

# DIGITAL CITIZENSHIP

## How to help your child respect property rights online

### What's happening online?

The availability of unauthorized, copyrighted content makes **illegal downloading**, **digital cheating**, and **plagiarizing** easy

**46% of teens** say **downloading** music, TV shows, or movies **illegally** is “**no big deal**”

### What can parents do?

1. **Learn** together what content is safe to access or download
2. **Talk** about consequences, such as copyright infringements or downloading malware
3. **Make** sure that content you download or stream (such as music or movies) is coming from an official source that respects copyright laws
4. **Teach** them to be respectful and responsible when sharing someone else's images or content
