

# DIGITAL CITIZENSHIP

## How to keep your child from oversharing online

### What's happening online?

By 16–17, **50% of teens** have **publicly** posted their **personal contact information** online

**65% of teens** have **never** had a **privacy policy** or **terms of use agreement** explained to them

### What can parents do?

1. **Talk** about the importance of checking permissions and privacy settings on social media to control who can see their personal information
2. **Teach** them to get consent before sharing someone's posts, photos, or other content
3. **Show** them how to set a strong password, and tell them to not share it with friends
