

Aviation Weather Observing Bulletin

AVOBS 1-2015

ISSN: 2291-2908

Effective date: December 31, 2014

Monthly Climate Form 63-2320

With the implementation of the HWOS (Human Weather Observation System) at staffed sites, the Meteorological Service of Canada has reviewed the process and requirement of this data and it has been determined that the data can now be retrieved through another method. Therefore, as of December 31, 2014 this form will not be required to be completed.

It is required for all stations to file all completed prior Monthly Climate Forms as per their previous method of delivery. Any spare Climate Forms can be sent in as well.

This aviation weather observing bulletin is a publication of the Meteorological Service of Canada, Monitoring and Data Services Directorate, Surface Weather and Aviation Networks. Comments or suggestions for content should be addressed to: Scott McCormick, Head, National Aviation Monitoring Section, 4905 Dufferin Street, Downsview, Ontario M3H 5T4.
