harbour Porpoise (Northwest Atlantic population)**

Designated Threatened in April 1990. Status re-examined and confirmed in April 1991. Status re-examined and designated Special Concern in May 2003. Last assessment based on an update status report.

**Harbour Porpoise (Pacific Ocean population)**

Species considered in April 1991 and placed in the Data Deficient category. Re-examined in November 2003 and designated Special Concern. Last assessment based on an update status report.

**Harlequin Duck (Eastern population)**

The Eastern population was designated Endangered in April 1990. Status re-examined and designated Special Concern in May 2001. Last assessment based on an update status report.

**Heart-leaved Plantain**

Designated Endangered in April 1985. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

**Henslow's Sparrow**

Designated Threatened in April 1984. Status re-examined and designated Endangered in April 1993. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Hoary Mountain-mint**

Designated Endangered in April 1986. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

**Hooded Warbler**

Designated Threatened in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Hotwater Physa**

Designated Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Humpback Whale (North Pacific population)**

The "Western North Atlantic and North Pacific populations" were given a single designation of Threatened in April 1982. Split into two populations in April 1985 (Western North Atlantic population and North Pacific population). The North Pacific population designated Threatened in 1985; Status re-examined and confirmed in May 2003. Last assessment based on an update status report.

**Humpback Whale (Western North Atlantic and North Pacific populations)**

The "Western North Atlantic and North Pacific populations" were given a single designation of Threatened in April 1982. Split into two populations in April 1985 (Western North Atlantic population and North Pacific population). The original designation was de-activated.

**Humpback Whale (Western North Atlantic population)**

The "Western North Atlantic and North Pacific populations" were given a single designation of Threatened in April 1982. Split into two populations in April 1985 (Western North Atlantic population and North Pacific population). Western North Atlantic population designated Special Concern in April 1985. Status re-examined and designated Not at Risk in May 2003. Last assessment based on an update status report.

**Illinois Tick-trefoil**

No site records since 1888. Designated Extirpated in April 1991. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Island Marble**

Extirpated by 1910. Designated Extirpated in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Ivory Gull**

Designated Special Concern in April 1979. Status re-examined and confirmed in April 1996 and in November 2001. Last assessment based on an existing status report.

**Juniper Sedge**

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Karner Blue**

Has not been observed since 1991. Designated Extirpated in April 1997. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Keen's Long-eared Bat**

Designated Special Concern in April 1988. Species considered in November 2003 and placed in the Data Deficient category. Last assessment based on an update status report.

**Kentucky Coffee-tree**

Designated Threatened in April 1983. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Killer Whale (North Pacific resident populations)**

Designated Threatened in April 1999. The designation of the Killer Whale (North Pacific resident populations) was de-activated in November 2001 when it was split into two populations: Killer Whale (Northeast Pacific northern resident population) and Killer Whale (Northeast Pacific southern resident population). Last assessment based on an existing status report with an addendum.

**Killer Whale (Northeast Pacific northern resident population)**

North Pacific resident populations designated Threatened in April 1999. Split into two populations in November 2001. The Northeast Pacific northern resident population was designated Threatened in November 2001. Last assessment based on an existing status report with an addendum.

**Killer Whale (Northeast Pacific southern resident population)**

North Pacific resident populations designated Threatened in April 1999. Split into two populations in November 2001. The Northeast Pacific southern resident population was designated Endangered in November 2001. Last assessment based on an existing status report with an addendum.

**Killer Whale (Northeast Pacific transient population)**

Designated Special Concern in April 1999. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report with an addendum.

**Killer Whale (Northwest Atlantic / Eastern Arctic populations)**

Species considered in April 1999 and in November 2001, and placed in the Data Deficient category. Last assessment based on an existing status report with an addendum.

**King Rail**

Designated Special Concern in April 1985. Status re-examined and designated Endangered in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Kirtland's Warbler**

Designated Endangered in April 1979. Status re-examined and confirmed in April 1999 and in May 2000. Last assessment based on an existing status report.

**Labrador Duck**

Believed to be Extinct since 1875. Designated in April 1985 based on historic records only. Status report prepared and approved by COSEWIC in 1994. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Lake Chubsucker**

Designated Special Concern in April 1994. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report with an addendum.

**Lake Utopia Dwarf Smelt**

Designated Threatened in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Lake Whitefish (Mira River population)**

Species considered in April 1999 and in November 2000, and placed in the Data Deficient category. Last assessment based on an existing status report.

**Large Whorled Pogonia**

Designated Endangered in April 1986. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

**Least Bittern**

Designated Special Concern in April 1988. Status re-examined and confirmed in April 1999. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report.

**Leatherback Seaturtle**

Designated Endangered in April 1981. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

**Lewis's Woodpecker**

Designated Special Concern in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

**Limnetic Enos Lake Stickleback**

Original designation (including both Benthic and Limnetic species) was Threatened in April 1988. Split into two species when re-examined in November 2002 and the Limnetic Enos Lake Stickleback was designated Endangered. Last assessment based on an update status report.

**Limnetic Hadley Lake Stickleback**

Extinct in 1999. Designated Extinct in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Limnetic Paxton Lake Stickleback**

Designated Threatened in April 1998. Status re-examined and confirmed in April 1999. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report.

**Limnetic Vananda Creek Stickleback**

Designated Threatened in April 1999. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report.

**Loggerhead Shrike**

The species was considered a single unit and designated Threatened in April 1986. The *excubitorides* and the *migrans* subspecies were designated separately in April 1991, and the original designation was de-activated.

**Loggerhead Shrike *excubitorides* subspecies**

The species was considered a single unit and designated Threatened in April 1986. Split according to subspecies in April 1991. The *excubitorides* subspecies retained the original Threatened designation from April 1986. Status re-examined and confirmed in May 2004. Last assessment based on an update status report.

**Loggerhead Shrike *migrans* subspecies**

The species was considered a single unit and designated Threatened in April 1986. Split according to subspecies in April 1991. The *migrans* subspecies was designated Endangered in April 1991. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Long-billed Curlew**

Designated Special Concern in April 1992. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

**Longjaw Cisco**

Extinct since 1975. Designated Extinct in April 1985. Status re-examined and confirmed in May 2000. Designation de-activated in May 2002 because it was concluded that this species is a synonym of the Shortjaw Cisco, *Coregonus zenithicus*, which was designated Threatened in 1987. Last assessment based on an update status report.

**Long's Braya**

Designated Endangered in April 1997. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

**Louisiana Waterthrush**

Designated Special Concern in April 1991. Status re-examined and confirmed in April 1996.

**Mackenzie Hairgrass**

Designated Special Concern in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

**Marbled Murrelet**

Designated Threatened in April 1990. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Margined Madtom**

Designated Threatened in April 1989. Species considered in May 2002 and placed in the Data Deficient category. Last assessment based on an update status report.

**Maritime Ringlet**

Designated Endangered in April 1997. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Massasauga**

Designated Threatened in April 1991. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

**Mexican Mosquito-fern**

Designated Threatened in April 1984. Status re-examined and confirmed in April 1998 and in May 2000. Last assessment based on an existing status report.

**Monarch**

Designated Special Concern in April 1997. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

**Morrison Creek Lamprey**

Designated Threatened in April 1999. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report.

**Mountain Beaver**

Designated Not at Risk in April 1984. Status re-examined and designated Special Concern in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

**Mountain Plover**

Designated Endangered in April 1987. Status re-examined and confirmed November 2000. Last assessment based on an update status report.

**Narwhal**

Designated Not at Risk in April 1986 and in April 1987.

**New Jersey Rush**

Designated Special Concern in April 1992. Status re-examined and confirmed in May 2004. Last assessment based on an update status report.

**Newfoundland Marten**

Designated Not at Risk in April 1979. Status re-examined and designated Threatened in April 1986. Status re-examined and designated Endangered in April 1996. Status re-examined and confirmed Endangered in May 2000. Last assessment based on an existing status report.

**Nodding Pogonia**

Designated Threatened in April 1988. Status re-examined and designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Nooksack Dace**

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**North Atlantic Right Whale**

The Right Whale was considered a single species and designated Endangered in 1980. Status re-examined and confirmed in April 1985 and in April 1990. Split into two species in May 2003 to allow a separate designation of the North Atlantic Right Whale. North Atlantic Right Whale was designated Endangered in May 2003. Last assessment based on an update status report.

**North Pacific Right Whale**

The Right Whale was considered a single species and designated Endangered in 1980. Status re-examined and confirmed in April 1985 and in April 1990. Split into two species in May 2003. North Pacific Right Whale was not re-evaluated, but retains the Endangered status of the original Right Whale. Last assessment based on an update status report.

**Northern Abalone**

Designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Northern Bobwhite**

Designated Endangered in April 1994. Status re-examined and confirmed in November 2003. Last assessment based on an update status report.

**Northern Bottlenose Whale**

The Northern Bottlenose Whale was given a single designation of Not at Risk in April 1993. Split into two populations in April 1996 to allow a separate designation of the Northern Bottlenose Whale (Scotian Shelf population). Northern Bottlenose (Davis Strait population) was not re-evaluated, but retains the Not at Risk designation of the original Northern Bottlenose Whale, and the latter was de-activated.

**Northern Bottlenose Whale (Scotian Shelf population)**

The Northern Bottlenose Whale was given a single designation of Not at Risk in April 1993. Split into two populations in April 1996 to allow a separate designation of the Northern Bottlenose Whale (Scotian Shelf population). Scotian Shelf population designated Special Concern in April 1996. Status re-examined and designated Endangered in November 2002. Last assessment based on an existing status report with an addendum.

**Northern Cricket Frog**

Designated Endangered in April 1990. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

**Northern Goshawk *laingi* subspecies**

Designated Special Concern in April 1995. Status re-examined and designated Threatened in November 2000. Last assessment based on an update status report.

**Northern Leopard Frog (Southern Mountain population)**

Designated Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Northern Leopard Frog (Western Boreal/Prairie populations)**

Designated Special Concern in April 1998. Status re-examined and confirmed in November 2002. Last assessment based on an existing status report.

**Northern Madtom**

Species considered in April 1993 and placed in the Data Deficient category. Re-examined in April 1998 and designated Special Concern. Status re-examined and designated Endangered in November 2002. Last assessment based on an existing status report with an addendum.

**Northern Riffleshell**

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

**Nuttall's Cottontail *pinetis* subspecies**

Designated Not at Risk in 1991 and in April 1994.

**Oregon Spotted Frog**

Designated Endangered in an emergency assessment in November 1999. Status re-examined and confirmed in May 2000. Assessment based on a new status report.

**Pacific Sardine**

Designated Special Concern in April 1987. Status re-examined and designated Not at Risk in May 2002. Last assessment based on an update status report.

**Pacific Water Shrew**

Designated Threatened in April 1994. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

**Paddlefish**

Disappeared from Canada in approximately 1917. Designated Extirpated in April 1987. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Pallid Bat**

Designated Special Concern in April 1988. Status re-examined and designated Threatened in May 2000. Last assessment based on an update status report.

**Passenger Pigeon**

Believed to be Extinct since 1914. Designated in April 1985 based on historic records only. Status report prepared and approved by COSEWIC in 1994. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Peary Caribou**

The original designation considered a single unit that included Peary Caribou, *Rangifer tarandus pearyi*, and what is now known as the Dolphin and Union population of the Barren-ground Caribou, *Rangifer tarandus groenlandicus*. It was assigned a status of Threatened in April 1979. Split to allow designation of three separate populations in 1991: Banks Island (Endangered), High Arctic (Endangered) and Low Arctic (Threatened) populations. In May 2004 all three population designations were de-activated, and the Peary Caribou, *Rangifer tarandus pearyi*, was assessed separately from the Barren-ground Caribou (Dolphin and Union population), *Rangifer tarandus groenlandicus*. The subspecies pearyi is comprised of a portion of the former "Low Arctic population", and all of the former "High Arctic" and "Banks Island" populations, and it was designated Endangered in May 2004. Last assessment based on an update status report.

**Peary Caribou [original designation]**

The original designation considered a single unit that included Peary Caribou, *Rangifer tarandus pearyi*, and what is now known as the Dolphin and Union population of the Barren-ground Caribou, *Rangifer tarandus groenlandicus*. It was assigned a status of Threatened in April 1979. Split into three separate populations in April 1991: Banks Island, High Arctic and Low Arctic populations. The original designation was de-activated. In May 2004, all three population designations were de-activated, and the Peary Caribou, *Rangifer tarandus pearyi*, was assessed separately from the Barren-ground Caribou (Dolphin and Union population), *Rangifer tarandus groenlandicus*.

**Peary Caribou (Banks Island population)**

The original designation considered a single unit that included Peary Caribou, *Rangifer tarandus pearyi*, and what is now known as the Dolphin and Union population of the Barren-ground Caribou, *Rangifer tarandus groenlandicus*. It was assigned a status of Threatened in April 1979. Split to allow designation of three separate populations in 1991: Banks Island, High Arctic and Low Arctic populations. The Banks Island population was designated Endangered in April 1991. In May 2004, all three population designations were de-activated, and the Peary Caribou, *Rangifer tarandus pearyi*, was assessed separately from the Barren-ground Caribou (Dolphin and Union population), *Rangifer tarandus groenlandicus*. The former Banks Island population is contained within the subspecies pearyi.

**Peary Caribou (High Arctic population)**

The original designation considered a single unit that included Peary Caribou, *Rangifer tarandus pearyi*, and what is now known as the Dolphin and Union population of the Barren-ground Caribou, *Rangifer tarandus groenlandicus*. It was assigned a status of Threatened in April 1979. Split to allow designation of three separate populations in 1991: Banks Island, High Arctic and Low Arctic populations. The High Arctic population of the Peary Caribou was designated Endangered in April 1991. In May 2004, all three population designations were de-activated, and the Peary Caribou, *Rangifer tarandus pearyi*, was assessed separately from the Barren-ground Caribou (Dolphin and Union population), *Rangifer tarandus groenlandicus*. The former High Arctic population is contained within the subspecies *pearyi*.

**Peary Caribou (Low Arctic population)**

The original designation considered a single unit that included Peary Caribou, *Rangifer tarandus pearyi*, and what is now known as the Dolphin and Union population of the Barren-ground Caribou, *Rangifer tarandus groenlandicus*. It was assigned a status of Threatened in April 1979. Split to allow designation of three separate populations in 1991: Banks Island, High Arctic and Low Arctic populations. The Low Arctic population was designated Threatened in April 1991. In May 2004, all three population designations were de-activated, and the Peary Caribou, *Rangifer tarandus pearyi*, was assessed separately from the Barren-ground Caribou (Dolphin and Union population), *Rangifer tarandus groenlandicus*. The former Low Arctic population is contained partly within the subspecies *pearyi* and partly within the Barren-ground Caribou (Dolphin and Union population).

**Peregrine Falcon *anatum* subspecies**

Designated Endangered in April 1978. Status re-examined and designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Peregrine Falcon *pealei* subspecies**

Designated Special Concern in April 1978. Status re-examined and confirmed in April 1999 and in November 2001. Last assessment based on an existing status report.

**Peregrine Falcon *tundrius* subspecies**

Designated Threatened in April 1978. Status re-examined and designated Special Concern in April 1992.

**Phantom Orchid**

Designated Special Concern in April 1992. Status re-examined and designated Threatened in May 2000. Last assessment based on an update status report.

**Pighead Prickleback**

Designated Special Concern in April 1989. Species considered in May 2003 and placed in the Data Deficient category. Last assessment based on an update status report.

**Pigmy Short-horned Lizard (British Columbia population)**

Last reported in 1898. Designated Extirpated in April 1992. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Pink Coreopsis**

Designated Endangered in April 1984. Status re-examined and confirmed Endangered in April 1999 and in May 2000. Last assessment based on an existing status report.

**Pink Milkwort**

Designated Endangered in April 1984. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

**Piping Plover**

The species was considered a single unit and designated Threatened in April 1978. Status re-examined and designated Endangered in April 1985. In May 2001, the species was re-examined and split into two groups according to subspecies. The *melodus* subspecies and *circumcinctus* subspecies were each designated Endangered in May 2001. The original designation was de-activated.

**Piping Plover *circumcinctus* subspecies**

The species was considered a single unit and designated Threatened in April 1978. Status re-examined and designated Endangered in April 1985. In May 2001, the species was re-examined and split into two groups according to subspecies. The *circumcinctus* subspecies was designated Endangered in May 2001. Last assessment based on an update status report.

**Piping Plover *melodus* subspecies**

The species was considered a single unit and designated Threatened in April 1978. Status re-examined and designated Endangered in April 1985. In May 2001, the species was re-examined and split into two groups according to subspecies. The *melodus* subspecies was designated Endangered in May 2001. Last assessment based on an update status report.

**Pitcher's Thistle**

Designated Threatened in April 1988. Status re-examined and designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Pixie Poacher**

Species considered in April 1991 and placed in the Data Deficient category. Re-examined and designation de-activated in November 2001. Last assessment based on an update status report.

**Plains Pocket Gopher**

Designated Special Concern in April 1979. Status re-examined and designated Not at Risk in April 1998.

**Plymouth Gentian**

Designated Threatened in April 1984. Status re-examined and confirmed in April 1999 and in May 2000. Last assessment based on an existing status report.

**Polar Bear**

Designated Not at Risk in April 1986. Status re-examined and designated Special Concern in April 1991. Status re-examined and confirmed in April 1999 and in November 2002. Last assessment based on an existing status report with an addendum.

**Prairie Falcon**

Designated Not at Risk in April 1978, April 1982 and April 1996.

**Prairie Long-tailed Weasel**

Designated Threatened in April 1982. Status re-examined and designated Not at Risk in April 1993.

**Prairie Lupine**

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Prairie Skink**

Designated Special Concern in April 1989. Status re-examined and designated Endangered in May 2004. Last assessment based on an update status report.

**Prairie Warbler**

Designated Special Concern in April 1985. Status re-examined and designated Not at Risk in April 1999.

**Prothonotary Warbler**

Designated Special Concern in April 1984. Status re-examined and designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Pugnose Minnow**

Designated Special Concern in April 1985. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

**Pugnose Shiner**

Designated Special Concern in April 1985. Status re-examined and designated Endangered in November 2002. Last assessment based on an update status report.

**Purple Twayblade**

Designated Threatened in April 1989. Status re-examined and designated Endangered in April 1999. Status re-examined and confirmed in May 2001. Last assessment based on an existing status report that was modified.

**Queen Snake**

Designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Rayed Bean**

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Red Mulberry**

Designated Threatened in April 1987. Status re-examined and designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Red-legged Frog**

Designated Special Concern in April 1999. Status re-examined and confirmed in May 2002. Last assessment based on an existing status report.

**Redroot**

Designated Threatened in April 1994. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Red-shouldered Hawk**

Designated Special Concern in April 1983. Status re-examined and confirmed in April 1996.

**Right Whale**

The Right Whale was considered a single species and designated Endangered in 1980. Status re-examined and confirmed in April 1985 and in April 1990. Split into two species in May 2003 to allow a separate designation of the North Atlantic Right Whale. North Pacific Right Whale was not re-evaluated, but retains the Endangered status of the original Right Whale. The original designation was de-activated. Last assessment based on an update status report.

**Rigid Apple Moss**

Designated Threatened in April 1997. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report with an addendum.

**River Redhorse**

Designated Special Concern in April 1983. Status re-examined and confirmed in April 1987.

**Roseate Tern**

Designated Threatened in April 1986. Status re-examined and designated Endangered in April 1999. Endangered status re-examined and confirmed in October 1999. Last assessment based on an existing status report.

**Ross's Gull**

Designated Special Concern in April 1981. Status re-examined and confirmed in April 1996. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report with an addendum.

**Round-leaved Greenbrier (Great Lakes Plains population)**

Designated Threatened in April 1994. Status re-examined and confirmed in May 2001. Last assessment based on an existing status report with an addendum.

**Sage Thrasher**

Designated Endangered in April 1992. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Salish Sucker**

Designated Endangered in April 1986. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

**Savannah Sparrow *princeps* subspecies**

Designated Special Concern in April 1979. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

**Scarlet Ammannia**

Designated Endangered in April 1999. Status re-examined and confirmed in May 2001. Last assessment based on an existing status report.

**Sea Mink**

Believed Extinct since 1894. Designated Extinct in April 1986. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Sea Otter**

Designated Endangered in April 1978. Status re-examined and confirmed Endangered in April 1986. Status re-examined and designated Threatened in April 1996. Status re-examined and confirmed Threatened in May 2000. Last assessment based on an existing status report.

**Seaside Birds-foot Lotus**

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Seaside Centipede**

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Sharp-shinned Hawk**

Designated Not at Risk in April 1986 and in April 1997.

**Sharp-tailed Snake**

Designated Endangered in April 1999. Status re-examined and confirmed in October 1999. Last assessment based on an existing status report.

**Shorthead Sculpin**

Designated Threatened in April 1984. Status re-examined and confirmed Threatened in May 2001. Last assessment based on an update status report.

**Shortjaw Cisco**

Designated Threatened in April 1987. Status re-examined and confirmed in May 2003. Last assessment based on an update status report.

**Showy Goldenrod**

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Shumard Oak**

Designated Special Concern in April 1984. Status re-examined and confirmed in April 1999.

**Silver Chub**

Designated Special Concern in April 1985. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

**Silver Shiner**

Designated Special Concern in April 1983. Status re-examined and confirmed in April 1987.

**Skinner's Agalinis**

Designated Endangered in April 1988. Status re-examined and confirmed Endangered in April 1999 and in May 2000. Last assessment based on an existing status report.

**Slender Bush-clover**

Designated Endangered in April 1986. Status re-examined and confirmed Endangered in April 1999 and in May 2000. Last assessment based on an existing status report.

**Slender Mouse-ear-cress**

Designated Endangered in April 1992. Status re-examined and designated Threatened in May 2000. Last assessment based on an update status report with an addendum.

**Small White Lady's-slipper**

Designated Endangered in April 1981. Status re-examined and confirmed in April 1999 and in May 2000. Last assessment based on an existing status report.

**Small Whorled Pogonia**

Designated Endangered in April 1982. Status re-examined and confirmed in April 1998 and in May 2000. Last assessment based on an existing status report.

**Small-flowered Lipocarpa**

Designated Threatened in April 1992. Status re-examined and designated Endangered in November 2002. Last assessment based on an update status report.

**Small-flowered Sand-verbena**

Designated Threatened in April 1992. Re-examined and designated Endangered in November 2002. Last assessment based on an update status report.

**Small-mouthed Salamander**

Designated Special Concern in April 1991. Status re-examined and designated Endangered in May 2004. Last assessment based on an update status report.

**Soapweed**

Designated Special Concern in April 1985. Status re-examined and designated Threatened in May 2000. Last assessment based on an update status report.

**Sockeye Salmon (Cultus population)**

Designated Endangered in an emergency assessment in October 2002. Status re-examined and confirmed in May 2003. Assessment based on a new status report.

**Sockeye Salmon (Sakinaw population)**

Designated Endangered in an emergency assessment in October 2002. Status re-examined and confirmed in May 2003. Assessment based on a new status report.

**Southern Maidenhair Fern**

Designated Endangered in April 1984. Status re-examined and confirmed in April 1998 and in May 2000. Last assessment based on an existing status report.

**Speckled Dace**

Designated Special Concern in April 1980. Status re-examined and designated Endangered in November 2002. Last assessment based on an update status report.

**Spiny Softshell**

Designated Threatened in April 1991. Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

**Spotted Bat**

Designated Special Concern in April 1988. Status re-examined and confirmed in May 2004. Last assessment based on an update status report.

**Spotted Gar**

Designated Special Concern in April 1983. Status re-examined and confirmed in April 1994. Status re-examined and designated Threatened in November 2000. Last assessment based on an existing status report.

**Spotted Owl *caurina* subspecies**

Designated Endangered in April 1986. Status re-examined and confirmed in April 1999 and in May 2000. Last assessment based on an existing status report.

**Spotted Sucker**

Designated Special Concern in April 1983. Status re-examined and confirmed in April 1994 and in November 2001. Last assessment based on an existing status report with an addendum.

**Spotted Turtle**

Designated Special Concern in April 1991. Status re-examined and designated Endangered in May 2004. Last assessment based on an update status report.

**Spotted Wintergreen**

Designated Endangered in April 1987. Status re-examined and confirmed Endangered in April 1998 and in May 2000. Last assessment based on an existing status report.

**Sprague's Pipit**

Designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Spring Blue-eyed Mary**

No site records since 1954. Designated Extirpated in April 1987. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Spring Salamander**

Designated Special Concern in April 1999. Status re-examined and confirmed in May 2002. Last assessment based on an existing status report.

**Steller Sea Lion**

Designated Not at Risk in April 1987. Status re-examined and designated Special Concern in November 2003. Last assessment based on an update status report.

**Sweet Pepperbush**

Designated Threatened in April 1986. Status re-examined and confirmed in April 1998. Status re-examined and designated Special Concern in May 2001. Last assessment based on an existing status report that was modified.

**Swift Fox**

Last seen in Saskatchewan in 1928. Designated Extirpated in April 1978. Status re-examined and designated Endangered in April 1998 after successful re-introductions. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Thread-leaved Sundew**

Designated Endangered in April 1991. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

**Tiny Cryptanthus**

Designated Endangered in April 1998. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Toothcup**

Designated Endangered in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Townsend's Mole**

Designated Threatened in April 1996. Status re-examined and designated Endangered in May 2003. Last assessment based on an update status report.

**Trumpeter Swan**

Designated Special Concern in April 1978. Status re-examined and designated Not at Risk in April 1996.

**Tuberous Indian-plantain**

Designated Special Concern in April 1988. Status re-examined and confirmed in April 1999 and in May 2002. Last assessment based on an update status report that was modified.

**Tyrrell's Willow**

Designated Threatened in April 1981. Status re-examined and designated Not at Risk in April 1999.

**Van Brunt's Jacob's-ladder**

Designated Threatened in April 1994. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

**Vancouver Island Marmot**

Designated Endangered in April 1978. Status re-examined and confirmed Endangered in April 1997 and in May 2000. Last assessment based on an existing status report with an addendum.

**Victorin's Gentian**

Designated Special Concern in April 1987. Status re-examined and designated Threatened in May 2004. Last assessment based on an update status report.

**Victorin's Water-hemlock**

Designated Special Concern in April 1987. Status re-examined and confirmed in May 2004. Last assessment based on an update status report.

**Virginia Goat's-rue**

Designated Threatened in April 1996. Status re-examined and designated Endangered in May 2000. Last assessment based on an existing status report with an addendum.

**Warmouth**

Designated Special Concern in April 1994. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report with an addendum.

**Water-pennywort**

Designated Endangered in April 1985. Status re-examined and designated Threatened in April 1999. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Water-plantain Buttercup**

Designated Endangered in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Wavy-rayed Lampmussel**

Designated Endangered in April 1999. Status re-examined and confirmed in October 1999. Last assessment based on an existing status report.

**Western Blue-flag**

Designated Threatened in April 1990. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

**Western Prairie Fringed-orchid**

Designated Endangered in April 1993. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

**Western Screech-Owl**

The species was considered a single unit and placed in the Data Deficient category in April 1995. Re-examined in May 2002 and split into two groups according to subspecies. The *kennicottii* subspecies was designated Special Concern and the *macfarlanei* subspecies was designated Threatened in May 2002. The original designation was de-activated. Last assessment based on an update status report.

**Western Screech-Owl *kennicottii* subspecies**

Species considered in April 1995 and placed in the Data Deficient category. It was split according to subspecies in May 2002. The *kennicottii* subspecies was designated Special Concern in May 2002. Last assessment based on an update status report.

**Western Screech-Owl *macfarlanei* subspecies**

Species considered in April 1995 and placed in the Data Deficient category. It was split according to subspecies in May 2002. The *macfarlanei* subspecies was designated Endangered in May 2002. Last assessment based on an update status report.

**Western Silvery Aster**

Designated Special Concern in 1988. Status re-examined and designated Threatened in May 2000. Last assessment based on an update status report.

**Western Silvery Minnow**

Designated Special Concern in April 1997. Status re-examined and designated Threatened in November 2001. Last assessment based on an existing status report with an addendum.

**Western Spiderwort**

Designated Threatened in April 1992. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

**White Prairie Gentian**

Designated Endangered in April 1991. Status re-examined and confirmed in May 2001. Last assessment based on an update status report.

**White Sturgeon**

Designated Special Concern in April 1990. Status re-examined and designated Endangered in November 2003. Last assessment based on an update status report.

**White Wood Aster**

Designated Threatened in April 1995. Status re-examined and confirmed in November 2002. Last assessment based on an update status report.

**White-headed Woodpecker**

Designated Threatened in April 1992. Status re-examined and designated Endangered in November 2000. Last assessment based on an update status report.

**White-top Aster**

Designated Threatened in April 1996. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

**Whooping Crane**

Designated Endangered in April 1978. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

**Wild Hyacinth**

Designated Special Concern in April 1990. Re-examined and designated Threatened in May 2002. Last assessment based on an update status report.

**Willowleaf Aster**

Designated Special Concern in April 1999. Status re-examined and designated Threatened in May 2003. Last assessment based on an existing status report.

**Wolverine**

The species was considered a single unit and designated Special Concern in April 1982. Split into two populations in April 1989 (Western and Eastern populations). The original designation was de-activated.

**Wolverine (Eastern population)**

The species was considered a single unit and designated Special Concern in April 1982. Split into two populations in April 1989 (Western population and Eastern population). The Eastern population was designated Endangered in April 1989. Status re-examined and confirmed in May 2003. Last assessment based on an update status report.

**Wolverine (Western population)**

The species was considered a single unit and designated Special Concern in April 1982. Split into two populations in April 1989 (Western and Eastern populations). The Western population was designated Special Concern in April 1989. Status re-examined and confirmed in May 2003. Last assessment based on an update status report.

**Wood Bison**

Designated Endangered in April 1978. Status re-examined and designated Threatened in April 1988. Status re-examined and confirmed in May 2000. Last assessment based on an update status report.

**Woodland Caribou (Atlantic-Gaspésie population)**

Atlantic-Gaspésie population designated Threatened in April 1984. Status re-examined and designated Endangered in May 2000. Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

**Woodland Caribou (Boreal population)**

The Boreal population was designated Threatened in May 2000. This newly-defined population is comprised of a portion of the de-activated "Western population" and all of the de-activated "Labrador-Ungava population". Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

**Woodland Caribou (Labrador-Ungava population)**

Labrador-Ungava population was designated Not at Risk in April 1984. The designation of the Labrador-Ungava population was de-activated in May 2000. The former Labrador-Ungava population is contained within the Boreal population.

**Woodland Caribou (Newfoundland population)**

Newfoundland population was designated Not at Risk in April 1984. Status re-examined and confirmed in May 2000 and in May 2002. Last assessment based on an update status report.

**Woodland Caribou (Northern Mountain population)**

The Northern Mountain population was designated Not at Risk in May 2000. This population was formerly designated as part of the "Western population" (now de-activated). Status re-examined and designated Special Concern in May 2002. Last assessment based on an update status report.

**Woodland Caribou (Southern Mountain population)**

The Southern Mountain population was designated Threatened in May 2000. This population was formerly designated as part of the "Western population" (now de-activated). Status re-examined and confirmed in May 2002. Last assessment based on an update status report.

**Woodland Caribou (Western population)**

The Western population was designated Special Concern in April 1984. The designation of the Western population was de-activated in May 2000. The former Western population is contained within the following newly designated populations: Northern Mountain, Southern Mountain and Boreal.

**Woodland Vole**

Designated Special Concern in April 1998. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

**Wood-poppy**

Designated Endangered in April 1993. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report with an addendum.

**Yellow Montane Violet**

Designated Threatened in April 1995. Status re-examined and confirmed in May 2000. Last assessment based on an existing status report.

**Yellow Rail**

Designated Special Concern in April 1999. Status re-examined and confirmed in November 2001. Last assessment based on an existing status report.

**Yellow-breasted Chat *auricollis* subspecies (British Columbia population)**

The British Columbia population of the *auricollis* subspecies was designated Threatened in April 1994. Status re-examined and designated Endangered in November 2000. Last assessment based on an update status report.

**Yellow-breasted Chat *auricollis* subspecies (Prairie population)**

The Prairie population of the *auricollis* subspecies was designated Not at Risk in April 1994 and in November 2000. Last assessment based on an update status report.

**Yellow-breasted Chat *virens* subspecies**

Designated Special Concern in April 1994. Status re-examined and confirmed in November 2000. Last assessment based on an update status report.

## RECORD OF NAME CHANGES

Common and scientific names (including population names, where applicable) previously used by COSEWIC, and other synonyms.

Previous Name(s) or Synonym	Current Common Name or Scientific Name (population)
<i>Abronia micrantha</i>	<i>Tripterocalyx micranthus</i>
Acadian Whitefish	Atlantic Whitefish
<i>Acris crepitans blanchardi</i>	<i>Acris crepitans</i>
American Marten (Newfoundland population)	Newfoundland Marten
Anatum Peregrine Falcon	Peregrine Falcon <i>anatum</i> subspecies
Apple Moss	Rigid Apple Moss
<i>Ascaphus truei</i> (Pacific Coast population)	<i>Ascaphus truei</i>
<i>Ascaphus truei</i> (Southern Mountain population)	<i>Ascaphus montanus</i>
<i>Asplenium scolopendrium</i> var. <i>americanum</i>	<i>Asplenium scolopendrium</i>
<i>Aster anticostensis</i>	<i>Symphyotrichum anticostense</i>
<i>Aster curtus</i>	<i>Sericocarpus rigidus</i>
<i>Aster divaricatus</i>	<i>Eurybia divaricata</i>
<i>Aster laurentianus</i>	<i>Symphyotrichum laurentianum</i>
<i>Aster praealtus</i>	<i>Symphyotrichum praealtum</i>
<i>Aster prenanthoides</i>	<i>Symphyotrichum prenanthoides</i>
<i>Aster shortii</i>	<i>Symphyotrichum shortii</i>
<i>Aster subulatus</i> var. <i>obtusifolius</i>	<i>Symphyotrichum subulatum</i> (Bathurst population)
<i>Aster yukonensis</i>	<i>Symphyotrichum yukonense</i>
Bathurst Aster	Bathurst Aster (Bathurst population)
Beluga Whale (Beaufort Sea / Arctic Ocean population)	Beluga Whale (Eastern Beaufort Sea population)
Beluga Whale (Southeast Baffin Island-Cumberland Sound population)	Beluga Whale (Cumberland Sound population)
Beluga Whale (St. Lawrence River population)	Beluga Whale (St. Lawrence Estuary population)
Benthic Texada Island Stickleback	Benthic Paxton Lake Stickleback
Black Rat Snake	Eastern Ratsnake
Black Ratsnake	Eastern Ratsnake
Blackline Prickleback	Pighead Prickleback
Blanchard's Cricket Frog	Northern Cricket Frog
Blue-eyed Mary	Spring Blue-eyed Mary
Bowl Limpet	Eelgrass Limpet
<i>Bufo woodhousii fowleri</i>	<i>Bufo fowleri</i>
Butler's Garter Snake	Butler's Gartersnake
<i>Cacalia plantaginea</i>	<i>Arnoglossum plantagineum</i>
<i>Centrocercus urophasianus phaios</i> (British Columbia population)	<i>Centrocercus urophasianus phaios</i>
<i>Centrocercus urophasianus urophasianus</i> (Prairie population)	<i>Centrocercus urophasianus urophasianus</i>
Charlotte Unarmoured Sticklebacks	Charlotte Unarmoured Stickleback
<i>Cimicifuga elata</i>	<i>Actaea elata</i>
<i>Clemmys insculpta</i>	<i>Glyptemys insculpta</i>
<i>Clemmys marmorata</i>	<i>Actinemys marmorata</i>
Coeur d'Alène Salamander	Coeur d'Alene Salamander

# RECORD OF NAME CHANGES *continued*

Previous Name(s) or Synonym	Current Common Name or Scientific Name (population)
Common Hop-tree	Common Hoptree
Common Watersnake	Northern Watersnake
<i>Coregonus canadensis</i>	<i>Coregonus huntsmani</i>
<i>Delphinapterus leucas</i> (Beaufort Sea / Arctic Ocean population)	<i>Delphinapterus leucas</i> (Eastern Beaufort Sea population)
<i>Delphinapterus leucas</i> (Southeast Baffin Island-Cumberland Sound population)	<i>Delphinapterus leucas</i> (Cumberland Sound population)
<i>Delphinapterus leucas</i> (St. Lawrence River population)	<i>Delphinapterus leucas</i> (St. Lawrence Estuary population)
Eastern Fox Snake	Eastern Foxsnake
Eastern Grey Wolf	Eastern Wolf
Eastern Hognosed Snake	Eastern Hog-nosed Snake
Eastern Loggerhead Shrike	Loggerhead Shrike <i>migrans</i> subspecies
Eastern Massasauga	Massasauga
Eastern Massasauga Rattlesnake	Massasauga
Eastern Milksnake	Milksnake
Eastern Prairie Fringed Orchid	Eastern Prairie Fringed-orchid
Eastern Short-horned Lizard	Greater Short-horned Lizard
Eastern Spiny Softshell Turtle	Spiny Softshell
Eastern Yellow-breasted Chat	Yellow-breasted Chat <i>virens</i> subspecies
<i>Elaphe obsoleta obsoleta</i>	<i>Elaphe obsoleta</i>
<i>Elaphe vulpina gloydi</i>	<i>Elaphe gloydi</i>
<i>Elgaria coerulea principis</i>	<i>Elgaria coerulea</i>
<i>Emydoidea blandingi</i>	<i>Emydoidea blandingii</i> (Nova Scotia population)
<i>Erigeron philadelphicus</i> ssp. <i>provancheri</i>	<i>Erigeron philadelphicus</i> var. <i>provancheri</i>
Ermine (Queen Charlotte Islands population)	Ermine <i>haidarum</i> subspecies
<i>Eschrichtius robustus</i> (Northeast Pacific population)	<i>Eschrichtius robustus</i> (Eastern North Pacific population)
<i>Eumeces septentrionalis septentrionalis</i>	<i>Eumeces septentrionalis</i>
Few-flowered Club-rush	Bashful Bulrush
<i>Gasterosteus aculeatus</i>	<i>Gasterosteus</i> sp.
<i>Gentiana victorinii</i>	<i>Gentianopsis procera</i> ssp. <i>macounii</i> var. <i>victorinii</i>
<i>Gentianopsis victorinii</i>	<i>Gentianopsis procera</i> ssp. <i>macounii</i> var. <i>victorinii</i>
Goat's-rue	Virginia Goat's-rue
Great Basin Gopher Snake	Great Basin Gophersnake
Great Basin Spadefoot Toad	Great Basin Spadefoot
Greater Sandhill Crane	Sandhill Crane <i>tabida</i> subspecies
Grey Whale (Northeast Pacific population)	Grey Whale (Eastern North Pacific population)
Grey Wolf	Arctic Grey Wolf
Grey Wolf	Southern Grey Wolf
Grey Wolf	Eastern Wolf
Grey Wolf	Northern Grey Wolf
Grizzly Bear [no population name]	Grizzly Bear (Northwestern population)
<i>Gymnocladus dioica</i>	<i>Gymnocladus dioicus</i>
<i>Haplopappus macleanii</i>	<i>Stenotus borealis</i>
Harbour Seal	Harbour Seal Atlantic subspecies
Harbour Seal	Harbour Seal Pacific subspecies

# RECORD OF NAME CHANGES *continued*

Previous Name(s) or Synonym	Current Common Name or Scientific Name (population)
Harbour Seal (Lac des Loups Marins landlocked population)	Harbour Seal Lacs des Loups Marins subspecies
Hubb's Beaked Whale	Hubbs' Beaked Whale
<i>Hyperoodon ampullatus</i> (Gully population)	<i>Hyperoodon ampullatus</i> (Scotian Shelf population)
<i>Icteria virens virens</i> (Eastern population)	<i>Icteria virens virens</i>
<i>Incisalia irus</i>	<i>Callophrys [Incisalia] irus</i>
"Ipswich" Savannah Sparrow	Savannah Sparrow <i>princeps</i> subspecies
<i>Isopyrum biterdatum</i>	<i>Enemion biterdatum</i>
Killer Whale (North Pacific "resident" populations)	Killer Whale (North Pacific resident populations)
Lake Erie Water Snake	Lake Erie Watersnake
Lake Lamprey	Cowichan Lake Lamprey
Lake Simcoe Whitefish	Lake Whitefish (Lake Simcoe population)
<i>Lanius ludovicianus excubitorides</i> (Prairie population)	<i>Lanius ludovicianus excubitorides</i>
<i>Lanius ludovicianus migrans</i> (Eastern population)	<i>Lanius ludovicianus migrans</i>
Leatherback Turtle	Leatherback Seaturtle
Lilaeopsis	Eastern Lilaeopsis
Limnetic Texada Island Stickleback	Limnetic Paxton Lake Stickleback
Loggerhead Shrike (Eastern population)	Loggerhead Shrike <i>migrans</i> subspecies
Loggerhead Shrike (Prairie population)	Loggerhead Shrike <i>excubitorides</i> subspecies
Long-tailed Weasel (Prairie population)	Prairie Long-tailed Weasel
<i>Lottia alveus</i>	<i>Lottia alveus alveus</i>
Lynx	Canada Lynx
MacLean's Goldenweed	Northern Mock Goldenweed
<i>Martes americana atrata</i> (Newfoundland population)	<i>Martes americana atrata</i>
Mexican Mosquito Fern	Mexican Mosquito-fern
Mira River Whitefish	Lake Whitefish (Mira River population)
Mountain Dusky Salamander	Allegheny Mountain Dusky Salamander
<i>Mustela erminea haidarum</i> (Queen Charlotte Islands population)	<i>Mustela erminea haidarum</i>
<i>Mustela frenata longicauda</i> (Prairie population)	<i>Mustela frenata longicauda</i>
Night Snake	Nightsnake
North Sea Beaked Whale	Sowerby's Beaked Whale
Northern Bottlenose Whale	Northern Bottlenose Whale (Davis Strait population)
Northern Bottlenose Whale (Gully population)	Northern Bottlenose Whale (Scotian Shelf population)
Northern Goshawk	Northern Goshawk <i>atricapillus</i> subspecies
Northern Leopard Frog (Prairie population)	Northern Leopard Frog (Western Boreal/Prairie populations)
Northern Prairie Skink	Prairie Skink
Northern Red-legged Frog	Red-legged Frog
Northern Ribbonsnake (Atlantic population)	Eastern Ribbonsnake (Atlantic population)
Northern Ribbonsnake (Great Lakes population)	Eastern Ribbonsnake (Great Lakes population)
Northern Spotted Owl	Spotted Owl <i>caurina</i> subspecies
Northwestern Alligator Lizard	Northern Alligator Lizard
<i>Notropis rubellus</i> (Eastern population)	<i>Notropis rubellus</i>

# RECORD OF NAME CHANGES *continued*

Previous Name(s) or Synonym	Current Common Name or Scientific Name (population)
<i>Notropis rubellus</i> (Manitoba population)	<i>Notropis percobromus</i>
Nuttall's Cottontail (British Columbia population)	Nuttall's Cottontail <i>nuttallii</i> subspecies
Nuttall's Cottontail (Prairie population)	Nuttall's Cottontail <i>pinetis</i> subspecies
<i>Nyctea scandiaca</i>	<i>Bubo scandiaca</i>
<i>Oncorhynchus nerka</i> (Cultus Lake population)	<i>Oncorhynchus nerka</i> (Cultus population)
<i>Oncorhynchus nerka</i> (Sakinaw Lake population)	<i>Oncorhynchus nerka</i> (Sakinaw population)
<i>Orcinus orca</i> (North Pacific "resident" populations)	<i>Orcinus orca</i> (North Pacific resident populations)
<i>Otus asio</i>	<i>Megascops asio</i>
<i>Otus kennicottii</i>	<i>Megascops kennicottii</i>
<i>Otus kennicottii kennicottii</i>	<i>Megascops kennicottii kennicottii</i>
<i>Otus kennicottii macfarlanei</i>	<i>Megascops kennicottii macfarlanei</i>
Pacific Giant Salamander	Coastal Giant Salamander
Pacific Gopher Snake	Pacific Gophersnake
Pacific Great Blue Heron	Great Blue Heron <i>fannini</i> subspecies
<i>Panax quinquefolium</i>	<i>Panax quinquefolius</i>
Peale's Peregrine Falcon	Peregrine Falcon <i>pealei</i> subspecies
<i>Phoca vitulina mellonae</i> (Lac des Loups Marins landlocked population)	<i>Phoca vitulina mellonae</i>
<i>Phrynosoma douglassii brevirostre</i>	<i>Phrynosoma hernandesi</i>
<i>Phrynosoma douglassii douglassii</i> (British Columbia population)	<i>Phrynosoma douglasii</i> (British Columbia population)
Pink Rush	Rush Pink
Plains Spadefoot Toad	Plains Spadefoot
<i>Polemonium van-bruntiae</i>	<i>Polemonium vanbruntiae</i>
Prairie Loggerhead Shrike	Loggerhead Shrike <i>excubitorides</i> subspecies
Pygmy Short-horned Lizard (British Columbia population)	Pygmy Short-horned Lizard (British Columbia population)
Queen Charlotte Goshawk	Northern Goshawk <i>laingi</i> subspecies
<i>Rana pipiens</i> (Prairie population)	<i>Rana pipiens</i> (Western Boreal/Prairie populations)
<i>Rangifer tarandus dawsoni</i> (Queen Charlotte Islands population)	<i>Rangifer tarandus dawsoni</i>
<i>Reithrodontomys megalotis dychei</i> (Prairie population)	<i>Reithrodontomys megalotis dychei</i>
<i>Reithrodontomys megalotis megalotis</i> (British Columbia population)	<i>Reithrodontomys megalotis megalotis</i>
Ross' Gull	Ross's Gull
Rosyface Shiner (Eastern population)	Rosyface Shiner
Rosyface Shiner (Manitoba population)	Carmine Shiner
Sage Grouse (British Columbia population)	Greater Sage-Grouse <i>phaeos</i> subspecies
Sage Grouse (Prairie population)	Greater Sage-Grouse <i>urophasianus</i> subspecies
Salamander Mussel	Mudpuppy Mussel
Sand Verbena	Small-flowered Sand-verbena
Sand Verbena Moth	Sand-verbena Moth
<i>Scirpus verecundus</i>	<i>Trichophorum planifolium</i>
<i>Simpsonais ambigua</i>	<i>Simpsonaias ambigua</i>
<i>Sistrurus catenatus catenatus</i>	<i>Sistrurus catenatus</i>
Slender Woolly-heads	Slender Woolly-heads

# RECORD OF NAME CHANGES *continued*

Previous Name(s) or Synonym	Current Common Name or Scientific Name (population)
Smallmouth Salamander	Small-mouthed Salamander
Sockeye Salmon (Cultus Lake population)	Sockeye Salmon (Cultus population)
Sockeye Salmon (Sakinaw Lake population)	Sockeye Salmon (Sakinaw population)
<i>Solidago speciosa</i> var. <i>rigidiuscula</i>	<i>Solidago speciosa</i>
<i>Speotyto cunicularia</i>	<i>Athene cunicularia</i>
Spiny Softshell Turtle	Spiny Softshell
Spotted Owl	Spotted Owl <i>caurina</i> subspecies
Streaked Horned Lark	Horned Lark <i>strigata</i> subspecies
<i>Strix occidentalis</i>	<i>Strix occidentalis caurina</i>
<i>Sylvilagus nuttallii nuttallii</i> (British Columbia population)	<i>Sylvilagus nuttallii nuttallii</i>
<i>Sylvilagus nuttallii pinetis</i> (Prairie population)	<i>Sylvilagus nuttallii pinetis</i>
Tailed Frog (Pacific Coast population)	Coast Tailed Frog
Tailed Frog (Southern Mountain population)	Rocky Mountain Tailed Frog
<i>Tortula laevispila</i>	<i>Syntrichia laevispila</i>
Tundra Peregrine Falcon	Peregrine Falcon <i>tundrius</i> subspecies
Van Brunt's Jacob's Ladder	Van Brunt's Jacob's-ladder
<i>Virgulus sericeus</i>	<i>Symphyotrichum sericeum</i>
Western Harvest Mouse (British Columbia population)	Western Harvest Mouse <i>megalotis</i> subspecies
Western Harvest Mouse (Prairie population)	Western Harvest Mouse <i>dychei</i> subspecies
Western Prairie Fringed Orchid	Western Prairie Fringed-orchid
Western Silver-leaved Aster	Western Silvery Aster
Western Yellow-breasted Chat (Prairie population)	Yellow-breasted Chat <i>auricollis</i> subspecies (Prairie population)
Willow Aster	Willowleaf Aster
Woodland Caribou (Queen Charlotte Islands population)	Caribou <i>dawsoni</i> subspecies
Woodland Caribou Dawson's subspecies	Caribou <i>dawsoni</i> subspecies
Yellow-breasted Chat (British Columbia population)	Yellow-breasted Chat <i>auricollis</i> subspecies (British Columbia population)
Yellow-breasted Chat (Eastern population)	Yellow-breasted Chat <i>virens</i> subspecies
Yellow-breasted Chat (Prairie population)	Yellow-breasted Chat <i>auricollis</i> subspecies (Prairie population)

## COSEWIC

### Chair, COSEWIC

Dr. Marco Festa-Bianchet  
Département de biologie  
Université de Sherbrooke  
Sherbrooke, QC J1K 2R1

QH 77 C3 C6613 2004

MAY

c. 1

Committee on the Status...  
Canadian species at risk.

## SUBCOMMITTEES (2004)

### Aboriginal Traditional Knowledge

#### Mr. Larry Carpenter Co-Chair

Wildlife Management Advisory Council  
- Northwest Territories  
P.O. Box 2120  
Inuvik, NT X0E 0T0

#### Mr. Henry Lickers Co-Chair

Mohawk Council of Akwesasne  
Department of the Environment  
P.O. Box 579  
Cornwall, ON K6H 5T3

### Species Specialist

#### *Amphibians and Reptiles*

##### Dr. David M. Green Co-Chair

Redpath Museum  
McGill University  
859 Sherbrooke Street West  
Montréal, QC H3A 2K6

##### Dr. Ronald J. Brooks Co-Chair

Department of Zoology  
College of Biological Science  
University of Guelph  
Guelph, ON N1G 2W1

#### *Arthropods*

##### Dr. B. Theresa Fowler Co-Chair

Species at Risk Branch  
Canadian Wildlife Service  
Environment Canada  
Ottawa, ON K1A 0H3

##### Vacant Co-Chair

#### *Birds*

##### Richard Cannings Co-Chair

1330 East Debeck Road  
R.R. 1, Site 11 - Comp. 96  
Naramata, BC V0H 1N0

##### Dr. Marty L. Leonard Co-Chair

Department of Biology  
Dalhousie University  
1355 Oxford Street  
Halifax, NS B3H 4J1

#### *Freshwater Fishes*

##### Dr. Robert Campbell Co-Chair

983 Route 800 E  
R.R. #1  
St. Albert, ON K0A 3C0

##### Dr. Claude Renaud Co-Chair

Canadian Museum of Nature  
P.O. Box 3443 - Station D  
Ottawa, ON K1P 6P4

#### *Marine Fishes*

##### Dr. Richard L. Haedrich Co-Chair

Department of Biology  
Memorial University of Newfoundland  
4 Clark Place  
St. John's, NL A1B 5S7

##### Dr. Mart R. Gross Co-Chair

Department of Zoology  
University of Toronto  
25 Harbord Street  
Toronto, ON M5S 3G5

#### *Marine Mammals*

##### Dr. Hal Whitehead Co-Chair

Department of Biology  
Dalhousie University  
1355 Oxford Street  
Halifax, NS B3H 4J1

##### Dr. Andrew Trites Co-Chair

Marine Mammal Research Unit  
University of British Columbia  
Room 18, Hut B-3  
6248 Biological Sciences Road  
Vancouver, BC V6T 1Z4

#### *Molluscs*

##### Dr. Gerald L. Mackie Co-Chair

Department of Zoology  
College of Biological Science  
University of Guelph  
Guelph, ON N1G 2W1

##### Vacant Co-Chair

#### *Plants and Lichens*

##### Dr. Erich Haber

Co-Chair (Vascular Plants)  
c/o National Botanical Services  
604 Wavell Avenue  
Ottawa, ON K2A 3A8

##### Dr. René Belland

Co-Chair (Mosses and Lichens)  
Devonian Botanic Garden  
University of Alberta  
Edmonton, AB T6G 2E1

#### *Terrestrial Mammals*

Dr. Marco Festa-Bianchet  
Département de biologie  
Université de Sherbrooke  
Sherbrooke, QC J1K 2R1

##### Dr. M. Brock Fenton Co-Chair

Department of Biology  
University of Western Ontario  
London, ON N6A 5B7

**COSEWIC**

Committee on the  
Status of Endangered  
Wildlife in Canada

**COSEPAC**

Comité sur la  
situation des espèces  
en péril au Canada

The Committee on the Status of Endangered Wildlife  
in Canada (COSEWIC)  
was created in 1977 as a result of a  
recommendation at the Federal-Provincial Wildlife  
Conference held in 1976.

It arose from the need for a single, official,  
scientifically sound, national classification  
of wildlife species at risk.

In 1978, COSEWIC designated its first species and  
produced its first list of  
Canadian species at risk.

In 2002, COSEWIC celebrated 25 years of  
science-based assessment of the status of species  
at risk in Canada.

On June 5<sup>th</sup> 2003, the *Species at Risk Act* (SARA)  
was proclaimed. SARA establishes COSEWIC as an  
advisory body, ensuring that species will continue to  
be assessed under a rigorous and independent  
scientific process.
