THE FEDERAL ENVIRONMENTAL ASSESSMENT AND REVIEW PROCESS

The federal Environmental Assessment and Review Process (EARP) is used to implement the legal requirements of the EARP Guidelines Order. EARP is to be used early in planning before irrevocable decisions or actions are taken.

The Guidelines apply to all federal departments, boards or agencies that are responsible for making decisions on proposals. Parent Crown corporations are expected to make this part of their corporate policy unless this is not possible within the legislative authority of the corporation. This also applies to agencies that deal with regulation of certain activities unless this would cause a duplication of procedures or unless legislation does not permit their decisions to be based on environmental factors.

EARP applies to proposals:

- that are to be undertaken directly by the government
- to which the government makes a financial commitment
- that are located on federally administered land, including offshore
- that may have an environmental effect on an area of federal responsibility.

The process consists of two phases:

• **Initial Assessment:** Each department is responsible for an initial assessment of each proposal for which it is a decision maker. The results of the initial assessment help determine the potential environmental and directly related social implications of proposals for which the government has a decision making responsibility.

• **Public Review:** If it is determined that the potential adverse environmental effects are significant, or there is sufficient public concern, the proposal must be referred to the Minister of the Environment for public review by an independent panel. A proposal may also be automatically referred to the Minister of the Environment for a public review as a type that potentially could produce significant environmental effects.

The Federal Environmental Assessment Review Office (FEARO) administers EARP for the Minister of the Environment.

This Bulletin is published quarterly by FEARO. It presents, in summary form, decisions arising from initial assessments of proposals, as submitted to FEARO by the departments and agencies that have conducted those assessments.

INITIAL ASSESSMENT

An initial assessment is conducted when a department intends to undertake any proposal of its own, or when it has the authority to make a decision about a proposal of another organization that:

- might have an effect on federal Government responsibility
- would require federal Government financial commitment, or
- would be undertaken on lands administered by the federal Government, including those offshore.

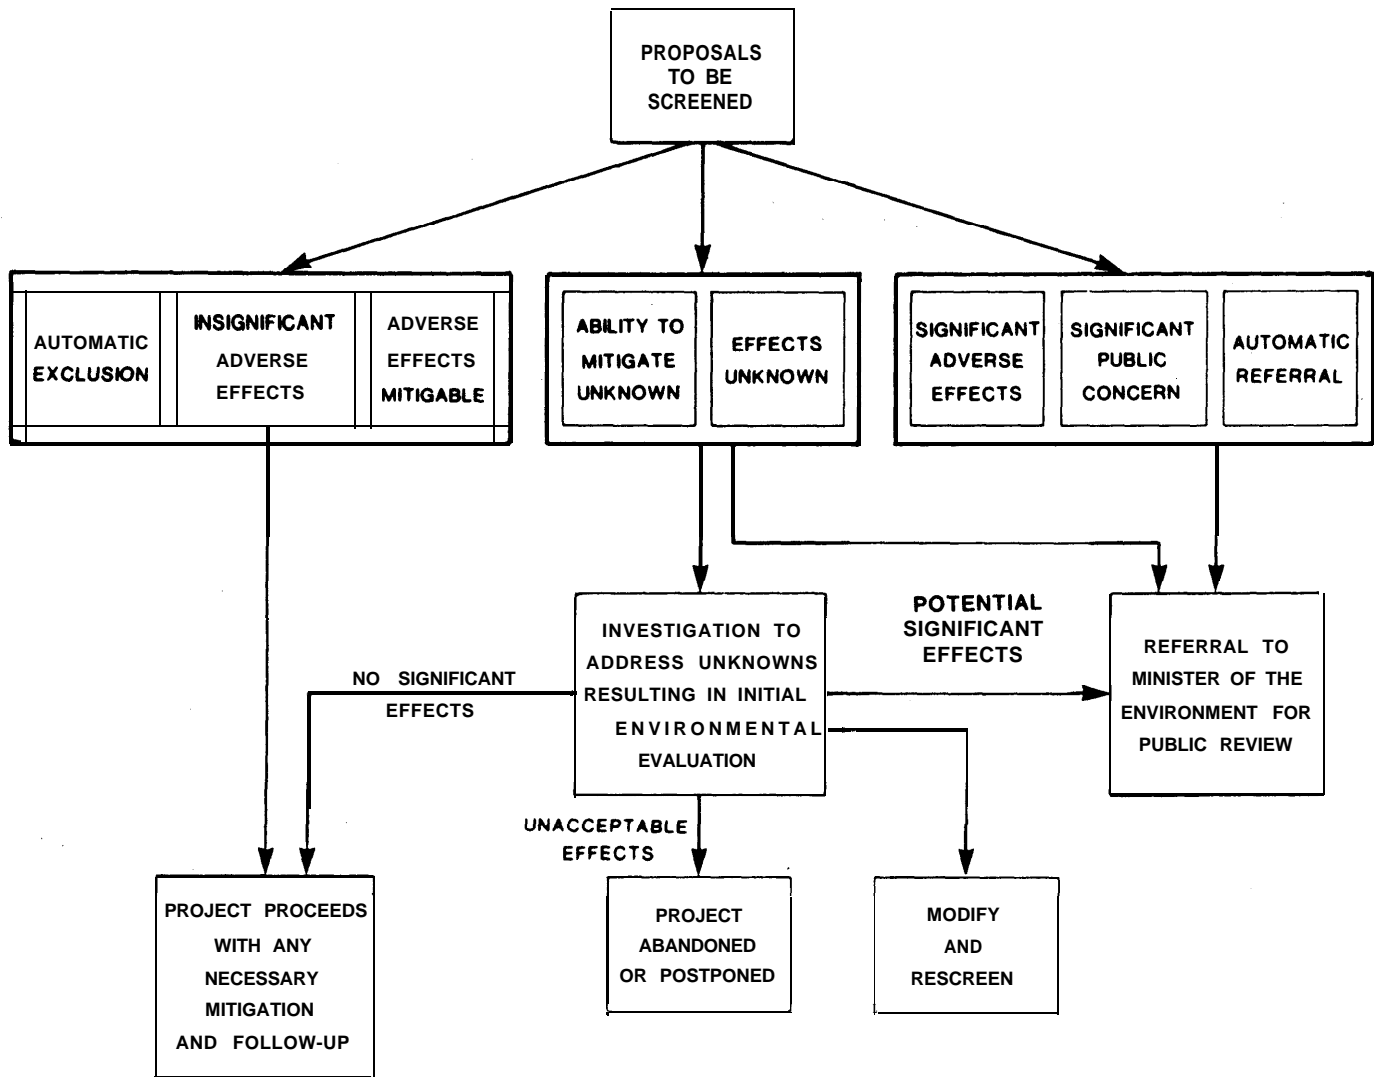

Initial assessment starts with a screening procedure by a department to determine the potential environmental and directly related social effects of a proposal; that is, effects that could bring adverse changes to the natural environment, and effects that these changes could have on people. Screening may lead to additional study that results in a detailed document called an Initial Environmental Evaluation (IEE). This document is described in more detail on page 4 of the *Initial Assessment Guide* published by FEARO. Its place in initial assessment can be seen in the diagram on page 8 of this Bulletin, which is taken from the Guide.

As a result of the initial assessment, a department makes a decision about the environmental significance of a proposal. In this Bulletin, each proposal listed has been assigned a number indicating what decision was taken. The codes are explained on the page immediately preceding the listings. Eight decisions in that list are the same as those described on page 5 of the *Initial Assessment Guide*. There are two additional numbers: 0 – to indicate that initial assessment of the proposal has started but no decision has been taken; and 10 – to indicate that the proposal is to be carried out in another country under the auspices of the Canadian International Development Agency and although an environmental impact statement may be produced, there may be no public review by an independent panel.

Two of the decisions may be made immediately: automatic exclusion from study or automatic referral to the Minister of the Environment for a public review by an independent panel. Excluded proposals are those that would not produce any adverse environmental effects, such as routine maintenance. Automatic referrals are made for proposals that potentially could produce significant adverse environmental effects.

The list of decisions is a summary meant to identify, in a few key words, proposals that have entered the process. It is not intended to provide a complete description nor be the sole source for information about such proposals. More detail about any proposal, as well as lists of automatic exclusions and automatic referrals, is retained by the department concerned. Requests for additional information – available in either official language – should be made first of all to the appropriate department contact listed at the end of this Bulletin, rather than to FEARO.

Initial Assessment

KEY TO DECISION DESCRIPTIONS

Proposed projects are listed alphabetically by province or territory and by location. Interprovincial and offshore projects are listed under 'CANADA,' and international projects under the designation "INTERNATIONAL."

The project is described in a few key words. The federal government, board, agency or corporation responsible for the project is listed (see list of departmental abbreviations below). Initial assessment decisions are listed in the final column, by number code 0 to 10. See the next page for details on the Decisions Code.

BRITISH COLUMBIA			
Abbotsford	Clear Airside Land	TC	0
A	A	A	A
Location	Project description	Department	Decision

Departmental Abbreviations

Names of federal departments, boards, agencies and corporations are abbreviated as follows:

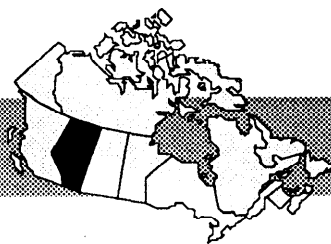

AECB	Atomic Energy Control Board	HC	Harbourfront Corporation
AGR	Agriculture Canada	HWC	Health and Welfare Canada
CBDC	Cape Breton Development Corporation	INAC	Indian and Northern Affairs Canada
CIDA	Canadian International Development Agency	NCC	National Capital Commission
CSIS	Canadian Security Intelligence Service	ND	Department of National Defence
EC	Environment Canada	NTA	National Transportation Agency of Canada
EMR	Energy, Mines and Resources Canada	PWC	Public Works Canada
F&O	Fisheries and Oceans	RCMP	Royal Canadian Mounted Police
FORD (Q)	Federal Office of Regional Development (Quebec)	TC	Transport Canada
		WD	Western Economic Diversification Canada

DECISION CODES

Initial assessment decisions are listed as numbers from 0 to 10. Those projects qualifying for automatic exclusion from further study, Code 1, are not listed in this Bulletin, but information about them may be obtained from departments.

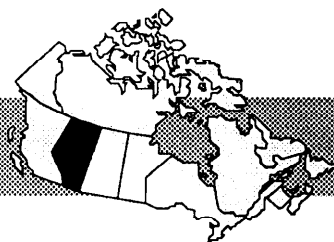

- 0** Initial assessment starting; no decision yet.
- 1** Automatically exclude proposal from study as a type that would not produce any adverse environmental effects (NOT listed in this Register).
- 2** Proceed with proposal because there are no significant adverse effects.
- 3** Proceed with proposal because the potentially adverse impacts may be mitigated with known technology.
- 4** Assess the proposal in greater detail (Initial Environmental Evaluation — IEE) because the adverse effects that might be caused by the proposal are unknown.
- 5** Give the proposal further study (IEE) because the ability to mitigate adverse effects is unknown.
- 6** Refer the proposal to the Minister of the Environment for a public review by a panel because the potential adverse impacts are significant.
- 7** Refer the proposal to the Minister of the Environment for a public review because public concern about it is such that a review is desirable.
- 8** Automatically refer the proposal to the Minister of the Environment for a public review as a type that potentially could produce significant environmental effects.
- 9** Either modify the proposal and rescreen it or abandon it because the impacts are unacceptable.
- 10** Production of an Environmental Impact Statement at request of the Canadian International Development Agency (CIDA) because potential adverse impacts are significant.

ALBERTA

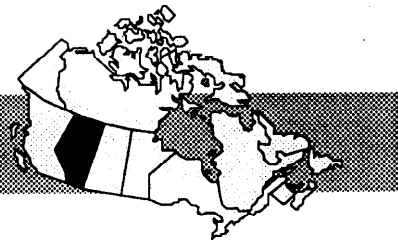

Alexander	Expansion of health centre	HWC	2
Alexis #133	1 new unit (trailer), renovations to 69 units	INAC-2	2
Alix	Relocate a grade crossing	NTA	2
Athabaska	Approve a grade crossing	NTA	3
Athabaska	Reconstruct a grade crossing	NTA	3
Badlands MD	Construct a grade crossing	NTA	2
Banff	Museum renovation/addition	WD	2
Beaver Lake	Demolition of 2 existing units, replaced by 2 new ones	INAC-2	2
Bonnyville MD	Relocate a grade crossing	NTA	2
Bowden	Relocate a grade crossing	NTA	2
Boyer River and Child Lake	Construct 4 INAC houses — 13 housing renovations	INAC-2	2
Calgary	Construct a grade separation-overhead	NTA	2
Calgary	Construct a pedestrian-grade crossing	NTA	2
Calgary	Construct a pedestrian-grade crossing	NTA	2
Calgary	Develop and commercialize software package	WD	2
Calgary	Diversify and export software service product	WD	2
Calgary	Manufacture flexible membrane tank liners	WD	2
Calgary	Quality assurance project (coating metal products)	WD	2
Calgary	Sarcee range clearance	ND	3
Calgary	Widen a grade crossing	NTA	2
Camrose	Widen a grade crossing	NTA	2
Carmangay	Production of scotch spearmint oil	WD	2
Cochrane	Construct a grade crossing	NTA	2
Cold I.R. #149, 149A, 149B	Renovate 25 older homes, construct 1 new unit, purchase and install 1 new trailer	INAC-2	2
Cold Lake	Installation of a weather radar facility	ND	3
County Road	Construct a grade crossing	NTA	2
Dene Tha'	RCMP building construction	INAC-2	3
Driftpile	Construction of residence	HWC	2
Driftpile	Expansion of health centre	HWC	2
Duncan	Construction of health station	HWC	2

ALBERTA

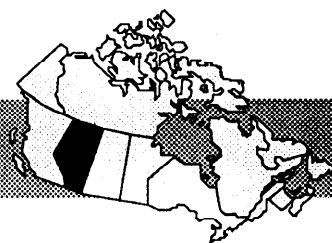

Eden Valley	Feasibility study for K4-grade 6	INAC-2	2
Edgerton	Reconstruct a grade crossing	NTA	2
Edmonton	Agriculture chemical analysis by liquid chromatography	WD	2
Edmonton	Construction/export of North Sea cranes	WD	2
Edmonton	Develop/produce masonry units	W D	2
Edmonton	Environment Canada twin atria lab construction	PWC-1	0
Edmonton	Export market viability of food product	WD	2
Edmonton	Manufacture of masonry connectors	WD	2
Edmonton	Reconstruct a grade separation-overhead	NTA	2
Edmonton	Rejuvenation/recycling of colour photo fixative	WD	2
Edmonton	Set up computerized system to manufacture oilfield products	WD	2
Edmonton	Upgrade quality of petrochemical complexes	WD	2
Edmonton	Upgrade/develop quality control program (training manual)	WD	2
Ermineskin Reserve	Construct 10 new housing units	INAC-2	2
Ermineskin Reserve	Construct a 17-lot subdivision in Ermineskin townsite state II	INAC-2	2
Ermineskin Reserve	Construct phase II of the school	INAC-2	2
Ermineskin Reserve	Expansion of existing lagoon	I NAC-2	3
Ermineskin Reserve	Feasibility study	INAC-2	2
Foremost	Realign a grade crossing	NTA	2
Fort Chipewyan	Construction of residence	HWC	2
Fort Chipewyan	Demolition, site restoration 2 teacherages	INAC-2	3
Fort MacKay	14-lot subdivision, water, sanitary sewer, road and driveways and lot grading	INAC-2	2
Fort MacKay	Supply and install 3 trailers	I NAC-2	2
Fort McMurray	Athabasca borehole mining test program	EMR	2
Fort McMurray	Former NTCL lands disposal action	PWC-1	3
Frog Lake	Construction of garage	HWC	2
Grande Prairie	Commercialize feller-processor equipment	WD	2

Hay Lakes	Construction of residence	HWC	2
Hay Lakes	Nursing station renovation	HWC	2
Hay River I.R. #209	Construction of multi-purpose building	INAC-2	2
Heart Lake .R. #469	Concrete vehicle pad, concrete sidewalk garage pad	INAC-2	2
Heart Lake .R. #469	Design of a community hall	INAC-2	2
Heart Lake I.R. #469	Windows in multiplex central air system required minor repairs in several areas	INAC-2	2
Innisfail	Construct a pedestrian-grade crossing	NTA	2
Irvine	Relocate a grade crossing	NTA	2
Janvier	Construction of 3 CMHC units	NAC-2	2
Janvier	Supply and install 3 trailers	NAC-2	3
Jean D'or/Fox Lake	Funding for construction houses, trailers	NAC-2	2
Kneehill MD	Construct a grade crossing	NTA	2

Lac La Biche	Construct a grade crossing	NTA	3
Lacombe #14	Reconstruct a grade crossing	NTA	2
Lacombe County	Realign a grade crossing	NTA	2
Little Red River	Church construction	INAC-2	3
Little Red River	Church construction	INAC-2	3
Loon River Cree Band	Purchase and install 3 mobile homes	INAC-2	3
Louis Bull	Construct 5 new housing units	INAC-2	2
Lubicon Lake	Conduct a groundwater exploration	INAC-2	3
Lubicon Lake	Undertake a groundwater exploration	INAC-2	3
Lubicon Lake Reserve	Undertake band capital plan in preparation for land claim settlement	INAC-2	2
Manola	Reconstruct a railway crossing	NTA	2
Medicine Lodge	Reconstruct a grade crossing	NTA	2
Minburn 27 County	Realign a grade crossing	NTA	2
Montana Reserve	Purchase and install, including water and sewer services	INAC-2	2
Mountain View County	Construct a grade crossing	NTA	2
Nampa	Construct a grade crossing	NTA	2
NE-31 -85-21 -W5/ NW-7-85-21 -W5	Webberville rural water co-op group pipeline	AGR-1	0
NE-31 -85-21 -W5/ NW-7-85-21 -W5	Webberville rural water co-op group pipeline	AGR-1	3
O'Chiese Reserve	Purchase and set up 2 used mobile homes, renovate 18 non-CMHC existing housing units	INAC-2	2
O'Chiese Reserve	Repairs to existing band office/public works, feasibility study.	INAC-2	2
Paul Band	Expansion of health centre	HWC	2
Peace River	Construct a grade crossing	NTA	2
Peigan Reserve	Construct 15 CMHC housing units	INAC-2	2
Pigeon Lake	Construction of health centre	HWC	2
Provost	Bodo horizontal well steamflood project	EMR	2

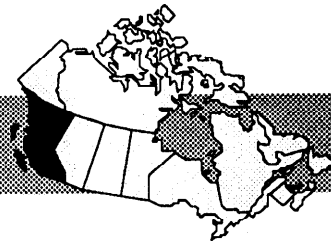

Red Deer	Retroactive approval of a grade separation-overhead	NTA	2
Saddle Lake	Develop next pit, close up old pit, provide fencing and access to pit to clean up 2 old dumpsites	INAC-2	3
Saddle Lake	Install direct connection from lake transmission line to town distribution system	I NAC-2	2
Saddle Lake	Purchase and installation of playground	INAC-2	3
Saddle Lake	Saddle Lake/Alberta transport agreement	INAC-2	3
Samson Reserve	Construct 20 new housing units	INAC-2	2
Sarcee Reserve	Provide new garbage disposal units to replace existing units	INAC-2	3
Sawridge #454	Property transfer assessment	INAC-2	3
St. Albert	Develop new software technology product	WD	2
Starland	Reconstruct a grade crossing	NTA	2
Stoney	Return of Morley Station grounds	INAC-2	2
Strathcona	Produce/market recycled plastic blast media	WD	2
Strathcona	Quality assurance project (plastic blast media)	WD	2
Strathcona	Relocate a grade crossing	NTA	2
Strathcona County	Realign a grade crossing	NTA	2
Suffield	Biochemical detector program field test	ND	3
Suffield	Land acquisition for water wells	ND	3
Sunchild O'Chiese	Expansion of health centre	HWC	2
Sunchild Reserve	Construct 14 new housing units	INAC-2	2
Sunchild Reserve	Install synthetic membrane liner in existing sewage lagoon	INAC-2	3
Sundre	Fire proof additive for oil/gas industry	WD	2
Tall Cree	Construction of health centre	HWC	2
Tangent Hamlet	Widen a grade crossing	NTA	2
Tssu T'Ina #145	2400 m ² school to replace existing portable classrooms	INAC-2	3
Utikuma	Paraffin chemicals pilot well	EMR	2
Wabasca #166A	Purchase, install, service, furnish a trailer to be used as a residence	INAC-2	3
